Tuskegee Inst., Ala., Jan. 4 (By the Associated Negro Press)—The Tuskegee girls' basketball team which began practice on November 1st, gives promise of being one of the strongest floor teams that Coach Roberts has ever developed. Among her players who are familiar with the game are Fidelia Adams, captain; Dorothy D. Gordon, guard; Hattie Lindsay, forward; Bessie McCullough, forward; Rosa Tadlock, guard; Velma Lee, guard; Dorothy Doyle, center; Amelia Platt, center; Elmora Phillips, guard; and Ruth Hill, forward.

Among the new girls who give promise of developing into valuable players are: Elaine Burch, forward; of Little Rock, Arkansas. Miss Burch is a fast floor girl, a good passer and an excellent shot at the basket. Theresa Adams, guard, sister of Phillip Adams, captain, and Charles P. Adams, guard on the Crimson Tiger football team, shows exceptionally good form. Elizabeth Phillips, forward of Brunswick, Georgia; Esther Barten, forward, Warren Adams; Marie Clark, Hattan Clark, Catharine Roberts, Bernice Brooks, Camille Ferry, Hattie Farrar, Lucile Scott, and Elmer Hemingbourg are others on the team who are developing steadily.

The Tuskegee sextette shows promise of a splendid combination. Since practice began the team has shown steadily improvement and nothing less than a good showing is expected.

The schedule calls for games with the Columbus, Georgia, Y. M. C. A., Clark University, Talladega College, and Calhoun Colored School of Calhoun, Alabama.

Assisting Mrs. Roberts with the Tuskegee team is Miss Karlena Galloway, of Indianapolis, Indiana.

Just Bits of Life As Seen by You and Me

By: Dorothy Jean Armstrong

It was twilight, and the day was nearly done. Soon the stars each appeared upon their silvery thrones to rule the night. I listened for the sound of the birds or the voice of some small child. I heard neither. Darkness hovered over the land, and all was quiet, and still. The birds had hushed their singing, and had flown to their nests in the tree tops. The small children had ceased to play, and gone home to their mothers. I was alone in the garden.

I wondered through the garden amid the roses, and the violets until I found a marble seat placed there by the hands of God, beneath the statue of Peter Pan. The sweet summer breeze brought back to me a thousand memories and a thousand fragrant scents. I lifted my eyes upward toward the heavens, and thanked the God who gave to the roses, the violets, and the garden. I heard the sound of clear sparkling water in a nearby fountain. I drank in the beauty of the night, and feasted my soul upon its fragrance.

How long I lingered there in the garden of blissful memories I know no. Suddenly as if from out of the depths of the sea, I heard the sound of sweet music. The music was strange, restless, and pleading. It would linger for a moment and then it seemed to lead me on through the valleys and over hills and then it held me there, entranced by its beauty and strangeness.

Only those blessed with the opportunity of hearing the old Negro songs, and spirituals can express their irresistible charm. God alone knows how old these songs are, or from what distant source they sprang. These pleading, and restless songs of our forefathers.

The young Negro of this busy age, does not take time to appreciate their rare gift handed down to us from our fore parents who suffered and toiled much.

They expressed their hardships, their burdens, their weariness, their restlessness, in song and gave to the world their last precious gift, to remind us lest we forget.

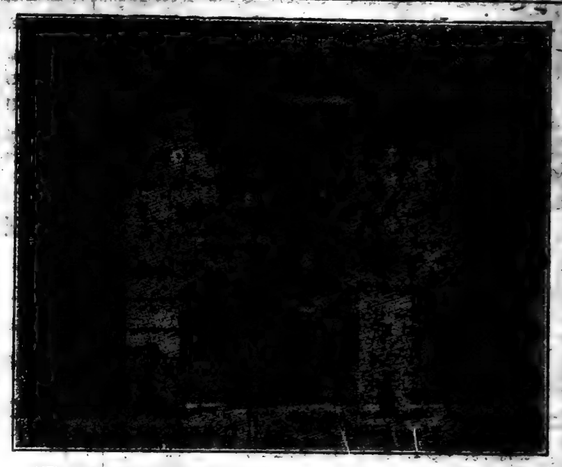
New Year Greetings From Lafayette

The classes for adults are beginning again after the holidays. The party at the close of school in December was a great success. Nine members of the Vocational Cooking Class received certificates for the completion of the first part of the work in that course. Twenty hours of attendance are required for the issuing of certificates for each part of the work. The class in Vocational Cooking Part II, begins on Tuesday of this week. Anyone may enter now and receive a certificate for this part if the work done is satisfactory whether a certificate for Part I was received or not. The Thursday class is very full because on that day many who are out to service are able to come but there is plenty of room in the Tuesday class. If we continue to have as large classes on Thursday, we may divide the class and have two sections on that day. For the present, our schedule follows:



LaFayette Junior High School

YOU SELDOM SEE MR FUERTADO

And a good reason why, for he is the man behind the gun. If a man in business can do the most important part of his business himself, well and good for he will invariably take the necessary pains to produce what will pleased his customers best. This Mr. Fuertado does by keeping behind the scenes, back in the own room at his bakery at 2519 Central Ave., turning out the wonderful bread, rolls, etc., while out in front quick, neat, courteous waitresses serve in the clean, white, well-arranged bake-shop-cafe and soda drink emporium, so well arranged and combined in one. You find fresh yourself with the odor of the well cooked meal and carry home your bread or cake without having to go farther.

AWARDS

Achievements of Negroes in nearly all fields of activity are rewarded yearly by three separate organiztions, each of which is filling a need in America and the civilized world. First and foremost is the Spingarn Medal, awarded to an American of African descent for the most distinguished achievement during the current year or over an accumulation of years. Then comes the Amy Spingarn Prizes in literature and art, awarded each year through The Crisis Magazine. The Spingarn Medal and the Amy Spingarn Prizes grew out of the National Association for the Advancement of Colored People.

Covering practically the same field as the Amy Spingarn Prizes, the Opportunity Magazine, published by the National Urban League, a little over two years ag announced that awards wuld be made each year, and finally comes the Harmon Awards, which embrace all of the fields covered by the two previously mentioned awards, and more, and which on January 1, 1927, will have their 1st presentation. The Harmon Awards are made thru the Commission on Church and Race Relations of the Federal Council of the Churches of Christ in America. Fine Arts, science, education, literature, industry, religion, music and race relations are the fields covered by the last named awards.

All these awards should have a stimulating effect on the Negro race, and spur it on to heights hitherto considered out of its grasp. Already they have shown that in attempting to stamp the Negro as a "hewer of water", a virgin field of creative ability is being trampled under foot.

Negro Advancement Association Logs Increase To Senate's Failure To Act.

New York, Dec. 28.—The National Association for the Advancement of Colored People, 69 Fifth Avenue, reports 23 recorded lynchings in the United States for the year as against 17 recorded in 1925. Two of the victims were white, one was a Navajo Indian and among the victims were two colored women, one of them lynched at Aiken, South Carolina, and one near Houston, Texas.

One of the mob victims had been ordered acquitted by the presiding judge at his trial, one in Texas was shot by white officers while manacled, one was accused of house-breaking, and among the alleged offenses of the victims were: entering the room of a white woman; murder; and three Negroes were killed in Texas in revenge for a crime with which they had no direct connection.

A statement issued by James Weldon Johnson, Secretary of the National Association for the Advancement of Colored People, lays the increase in lynchings to the failure of the United States Senate to take action on a federal anti-lynching bill. Mr. Johnson's statement says:

"There is one excellent and reasonable explanation of the increase from 18 lynchings in 1925 to 33 in 1926. While there was threat of a federal law, with consequent jurisdiction of federal courts over this crime, the lynchers hesitated. When the United States Senate refused even to discuss the Dyer Anti-Lynching Bill, that was equivalent to serving notice on the lynchers that they could pursue their pastime virtually unmolested.

"So far, only one lynching, and that one in Georgia, has been visited by punishement at the hands of the law. The United States refuses to discuss the Dyer Anti-Lynching Bill, because of the obstructionist tactics of a small group of Senators from the lynching States."

CELEBRATE THIRTIETH WEDDING ANNIVERSARY

In the receiving line with the hostess were Mesdames J. M. Edwards, L. DeLavallade, Alfred Rivers, Constance Garland and Miss Lilias G. Hart.

South Carolina In New Outrage

Arkansas Traveller Talks On Southern Transportation

NEGRO SENTENCED TO LIFE IN JAIL FOR DEFENDING HIS DAUGHTERS

New York, Dec. 31.—The National Association for the Advancement of Colored People, 69 Fifth Avenue, today made public details of a new outrage in the State of South Carolina which recently stirred the country with the lynching of a colored woman and two men at Aiken. The present case on which the N. A. A. C. P. has been working since September, concerns Jim Davis, a colored tenant farmer, 52 year old, living in Fairfield County, S. C., who shot and killed a white man, notorious for his shooting of Negroes, who had come to take the colored man's two young daughters.

L. G. Southard, white attorney of Spartanburg, who helped to defend the Lowman family in Aiken, on September 27, conferred on the case in the N. A. A. C. P. National Office and is appealing the conviction of the colored farmer.

The N. A. A. C. P. on Oct. 1, 1926, sent its check for $250 to cover the printing of the record and the other necessary costs incident to the appeal. Mr. Southard telegraphs the appeals will be argued January 10, 1927. The facts in the case, as recited in the appeal to the State Supreme Court are as follows:

Jim Davis had never before been in trouble of any kind. He had two youthful daughters who had been clandestinely taken from his home, with another girl, by three Negro boys who kept the girls in Columbia and then Greenwood, returning them after some days to their home. The father received the girls on the statement of the boys that they were married, and that marriage licenses would be shown him.

The boys were working in a nearby road camp gang constructing a public highway. A week later, the two boys planned to remove the girls when the road camp broke up and the boys were overheard asking a white man, J. Austin Scott, the road camp boss, if he would help them as he had promised. One of the boys, it was reported to Jim Davis, exclaimed: "We will get our girls in the morning or raise hell and have a damned war at Jim Davis' house."

Informed of this, Jim Davis refused to let the girls go. He informed the boys they could talk to the girls from outside the house but he would not let them enter his house again, as no marriage license had been shown him and he did not propose to let his girls go to live in a road camp.

At this time Jim Davis' white landlord, G. E. Martin, passed in the road, and Jim Davis ran down to appeal to him for aid in persuading the white man, Scott, not to aid the boys. The boys returned to the road camp and told Scott they could not get the girls. Scott then said he would get them. Scott took up a 38 calibre pistol, made sure it had 4 cartridges in it and on being told there were no more cartridges said: "This is enough to bring two or three back." He got in a truck with the colored boys and started for Jim Davis' house. Mr. and Martin tried to dissuade Scott but found it useless.

The Jim Davis house was 637 feet back from the road. The truck carrying Scott and the two colored boys approached and turned into the private road. Jim Davis stood in his doorway, shotgun in hand. He warned the invaders not to enter his place. The colored boys stopped but the white man, Scott, continued, opening the gate that led to Jim Davis' house, less than 17 feet from the front door. At this point Davis fired, killing the white man.

The record shows, according to the attorney, Mr. Southard, that Scott had killed two Negroes, that he had been in a shooting scrape in which the sheriff of the County had been killed.

Motion for change of venue for Jim Davis was denied, although feeling against him was tense and he was hunted for several days by bands of armed men sworn to kill him on sight. The appeal to the State Supreme Court recites that not a single member of the Winnsboro bar dared de-

SIDNEY P. DONES FORGING AHEAD

A new mark has been made recently for local realty men by Sidney P. Dones, leading broker at 1720 Central Ave. The following deals have been fully consummated through his office during 1927. Mr. and Mrs. Morris, Armstrong, parents of Miss Dorothy Armstrong, a beautiful 6 room bungalow on E. 42nd. St. Five new 5 room bungalows, as follows; Mr. Ned Edmonds, 10330 Weigand Ave. Mrs. Hattie Johnson, 10336 Weigand Ave.

SIDNEY P. DONES

Mrs. Elnora Wright McClain, 10348 Weigand Ave., Mrs. Elnora Wright, Mrs. McClains mother, 10348 Weigand Ave.

Mr. Carter, popular insurance man, connected with the Golden State Insurance Company and Mrs. Marie Carter his wife purchased a five room home at 1260 E. 54th. St. Mr. K. C. Venerable assisted with this deal.

Mr. and Mrs. Maupins of 1645 W. 35th. Place a beautiful 7 room house on E. 28th. St.

Aside from his growing realty business, Mr. Dones is branch manager of the Citizens Title Co. and has exclusive charge of the affairs of Eureka Villa. Of the future outlook for Los Angeles as far as our group is concerned, Mr. Dones thinks that this is the time to buy real estate, he says that there are better bargains better districts, easier terms than we will ever see again. Beautiful homes can be bought at almost your own price and on your own terms. No man who has a desire to own a home should pay rent in Los Angeles. Our only hope for the future is to buy homes. Buy anywhere, in every district that we can buy. Demand a bargain when you buy. But by all means BUY A HOME NOW.

IN NEW YORK

BY: C. A. B.

Dear readers of the California Eagle, because of our long silence you no doubt think that our affection has been alenated, but oh, no! We could not so soon forget the California Eagle, and the good people of Los Angeles—we never cease to love the persons and things we have labored and suffered for—so Los Angeles and the California Eagle lies nearest and dearest in our heart just now.

New York is truly the world's greatest metropolis, and the thing that makes it doubly interesting to us is the fact that here we have a wheel in a wheel for this is the only city in the world that has a metropolis within a metropolis, and that is to say that Harlem is in the heart of New York City and hence a part of the political, social and financial machinery of this great commonwealth, yet is considered a separate community with its community problems.

We are not attempting to give our findings on Harlem just now; for we propose to give you a most careful survey of that section, but just now we are gathering facts which we hope to compile and send to you in a weekly letter.

Yes, we are going to strive to give you facts, good and bad, alike.

The New Year

We are indeed glad, even at this distance to express our sincere gratitude to our readers and supporters for their constant patronage.

Our one aim is, has been and always will be, to give you a newspaper that is worth reading, and our three months' study, thus far, of journalism at Columbia University is certainly broadening our vision and lengthening our scope and we hope to return to you renewed in mind and body to do a bigger and better work.

We believe that it is possible for the Negro people of California to develop something better than New York's Harlem, and the message we broadcast to you over the mental, spiritual radio at this time is, to forget petty prejudices; religious, sectional and political differences, and remember only that we have a common cause.

GLARING FACTS

29 were lynched in U. S. last year, two women being among the victims.

Records show an increase of 13 over 1925, in 33 other cases officials prevented outlaw executions.

Of the twenty-nine persons lynched there were twenty-two Negroes, six whites and one Indian. Five or less than 17 per cent of those put to death were charged with rape, or attempted rape.

The offenses chrged were: murder, 8; rape, 2; attempted rape, 3; killing officers of the law, 5; wounding officer of the law, 2; attacking woman, 1; insulting woman, 1; frightening woman, 1; burglary, 1; Charges not reported, 5.

The States participating in 1926 lynchings are as follows: Texas, 7; Florida, 8; Mississippi, 4; So. Carolina, 3; Arkansas, 2; Kentucky, 1; Kentucky, 1; New Mexico, 1; Tennessee, 1; Virginia, 1.

When the Negro people in the United States cease to accept political, social and religious favors that tend to compromise them, and stand up so united as to represent oneness in strength, and demand that lynching be stopped we believe that this institution with its blots on American civilization will cease to exist.

THE N. A. A. C. P. AND THE WORK FOR 1927

By: WILLIS O. TYLER

1927 A. D. begins its hurried march toward eternity with those of our group who live in Los Angeles, fighting for a strap by which to "hang on" while the crowded car whirls about its orbit. More work invites our services than ever before, more wrongs to be righted, more victories t be won for manhood rights. Sanely, calmly, with firm determination and with charity for all, the battle against prejudice, segregation and narrowness must be fought to the finish.

First, we ourselves must be right-minded. The race prejudice some white people exercise toward our people cannot be successfully combatted until we free ourselves of race perjudice. Free ourselves of prejudice against colored people just because that are colored, and of our prejudice against white people, just because they are white. It is not color that we fight, it is prejudice and discrimination. Like unto the old religious teaching, "We must fight with example as well as with precept. The enthusiastic race uplifter who girds on his armor and goes forth to do battle for the race without first freeing himself of his own race prejudice is very much like Don "Q," fighting a windmill with a sword.

THE N. A. A. C. P.

Many organizations have a splendid program in mind for the year's wrk. The Los Angeles Branch of the National Association, has a program that at once stirs the blood and summons up the courage. Old Man Residential Segregation, and Old Man Swimming Pool Discrimination with their eyes green and blurred with race prejudice must be taken for a "buggy ride."

The voice of the Negro, clear of tone, dispassionate, but firm, must continue to plead the Courts for a just opinion and decision in the cases which involve attempts by private individuals or public commissions to humiliate, segregate and subjugate our group.

Nor is this all: In 1928 there will be a City Election and the new Mayor will have the right to nominate about forty commissions, one of which will be the Playground Commission. Wisdom is not limited to judging correctly, it also includes preparation. Our present Playground Commission has seen fit to say that colored children may use public swimming pools with two exceptions on Monday afternoons only. One of these exceptions on Monday afternoons only. One of these exceptions is Vignes Street School, near a slaughter house, and gas factory; inferior in equipment and in construction and retarded in hygienic features. Situated in a district inhabited almost wholly by poverty stricken foreigners, and far removed from the homes of any colored children.

In E. 22nd Street, near Central Avenue, in a neighborhood occupied by white, colored, Mexican and Japanese people, a swimming pool is plastarded "for Negroes only."

These pools are built with public funds and supported from the public purse. This discrimination strikes openly and boldly at the respectability of every Negro family in the city.

RESIDENTIAL SEGREGATION

The fight against residential segregation has in fact just begun. One case that comes over from the activities of the association began last year, is the Long Case, which involves a house and lot in East 41st Street, near McKinley Avenue. The husband, Mr. Long is unfortunately ill, in body and mind, and the burden of protecting the roof which shelters her head from the rain and the weather, rests wholly upon the wife, already breaking under the strain that the sickness of her husband and the cares of litigation and financial obligations inflict upon her.

COMMENTS

W. J. WHEATON

The fire works of the 47th Session of the California Legislature during the opening week have been very faint. The Assembly has been as tame as a Dove Cote. Even the election of the speaker failed to create even a ripple of excitement and all was as placid as a singing brook. In the Senate there was a little tilt between the proponents and opponents of a bill to create a new committee to handle the 100 odd bills which the California Crime Commission has ready for the Legislature. The proponents of the resolution, led by Senator and President pro tempore of the Senate, were opposed by Senator Swing of San Bernardino, upon the principle that such measures should go before the Committee on Judiciary, and that the forming of a Special Committee was creating a bad precedent. Senator Swing presented a substitute, which, upon vote, was lost. At times the discussion became rather heated.

Speaking of Mr. Taylor, we have had a visual as well as an aurical, example of his standing with the political powers of the State. His advice has been sought on various matters of organization. Of unquestioned honestly and unselfish integrity he has subordinated any personal gain to the benefits which might accrue to his people.

LIBERIA PLANS BANK

(By: A. N. P.)

New York, Jan. 7.—The Liberian government is sponsoring a national bank capitalized at $1,000,000, according to Oscar Hudson, San Francisco lawyer, who is Liberian counsul. Mr. Hudson has just returned from Liberia. The bank is expected to play an important part in the disposal of government land. Twenty per cent of the cap'tal will be subscribed by the government and forty per cent will be offered to American Negroes, it is explained.

New York Doctor Stabs Hoodlum

New York, Jan. 7.—Dr. Perry W. Cheney, 38, whose courtroom life during the past two years, has made a juicy morsel for New York matrons, has been released from jail under $5,000 bond for stabbing in the lung a white man, John Torpey, who was one of a group of white hoodlums who sought to mob Dr. Cheney after the latter's car had collided with that of a white man. A policeman who rescued the physician claimed that Dr. Cheney had used a knife only after he had been severely beaten about the head.

"HOW DO NEGROES RIDE IN THE SOUTH?"

By: THE ARKANSAS TRAVELER

(For the Associated Negro Press)

Jacksonville, Fla., Jan. 7.—The people of this state are much interested in the charges brought against the State of Florida and the Pullman Company by Mrs. Brookins for being ejected from a Pullman, and thrown into jail, and fined, while an inter-state passenger. This action serves, in a very timely way, to give the spotlight to Negro traveling in the South.

"How do Negroes travel South?" That question is constantly asked by the people North. There are many answers. They are all true. Negroes of the South travel every way there is to travel, and there are all degrees of emotion because of it. Perhaps I am in a position to help the general public,—and I mean general. I have traveled all over the South many years, and I have seen all sides. I want to help white as well as colored people. I want to be fair, frank, and free to tell the facts, otherwise, nothing avails.

There are separate coach, or "Jim Crow" car laws throughout the South. These laws are enforced for the comforts and benefits of the white passengers on railroads, and not Negroes. This is evident practically everywhere. There are differences in Kansas. There are differences in different states, different cities, different railroads and otherwise. "Jim Crowism" primarily is malicious, therefore, it cannot be just or fair.

Georgia Furnishes Example of Differences

There is a difference in the degree of enforcement in two chief cities of Georgia, Atlanta, and Savannah. Take the principal railway stations. In the Union station at Savannah, there is but a brass rail that divides the "Colored" from the "White" section, just that and nothing more. If there has to be separation, that ought to be fair enough. In Atlanta, at the Terminal Station, colored passengers are forced up a long alleyway, condemned by all leaders, white and black, who wish fairness, as a disgusting exhibition of prejudicial arrangement. The white passenger room is large, clean, and well-lighted; the Negro passenger room is small, dingy, and ill-kept. The shame is on Atlanta, not the Negro. It would seem that the vaunted civic pride of Atlanta, one of the gatways of the South, would demand a change. "We have discussed it, and are trying to find a way out," said a brilliant young white leader to me, who agreed that a change should come, and soon.

The pathetic facts of Negroes traveling South comes in the demand for Negroes of intelligence, wealth, and wide influence, commercially or otherwise, riding in "jim crows" and reduced to insolences, from white and black, that should not be tolerated in a great republic. The fair-minded white America, South, is seeing this, and as a matter of real fact, there is a loosening up of the "jim crow" strings, by special arrangements, in many places. But, why should there be "bootlegging" in train accommodations?

There are very few of the big centers of the South, if any, that do not give Pullman accommodations to those "in the know." That means in Richmond, Norfolk, Durham, Raleigh, Savannah, Atlanta, Jacksonville, New Orleans, Nashville, Louisville, Montgomery and other points. The influence for good of Tuskegee Institute is noticeable in all that section of Alabama and around Atlanta. The railroads do hundreds of thousands of dollars worth of business with Tuskegee Institute and the United States Veterans' Hospital, in freight and passenger business, and "money talks." This same fact is true in North Carolina, where the beneficial and practical influence for good of the nationally famous "Durham group" is recognized by railroads and the public.

The worst states in the United States for the Negro to get first class accommodations are Texas, Mississippi, Arkansas, and Oklahoma. Te-

"Ante Bellum" Negroes Benefit From Legacy

(By: A. N. P.)

Fayetteville, N. C., Dec. 31.—Forty-nine "ante bellum" Negroes were made happy here on Christmas eve when they gathered at a local bank here to receive checks made possible by a fund created by W. W. Fuller from a legacy left him by one of his servants. Fuller was the recipient of a home left by Jim McAllister, one of his servants. He sold the house and invested the $5,000 in United States Steel 7's, establishing what is known as the James McAllister Christmas Fund, the proceeds of which are to be distributed to needy Negroes each Christmas.

SOUTH CAROLINA'S OUTRAGE
(Continued from page 1)

fend Davis because of the fear of the powerful family of the white man who had been killed, also that testimony showing the defendant's state of mind was not admitted. Mr. Southard in his letter to the N. A. A. C. P. states:

"If he had been a white man he would never have been convicted, or if both of the pastors had been colored, he would never have been convicted; or if the defendant had been a white man and it had been a colored man going into his house under the same circumstances . . . he would never have been convicted. The only thing that convicted him was the fact that he was colored."

NORTH CAROLINA MUTUAL TO EXPAND

(By: A. N. P.)

Durham, N. C., Dec. 30.—In response to the urgent demands, stretched over a period of some seven years, according to President C. C. Spaulding, the North Carolina Mutual Life Insurance Company, with home offices in this city, will open up branches in several northern states at the beginning of the new year.

After having built up on of the largest enterprises owned and controlled by Negroes, with more than $45,000,000 worth of insurance in force, an income annually of more than $2,000,000 and a reserve totalling $3,000,000 to protect its one-third of a million policy holders, the officers and directors of the company feel that it can now comply to the requests that have been made by many of the policyholders now living in the North and of prospective policy holders in that section.

This action, according to Mr. Spaulding, was taken to carry out the policy upon which the company was founded and has developed, that of rendering the greatest service to the largest number possible. The field in the North has been surveyed and studied carefully and the need is apparent and it is the opinion that North Carolina Mutual should help in supplying this need in the North as well as the South.

Another important action taken by the officers and directors of the North Carolina Mutual Insurance Company, of the company in the states of Arkansas, Oklahoma, and Mississippi to the Century Life Insurance Company of Little Rock, Arkansas. The Arkansas Company was organized by John L. Webb, A. E. Bush, B. G. Olive, and other prominent business men of the State of Arkansas and has grown rapidly thereby proving the wisdom of its establishment. The new business from the North Carolina Mutual will enlarge the new company and accelerate its growth.

"The North Carolina Mutual" said Mr. Spaulding, "assures all of its policy holders in these states that it is not effecting a withdrawal from that section, but is simply entrusting to another capable group a part of its field. By doing this we are not only strengthening and encouraging the new organization but also working in the intetest of our policy holders as they will be nearer and can have more frequent visits from and contacts with representatives of the Home Office."

MANY HAPPY RETURNS

The RAILROAD CLATTER this month congratulates the following porters on the anniversary of their birth: T. D. Starks, W. H. Bailey, S. Fults and C. W. Crawford.

DELAYED NEWS

Xmas mail, and wrong addresses On account of sickness, delayed there is quite a little news which was not in the last issue of the Railroad Clatter, however the policy of this column is news, is news and even though it is a little tardy it is better to publish it than to leave it out entirely, and we hope that our readers will overlook it this time, and in order to avoid any mistakes in the future kindly address all news to be published in the Clatter to Chas. L. Upton, 2190 West 30th Street.

CENTRAL STATION RED CAP PORTERS PROTECTIVE ASSN. ELECTS OFFICERS

The C. S. R. C. P. Protective Association elected the following officers to head their organization for the year of 1927: James A. Gray, Pres.; Frazier Durden, Vice Pres.; C. S. Farrar, Sec'y.; Chas. Foley, Treasurer; Executive Committee: S. W. Thompson, Chairman; W. H. Bacon, Seward Scot James Armstrong, Robt. J. Sanbry, Gus Conway, Chr. Entertainment Committee. The dues collected at this meeting, amounting to $28.80 were voted out of the treasury to be turned over to three or four families with children in need as an Xmas token from the boys. A committee was appointed by the president to make a thorough investigation of some families whose names will appear in this column later, and bring the report in as soon as the desired information can be obtained. By mutual agreement the members decided to contribute a greater sum than stipulated by personal donations. They are all willing and ready to do more than they can afford toward the end of helping those in greater need than themselves. This is a wonderful spirit and goes to show the caliber of men that work at the S. P. Station. Their gifts to the needy will long be remembered.

SOUTHERN PACIFIC NOTES

Mrs. Gus Conway is spending several weeks in San Francisco and Oakland.

* * * *

Mr. Blankston is spending a few busy days at House cleaning prior to the return of his family from their extended eastern visit. Be sure and get all the hairpins and dishes washed up old top.

* * * *

Mr. Perry B. Drakeford, the pride of the red caps is planning on spending a few days loafing. Well! He sure knows how to do that well enough, he has already got the prize as the Station's Champion loafer.

* * * *

This was broadcasted from some unknown station, so you can take it for what it is worth. Messrs. Chas. Foley, T. Durden, and R. Durden are somewhere in the desert, doing some so-called duck hunting. All right, boys! Be sure it is the web footed feathered birds, in fact it would be a good idea for you to bring back a few even if you have to stop by Sam Selig's store and buy them to prove your contentions.

* * * *

Mrs. Robert J. Sanbrey has departed for an extended visit in the North. Be good Bob! Don't go duck hunting! Just hang around the old ship and wait. Then we won't have to be buying any flowers for you.

SANTA FE RED CAPS

Chief Red Cap B. L. Brooks reports that the grip snatching game has picked up considerably in the last month, and the boys were all able to buy their Xmas presents without going in the barrel, however he says that Baby Joe Gans came mighty nigh ruining the gang when he went down to defeat before Harry Brown. Next time he is going to take a thermometer along so he can tell whether Baby is right or not; he is now trying to muster up enough courage to form a pool on the Lomski Tiger Flowers fight. If he wins he will be singing that song, "Tell 'em about me." But if he looses he will have to revert back to the old and familiar ballad, "It had to be you." Stay with 'em Brooks, bye and bye you catch 'em.

MR. BAPTISTE B. BEE PASSES AWAY

Mr. Baptiste B. Bee, well known San Diegoan, Spanish war veteran, and night red cap at the Santa Fe Depot passed away at the Santa Fe Hospital in Los Angeles last week, where he was taken after his condition had shown a turn toward the worst. Mr. Bee was well known in railroad circles both in Los Angeles and San Diego. Not only was he a perfect red cap, but he possessed the qulities of being a linguist, speaking several different languages fluently, and acted as interpreter for the Santa Fe while at the depot. He was highly respected by all the officials of the road and his funeral which was held from Johnson and Suoma Undertaking Parlors Thursday, Jan. 13th, at 3 P. M. was attended by many of the Santa Fe officials and quite a few Santa Fe Red Caps. His casket was buried with flowers showing the great tribute paid to him by his many friends and co-workers. He leaves to mourn their loss a loving wife Mrs. Baptiste B. Bee, a niece Miss Fredonia Hunt from Galveston, sisters, and cousins and a host of friends. May he rest in peace. All who knew him will miss him more than words can ever express.

Joe Daggett, Red Cap and parlor car porter, is still on the sick list.

PILLOW SLIPS

L. Banks, now operating on line 18½ is now the proud father of a nine pound boy. Although Mr. Banks has not been seen boasting as yet, but if he runs true to form, it will not be ling until we will hear of him crowing like the rest of the proud fathers, namely E. L. Arnaud and J. Worthen.

LOS ANGELES MAIDS TO DISCONTINUE RUNNING TO CHICAGO

Coming like a bolt out of the sky, was the announcement that beginning the eighth of January all Los Angeles Maids will operate as far as Ogden, Utah, only on both limited trains Los Angeles De Lux, and the Golden Coast. We have not yet been able to ascertain just how th's change will affect the employment of the girls, but it has been rumored that it will not take as many maids as it did before the change was made. This change was made in order to only have one De Lux train from Coast to Coast. The Los Angeles De Lux will be operated as a stub from L. A. to Ogden, and from there it will consolidate with the Overland Limited from San Francisco. San Francisco Maids will go all the way. More will be published in regard to this change in a later issue, after we have been able to obtain more facts.

Criticism of Booker T. Washington Draws Protest

(By: A. N. P.)

Chicago, Ill., Jan. 7.—The statement that the late Booker T. Washington was opposed to the higher education of the Negro and to the Negro aspiring for any place in the political life of the nation, made by James Craig Gordon in the second installment of his series of articles on "America's Negro Problem" appearing in the New York Graphic, has brought forth a pointed protest from Albon L. Holsey, secretary of Tuskegee Institute, who served under the late Dr. Washington.

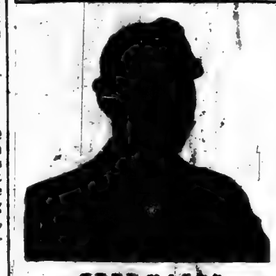
In a letter to Mr. Gordon, which was made public today, Mr. Holsey declares that a deluge of letters "from friends of both races in New York, who have urged us to protest against the statment" and pointed out the public utterances of Dr. Washington "will show that he not only believed in higher education and political rights for his race, but advocated them."

To substantiate his claim Mr. Holsey quoted at length from various articles and addresses made by Dr. Washington in which the late leader made such statements as:

"No state in the South can make a law that will provide an opportunity or temptation for an ignorant white man to vote and withhold the same opportunity from an ignorant Negro, without injuring both. The Negro does not object to an educational or property test, but let the law be so clear that no one clothed with state authority will be tempted to perjure or degrade himself by putting one interpretation upon it for the white man and another for the black man. Study the history of the South and you will find that where there has been the most dishonesty in the matter of voting, there you will find today the lowest moral condition of both races."

The foregoing statement was made by Dr. Washington in an open letter addressed to the Louisiana Constitutional Convention in 1898.

Concerning Dr. Washington's stand on the question of higher education, Mr. Holsey referred to his activities as a trustee of Fisk University and Howard University and to the large number of University graduates that composed the faculty of Tuskegee Institute under Dr. Washington's administration.



The Doctor's own views on the subject were quoted as follows: "I believe that nothing will help my own people in your state (Louisiana) as provision at some institution for the highest academic and normal training in connection with thorough training in agriculture, mechanics, and domestic economy" and further: "In the work of moulding and guiding public sentiment that shall forever maintain peace and good will between the races on terms commendable to each it is on the Negro who comes out of our universities, colleges, and industrial schools that we must largely depend."

GASS GALE RETURNS

Returning from an enforced absence at the County Road Camp, Gass Gale says that he has no complaint for taking his medicine for going contrary to Volstead and Mr. Wright. Neither has he any complaint to the treatment accorded him by the Superintendent and his Assistant Capt. Starkey and Mr. McCalvy.

But he showers down on the parole board for their discrimination toward the Colored prisoners when they are eligible for parole. Ex-convicts and Major offenders he says have the call and seldom indeed can the board see the justice in giving paroles to the colored prisoners.

T. M. ART CLUB GIVES DANCE

The most brilliant affair of the season was the dancing and card party given at Christian's Tavern, January 7th by members of the T. M. Art Club. The reception rooms were appropriately decorated for the occasion. Mrs. Wright presided over the punch bowl while Madames Surrey, Clay, Binkley and Macon received the guests. About one hundred enjoyed the hospitality of the club.

The Sunbeam Whist Club held its annual banquet at the new Bronx Hotel, Thursday, December 30, 1926, which was a formal affair. Annual Musical A Grand Success

The inclemency of the weather failed to hold any option on the down pour of folks that flocked to listen to these excellent singers. Each year since its inception, the entire community has looked forward to this annual Fete that has never failed to eclipse in song and has awarded the honors and better known as the St. Paul Machless Choir.

GROP TALENT

This group of organized singers is known to be composed of more local talent than the average organization.

BY REQUEST

At this time there come many requests unsolicited that they render service throughout the community, and it is expected that this group will appear in concert at many of our churches (chiefly white).

DIRECTORS

Since the inception of this organization its aim to keep at its head directors of high standing, each has proven master of the occasion.

Mrs. Moselle Te Outley, our present chorus director, on this occasion excelled all previous records.

Aside from those great and difficult numbers rendered by this organization Tuesday evening, hats off to Miss Brandon and her excellent quartettes; also Clayborne D. Cooksey, pianist; Lawrence N. Lassiter, violinist; J. Taylor Brownslow, baritone; Naomi Parr, Contralto soloist; and the Madam A. C. Bilbrew, who is a charm to any audience.

POPULAR PASADENA COUPLE CELEBRATE 12TH WEDDING ANNIVERSARY

Among the social activities of the Christmas week, was the celebration of the 12th anniversary of Mr. and Mrs. James Woods of 87 South Vernon Ave., Pasadena, on Thursday evening at the Friendship Baptist Church, in the presence of a large gathering of society people. This wedding was one of the most elaborate social event of the season.

The ceremony performed by Dr. W. D. Carter though humorous, was impressive. Preceeding the ceremony a very delightful program was rendered, Mrs. N. F. McMickens acted as Mistress of Ceremony. Miss Alice Stoard rendered an organ solo; Mrs. Ollie Robinson, reading; Mrs. Louise Matthews, sang "Always." Heralding the approach of the bridal party, Mrs. Pearl Booker at the organ accompanied by Mr. R. Solomon, violinist, struck the opening chords of Mendelssohn's Wedding March, the fourteen matrons of honor entered the auditorium carrying a staff. Mmes. Cassie Alexander in peach georgette; Laura Bailey, blue, georgette; May Cleveland in blue georgette; Offie Lee Harrison, in coral georgette; Agnes Lee, peach; R. Compton, yellow; G. Cymns, pink; Martha Clisby, rose; Bessie Robinson, green; Violet Mills, yellow; Alberta Russell, blue; Beatrice Reynolds, pink; Rochell Vaughn, lavender; Vera Jones, green; Virginia Corry charmingly gowned in orchid and carrying a bible was matron of honor. Flower girls in taffeta dresses Cecial Hawkins and Mary Carey strewed flowers in the path of the bride. The bride was gowned in white georgette over white satin trimmed in pearls, veil of tulle caught with a wreath of orange blossoms; carrying a large bouquet of white carnations, maiden hair ferns, lilies of the valley, made a most beautiful picture as she entered on the arm of her husband, J. W. Woods to again make the solemn promise to live with him twelve years and longer.

The church was artistically decorated by Mrs. Daisy Barret, colors red and green, carrying out the Christmas suggestions. The tall, glowing tapers softly illumined formed a wonderful seting for the lovely gowns worn by the bridal party. At the conclusion of the ceremony the social hall was thrown open where a large reception was held. The bride's table was beautifully decorated in Xmas presents in charge of Mesdames Gilmore, Overr and Groner were beautiful and many.

Mrs. George Harris was in charge of the dining room assisted by Mrs. L. Fite.

Well folks, we stand before you at this time (we're really sitting but the above always loks well in print) to ask you to vote for bigger and better booby prizes for card sharks.

The Silver Foxes, foxy fellows, are giving a tacky dance on the 28th of this month at Eagle Hall. They expect a large gathering. 'Tis too bad that we missed that wonderful exhibition of the Black Bottom which the Misses Thelma and Ernestine Porter gave at the last Fox dance. Truth!

* * * *

We wish to express our sympathy to Miss Louise Chism who is on the sick list this week. We hope Louise will be well enough to do her "Beggar" dance at the Girl Reserve Vaudeville soon. The Girl Reserves gave a yell for Miss Sidonia Hall who is once more attending the "Y" meetings after a serious illness.

The tie we got for Christmas goes to the bimp who claims he came from St. Paul where men are Minn.

We wonder why Lorraine and Lulah were sent out of class one day last week over at Poly. You'd be surprised.

"How come it" that the cop at Normandie and Jefferson arrested a party of boys in a bright blue roadster twice last Sunday?

Last week at a certain house party, a bunch of "crashers" who, when they found they couldn't crash this party, took all the air out of several of the boys' automobile tires and broke Bryley's windshield. These "crashers" need their mouths washed out with soap or a spanking. Haw, haw.

Willie Middleton says that he always thinks of that great poem "The Light that Failed" when he's trying to sneak quietly into the house some night late and the light just won't go on. We suggest that Willie think of something jazzy in a situation like that. For instance, why not "We got Shoes" as he slips off his shoes, and "Down by the Riverside" as he slips between cold sheets. It's the spirit of the thing that counts, Will-um.

Every time we go to Baumann's Drug Store at 9th street, we see a certain good-loking cop in there and it isn't "Offisser" Kelly, either. Oh Miss White, what's the attraction?

Well folks, we don't suppose you know that the versatile Maudine Simmons has become a dancing teacher. Ah, yes! She has her first class Saturday at 10 A. M., in preparation for the coming Vaudeville.

We wonder who it was that made that bright crack that girls now-a-days don't blush. We wish to prove that this is absolutely untrue and we bring forward Miss Dorothy Hoskins of South Los Angeles, who blushes are just as 18th century as any 18th century miss. Isn't that so, Herbert?

We close with fond farewells. Remember we have a date one week from today.

Insurance—A Monument To Negro Progress

© A.N.P.

Negro insurance companies are rapidly pushing to the fore in the ranks of racial business enterprises. The National Insurance Association, comprising twenty-three of the leading companies, reports the largest growth and the most successful year in the insurance field yet experienced.

Washington, D. C., Jan. 6—That Negro Insurance companies are growing apace even though they carry but a small fraction of the insurance in force upon Negro lives is shown by the recent report issued by the National Insurance Association. Some startling and encouraging figures are presented by the association in its statistics compiled upon twenty-one Negro insurance companies, most of which are members of the organization. White companies are carrying many times more insurance on colored people's lives than are the colored companies, but the report relates that "of the total of $73,581,675,814 of Life Insurance in force in the United States on December 31, 1925, the twenty-three Negro companies carried one hundred and sixty-million, two hundred and forty-six thousand and five hundred dollars, a mere drop in the bucket when compared to the total in force, but an enormous amount when all factors and handicaps are taken into consideration. The Metropolitan Life Insurance Company with $960,000,000 on Negro risks carries five times as much life insurance on Negroes as all of the Negro companies combined. We have just scratched the surface. The field and opportunities offered by life insurance companies for Negroes are too great to be measured; they are almost unlimited."

Some idea of where the more than a billion and a quarter dollars worth of Negro insurance is placed may be gained from the table which follows:

Total Insurance Carried by Negroes in the United States

Metropolitan Life Insurance Company	$ 900,000,000
Colored Companies in National Negro Ins. Associations	164,000,000
Other Colored Companies (estimated)	25,000,000
All other companies insuring Negro risks	250,000,000
Grand Total	$1,399,000,000

A conception of the tremendous financial power which Negroes might control is revealed by these figures. it is estimated that colored companies place only about one-eight of the protection in force upon their own group. The fact is that only a negligible portion of the Negro population of America has awakened to the value of insurance in any sort of company. This is the task which the combined efforts of the companies who compose the National Negro Insurance Association is concentrated on—not getting Negroes to transfer their risks to colored concerns, but rather to appreciate in larger measure the value of building up insurance estates, thereby adding to the total racial wealth and giving protection to the families of the insured. "The security of homesteads," the association points out, "the holding intact of families, the education of families, and the satisfaction of life profitably spent are frequently dependent upon an adequate conception of the value of insurance." Despite the small portion of business which our organizations control, the steady growth of Negro companies, avers the National Negro Insurance Association, is a definite and hopeful barometer of racial business and progress.

GOLDEN STATE AGENTS PROMOTED

The promotion of three men from the ranks of agents to superintendents and assistant superintendents is just the beginning of a big problem for growth and expansion, according to the Director of Agencies of the Golden State Guarantee Fund Insurance Company, Mr. George A. Beavers, Jr.

Mr. B. N. Hunigan formerly of Wichita, Kansas, and who has made an enviable record with the Golden State has been made superintendent

Mr. Hunigan

of the Oakland District. He will succeed Mr. E. J. Johnson who has done remarkable work in building up business in the northern city. Evidence of the popularity of Mr. Hunigan was shown in the hearty greetin-gand cheers given him by his co-workers on last Tuesday evening at the residence of the President of the Company, Mr. Wm. Nickerson, Jr.

Mr. Hunigan during the time he has ben connected with the Golden State staff, has made many friends and although they are sorry to see him leave Los Angeles, they rejoihe in the fact that he has received a promotion and wish him an abundance of success in his new position.

Mr. Leroy A. Beavers

The volume of business in Los Angeles and vicinity, which is the Home Office District, has developed to such an extent that the services of two assitant superintendents is required. Mr. Leroy A. Beavers has been appointed assistant superintendent in this district and will supervise Home Office Division No. 1. He has been with the Company since its organization period and has won several prizes for high production. He has also rendered excellent service as assistant Claim Adjuster. Mr. Beavers is well and favorably known and is well qualified for the new duties that have been assigned to him.

The next appointment to assistant superintendency in the Home Office District was given to Mr. A. F. Carter, who will have charge of Home Office Division No. 2. Mr. Carter was formerly an agent for the Continental Casualty Company. Realizing the opportunities afforded and the greater service rendered our people by our own Golden State Insurance Company, he has made good from the start and his record of which any insurance underwriter could be justly proud. His very pleasing personality has won for him many friends and admirers among the agents and policyholders of this fast growing company.

Mr. A. F. Carter

Mr. W. B. Cogle, formerly President of the American Mutual Benefit Association of Houston, Texas, has been appointed General Claim Adjuster for the Company. Mr. Cogle has had many years of experience i ninsurance business which makes him well qualified for th positin. He was widely known throughout the state of Texas and his many friends in California are glad to see him take an active part in the activities of this company that is contributing so much to the business development of our community.

WAS WORTH WHILE

The great big and royal response of the people to the call of the newspapers is most highly appreciated by this journal, when, on last Tuesday evening, deserving tribute was paid to Captain Glenn (retired) after 25 years of efficient and honorable service on the force of the Los Angeles Police Department.

The occasion was worth while and those who responded have our unbounded appreciation.

Big Laundry Concern Appoints Race Salesman

The Nuway Laundry Company, Eighth and Towne Ave., announced, during the past week, the appointment of Mr. T. Curtis Smith, as its Race Representative.

The "Nuway System" of laundry work is the latest patented process known. Each individual's laundry is put in a separate container; the colored pieces first being separated from the white. These containers are designed to wash your clothes in the gentlest method known to protect and preserve the fabrics and colors.

All work is returned finished and ready to use at a pound price comparing very favorably with the usual "rough dry" price.

Mr. Smith has been in Los Angeles for the past four years and last year married one of Los Angeles' popular school teachers, the former Miss Perle Bratton, daughter of Mr. and Mrs. Jas. P. Bratton of East 41st St.

Since coming to the city he has been connected with several progressive movements. It was he, in company with Mr. Ed. Sanders, who drew 10,000 people to the Hollywood Bowl last July to the monster choir contest. He was at one time connected with the Liberty Building Loan Association, also. Previous to that he was with the Pacific Steamship Campany, plying between Seattle and San Diego on the famous Alexander ships. He was at that time the youngest third steward on the Coast.

We congratulate Mr. Smith on securing a berth with this big enterprise and wish for him every success. His success however will come only if supported properly. The class of work done by this company and their irresistible prices should appeal to every one that appreciates good laundry service.

Mrs. W. E. Jones is seriously ill with pneumonia. Mrs. M. Foster is the nurse, 4100 Hooper Avenue.

Mrs. Myrtle L. Edwards, executive secretary, is asking all business girls to meet her at the Y. W. C. A. Thursday evening of this week at 8 o'clock.

HUFFMAN DINNER

Mr. Henry Huffman had as his dinner guests Sunday, Mr. and Mrs. Percy A. Traylor, Miss Emma Lue Sayers, Miss Mable Stewart and Mr. Frank G. Zetar. Mr. Huffman is a member of the Inkslingers Club and lives at the Rosaling Apts., on East 47th Street.

NEWS FROM THE BIG GOSPEL TENT

The greatest of all evengelistic sermons will be presented Sunday night, January 16th at the BIG TENT —20th and Central Ave., by Mr. Philip Knox, the Astronomer Evangelist when he will preach on the subject of "Declaring God by the Stars." Mr. Knox draws thousands of earnest listeners to his wonderful sermons and to miss this rare treat will be the regret of the year. The Big Tent Company has tried to have Mr. Knox present to the service conducted, long before this, but heavy evangelistic meetings kept him away.

Sunday night will be the treat of months and it is hoped that everybody will take advantage of this service. Only one other night service will be held, that of Wednesday evening, at 745 P. M. to which everybody is invited.

A big, warm tent and a cordial welcome at all times.

WEEK-END BASEBALL GAMES REPLETE WITH THRILLS

Giants Win Two Great Victories

"We have met the enemy and they are ours," are the historical words the great Rogan admiral of the good ship "Royal Giants" could have reported back to his headquarters like that other famous winner of great sea battles. For the Philadelphia Royal Giants really took in their hardest rivals the Long Beach Shell Oilers, in two of the best and hardest fought games ever seen at the White Sox Orchard.

In spite of a really good, jazz band that the Oilers carry with them (piano and all) and a god feature singer to cheer them up and lead the applause for their best efforts, they went down to defeat before the determined onslaught of the Giants who seem to have sworn to cop this second half of the Winter League.

"Fuzzie Ball" Harney and Duncan were batteries for the Giants on Saturday; Schupp, Blueholder and Kenna batteries for the oil men. Schupp pitched 8 1-3 innings striking out 6 men, folowed by Blueholder who pitched 1-3 of an inning striking out 1 man. Blakesly and Schupp made home runs; Emmer Allen and Pullen made 2 base hits. Features of the game were the singles by Dixon, Mackey and oMthel and Allen and Pullen's doubles in the 9th which scored 4 runs to win. An additional thrill was added to the game when Sturdy, the big Shell Oil first sacker, disputed a decision by Umpire Beck and getting abusive was ruled out of the game. Coming back onto the diamond he took a hard punch at Beck who dodged receiving a glancing blow. Instantly policemen swarmed on the diamond from nowhere and with the intervention of some Giant players, Beck was saved from further harm.

Sunday saw a bright sunshiny day and the stands crowded as usual with 3 colored cash customers to 1 white. Lou Shores, former last colored umpire of the Coast, witnessed the game from the Press Box. Duncan brought in the first score of the game in the 2nd inning. Rogan pitched all the way although it loked up to the 4th stanza as if he was going to have to pull Rogan as the Oilers were hitting him. Below lies the two-days' casualty list:

Pirrone's All-Stars play the Giants on next Saturday and Sunday.

UPPERCUTS AND BLOCKS

By: HARRY LEVETTE

The above little of your Spors Editor's column pertains of course as most everyone knows to the boxing game. Yet I am not limited to write only of the art of athletic self-defense under this heading. It is my column and I can stick to boxing or write on whatever happens to filter through my befuddled brain. There are Upper-Cuts in everything. Blocks in everything to offset them. Hardships, difficulties, discouragements, etc. Upper-Cuts, Perseverance, Courage, and Optimism are Blocks.

RESORT HUNTERS' DREAMS REALIZED

By: HARRY LEVETTE

Over 3000 miles of shore line on the California coast yet not a spot where these men and women may lie with their life-craving children and enjoy the tang of the salt air and the invigoration of surf bathing. They have been discriminated against, restricted and segregated until up to the present time a Negro or a Negro Institution has not been able to own one inch of property on or near the water-front. But quietly, a move has been going forward which had in its intents and purposes, the acquiring of a stretch of Beach property that could be held for time immemorial by any one regardless of the color of their skins. This movement was nicknamed the "Knockout," only as a working name until its plans were perfected beyond possibility of failure. Upon investigation, we find the "Knockout" to be absolutely sure, plausible, and bonafide, and when the opportunity of getting in on the ground floor of this wonderful proposition is presented it will be found that it is a God-send and a long looked for blessing.

Baby Gans and Charley Feraci Fight Tuesday

An all star card topped by the Young Master! That is what the Olympic Auditorium sprung as a surprise for Tuesday next, Jan. 18. Feraci has been on the trail of Gans for some time ever since he gained a decision over another local colored top-notcher some time ago, and really thinks he can beat the fast hard-hitting conqueror of Mushy Callahan and that long string of other first raters almost or equally as good. Gans' knockout of Daly last week doesn't seem to alarm Feraci either so with all this confidence and the fact that the boy can really fight makes the assurance that Gans will have his hands full. Although that will be the most attractive spot on the card the whole bill is a triple feature of ten round bouts. Ritchie King fights Bon Ellas. King is the great Wilmington favorite that pulls such a following of Wilmington fans.

Charley Long who scarcely needs any introduction now fights Harmes, that great crowd pleaser, who has a habit of coming from the handicap of knock-downs and every thing else and winning decisively. All in all with the usual prices of $1, $2, and $3 a capacity crowd is sure to be on hand.

FLOWERS' STORY OF THE WALKER FIGHT

Flowers is down every day at the Entertainers Cafe renewing friendship and as he and Lawson are both genial fellows always have a crowd around. Concerning the Mickey Walker—Yaeger—Kearns affair in Chicago Flowers said, "I was surely surprised, I thought so sure I would be called the winner that I had already thrown my arms around Walker as a fellow usually does to show he appreciates the loser. That may have saved trouble for there was many an angry person there that night. I was more surprised than they were but I guess it was my luck and I only want another chance at him." Seats are on sale at the California Eagle office, and Entertainers Cafe on the West side, and at the Boxing Arcade building down town.

GIRLETICS

By: GLADYS METHONICAN

Well, here we are again folks, with another week of our new year gone. I want to put this column over big this year and expect to do so with your co-operation.

Certain questions often arise in one's mind as to the history of a game, it's advantages, correct costume for playing, correct diet and how it should be played. If you are in any way uncertain about any of these things, by writing editor of this column you will get full details. These will be printed in this column and many people will benefit by them. We will call these—Questions and Answers.

I wish you all to consider yourselves a member of "The Girletics' family" and feel at liberty to discuss things fully in this column which pertains to girls.

This column is not limited to girls sports but to anything pertaining to the Sunkist Maids.

I will expect to hear from other members of our "happy family" by our next issue.

Almost as large a crowd as was at the station to meet "Tiger" Flowers when he came to fight Huffman in July was at the S. P. Station, Tuesday morning to meet the popular Deacon who arrived to fight Leo Lomski at Wrigley Field, Saturday, January 22nd for Dick Donald's big show.

Flowers is also accompanied by Bob Lawson, his stablemate.

A wire received last week to the promoters offices for 2000 reservations swelled the list to over a thousand by the week-end, giving a fair barometer of the monster crowd which will be on hand at famous Wrigley Field next Saturday afternoon to see Flowers battle back on towards the championship which he lost through a duke decision. Boys with banners welcoming him to the Main Street Gym, where he is training; Huffman's former sport writer of the dailies Dock Donald, Joe Lillard, Carlo Curtis and other promoters and the Sports Editor of the Eagle formed a reception committee which gave him the glad hand, to the Angel City. Seats were placed on sale all week at the California Eagle office, and at the Entertainers Cafe on 12th street. A splendid room has been fitted out for his training camp at the Main Street Gym, 312 South Main, where he will train daily at 2 P. M.

The Nanette Club Gives Its Annual Prom

Miss Josie Pryce, daughter of Dr. and Mrs. George Pryce, presides at the punch bowl.

Favors were distributed to the guests by the members of the club, Ella S. Matthews, Louise Murray-Matthews, Edythe Pryce-Thompson, Thelma G. Hamlet, Evangeline Lewis, Camille Wilson, Dollie N. Townsend, Robbins Robinson and Myrtle Duncan.

Among those present were: Mr. and Mrs. Ray Ira Matthews; Miss Marion Koolmeer, Mr. Theodore Haith of Seattle, Washington; Miss Ellen Gillespie; Mr. and Mrs. Bud Grayson of Seattle, Wash.; Miss Ellen Gillespie; Mr. Bud Grayson; Miss Miriam Capperry; Mr. Bill Sneed; Miss Maude Vernon of La Jolla; Mr. Jake Meyers; Miss Helen Harrold; Mr. Theodore Banks; Miss Hilda Phillips; Mr. Wheyian Taylor of Oakland; Miss Margaret Carter; Mr. Sam Lewis; Dr. and Mrs. Hugh Bell; Miss Hortense Allen; Dr. and Mrs. Haywright Thompson; Miss Vesta Wright; Mr. Tommy Reid; Dr. Emily Brown-Childress; Mr. Clifford Palmer; Miss Alice Gillespie; Mr. Dud Hamilton; Miss Ruth Sharp of Oakland; Mr. Merritt Colvin; Miss Mildred Harper of Sacramento; Dr. Grant Hodges; Miss Rosina Mitchell; Mr. Matthew Hill of Seattle, Wash.; Miss Geraldine Bamford; Mr. and Mrs. Ernest Sharp;

Synopsis

A chilly November evening finds the author and our very dear friend, Wheaton, a brilliant attorney, in one of our frequent collaborations at the Wheaton home. Both enjoying the warmth and cheery glow of an open hearth become reminiscent and talkative—especially our friend Wheaton, who volunteers and vouches for a story told to him by his grandfather, a slave, which, after hearing I decide to reproduce, and for lack of a name I name it "Defiance."

* * * * * * * * * *

Death stalked about on that night everywhere. The storm was fierce. Melville Gradley (a member of an old family, the proudest of Southern blood) lay dead upstairs in the "Big House" with a bullet thru his brain, the work of an assassin in the cotabroom. Angie May, daughter of "Mammy," a wife of only a year and that night a mother, dies in the "quarters." Melville Gradley's wife also becomes a mother that night, but when the baby is brought to "Mammy" she discovers it to be dead. "Mammy" fears to tell "Missie" the dreadful calamity as she is very, very weak and worried over Melville's not returning (his death being carefully kept from her), and the shock might kill her, so she conceives the idea to switch Angie's live baby for Missie's dead one. She takes the live, crying child upstairs and places it in the arms of the little weeping mother, then returns to the downstairs to inform Jim (Angie's husband) of his great loss. The following day Angie May is buried with her supposed baby clasped close to her bosom, cold in death.

Miss Samantha Porter, distant relative of Mrs. Gradley ("po' relashun" as they were called by the Gradley slaves) undertakes to hold up Mel Gradley's (now sixteen years) many achievements at college to her boys for emulation, which does not have a very warm reception among them.

Ethel Cartwright, beautiful daughter of Huntington Cartwright, between whose family and the Gradley's a bitter feud exists, is out riding one summer's afternoon when her pony is frightened by the discharge of a rifle and throws her in his maddened get-away from the everglades. She is helpless; cries for help, to which Mel Gradley, hunting, responds. He is very kind in assisting her home and is persistent in his daily inquiries as to her condition. During her convalescence he sends her a little hound pup which seems to take a liking to her immediately and refuses to be taken away, even snapping at Mrs. Cartwright and the servant—This little incident tickles Ethel and she forthwith names him "Defiance."

(Continued from Last Issue)

For three years Mel and Ethel had remained friends. Mrs. Cartwright had been so grateful to Mel for aiding Ethel at the time of the accident. While no one had spoken of the unfriendliness of their families to the young people, they had somehow always managed to meet outside the Cartwright gates.

One day after a long ride over the hills, they came to a halt, and Ethel held out her hand to Mel, bidding him good-bye. Mel raised her hand to his lips, and though it was the first time he had made any attempt to play the gallant, Ethel was not at all displeased. Huntington Cartwright had peered through the thickly hanging branches of a maple, and saw "Dan Cupid" at work.

The next day Cartwright proposed that Mrs. Cartwright and Ethel drive to Memphis, and do some shopping as Ethel would soon be on her way to a school for young ladies, "to be finished." So cleverly did he contrive to busy them in the city, and have his sister extend them an invitation to "The Maples" that the day of departure came just when Mel was away for the week-end.

PART III

Ethel Cartwright had finished school with honors. When with hair "done up," skirts lengthened, and eighteen years credited her by Father Time, she was a young woman to make the heart of any parent glad. While visiting in Memphis, Ethel had met Mr. Henry Clay Hicks, scion of a fine old Memphis family. A young man of dissipated habits, some ten years older than Ethel, and much too fond of liquor. He had missed no opportunity to put himself in Ethel's way. Having a young sister of Ethel's age he had managed this quite successfully. While Ethel, like most young girls enjoyed the attentions of this older man, knew that he was not the man he would have her believe him to be. He had begged to visit her at her home, and owing to this request Ethel had refused to see him before her departure the following day.

On the day that Ethel was expected to arrive, great preparations were being made at her home. Aunt Sally still ruled the kitchen, and Defiance had long since suffered her to take his bones without snapping at her fingers.

Sally bustled out of the kitchen door and called:

"Jube, Jube, looke heah Jube."

There was no answer from the bent figure of the old man, who hobbled along the gravel path grunting at every step.

"Jube," called Sally, "ah yo' deef or ah yo' dumb?" Then, "Jube, yo' heah'd me?"

The patches of white wool above Jube's ears fairly bristled. Slowly he turned to the belligerent figure by the door. "Lawd a' mussy," he exclaimed, "ah declah 'twixt yo' an ol' Miss, a body ain't gwine tu hab no peace a' tall in dis heah life; whut yo' want, Sally?"

"Ah want yo' tu cum in heah an' beat dese aigs."

With shaking head Jube laid his shears and the basket of roses he had cut, under the arbor. He shuffled into the kitchen, laid his battered old hat on the floor, poured a basin of water, and proceeded to wash his hands with elaborate care.

Sally placed two yellow bowls on the table. Jube surveyed the immaculate kitchen, the well scrubbed floor, long white tables, and knew by the seemingly endless array of pots, pans, and kettles, that there was to be "big doins." The yolks finished and set aside, Jube took up the whites, these progressed nicely and as they rose nearly filling the bowl, Jube's spirits arose also, likewise his cracked old voice into a hymn. He sang with all the pathos that characterizes the Negro melody of the old South. His voice rose and fell, gripping and holding the notes with a tenacity that, but for the old man's earnestness, would have been amusing. So intent was he, on his work and hymn, that he did not hear the door open, nor see the slender, girlish figure standing in the doorway, surveying him with kindling eyes.

One of the first to call upon Ethel was Mel Gradley. As he mounted the steps, Huntington Cartwright arose from his arm chair, somewhat unsteadily. He had partaken, as was his custom, freely of mint juleps. Yes, he had told Mel, Ethel was dressing and he would tell her himself that Mel had come.

Samantha Porter had once said that Huntington Cartwright was so cowardly that it took an overdose of liquor to give him courage. Spirits seemed to whet his appetite for deviltment, and served to make him cunning. On that particular afternoon he seemed keyed to the proper pitch. Instead of going directly to Ethel and announcing Mel's arrival, he went to the library and picked up an unsealed note. This note had been written by Ethel to Henry Hicks, in answer to his letter, begging her to renew their friendship and to receive him at her home. It read:

"I do not care to renew our friendship." (Signed) Ethel Mercer Cartwright.

Chuckling to himself, Cartwright stepped out on the veranda and remarked:

"Ethel's still dreamin, sent you dis note."

THE NEW GAS FUEL

Recently the motoring public has ben introduced to a new gasoline termed motor fuel, says W. E. Bonfield, Sales Manager of California-Eastern, formerly Julian Petroleum Corporation.

For sereval years past there has been marked by some oil companies a similar product sold in small containers, the contents of which was emtied into and mixed with a given quantity of ordinary gasoline. Now, however, a more satisfactory method has been introduced which allows one to drive in the gas station and have his tank filled direct from the tank with a superior product, with a slight nivance in cost but in reality a better and cheaper fuel.

California-Eastern, formerly the Julian Petroleum has the distinct credit of being the first concern of its kind to put on the market this wonderful new product sold from the pump in quantity under the name of Red Chief Motor Fuel.

Like all new things Red Chief was accompanied with doubting Thomases. However, it was not long before Red Chief had them in full retreat and in their stead thousands have joined his army and are today enjoying the many advantages it has to offer.

Unlike any other product the California Eastern has given to the motoring public not only a new fuel but a fuel that is superior to that of any other concern in the field of competition.

With Red Chief on the job, one finds carbon an asset, starting on cold morning a pleasure, step grades, no drawback, more miles to the gallon and a better running motor with reduced upkeep be it a Ford or a Rolls Royace or airplane, a four, sixe, eight- or twelve cylinder motor.

YOSEMITE NOW HAS ALL YEAR ROAD

The famous Yosemite Valley known the world over as California's chief sight-seeing attraction is now accessable in the winter time. A thing long hoped for but just realized.

Wonderful, indeed, is it to be able to journey in a day from the briney waters of the sclfs cloaked with its summer atmospheric condition in such a snow be-decked picturesque valley as equals Northern Canada and Switzerland. Thousands born and reared in California have yet to view this spectacle but with time and advertisement this wonder spot will find its place on the calander and the winter traffic with snowy scenes will be one of the best patronized resorts with an all-the-year-around registry.

The auto has accomplished much in bringing man closer to nature. Seventeen miles from Merced the paved road ends and here begins one of the finest dirt roads now under the supervision of the State Highway that takes one into the very heart of the Yosemite Valley.

JACK MONTGOMERY HAS VERY GREAT INVENTION

Jack Montgomery, well-known citizen of L. A., has, according to an article appearing in the L. A. Examiner, December 22nd, one of the greatest inventions known.

The invention will, if reports are true, supplant the motor in airplanes, the electrical generator in electreal plants, office buildings, etc.

So convincing is his invention that a closed corporation has been formed and thousands of dollars raied to start immediate operations.

For years Mr. Montgomery was one of the few Negroes enjoying lucrative employment with the Guginheimer interest, a mining concern, in Arizona and it was while there employed that he started his study in bird flights which so recently resulted in securing a basic patent of which only seven ars on record in the U. S. Patent offices.

Beginning Drivers Seldom Have Accidents

Contrary to popular belief, the beginning motorist is seldom involved in accidents, according to Harry A. Lord president of the Traffic Commission.

Police records, Mr. Lord pointed out, show that most accidents involve drivers with several years of experience, who have become so confident of their skill that they are careless of this unnecessary caution. The inexperienced driver, on the other hand, usually drives cautiously and well within the legal speed limit, thus avoiding the likelihood of accidents.

According to an analysis of traffic accidents in Los Angeles within the past year, out of 11,700 accidents, only 78 involved drivers with less than six months experience, only 96 involved driver between six months and a year's experience.

Of the other kind there were 1067 accidents where the drivers had from one to five years experience, and 397 accidents where they had operated cars for five or more years.

"These statistics prove two things," Mr. Lord said. "First, that inexperienced drivers are only slow to drive safely but also that they are conscientious and careful. Second, that experienced drivers are careless and not because of lack of the driving ...

WIN NEW TRIAL FOR THE SWIMMING POOL CASE

Daring Murder Attempt On Life Of Prominent Citizen

N. A. A. C. P. SCORES A GREAT VICTORY IN SUPERIOR COURT

JUDGE HARTLEY SHAW GRANTS NEW HEARING

The now well known and much discussed case against the Playground Commission of the city of Los Angeles took a new turn this week when Superior Court Judge Hartley Shaw granted the plaintiffs a new trial, and by so doing, temporarily at least set aside the decision which was given some time ago in the case. It will be remembered that the case was brought in opposition to certain regulations which limited the use of the swimming pools to members of our group to Monday afternoons with exception of the Vignes Street School. At the trial which lasted 10 days, and which was prosecuted by the local branch of the N. A. A. C. P. the court upheld the regulation of the Playground Commission. The N. A. A. C. P. was not satisfied with this decision and application was made for a rehearing. The result of this application was the setting aside of the former decision and the granting of a new trial as prayed for.

The N. A. A. C. P. was represented by its committee of Legal Redress: Attorney Bert McDonald who made the argument in favor of a new trial was assisted by Attorney Willis O. Tyler.

Roland Hayes Spends Christmas "At Home" On Georgia Farm

When Roland Hayes' present tour of America was booked, the tenor's first concern was to reserve the Christmas holidays for a fortnight "at home." This meant the "flatwoods" country of northwestern Georgia.

The small tenant-farming community called "Curryville," where he was born, holds cherished associations for Roland Hayes. It was here that he helped maintain the scanty acres of his mother (an ex-slave) and his family of brothers and sisters. At length, the Hayes family removed to Chattanooga, across the border in Tennessee, where the farm boy became a "hand" at an iron foundry, attending school when he could.

When he departed northwards and to Europe to become one of the greatest tenors in history, Roland Hayes cherished "home" associations in Chattanooga as well as in Curryville.

This season he saved two weeks at Christmas for the scene of his boyhood. He had not planned to sing, but when the whole of Gordon county turned out to greet him, there was no denying them. Curryville had no town hall; in fact, Calhoun had the only one in the county. Here Roland Hayes sang to a rapt audience of friends who listened for the first time in their lives to the songs of Handel and Schubert.

Another demand in the form of a telegram signed by the City Manager and Chamber of Commerce came from the citizens of "Rome," a town a score of miles from the singer's birthplace, which with its 13,000 of population had once seemed to Roland Hayes, the farmer lad, the metropolis to which "all roads lead." So Roland Hayes gave a recital in Rome which was indeed a great occasion. He also made a return appearance in Chattanooga, which town holds an opinion far more than friendly of the great tenor.

While in Chattanooga Roland Hayes visited the stove foundry where he had worked as a boy and was much pleased to find two of his former associates.

Roland Hayes Pays Tribute to the Grave of Booker T. Washington

Roland Hayes found time, during his sojourn in the South, to visit the great institute of Tuskegee, Alabama, and sing for its members. The tenor laid a wreath on the grave of Dr. Booker T. Washington.

HOW A BAD LITTLE BOY MADE GOOD

By: ROGER DIDIER
(For the Associated Negro Press)

"Monnie" they called him for short. That is to say, the girls called him "Monnie." It was soft and rather pretty. But the boys just called him plain "Mon." "Monnie" was a sure enough lively rascal, into everything, mischievous, reckless, busy—busy always. He was always playing baseball, football, pranks. He was rough. "Monnie" was even devilish.

And when "Monnie's" mother decided that the little town of Paris, Tenn., was too small to give the right sort of opportunity to her growing, ambitious son, she sent him to Memphis, where he soon became an honest-to-goodness shiek, only in those days they didn't call them shieks—they were dudes or dandies. "Monnie" was a dandy. He was wild about the girls and the girls were wild about their dandy. "Monnie" was always rough with the boys, but chivalrous beyond comparison with the girls.

Perhaps that was because of another trait that "Monnie" had. Wild about sports and fun on the outside of home, once he got inside he had a habit of reading books. He read everything, entire libraries. They say that he used to run up on home libraries and never stop reading until every book was finished. So some folk said that much of his gallantry was a bold copy of what he read. At any rate, "Monnie" could meet a girl he had known for months and just overwhelm her with courtesies and special attentions. Too, he sang and played the piano a little. He was always a talker. Sometimes he gave one-man concerts, where he would sell the tickets and be all parts of the program. His boy friends and his girl friends were wild about his parodies on the oldtime popular songs.

They all knew that "Monnie" was smart, but they never thought that he would ever be good. Why "Monnie" was just like any other boy in every way, except that he was more lively and more studious and smarter. He was no goody-goody. That's why his oldtime friends confess today that they never thought that he would ever be a preacher. "Monnie" a preacher—that devilish rascal—smart as a steel trap! "Monnie" a preacher, even though, in his own words, he was as "polite as a basket of chips," especially to old folks! That could never be.

But it is so. Today "Monnie" is a preacher, one of the most celebrated in the land. Thousands of people have listened to the word of God as years of study have revealed it to the former "bad boy." So great did "Monnie's" fame as a preacher become that they called upon him everywhere.

Of course, he is no longer "Monnie." They introduce him to you now as Dr. Johnson, Dr. Mordecai Johnson, the first Negro president of Howard University. Tennessee has its eyes on this handsome son who has made good. The boys and girls who knew "Monnie" as a boy are still young men and women, and their memory of him is still fresh. "Monnie" or Dr. Johnson is still young also, bein gscarcely more than thirty-seven. An illness caused by study aged him considerably. But he is a young fellow.

At a recent meeting in Chicago something of the old "Monnie" was seen. Dr. Johnson had just completed a formal address on the Negro's progress and problems. An elderly white clergyman rose to ask him a question.

"I have been bombed twice because I live among colored people," he explained. "My old parishioners have moved away and lost thousands of dollars in property values because of Negroes coming into the district. What shall I do?"

The question presents no difficulty for Dr. Johnson. He leaped to the answer.

"This so-called depreciation in property values," he explained, "is the result of an un-Christian state of mind. Stay where you are and by the example of your Christian life confute this erroneous assumption."

Supreme Court Ban Asked on "White Primary" Laws

(By: A. N. P.)

Washington, Jan. 2—Attorneys retained by the National Association for the Advancement of Colored People with headquarters in New York, today argued before the Supreme Court that the Texas "White Primary" law, enacted May, 1923, barring Negroes from voting in the Democratic party primaries of the State, is unconstitutional, urging that the Texas law was a violation of the 15th Amendment to the Constitution and of Sections 1979 and 2004 of the United States Statutes.

The case before the Supreme Court arose out of an action brought in the Texas courts by Dr. L. A. Nixon, of El Paso, who, being a bona fide Democrat with poll tax receipt and entitled to vote in Precinct Number 9 of El Paso County, was on July 26, 1924 barred from voting in the party primaries in pursuance with the contested Texas law of 1923. The Judge and Associate Judge of elections in that district, Messrs. C. C. Herndon and Chas. Porras, issued a certificate to Dr. Dixon confirming that they had declined to permit him to vote.

Dr. Nixon in this test case, financed by the National Association for the Advancement of Colored People, is claiming damages in the sum of $5,000. The case has come to the Supreme Court on appeal from the Federal District Court for the Western district of Texas.

The text of the contested Texas law is as follows:

"All qualified voters under the law and constitution of the State of Texas who are bona fide members of the Democratic party shall be eligible to participate in any Democratic party primary election, provided such voter complies with all laws and rules governing party primary elections; however in no event shall a Negro vote in a Democratic party primary election held in the State of Texas, and should a Negro vote in a Democratic party primary election, such ballot shall be void and election officials are herein directed to throw out such ballot and not count the same."

Fred C. Knollenberg, of El aso, retained by the National Association for the Advancement of Colored People in behalf of Dr. Nixon, argued that as Democratic party primary elections in Texas are recognized and regulated by law, casting a ballot in such an election is an act of voting within the meaning of the 15th amendment; and the immunity against discrimination on account of race or color guaranteed in that amendment, protects the Negro in his right to vote in such a primary.

Mr. Knollenberg's brief further recites:

Mr. Knollenberg's brief further recites:

"The Democratic party primary in Texas is the only real election in that State, and the general election in November is nothing more than a formal ratification of the results of the Democratic primary. The same is true to a greater or less extent in a number of other States. If such an enactment under such conditions be valid, 'government of the people, for the people and by the people,' was an idle dream, and the Fourteenth and Fifteenth Amendments to the Constitution of the United States were adopted in vain.

"In the primary from which Dr. Nixon was excluded, no race or color was barred except his. In El Paso thousands of White and of Mexicans and numbers of Chinese could, and did, legally cast their ballots; but Nixon, because of remote Ethiopian ancestry, was only a spectator."

The brief characterizes the Texas law, as "such a flagrant, unjust discrimination against a citizen solely on account of his race and color; such a brazen attempt to banish him from a party of his choice and brand him with a mark of inferiority, as an outcast unfit to exercise the privilege which other citizens enjoy of affiliating with the party of his choice and exercising the freedom of judgment in selection of officers under whom

The war in Nicaragua; the near war in Mexico, and the Base Ball Scandal have occupied the front page of the press for the week. Even the little family affair of the Chaplins, and the threatened censorship of the Chaplin films by the Mayoress of the city on Puget Sound had to occupy the second space.

Following the unequivocal declaration of policy by President Coolidge; Secretary of State, Kellog, in his appearance before the Congressional Committee, has won over to the support of Administration policies many of the Senators who were adverse in their criticism. All but Senator Borah, who dares to be a "Daniel."

—00—

Senator Borah in a speech of the "Hands Off" policy sums up the situation by saying "Inaugurate a campaign of peace; abolish the idea of force; try friendly relations; seek to establish amity, seek to get in touch with the masses, with the people themselves, and we can establish a policy in Central America which will protect our interests and respect our rights and which will do that which we are entitled to do—receive special consideration from the people." Splendid sentiments but, will they apply to the present condition?

Two years ago the California State Legislature created a Commission for the Reform of Criminal Procedure, and in its introductory statement to the report made to the 47th Legislature, comments on prevalence of crime throughout the United States and characterizes it as appalling. It says: "Human life has become so cheap, disregard for it so great, that we have a homicide rate fifty times as high as that of England. * * * No one's home is safe, for gangs of burglars always armed and ready to kill break into every habitation from the mansion to the humblest dwelling; and in our cities and towns, every morning sees the report of a long list of burglaries frequently accompanied by most atrocious acts of violence. Gunmen ply their profession of killing for profit or pleasure." A number of changes offered by the Commission will change the criminal procedure and enact for speedy trials and quick justice.

Assemblyman Frederick Roberts has been given the chairmanship of the important Building and Loan Committee and membership on the following: Education, Election, Universities, Fish and Game, Reapportionment, Public Health, Hospitals and Asylums. Roberts has fared especially well in his committee appointments and it is a signal recognition of his legislative ability. If the bill "Regulating Beauty Shops," introduced by Senator Crowley, is passed, some of the beauty doctors will find it "hard sledding."

—00—

The Johnson-Swing Boulder Dam project is receiving attention, both State and National, as essential to the development of the area traversed by the Colorado river. Congarrent resolutions memorializing the National Congress, and setting forth the benefits which will accrue, have been passed by both branches of the California Legislature. The project is an assured fact and when the waters of the Colorado are impounded adjacent land will advance to a prohibitive price. We say again, once more, to the NEGRO FARMER of the South: "Come! Bring with you Farming Intelligence and Money."

The Governor of California, C. C. Young, is bringing to his office the ripe experience of years of Legislative service and experience. His biennial budget placed before the Legislature today has been given short shrift and symbolizes strong evidence of progressive legislation. Readers may look for economies. Governor may have made few appointments. He evidently means, nonpartisanship, (intelligent administration, with discrimination which fails to name those whose only claim is the recognition of [illegible] Nation.

Judgment Awarded To Colored Property Owners

In Department 6 of the Superior Court, presided over by Hon. Wm Haslett, judgment was awarded to Mrs. Lula Turner (Colored) against Oren Bailey and A. D. Leavett (white) in the sum of Five Hundred Dollars in damages, after a trial lasting all day of the 14th inst; this being the result of an action for damages brought by Mrs. Turner against the above-named parties and others who, it was charged, maliciously and expressively invaded the home occupied by her and her family and, by means of threats and circumstances of terror, forced them to flee from property purchased and occupied as a home by Mrs. Turner. The property is located at 947 Ira street at Graham in Los Angeles County, and the attack upon which the action was predicated is alleged to have occurred on the 21st and 27th days of March, 1925.

The action was vigorously contested by Attorney F. H. Bowers who represented Mr. Leavett, the pleading and evidence disclosing that the latter was a Deputy Sheriff of Los Angeles County and a Deputy Constable of San Antonio Township at the time of the alleged occurrence. It further developed that one of the most material defendants, Oren Bailey, mysteriously disappeared shortly after the action was filed and has not been seen since. The plaintiff's attorney intimated strongly during the trial that defendant, A. D. Leavett colluded in the disappearance of defendant Oren Bailey, since the latter was not a property owner and was not solvent and a judgment against him would be worthless, it was intimated, and, by placing all the blame upon this absent defendant, Mr. Leavett would be able to escape liability.

The action was prosecuted for Mrs. Turner by Attorney Sylvester Isenberg who was directed by Judge Hazlett to prepare findings to cover damages in the above sum.

WHITES SHOULD JOIN NEGROES IN PROTEST

At the Annual Meeting of the National Association for the Advancement of Colored People, held in New York Sunday, on motion of Louis Marshall, a constitutional lawyer, the officials of the Association were authorized to write to President Coolidge protesting against the appointment of Thomas G. McLeod, retiring Governor of South Carolina, as a member of the Federal Trades Commission.

According to the Associated Press dispatch this information, "The action of the Negroes, taken at their Annual Meeting, was based on Governor McLead's alleged failure to bring to justice lynchers of the three Lowmans, South Carolina Negroes. It was charged that the Governor was derelict in public duty."

If the allegation against the Governor be true, white people should join the Negroes in making protest against the appointment. We do not know whether the charge is true or not, but it is certain that those who participated in the lynching have not yet been apprehended. And the lynching was one the most notorious lynchings of the year. It has been the subject of more comment than that of any other lynching during the past year. And yet but for the investigation made by the New York World and the courageous fight of Charlton Wright, editor of the Columbia Record, the matter would have been dropped.

Men who fail to discharge fully their public duty should not be permitted to hold office; and the higher the official and, the greater the responsibility the more quickly should action be taken. If it were the rule to oust from office governors, judges, sheriffs and others of higher commission who are inefficient or commit by in the discharge of their duties, there would be a thinning up all along the line down to the lowest in the matter of meeting their responsibilities, but as long as we are compelled in the face of such failure we may expect a continuation of lawlessness.

Author Of "Nigger Heaven" In Los Angeles

CARL Van VECHTEN, FAMOUS AUTHOR OF "NIGGER HEAVEN" AND OTHER NOVELS, IN OUR CITY

Dr. Hannibal S. Jackson of the American Institute of Arts and Letters, praises him. "He has done more in New York for the Race than any other man" says Rev. H. S. Jackson.

By Louis Michel

Ethiopians who falter and despair, believing that a better day is a long way off, have very little comprehension of the very rapid strides the second and final liberation crusade is making to secure for the Negro his ultimate and unalterable, practical equality of rights with the rest of mankind.

Carl Van Vechten's latest tragical novel "Nigger Heaven", be not afraid of the title which was adopted to secure the Southern cracker's morbid attention, which is also this great writer's best work, proves that the greatest of minds of America are taking up, one after another, the sacred cause of the battling Negro. "Firecrackers", "The Tattooed Countess", "Peter Whiffle", we gather, are not in the class with this latest work of his pen; for "Nigger Heaven has gone into it's sixth edition and is by this time pretty nearly exhausted, commented upon by the most competent critics as Mr. Van Vechten's leading production.

Negroes from Los Angeles and vicinity are asked to meet and rejoice with this author, who is now in this city, and powerfully, and sweepingly indorsed by this scholarly man in the following letter, written under date of January 12, 1927, from Washington, D. C.

"American Institute of Arts and Letters, Office of The Chancellor, Washington, D. C., Beulah Hall, Second Floor.

"Dear Brother Michel:—

"One of the most distinguished friends of the Negro in America, Carl Van Vechten, Esq., of New York, will be in Los Angeles a few days after you receive this letter. I hope that you will see that proper attention is paid him. He is acquainted with all the leaders in New York, and has done more for the Race there than any other man. I believe that he will stop at the Ambassador Hotel.

"Yours very truly,
"H. L. JACKSON,
"Chancellor, etc."

Mr. H. L. Jackson is an A. B., A. M., Ph. D., LL. D. and D. D., connoisseur of wisdom and as the Chancellor of the American Institute of Arts and Letters, promotes these three objects:—

1. To uplift literature, art, etc., in both Colored and white races, absolutely without fear or favor.
2. To award prizes, cash, badges, diplomas, degrees, medals, etc., to worthy writers, artists, etc.
3. Social relation and mutual improvement.

When a redoubtable and broad-minded man like Dr. Hannibal S. Jackson urges the race members to take note of Mr. Carl Van Vechten, brilliant novelist, let us gladly invite this famous man in these words: "Brother Van Vechten, come with us, we are very glad and proud to have you!"

ANNOUNCEMENT

Dr. W. E. B. DuBois, editor of the Crisis will visit Los Angeles on a Lecture this Spring. On February 5th he will lecture at the second Baptist Church of Los Angeles.

Dr. DuBois has lately returned from an extended trip abroad. He spent several months in Russia observing the Soviet Government and general conditions in that country.

His lecture will be for the benefit of Booker Washington and the Phillips Episcopal Chapel.

"BIG JIM" ALEXANDER VICTIM OF ASSAULT

ALL FURLONG TRACT HIGHLY INCENSED

On last Tuesday evening between 7:10 and 7:30 P. M. a dastardly attempt to assassinate James Alexander to him and for reasons which he is was undertaken by parties unknown unable to determine.

The following story was related to the Soaring Eagle by Mr. Alexander.

About 7:10 or 7:20 on Tuesday a man knocked at my door at 1443 E. 54th St. My wife answered the door and the man asked for me. I stepped to the door, my wife holding it partly open and the man engaged me in conversation about various properties on East 9th St. in the vicinity of my office. Also casually made several other side remarks about conditions in that vicinity, asking me once about the activities of Sheffield. I told him I knew nothing about what he was talking about, and became suspicious and endeavored to evade my questioner by getting away as far as convenient without making a dash, when all at once he came up from his pocket with a jerk and fired point blank missing his mark by only an eye lash and at the same moment explained I'll give you a O'Hara Henderson shuffle. I fell over and hollered "I am shot, murder." And feeling that he had hit his mark, he bolted for the gray Nash roadster which had been standing at the curb with the motor running and an occupant therein.

He describes the man as tall slender and a mulatto with a large man at the wheel of the car but could not discern his color. The bullet went through a six inch wall, hit an oak chair, was deflected in its course of 24 feet to the kitchen, and at its egress made a hole through which a man could put his fist.

The police were called and in 15 minutes time were on the scene.

Thus far no report has been made from the department.

Asked to give any possible reason why anybody should try to assassinate him Mr. Alexander replied that he did not know, excepting it resulted from a series of conversations at his office on Wall Street when a woman named O'Gara accused him of reporting operation of her house on E. 9th St. to the police, resulting in raids by the vice squad, and added that he could conceive of nothing else.

Praises Band Leader

By: E. A. DANIELS

Pages of art and science gloating over the records of the closing year, agree that along all lines California's records show success in musical art and mark the greatest page in its history approaching an epoch, never witnessed before in the west, [illegible]

Among the heroes and heroines of the air of harmonic sounds, we have in our midst, one Prof. Thomas R. LeBlanc, "Daffy" about boys, and may rightly be termed a "Modern Socrates." He is a born musician, for years a teacher of band music. Prof. LeBlanc has started more young men and boys on a successful road of music than any other Professor of band music west of the rockies. His parent-like affection and his masterly art in handling the youth intrusted to his care, have won for him fame and admiration from both parents and boys. His ability to take the smallest lad and teach him to harp on the biggest instrument is indeed marvelous, but such is true.

PROF. LeBLANC

On the eve of his New Year's tasks, Prof. LeBlanc and his boy-band extend greetings and heartfelt good wishes to all as well as friends and patrons who have helped them close one of their most successful years of music and concerts. Some of them are historical, given at St. Paul Baptist Church on two occasions; employed two weeks by the Exposition Carnival held in the White Sox Park; took a leading part both in music and the big parade at the time of the corner stone laying of the new Y. M. C. A. at which time the biggest gathering of the season was assembled.

Returning from their vacation trip from Oakland and other northern parts, crowned with success and greater determination to reach the acme of musical heights; this band of musicians has not been able to serve all wanting them, on account of their many engagements it has been impossible to serve all. Closing their year's service and entertainments they gave several dances and concerts in the spacious New Eagle Hall of the California Eagle and the High School Auditorium at Riverside.

We hope the people and music lovers will help to create a greater interest in music, help to preserve the identity of Negro musical geniuses of every kind and continue to add to the scroll in the halls of fame, such musical characters as Burleigh, Cook, Dett, Europe, Johnson, Jones and Hayes. Let Thomas R. LeBlanc and his boy-band continue to play on their instruments, the songs the angels sing and the great Southwest will hold her own with the galaxy in the panorama of musicians of the world and the California Eagle will bear the news to all parts.

Race Girl Returns From Student Conference

HAPPY OVER SPIRIT OF OPTIMISM WHICH PREVAILED

Juanita Ellsworth, popular co-ed at the University of Southern California, returned to Los Angeles several days ago after a trip to Milwaukee where, along with a group of other students, she represented her alma mater at the National Conference of Christian Associations.

Miss Ellsworth and her colleagues left Los Angeles on Christmas day and met at the conference which opened on December the 28th, over three thousand student and faculty delegates from American Colleges and Universities. Among this group were over one hundred Negro students and professors, including Dr. Mordecai Johnson, president of Howard University.

The theme of the conference was centered on Religion, Science and Race, phases of which were skillfully discussed by Dr. Johnson, Dr. Stoddard Kennedy, rector to the King of England, Reinohl Niebuhr, Kirby Page and Dr. Robert A. Millikan of the California Institute of Technology. Throughout the discussions, among leaders and student groups alike, there was a noticeable expression of a desire to reform the present chaotic conditions of the world among institutions and races. There was a definite determination which worked towards a better racial understanding and a consequent recognition of the rights and liberties of all races. Southern white students particularly indicated their profound interest in America's vital problem of race and demonstrated their disposition to effect a new social order through their program of hristian education. The students set their faces against future wars and condemned the attitude of national leaders who, directly or indirectly, were refusing to accept the conditions of peace. Nothing, it was asserted, was more menacing to the peace of men than race antagonisms which, Dr. Mordecai Johnson, in a notable address contended, were not sectional, but world wide. He maintained that the darker peoples desired and insisted upon "freedom from economic exploitation; political freedom; educational opportunities and the lifting of the stigma of inferiority. The church," he declared, "must emancipate men and enlist co-operative methods to break down the foolish berriers of race. It should not patronize."

The conference was redolent of strong spiritual enthusiasm and is not, according to Miss Ellsworth, an inadequate barometer of the hopeful outlook for which America's christian intelligence has been seking. Los Angeles is fortunate in having so capable and representative a young leader of the race selected and sent by her college to this significant covention of Christian culture and courage.

Republican Protective League In First Social

On last Thursday evening at its new home, 1710 Central Ave., The Republican Protective League was host to a de luxe gathering of its friends who turned out to its first social gathering.

A banquet fit for ye gods was served in true de luxe style, which was pronounced the best which has ever been given on the Coast.

Race Man Shareholder In Large Cleaning and Dyeing Plant

The Northside Cleaning Corporation located at 2109 Humboldt street has among its shareholders a member of our race in the person of Mr. Wm. Galberson of Palomares Ave. Some eighteen months ago he invested $1000 in the above mentioned corporation now operating successfully and valued at $130,000, and has used his influence in placing several race members in the plant. He reports the probability of placing more of us in the near future.

It may here be said that Mr. Galberson has made a splendid record in the short time he has lived among us. Six years ago he arrived in Los Angeles with very little money, and a great deal of ambition. Through persistent effort and careful management he has made for himself an enviable place in the field of his activity and certainly deserves our congratulations.

Evangelist F. G. Rodgers will preach Sunday night, January 23rd at 7:45 P. M. at the Big Gospel Tent, 20th and Central ave. on the subject of "The Beast That Was and Is Not and Yet Is." The future of the American people is greatly involved in the subject and it is hoped that every interested visitor at the tent will be on time.

The new Church at 37th and Wadsworth streets is progressing splendidly. The foundation is all finished and the cutting of the frame work started. Soon the massive walls will rise and ere long the friends of the BIG TENT will see where their gifts have gone—and for these gifts the Tent Company sends to everyone their sincere thanks. Don't forget the service Sunday night at the Tent—every minute of the service will be full of interest. Everybody made to feel at home. Come.

PASTOR TENDERS RESIGNATION AT VENICE

Rev. I. H. Wallace has pastored the First Baptist Church at Venice for fifteen months.

The church under his pastorate has experienced a tremendous success, considering circumstances. He is highly esteemed by the constituency of the great W. B. A., for his willing and efficient service, and is noted for his pupil ability.

The church is not a large one, numerically, but a great one in quality, and is an incentive to our work.

We now come to a turn in the story, the Reverend has tendered his resignation and will preach his farewell sermon on the Fifth Sunday of this month. Let us pray that the God of our hope will ere long provide a pastor for the said church and a church for the Reverend gentleman.

Newspapermen's Reception To Captain Glenn, Retired, Magnificent Success

The United Negro Press of Los Angeles scored a signal success in the Reception given by them honoring Captain W. M. Glenn, who retired with honors after serving the Los Angeles Police Department for nearly a quarter of a century. The far famed Palm Gardens of the huge Bronx Hotel was filled to capacity for the occasion.

It was indeed a fitting tribute paid to the faithful and honorable discharge of duty and each one present seemed to join in the spirit of the occasion that this was indeed an epoch making event.

Music was furnished by the famous Creole Orchestra and interspersed numbers apropriate to the occasion throughout the program of the evening. The Bronx entertainers, Miss Leslie Walton and her co-worker also sang several very entertaining numbers for which they received tumultuous applause.

THE PROGRAM

High police officials, Fire Department and Judges graced the occasion as well as a representative from his honor, Mayor George E. Cryer.

It was nigh unto 10 o'clock, when Editor Fred G. Williams of the Pacific Defender called the vast assemblage to order and introduced Editor L. H. Bass of the California Eagle as Master of Ceremonies. Mr. Bass without any ceremony proceeded to start the program a-going by calling upon Lieut Chas. Broady for an eulogistic reading of the letter composed by Lieut Jesse Kimbrough and himself upon the occasion of Capt. Glenn's retirement.

The next Speaker was by Mr. Dudley Lindsay, representing Mayor Cryer, folowing Mr Lindsay was Inspector of Police Finlayson, Captain L. L. McCleary, Fire Chief Lewis, Judge W. D. McConnell, Judge Pope, Mrs. Georgia Robinson, Rev. A. P. Shaw, Dr. H. C. Hudson, Mrs. Lulu Slaughter, Mrs. Clara Hulbert, L. G. Robinson, Lieut. W. L. Stevens (retired), Capt. W. M. Glenn, (retired), the guest of honor.

EULOGISTIC LETTER BY LT.'S JESSE KIMBROUGH AND BROADY PRESENTED ON CAPT. W. M. GLENN'S RETIREMENT

"Los Angeles Police Department, Newton Division, December 31, 1926.

"Sir—

"We feel proud in the realization that our varied dispositions and individual shortcomings, which often reached the point of impertinence, are but the natural human weakness, and not the vindictive attitude of personalities.

"A great General, in bidding farewell to his officers, upon being relieved of his command, made the following remarks, which impressed me as an open confession of a man to men.

'Gentlemen, I have passed the age of usefulness. I am soon to be laid on the shelf. I would be lying to say I welcome this day.

'I wish to thank you for your belief in me, for with this belief you have succeeded with me. Had you not believed in me, you would have succeeded in spite of me. This perhaps you did, for I have never told you I believed in you.

'Most of the time I have been unreasonably hard, utterly void of consideration, but I exacted duty as I saw it, and executed my authority without fear or personal feeling. The patience with which you served under me has borne its fruit. Collectively you have moulded and developed a great outfit. Individually you have shown a true christian spirit of forgiveness, far more than is expected of soldiers. Were it possible to live my life over, I could try another method. As it is, I must step out, and in my declining years be content with the peace of old age, or regret in the obscurity of inactivity.

'While I have never told you I believed in you, Gentlemen, for forty years I have never doubted you. For forty years I have staked my life on you.

'God held and preserve you to fulfill your oath to your flag and country.

'Gentlemen and Officers: I bid you a soldier's farewell. As your retiring Commander, I SALUTE YOU.'

"Captain, we cannot write a glowing tribute of flattering generalities. This is but a feeble effort to express our feeling of the sacredness of our oath, to God, Man, and our state. We feel that we have given you the best that is with'n us.

"The frailties of human nature are ever present, whether expressed or implied and I trust that you will judge our hearts and not our lips, our actions and not our thoughts, and remember, though we often misunderstood you, we never laid down on you. Whatever hour day or night when duty called, we answered.

"Capta'n, we have kept the faith. That sacred oath to God, Man and our state we hold inviolate. In your passing let us bid you a Policeman's farewell. As our retiring Captain and Commander, WE SALUTE YOU.

"Respectfully,
"Lieut. JESSE KIMBROUGH,
"Lieut. C. S. BROADY."

PASADENA NOTES

By:
WM. MATT SOLOMON

Dr. J. T. Whittaker's Fox Ranch

Establishing a precedence in the line of new enterprises Dr. J. T. Whittaker, the popular physician and surgeon of Pasadena, has engaged in the breeding of silver fox of the prize winning variety. The Borestone Mountain Fox of which he boasts as having an exclusive litter are ready to pelt at the age of six months, with a yearly average of four to a litter, which any fox raiser would appreciate. The Borestone Silver Fox furs retail in American and European cities at from $750 to $1500 each. The wholesale demand is most constant on New York and London markets. Dr. Whittaker is to be complimented for his new undertaking which bespeaks much for his ever quest for other fields of adventure. The Dunbar Hospital of Los Angeles is also the result of his untiring efforts to establish for his people a place of comfort during their convalescing and for those who need surgical attention. The fox business is only a side issue and with the success attendant upon his efforts thus far his fox ranch will surpass any on the Coast.

Mr. Dave Bostick Dies

After an illness covering a period of several months during which time a serious operation was performed and from which he rallied only to become the victim of a recurrance, Dave Bostick succumbed last Saturday morning. He was well known in Pasadena, having been employed at the public library prior to his sickness. He was a membed of Jewel Lodge, No. 24 F. & A. M. also a Past Master. Funeral services were held at the First A. M. E. Church, with Rev. J. M. Brown officiating. He is survived by a wife and many relatives who mourn his demise.

It is reported that two race girls engaged in fisticuffs at Pasadena High recently, so seriously, that one of the participants was forced to go to bed. But from reports the other one suffered retributive justice from the hands of her mother. It is too bad that such things must happen on the campus.

There is quite a bit of speculation with the chinamen now a-days, all players seem to use the old Chinese slogan: "Bye and bye I ketch 'em," which is a long way off sometimes.

Mr. Wm. Hicks of Glorietta street has recovered sufficiently to be out again.

Rumor has it that wedding bells will soon ring for a certain couple in the north end of Pasadena.

C. H. Frana has moved his laundry from Hammond St. to 1016 Lincoln Ave., where he can more conveniently serve his patrons. Mr. Francis has a modernly equipped hand laundry, with 3 washers, a mangel, a ringer, hot water plant and 15 ironing boards, which furnishes employment for as many people. From a small beginning he has striven hard to accomplish what he has and his work is inferior to none, all being 100 per cent hand ironed. His business is conducted on strictly standard basis, with an accurate account of all accumulations. He uses only the best materials in the cleansing of all garments. Consequently his work is unquestionably beyond any criticism. He is one of our many race men who is trying to establish a business that warrants employment for our dependent youth.

The N. N. B. Club

The last weekly meeting of the N. N. B. Club was held at the residence of Mr. Carppes Patton where a good meeting was had, owing to the fact that all members were present.

The President, Mr. Sam Moore, gave a very interesting talk on delinquency of club dues. This talk caused quite a bit of discussion. The most humorous member of the club, Mr. Clyde Reynolds, also gave a talk on certain members in the club trying to get by on their popularity. Two members were voted out of the club because of not wanting to pay club dues. In order for a man to stay in the club he must live up to the constitution. No club can rise to the top on popularity alone. It must have some financial backing.

The meeting then adjourned to the dining room where Mrs. Patten had prepared refreshments for the club. This was quite a treat.

We wonder if "Darling" J. Reese and "Lil' Ben" Benjamin have heard the famous last words: "I'll pay my dues later."

"SONNYBOY".

GLADYCE GREENAWAY

This week has been real sporty, what with Catalina swimmers, Baby Joe Gans, and what have yous. The cutie down the street says she would have gone in the "Catalina Swim" but the stake wasn't high enough.

* * * *

The dancing party of little Miss Chauncey Dudley and Elizabeth Townsend, acting as hostesses, was quite a success, altough two of the young men had to go down the street to settle a little difference of opinion.

* * * *

Mr. William Crain gave a little dancing party in connection with four other boys and entertained ten very prominent young people. Everyone had a very good time.

The Girl Reserve Basketball team will be formed next Saturday morning. The girls are very enthusiastic about having a team and we hope great things for it. Costumes are being discussed by the girls for the coming Vaudeville.

* * * *

Speaking of the grand and glorious Catalina swim it behooves us (ahem) to extend our heartiest congratulation to our Sport Editor, who was among the privileged few who watched and recorded the progress of the swimmers. Mr. Levette, ladies and gentlemen. Speaking of Mr. Levette, we would like to know where he got such a red eye. Was it from the door knob (it's always the door knob, y' know) or grease flicked into the eye by an exhausted Cat—swimmer?

* * * *

Miss Lucylle Hyson, cutie beautiful of Poly Hi, wants to know what the studios do in 7th period.

Miss Geraldine Evans, Titan-haired Jeff Stude, says she heard a wise-cracker say, "when a butterfly becomes a red-hot mama, she's a firefly."

FABLE: It's a wise soda-jerker who knows his own pop.

* * * *

The $50,000 goes this week to the goof with water on the brain—

"There was a man from Kentucket
Who had a chain and a locket,
He went to the fair
And when he got there
He had two hands in his pocket."

* * * *

Famous last words: "You may go in swimming, daughter, but take plenty of grease."

* * * *

We wish to take this opportunity to congratulate all students who will graduate this term.

Next week—"How to be a successful radio announcer" by the "One who Knows."

The Silver Lining Club met with their president, Mrs. Nell McClanahan, 810 East 33rd Street. For their social evening, entertaining the Social Few Club. A delightful luncheon was served. The hostess spared no pains in making the evening a pleasant one for those present. Guest prize was won by Mrs. Kyle; club prize by Mrs. Edna Hill.

The Entre Nous lub entertained by Mrs. Nettie Waulds, 1217 East Jefferson Street. A unique luncheon was served, which was enjoyed by all after which the club enjoyed playing whist for the afternoon. Prizes won by Mrs. Whittaker and and Mrs. Edna Hill.

SHOWER

The members of Las Vivdas Allegras Club entertained with a miscellaneous shower complimentary to Mrs. Sharpp (nee Manney), who is a recent bride.

The girls met at the residence of Mrs. Fay Bynum, and presented Mrs. Sharpp with a gift from the entire club, and while she was admiring the gift the door bell rang, and the messenger boy brought a huge box laden with individual gifts from the members. Mrs. Sharpp was surprised to the extent that words could not express her thanks. A small but dainty repast was served and each departed to their homes expressing their regret on losing such a wonderful member as Mrs. Sharpp (nee Manney).

The newly weds will leave Wednesday the 26th for Chicago where they will make their home.

COURT SOLOMON DOINGS
Ancient Order of Foresters
By: M. Denton, Jr.

Fortunate indeed was Court Solomon to have the same set of officers elected again. These very capable men, under whose leadership this order has prospered so wonderfully during the last year and who are to guide the destiny of this progressive organization during the ensuing term are:

Monroe Elgin, Chief Ranger; Chas. R. Isum, Financial Secretary; Edward L. Baker, Sub-Chief Ranger; George M. Warner, Treasurer and William Dickinson, Recording Secretary.

Too much credit cannot be given these brothers who sacrifice month to make this order the peer of all secret organizations. With this object as a goal, extensive plans are being made and new members are being initiated at practically every meeting.

Extensive plans, which, if successfully put over, will place Court Solomon second to none, not only along benevolent lines, but along social and economic lines as well. Committees are busy on several phases of this policy of advancement, and we wish for this splendid and spirited order nothing but success.

UPTON'S RAILROAD CLATTER

By Chas. L. Upton

Many Happy Returns

The Railroad Clatter this month congratulates the following porters of this district on the anniversary of their birth:

V. Tate; J. Ponder; H. A. Harvey.

* * * *

Former Platform Agent Kinney Returns

Mr. C. C. Kinney former platform agent for Pullman Co. at this district has returned to te service in te capacity of student conductor, many of the porters will remember Mr. Kinney that were in the service several years ago, starting all over again at the bottom of the ladder does not seem to make any difference to our old friend and it is fair enough to take the bitter with the sweet. We'll say he sure has had the sweet.

* * * *

After you have read your Clatter this week, turn to the sporting page and read about the wonderful swim that our friend J. Ponder made in his effort to cross Wrigley's channel last Saturday.

* * * *

Maids

The Maids have been the victims of a hard blow by the recent change in the operation of the DeLuxe Union Pacific train, on account of te Limiteds stopping at Ogden it will only require 10 regular maids; many hired this summer will either be out of work or placed on the extra list, which cannot support over two extra maids and keep them going. The change will place the following maids on the extra board: Anna Eckton, B. Hall, M. Boone, L. A. Green. M. Bradshaw, Mamie Walker and Marie Carter. The 10 regular maids are as follows: T. Upton, Mabel Ruffian, A. Haney, E. B. Jasper, Hazel Robinson, Lillian Gilmore, Ella Greer, Hazel Lewis, Magnolia Pickens and Blanche Mattison.

* * * *

Maid Alleen Matthews Retires

We have lost one of our charming maids for good and all as Miss Alleen Matthews has sent in her resignation, having seen the windy city, and every thing that is in it that was worth while seeing, the charming miss has at last decided to settle down for life in dear old sunny California, she has a red hot Ford coupe and gets 50 miles to the gallon between Los Angeles and Long Beach. Farewell, fair maid, the different crews will miss you.

* * * *

Maid C. C. Pearce Quits the Road

It must be an epidemic, or did we smell a mouse, when we got off the job, or was it the cold weather? Maybe the trips were too tiresome, or too boresome, which? Anyway, Maid C. C. Pearce makes number 2 to leave the knights of the rail. We wonder!

* * * *

Maid E. B. Jasper has requested a ninety day leave of absence. Now, Frank Jasper will not have to do his own cooking, what a pleasure and relief. Boy! I envy you.

* * * *

Maid Mamie Walker was injured in an automobile accident and is still confined to her home.

* * * *

Maid Ethel Turner who has been on the sick list at the New Bronx is now fully recovered.

* * * *

Illinois Law Effects Maids

The state of Illinois requires that any person practicing beauty culture is required to obtain certificate of registration. The expense of this registration is $15.00 including examination certificate and fees for the first year, with a renewal charge of $1 for each year thereafter. This includes marceling, and trimming of hair, as well as facial treatment, and our maids who are not registered will refrain from perfroming such work while in this state; so much for this law. As far as our maids are concerned it will have very little effect on them as they hite the state during the night, and are not permitted to do any work at night any way, so do not shed any tears over this. However, it will seriously effect the maids operating East out of Chicago.

EDITORIAL

ALL FRONT PAGE

If you read the Soaring Eagle you will discern that every page is front page space, such is the make up of its columns.

TAMING THE SHREW

We are compelled to call the attention of the parents of quite a few of our budding young men to the conduct of their off spring in public places.

It develops that many of their parents are grossly guilty of tolerance which is equal to indulgence. There is no reason in the world for this situation to exist.

In many public places signs suddenly go up and on due investigation it is found out that the conduct of the rowdy youth of the race has been the underlying cause, by their boisterous conduct and their bullying attitude when requested to desist.

Within a stone's throw of this establishment in the last few days one of our customers has been compelled to close his place of business on account of the rowdyism of these young men which drove away so many of his regular customers that he was compelled to close.

Another instance is that of the Tivola Theatre on Central Avenue. Their conduct was such that the open door was closed. Even now this same class is threatening to bring dire results at the A-Mus-U Theatre at Jefferson and Central where their rowdyism has been such as to drive away the customers. This class have, by their conduct made it almost impossible to rent any of the large dancing pavillions, and they seem bound to destroy and break up any public place where they are wont to congregate.

This situation has reached the point where drastic action is called for. If the parents of these youthful destructionists are unable to counsel them, the strong arm of the law must be called upon, and that means the jail house and rock pile. The proposition is squarely up to the parents to avoid a regrettable situation.

WOODSON FOR LIBERIA

We are strong for Lawyer George H. Woodson of Des Moines for Minister to Liberia. He is a strong character, well versed in international law, a seasoned veteran who has won his spurs. There is no man in the public life of America who is more deserving of this recognition than the distinguished barrister from the Buckeye state.

YOUR SINS WILL FIND YOU OUT

During last fall an Oakland newspaper carried a Los Angeles column and in that column there appeared from time to time scurrilous attacks upon various citizens of this community, things which were distorted and calculated to show somebody whom this correspondent disliked up in the worst possible light. This corresponden spared nobody whom he happened to dislike. The editor of the Oakland paper was entirely innocent as he never scanned his correspondent's copy, until it was called to his attention. And now it has come to light that this self same correspondent was and is now an employee of Los Angeles City and in a few days will be unfolded.

This was dastardly business, unworthy indeed of anybody with any self respect. The moral to the whole proposition of this dark midnight attempted assassination of character is that no matter how sly or secure you may think you are, your sins will find you out.

WE SECOND THE MOTION

We would suggest that the idea advocated by the "Western Outlook" published in Oakland, California, in reference to holding annually, a State Convention of the various branches of the N. A. A. C. P. is worthy of the earnest consideration of the various organizations. It can easily be visualized the vast helpfulness which a state wide organization would mean for the ideals and aims of the Association, each section of the State represented and laying down plans of action and moving as one body would mean a great deal for the onward march of the N. A. A. C. P. Therefore we second the suggestion.

DO SOMETHING

Obscure, unknown and unheralded, a young fellow but seventeen years of age, comes from the wilds of Canada, enters the contest of endurance and bests all the one hundred odd entries for swimming honors in crossing the Channel between Catalina Island and the main land. This act has over night as it were, brought to him fame and fortune. It but accentuates the proposition that to succeed there is no question but that the only way is to DO SOMETHING. The performance of this young lad is well worthy of emulation in every walk of life, pluck, grit and endurance is what counts, and with these qualities put into practical demonstration one cannot fail.

THE KNOCK OUT

We have had occasion to investigate what is known as the "Knock Out". And have found out that the two words are coined for the very laudable purpose of aiding and assisting the members of our group to concentrate upon a very feasible and profitable idea for a real beach resort. The scheme is sound as a dollar, and cannot be confounded with any of the schemes which have turned out to be night mares in the past. The "Knock Out" to our way of thinking, is the only way. If interested look up the proposition as presented by the promoters whose location can be ascertained by reading their advertisement in these columns.

NEGRO INSURANCE IN CALIFORNIA

BY: E. L. DORSEY

Life Insurance is the main artery to big business as conducted today. Slowly but surely the individual business man that has amassed great wealth, that has fostered with his limited means successful enterprises, is passing and in his stead, we have, realizing his many handicaps as an individualist, begun the formation of corporations, holding companies, insurance and loan associations, investment companies and various other forms of big business enterprises backed up, supported, and fostered by companies and groups of individuals known as investors, who, though in a majority of cases individually are poor, collectively in groups of anywhere from five to fifty or a hundred represent a galaxy of financial wealth that even in its infancy is amazing when one stops to consider the use under proper control with which it can be put to and the results to be obtained.

The Associated Negro Press is the authority for the broadcasting of an interesting article, a copy of which is appearing in the columns of the Eagle on Insurance and Negro Business.

It is indeed wonderful to know that here in this resoureeful State of California, known the world over for its wealthy resources and thrifty people that the Negro is slowly but surely taking his place in the sun of progress and that the future welfare of some 80,000 Black Americans living on these Pacific Slopes are being considered and looked after by members of the race able to visualize the vital necessity of race corporation and the pooling of finance within themselves.

Here in California as in the East, Life Insurance is leading out and the Golden State Insurance Company is playing a prominent part in putting Negro business on the map. Only 17 months old, handicapped at the start in many ways, it has weathered the storm and cleared the obstacles, and today stands with its employment of over 50 Negro men and women, with an income in excess of $90,000 for the first 17 months paying at the present time health, accident and death benefits at the rate of $25,000 a year, assisting with a heavy built up cash reserve fund many Negroes through co-operation with the Liberty Building Loan Association, to build, buy and own their homes by loaning them necessary funds on first mortgages—A monument to racial achievements, an institution that in time guided by its president and leader, Wm. Nickerson, Jr., energised by an indefatigable board of directors and competent corps of loyal workers will stand out as one of not only California's but the nation's leading racial business.

Negro Takes New Staud

There is a new spirit that is permeating and dominating the Negro investor supporting and backing financial institutions. That spirit is, one of justified confidence made so in the first place by state supervision and control, in the second place the selection and election to office of competent leaders, men and women of ability; and in the third place that spirit and pride that should and does burn in the breast of every Black American the nation over of knowing that these institutions in which they are today placing their funds are offering opportunity by giving employment to boys and girls graduating from institutions of higher learning, qualified, but in a majority of instances denied the opportunity of earning a livelihood in their chosen line. Boys and girls, our men and women of tomorrow in whose hearts and minds longs the hopes and upon whose shoulders must rest the future responsibilities of a group of people recently emerged from the channels of slavery, an infant still in the field of finance.

No longer does the fear exist of the selling out of these healthful enterprises built up with Negro labor and capital to white concerns eager to grab hold of the fruit after it has reached perfection as in the cases of several concerns, whose interest and value to the race has been lost through submersion with white interests.

Such transactions have been very dear lessons and the remaining business institutions throughout the country as well as Golden State seemingly are well protected against such repititions as last year startled the business world and for a time threatened the race's business morale.

EAGLE'S INSIDE STORY OF THE CHANNEL SWIM CONTEST

BY: HARRY LEVETTE

The frantic tooting of an auto horn at 5:00 o'clock on Saturday morning, January 15th called me to rush down stairs two at the time with clothes in hand to join my waiting friends and co-pressmen Smith and Jones. I dressed in the car as it reeled and hurtled through the damp, chill morning air so foggy as not to hardly be able to see the road. But risking life and limb we sped on, sometimes slowing down to a creep at some dark dangerous curve but headed for San Pdero to board the beautiful ship Avalon, for the day, given over to the Associated Press and due to leave for the peninsular at 6 o'clock sharp.

Arriving at the dock we pushed past the hundreds of others trying by hook or crook to get aboard the closely guarded boat. We presented our credentials, Jones and Jimmy Smith for the P. C. N. B. and yours truly for the A. N. P. and California Eagle which was strengthened by a note from Mr. Orlando Northcutt, assistant City Editor of the Evening Express. Courteously admitted, our badges pinned on, we crossed the gang plank; the lines were cast off, the little tug swung our ship down the harbor and we were off. Off to the biggest sporting event in the history of the world. Off on an errand that marked one more milestone in the recognition the Negro Press is receiving.

Aside from the fact that while our services were not vitally essential towards garnering this great news yet the truth was realized that the new Negro is interested in all the doings of the world about him, rather than merely those that directly concern his people. This was emphasized by the fact that beside we four, of the hundreds of pressmen, many of them famous writers, and editors from the world over, none of newspapers of the other races Chinese, Japanese, Spanish, etc., were representated.

The shore packed with 50,000 excited spectators, presented an impressive sight. The station for each swimmer was marked by red stakes leading to the water with number of the swimmer and flags of all nations on masts behind each swimmer. Of course our interest was centered in No. 60, which was Miss Ellen Ray of 106 W. 143rd Street, New York; and No. 36, Miss Pauline Jackson, 622 E. 230th Street, New York. These girls were colored girls and the only two entrees from the Negro race. Yet with our chests swelling with pride as we watched for them to appear at their stations, when the gun was fired for the start they had not appeared, and their places were left vacant as the other 102 swimmers entered the water. It seems strange they did not, for it should have been no more difficult for them to have reached here nor any more capital needed, than for some of the others, viz: Young, the penniless boy who won, Steppey nd Ruoff, No.'s 74 nd 86 who hd neither boat, provisions, nor managers. From the far corners of the earth they came. Wm. Jackson, No. 37, from Alabama; Vodjansky, No. 94, Portland, Ore.; Gulco Emako, No. 144, Nome, Alaska; Peter Peterson, No. 68; from Norway. A man with both legs amputated, Chas. Zimmy, No. 105, Oakland, Calif., was also one of the features of the great meet putting up a better swim than many of those with both legs, it being 5:10 in the afternoon before he had to give up from the cold. The start was made at 11:19 A. M. Ten minutes after Phillip Moore, No. 61, of 1403 Elwood Ave., Los Angeles, gave up and was pulled into his boat. From then on at short intervals until at 1:20, I radiogrammed the Eagle office that there were 18 out, all men.

Women The Hardier

The first woman to come out was Ethel Hertle No. 27, Bronx, N. Y.; then Myrtle Huddleson, Jean McKenzie, Mrs. Schoenmel, Clarabelle Barrete, until Mrs. Hauser and Martha Stager, who remained in the water 20 hours were the only ones left.

Their record averaged a remarkable fortitude against the gripping cold water, changing currents, and entangling kelp beds. An amusing situation occured when Eugene Stoppas of Boston, followed some one's advice to don a heavy suit of woolen underwear filled with grease to resist the cold and prove proof. It became heavy as lead, and he was in danger of drowning when pulled out by spectators on a pleasure boat. Interest was tense all through the night until the news finally was signalled through the darkness and Sig Abst Young, the 17 year old Canadian boy had won.

Courteous Treatment

We, who represented the Negro Press were treated with the greatest courtesy through the whole twenty hours of the trip, enjoying the entertainin dinner served on the pacific ace of the well appointed ship's wireless telegram office and lounging rooms, and had the pleasure of posing for a picture with the great Wm. Wrigley

An Historical Event And A Great Lesson

No event in the ancient games of Greece and Rome equalled that of the great Catalina Marathon; no event was, or ever will be fairer judged; no event was ever staged under more impressive settings of rugged mountains, blue rippling sea, and the ever changing tints of the sun on the great waters. Nor ever again a greater lesson in determination, perseverance, and encouragement, of each other which leads on to ultimate success in life.

Sink Or Swim In Wrigley's Channel

BY: CHAS. L. UPTON

J. PONDER, PULLMAN PORTER, ENTRY MAKES HEROIC EFFORT

The big Wrigley channel swim is now history, the winner has grabbed the $25,000 and gone about his business, old man Wrigley paid off like a fight promoter, and the public will continue to chew his gum as usual at 5c a package, but to tell the feature of the swim brings on more talk.

Some time ago when the swim was first mentioned, everybody on Central Avenue was going to enter, but toward the last you couldn't hear a murmur. The writer, together with Mr. J. L. Hill of the Angelus Funeral Home, conceived the idea to get a Pullman Porter in the race—Mr. Hill for business reasons best known to himself and the writer for the sport of it. After much clatter money and thousands of material at hand, we decided on backing J. Ponder, a Pullman Porter, now running on the "Lark."

For many reasons the trainers our entrant under cover. He was known as the "Dark Horse." It took Mr. Hill and myself three long weeks to get the great Ponder into the Municipal bathing pool; he claimed he got bit by a crab there once and was rather shy; in fact we first had to be contented with giving him his daily swim in the bath tub. So, in order that there would be no difference in the water, we hired a couple of Fords to bring water by the bucket direct from Catalina Island. This of course took up much valuable time, and as the race was drawing near, and the list of entrents gradually swelling to the hundred mark, we became uneasy. But Ponder was very obstinate, and we had to handle him with care, he held out strong for the bath tub. On account of the chilly air we were forced to operate three Layne-Bowers at full blast to prevent him from catching cold.

Three days before the race we managed ot get him in the municipal pool, and he showed us an overhand stroke that was little short of marvelous. We were jubilant and our spirits rose high the day before the race as we could see ourselves counting the $25,000 bones of the chewing gum magnate. We faked the Great Ponder a what scare he preferred to swim and he said breast. So Mr. Hill went by his undertaking establishment and got two gallons of embalming fluid.

Ah! 'Tis the morning of the race. Ponder is feeling fine. After partaking of a light breakfast of 1 chicken, 1 dozen biscuits, 5 cups of coffee, 2 slices of ham and a half a dozen eggs we set out for Catalina Island in high spirits. On the way down we passed Harry Levette, the Sports Editor for The California Eagle in a Ford and he shouted good luck to us as we sped on our way with a vision of the $25,000 grand. Mr. Hill had already planned to buy three new hearses with his share.

We landed on the island amid the cheers of thousands, and the great Ponder got out the car and raised his boyish head and snuffed the salt air. Old man Wrigley shook his hands, whether as a welcome or a fond farewell we have yet to find out. We were number 6, you no doubt seen it in the newspapers. We almost forgot to put the grease on our baby in our excitement, so Mr. Hill ran back to the car and got the embalming fluid and we greased him down, after which we escorted down to the water's edge of our starting point amid the applause of the spectators. Ponder stuck his foot in the water, and you should have heard him holler; he almost got a chill. So I pulled out a bottle of moonshine and gave him a nip, it did the work, and he took the water like a duck.

At last my story is nearing its end ending. Mr. Hill and myself followed him in a row boat. We got about five miles out, and a big barracuda bit off one of Ponder's corns; I guess he thought it was a ripe olive. It spelled doom for us, and we were hauled in at once. The 35 or 40 other entrants who were following in Ponder's wake were made sick from the embalming fluid which soon washed off in the water and had to drop out. However, in conclusion, we are very proud of the showing made by our man in the great channel swim which will go down in history, and wish to say that those who lost money by betting on our entrant, can blame it on the BARRACUDA and not Ponder. I thank you.

TIGER FLOWERS & LEO LOMSKI TO BATTLE

Great Crowd Swarming Into Wrigley Field

Tiger Flowers, recognized world middle-weight champion vs Leo Lomski, the colored Kaiserkill, 10 rounds.

With this picture in their minds the crowds are hurrying by auto, street car, train and boat to be on hand at Wrigley Field Saturday, January 15th for a fight that will be greater and more meant than any fight in the West this year. Almost equal in interest will be the semi-windup which is featured by Flowers' great middleweight.

Sammy Haines, manager of Leo Lomski, received a communication from a promoter of Alexandria, Washington, requesting to put Flowers on Lomski a preliminary affair to Lomski's bout with Tiger Flowers at Wrigley Field Saturday afternoon, 15, with the first of a series like engagements proposed. The promoter will wire Flowers to-night the best he can offer from 50 to 60 per cent of the gate receipts.

Leo Lomski who hails most recently from Portland, Ore., the stamping ground of Jack Dempsey, the champion, is a product of the Pacific Coast and has been fighting some fast men. Last night he fought a good semi-windup with Jack Thompson, the Australian, who outweighed his title to the present champion.

At present Flowers and Lomski seem on the only real contenders to Walker's title and the championship aspirations of the middleweight champion. Flowers has been trying for months to get a match with Lomski in Portland, but couldn't do so.

Promoter Sam Bullock reports a good advance sale with much in every prospect of a big crowd. Flowers will be in fine shape, as he has been working hard for the fight, and Lomski is also said to be in shape by the time he entered his ring to meet Walker.

They put in eight hard strenuous weeks Friday. Neither boxer has had an idle day since in addition to regular training each will go into the ring with a sparring partner.

The bout is of great importance to both boxers, Flowers will be in an opportunity to regain the title which he lost to Harry Greb, while Lomski will be fighting for one of the topmost titles in the middleweight division. It is hoped by the boxing fans who attended his title to the present champion.

STECHER THROWS SAUER

ATLANTA, Ga., Jan. 18.—Joe Stecher, world's heavyweight wrestling champion, defeated Pete Sauer in in two straight falls here tonight. Stecher, weighing 215 pounds, pinned Sauer, 226, to the mat for first fall in 27 minutes and 18 seconds with a body scissors. The second fall with the same crushing leg clasp required only 6 minutes and 16 seconds.

NEW PITCHER FOSTER, MAKES HIT WITH FANS

Giants Win Saturday and Sunday Games

Even the excitement of the Channel swim could not draw the crowds away from the White Sox Orchard on Saturday, January 15th, where the triumphant Philadelphia Royal Giants squared off against the determined Pirrone All-Stars. "These fellows have got to be stopped!" was the order emphatically given by the Pirrone's captain in their club house prior to the game. "They're taking the second half of the winter series, so now boys get to it!" he added, but his harangue was of no avail for here is what happened.

Cooper took the box against Wilkerson. Duncan caught for the Giants, McMullen for the Pirrone All-Stars.

Neither side scored in the first canto, but Joseph hung up a tally in the second. Along came Dixon with another in the 4th, but through Huff's good work the All-Stars copped 2 in the 5th. Mackey brought in 1 in the same inning, making it 3 to 2 when Bodie grabbed 1 in the 6th leaving it even-stephen until Harney broke it in the 9th with the winning run calling it a day with Giants 4, Pirrone's 3.

Sunday's game saw the introduction of the new pitcher Foster for the Giants. Foster of the great Rube's family showed the blood strain by pitching a great game, holding the All-Stars down to 8 hits, 12 strike-outs and with great support allowed them no runs. Foster made a great hit with the fans who gave him the glad hand all through the game. On next Sunday this fast aggregation of ball players will play a doubleheader with the White Kings. 'Tis the tasty menu the Giants cooked up for last Sunday's dish:

MONEY may be the "root of all evil", but it it also the root and foundation of most everything else.

FRIENDSHIP sometimes seems to also be governed by money. When you have it you have plenty of friends; when you haven't—well.

RELIGION seems easier to obey in its precepts, to study its teachings, to enjoy its peace, and calmness when we have the comforts that money brings.

Synopsis

A chilly November evening finds the author and our very dear friend Wheaton, a brilliant attorney, in one of our frequent celebrations at the Wheaton home. Both enjoying the warmth and cheery glow of an open hearth become reminiscent and talkative —especially our friend Wheaton, who volunteers and vouches for a story told to him by his grandfather, a slave, which, after hearing I decide to reproduce, and for lack of a name I name it "Defiance."

Death stalked about on that night everywhere. The storm was fierce. Melville Gradley (a member of an old family, the proudest of Southern blood) lay dead upstairs in the "Big House" with a bullet thru his brain, the wreck of an anemia in the cornfields Angie May, daughter of "Mammy," a wife of only a year and that night a mother, dies in the "quarters." Melville Gradley's wife also becomes a mother that night, but when the baby is brought to "Mammy" she discovers it to be dead. "Mammy" fears to tell "Missus" the dreadful calamity as she is very, very weak and worried over Melville's not returning (his death being carefully kept from her), and the shock might kill her, so she conceives the idea to switch Angie's live baby for Missus's dead one. She takes the live, crying child upstairs and places it in the arms of the little, weeping mother, then returns to the downstairs to inform Jim (Angie's husband) of his great loss. The following day Angie May is buried with her supposed baby clasped close to her bosom, cold in death.

Miss Sammantha Porter, distant relative of Mrs. Gradley ("po' relations" as they were called by the Gradley slaves) undertakes to hold up Mel Gradley's (now sixteen years) many achievements at college to her boys for emulation, which does not have a very warm reception among them.

Ethel Cartwright, beautiful daughter of Huntington Cartwright, between whose family and the Gradley's a bitter feud exists, is out riding one summer's afternoon when her pony is frightened by the discharge of a rifle and throws her in his maddened get-away from the everglades. She is helpless, cries for help, to which Mel Gradley, hunting, responds. He is very kind in assisting her home and is persistent in his daily inquiries as to her condition. During her convalescence he sends her a little hound pup which seems to take a liking to her immediately and refuses to be taken away, even snapping at Mrs. Cartwright and the servant.—This little incident tickles Ethel and she forthwith names him "Defiance."

Mel and Ethel remained friends for upwards of three years, meeting mostly on their occasional rides through the wooded country, at the Cartwright gate. On one of these occasions Mel professed his love for Ethel, while Huntington Cartwright, hidden in a thicket close by, decides to send Ethel away to Memphis to a "finishing school." Ethel finishes school with many honors. On her return Mel calls to renew their old friendship. He is met by Cartwright who informs him that Ethel is dressing but retires supposedly to inform her of his presence. Cartwright finds a letter in the library, written by Ethel, intended for a Mr. Henry Clay Hicks whom she had met in Memphis, informing him of her desire to not renew or keep up their friendship. This Cartwright returns with and offers to Mel Gradley as being a "lil' note" for him from Ethel.

(Continued from Last Issue)

Mel Gradley read the note, his hand trembled, the letters twisted themselves grotesquely before his dimming eyes; they resembled a most difficult Greek translation, that he had once mastered at school; then he looked straight at Cartwright, "Good day, sir," and turning, with head erect, walked down the steps and out of the Cartwright gates.

Melville Gradley, Jr., Gradleyville, Tenn., U. S. A.—With an unsteady hand Mel wrote the above on a hotel register in Paris.

PART IV.

Time passed quickly and events shaped themselves as rapidly. Five years had gone and still no tidings of Mel Gradley had reached Ethel. In the meanwhile Henry Hicks had become Ethel's husband. There seems no way other than this to express it. Having left "no stone unturned" to accomplish his object. Huntington Cartwright, with his insatiable thirst for liquor, had been a sore trial to Mrs. Cartwright. When Henry Hicks had annexed himself to her family, bringing with him an additional thirst, equal if not greater than that of her husband's Mrs. Cartwright had become a nervous wreck, and had finally succumbed to one of her nervous attacks.

After the first year or so after his marriage, Hicks had lapsed from the ardent, romantic lover, to a most prosaic husband. He spent a great deal of time with his friends, and when at home devoted himself to the decanter. Ethel, left a great deal to herself, found plenty of time in which to indulge her one passion—Art.

One afternoon, after a hearty dinner, Hicks walked down to the stables, riding crop in hand. He had noticed what he thought to be a quag mire on the edge of the cane brake, and had resolved to ride down and make sure. As he approached the stables, he found the large doors closed. At the side a smaller one stood open, and across the opening lay a hound. "Get up," demanded Hicks of the hound, at the same time he planted a vicious kick in the animal's ribs. The hound leaped to his feet, Hicks swung the crop and caught him over the shoulder. Before either could do further hurt, a boy ran out and collared the hound, shouting "Down D'fiance, down suh!"

Vicious brute, spluttered Hicks. He hoped that the mire was there. Things could be thrown into mire and leave no trace. If Hicks had dined heartily on ducks, Cartwright had more than consumed his share of drinks. He zigzagged across the veranda with a sort of dot and dash step, secured his coat and hat, and made his uncertain way to the stables. He muttered something about horses legs being better than his own. When mounted he chuckled to his horse: "Well ol' boy yu got me lead on." Instinctively his horse knew that the brown mare had gone to the brake, so on he trotted in that direction.

Cartwright had taken no notice of the direction but seemed from time to time to recognize familiar objects.

He seemed to see another dusk, and lying in the trampled cane a dead duck. He looked at the ground as the horse went on, and there almost under the horse's feet, another dead duck. Then a cloud seemed to envelope his path,—no he had been mistaken, there was no vapor, only a man and dog. "Good day suh" called Cartwright; then with surprise he noted the gathering dusk, "Good evenin' suh" he corrected. The man made no answer, in fact appeared not to notice him. The dog picked up one of the ducks, and the man raised his head. Cartwright nearly lost his seat. He swore an oath and drew his revolver, "Mel Gradley, he shouted, I got you" and fired. Stupidly his bleared eyes gazed at the upright figure he had called Gradley, there he stood. A cold sweat broke out on Cartwrights' face, he stood in his stirrups and emptied every chamber at the man who obstructed his path. The revolver dropped from his nerveless hand, kicking his horse and shouting he turned and plunged through the brake. Shouting like a madman and punishing his horse cruelly with his heels, he urged the animal on. Striking the clearing now thoroughly frightened, the horse reared and threw him headlong.

Cartwright lived two days longer, and in that time revealed to Ethel again and again, the secret of Melville Gradley's murder.

Jube, trimming the hedge by the arbor, could scarcely believe his eyes. He had seen Hicks coming down the gravel path, and stooped lower in order to avoid him. Hicks was disliked by the Cartwright slaves. Hicks called to a boy named Nat, whom he had brought from Memphis. Then when the boy had come, said in a low tone: "Get that old hound Defiance, and tie him well. Bring him on your leash to the arbor. I am going to give him a bath in the mire." With this remark, which he considered a joke, he struck Nat with his gloves. One glove slipped from his hand and fell on Jube's back.

MOTORS AND THEIR CARE

Efficiency in Clean Muffler

The muffler should be cleaned out at least once a year. If it is not cleaned the soot and carbon which accumulate will plug up the holes in the plates and tubes, causing the back pressure which decreases the power of the engine.

* * * *

Mending Leak in Radiator

A radiator leak so located that it cannot conveniently be mended may be plugged temporarily by the use of a thick paste made of lithage and glycerine. The heat of the radiator will cause this paste to set in in a few minutes, after which neither hot nor cold water will affect it. Lithage may be obtained from any drug store in powder form.

* * * *

To Remove Tight-Fitting Studs

When tight-fittings studs are encountered, they may be easily removed without damage to the threads. Screw two nuts on the stud and lock them together by running one nut against the other. Then by placing a wrench on the lower nut, the stud may be turned out. When it is desired to tighten the stud, the operation is in the opposite direction, with the wrench on the upper nut.

* * * *

When a "Skid" is Encountered

As a rule, skidding is not dangerous if the car is traveling at a low rate of speed and traffic on the street is not heavy. It is easy to stop a slow running car and, if the brakes do not stop it, the impact usually does little harm. Learn to control the car when it is skidding. Shift into second gear. If there is not time to shift or if, becoming confused, it is no fault of the car, steer in the direction of the skid so as to straighten out the car, if possible. As a rule, the average motorist forgets evreything and presses as hard as he can on the brake and clutch pedals. Use the brakes alone and look ahead with a view of preventing the car striking any object.

* * * *

Guard Against This Deadly Gas

With cold weather here there are additional dangers that must be guarded against by the motorist. One of these is carbon monoxide gas. It should be remembered that this gas is deadly and is rendered more dangerous by the fact that it is colorless and odorless. The gas is given off in the exhaust of the engine and every motorist should take precautions to avoid its fatal effect. It is the practice of some motoriss o "warm up" their engines in garages. When this is done the doors should be opened, as the building fill quickly with carbon monoxide gas and all persons who inhal this are affected. The exhaust of the average engine will permeat the atmosphere in a single closed garage and render it deadly in three minutes. Every year a large number of motorists die from the effects of this gas and everyone should take precautions against it. Never run an engine in a closed garage.

Four Persons Out of Every Ten Have More Than One Car

By:
CHARLES CLIETON
President National Automobile Chamber of Commerce

Nineteen Hundred and Twenty-seven will be a motor transport year.

Automobiles will be employed increasingly in every kind of transportation service. There is evidence on all sides that the motor car has advanced from the stage of being a general convenience to a point where living conditions are predicated on having this mode of travel for everyone in the family.

It might be said that 1927 will be a year of the two-car family. But that statement is too limited and does not go deep enough into the situation.

Personal Transport

The National Automobile Chamber of Commerce recently sent 25,000 queries to families in all parts of the United States taken from lists at random. Forty per cent of those who answered stated that their families owned more than one car. While the bulk of these were two-car families, some homes had three and four automobiles.

A man in Brazil, Ind., for instance, has one car for the hired men, one for his son in business, one for himself in business, and one for his wife. Many report that one car is used by the children in going to school, particularly where the family lives in a rural section. On the farm, many instances are given where one automobile is a general utility car for hauling milk and other products and the other machine is used by the family.

Foundation Stones

Bearing in mind the significance of this situation, the strong features of 1927 appear to be:

(1.) The domestic market.
(2.) The trade abroad.
(3.) The sales values of low priced.
(4.) Improved farm conditions.

History of the past ten years has shown us conclusively that the greatest guarantee of business is a large volume of motor vehicle registrations. Why are these families owning more than one car? Because the very structure of business and society is based on the assumption that every one has an automobile. Suburbs are built radiating from the towns and from the railroads on the presumption that a motor car will always be available for those living in such homes. Consequently, the wife and young people need motor transportation just as much as the wage earner of the family.

These are a few sections of the country where the transportation situation is not typical. In New York City, in downtown Chicago, in Philadelphia, to some degree in Detroit, the urgency of automobile ownership is not as pressing as in other parts of the country. Those who live in these cities must bear in mind that only 12 per cent of the automobiles are owned in cities having 500,000 population or more. And even these congested cities are showing a tendency to spread outward in their residential areas, which means additional markets for the automobile.

WORLD AUTO REGISTRATION 27,500,000

Surprising gains in the nation's registration of motor vehicles, total of paved roads and value of cars made last year are revealed in a preliminary report of the National Automobile Chamber of Commerce, received by the Automobile Club of Southern California.

It is shown that there are now 22,380,000 motor vehicles registered in the United States, with a world registration of 27,500,000. There are 80,000 busses now in operation.

With surfaced highways in the nation totalling 580,000 miles, the new year finds 2,091,324 total miles of all classes of highways in the country.

The total wholesale value of the 4,480,000 cars and trucks manufactured in 1926 was $3,068,360,000 according to the figures. Motor vehicles exported from the United States totaled 580,000 during the year. Financing on the time-payment plan was done on 64 per cent of the new cars sold last year.

BACK TALK FROM A FLIVVER

A few of the messages from the spare tire covers on a popular make of car:

THE SPEEDSTER

I'm a rip-roaring, wild-driving Bolshevik,
And the roadster I drive is some jumper,
I'm the Czar of the street, and, sturdy or weak,
You'd better watch out for my bumper.

There's nothing I fear, for I make my own laws.
The pedestrian ain't got no right
To get in my way and cause me to pause
When my Juggernaut's jumping in sight.

The jaywalking woman that waits for a car
That comes rumbling along down the street
Better stick to the sidewalk, or she'll get a jar
That'll wallop her clean off her feet.

I bump 'em and smash 'em, I maim and I kill.
My name makes the children turn pale.
I'm lusting for blood—and I'll sure have my fill
Just as long as I keep out of jail.

—00—

"I think I can make it," said father to Ann—Now the flivver's in pieces and so's her old man.

—00—

A farmer had come a long way from his farm to the little town in wet weather, and someone inquired how he had managed it.

Oh by my motor car.
What kind of a car have you?
An Oxford.
Did you never had an Oxford before.
Come, I'll show you.

The interested inquirer, following him, was shown a Ford drawn by four oxen.

—00—

One reason why cars are parked at the side of the road is because you can't drop the steering wheel on the dashboard as you could the reins.

Always rusk alongside a new and shiny car, suggests Bill Whitaker. It will back out without scraping you.

Merry Makers Win Inter-Club Football Championship

The Merry Makers won a hard-fought game from the fast N. N. B. team, Sunday, January 2nd, this final game was to decide the championship between the two leading clubs.

The stars for the Merry Makers were Everett Atmsu, held down quarterback position in the absence of "Red" Bryant all City Quarter. He executed a very brilliant game. "Buff" Wire seemed to have played everywhere, tackling running excellent interference and otherwise baffling and breaking up N. B. plays. The love touchdown was carried by "Peter Rabbit" Harper Aleman converted for the extra point.

Stars for N. N. B. were Dave Norton, c; Walter Goode, h. b.; and A. C. Burganiec, h. b. were great on the offensive and rued ground gainers.

The N. N. B's. played a great game and only lost through a misjudgment in the last half.

Y. M. C. A.

Mr. Channing H. Tobias, secretary of the National Y. M. C. A. Council, praises the work of the Los Angeles Y. M. C. A. Patrons:

"The Los Angeles building of Spanish Mission Architecture and built at a cost of $2,000,000 was opened in November, 1926. The Building Bureau of the National Council has made more thorough study concerning that building than any of the kind which the Survey has planned. Unlimited praise is being given to the architect, Mr. Paul R. Williams, for the fine work he did. It is significant that a large picture of this building as designed by Mr. Williams hangs in the display room of the Building Bureau. It is said that Mr. Williams may receive the business of several Associations on the Pacific Coast purely on the merits of the showing made in designing the Los Angeles building. All hats off to Mr. Greene and his co-laborers for sticking by the job through all these years until the dream has been realized."

In the semi-windup for six rounds Cheeney Miller, hard hitting Culver City lightweight will mix with Kid Correlli of Boyle Heights. The special event will find Ramon Lugo taking on Sailor Arabe for six rounds at 126 pounds. The four-roundups are Carlos Navia, vs. Ad Arciniege, 112 lbs.; and Teney Archer vs. Eagle Thomas, 120 pounds.

GIRLETICS

By: GLADYS METHONICAN

In answer to my column last week I received several letters asking questions about the correct apparel for certain sports. The information most desired was that pertaining to apparel for tennis and basket ball.

For tennis the full skirt is more practical for it allows perfect freedom to the player. The short sleeve blouse accompanies this so as to give the elbows free movement. As for the shoes, Ceds are most preferable because they give the right support along with a certain degree of lightness. Of course as to the "head gear" it is merely a matter of choice. The bandlan or the "visor" may be used or rather worn with equal perfection as to correctness. On a tennis party or in a tournament, the color most preferred is white.

Coming to basketball I might say that the gym suit consisting of either the gym bloomers and middie, which is worn with a tie, or the regulation gym suit are suitable. The girls teams in vogue now are wearing the "trunks" with the blouses. The trunks are similar to those worn by the boys and are very nifty indeed. With these are worn the knee caps to protect the knees and the high topped heels which add protection to the ankle, the jersey socks are worn with these.

Either one of the above mentioned apparels may be worn with considerable erectness and correctness. Either can be made up into the colors desired and have original touches.

The last mentioned with the omission of the knee caps makes an ideal track suit for girls.

I daresay that when the Sunkist Maidens get all dressed up in their sport apparel for the different athletic events they will have a nifty treat for everyone. This is where they are going to make a useful display of their club colors.

Wait! Watch for! and See!

COLORED GOLFERS

So little has been said in the press concerning our colored golf players that "it is not generally known that Los Angeles has some good Race golf players who are playing regularly on the local links and driving out some good scores. More information will be given later, but up to date the following names are of some of the best players.

Mr. L. F. Grant;
Mr. Clisby, Runner Up, City Amateur Champ;
Mr. Klug;
Mr. Hugh G. Ball;
Mr. Taylor of San Diego.

Just Bits of Life As Seen by You and Me

By: Dorothy Jean Armstrong

The Disappearance Of The Fireside

In the years gone by before the arrival of the automobile, the telephone, and other modern conveniences, the most cherished spot in the home was by the fireside. Just after dusk, when the day's work was done the family would assemble together around the fireside for a quiet evening. Father would smoke his pipe, and mother would knit while the children would amuse themselves by roasting marshmallows or playing some simple game. It was the time at which the family spent an enjoyable evening together by the fireside.

But in this modern day, and age the family finds it somewhat difficult the fireside. Dad has his smoker or t ospend a quiat evening at home by lodge meeting to attend. Mother just can't afford to miss her bridge or whist club, and junior has to attend the theatre with Johnnie next door. aMry has a dance engagement that can't be broken, and big brother John has a date with the new girl across the way. The only one left at home now to enjoy the warmth, and pleasure of the fireside is the cat, and it's getting hard to keep the cat indoors. Somehow, the dear old fireside which used to be such a cherished spot in the home seems to have lost its charms.

When you think about it seriously, and thoughtfully, the old day of family gatherings wasn't bad at all. It served as the link which held the family closer together. Each member of the family enjoyed those happy hours together, and in the after years when the children had grown up, and gone their way they had something sweet to remember.

Probably in this busy whirl of present day living we might compromise by setting aside at least one evening in each week at which time the family may spend an enjoyable evening beside the fireside in peace, and in quiet.

Los Angeles Playground And Recreation Department

Three new municipal playgrounds are in the final stages of development and nearly ready to be added to the recreation assets of the city. These comprise ten acres at Terminal Island, nearly four acres at Queen Anne and Twelfth Streets, and a site at Twenty-second Street near Central Avenue.

The Terminal Island Playground will, when finished, have a field house, two official base ball diamonds, two playground diamonds, volley, basket ball and horse shoe courts, soccer field, outdoor gymnasium and an acre for smaller children.

At Queen Anne Playground the improvements provide a community club house, handball, volley ball and horse shoe courts, playground baseball diamonds, tennis courts and a place for small childre nto play.

Central Playground has a field house, an outdoor lighted area for evening playgrounds, courts for games, an outdoor gymnasium and a small children's playfield. It is adjacent to a swimming pool opened last summer by the Los Angeles Playground and Recreation department.

An institute for the directorial staff of the Playground and Recreation Department opens Monday morning, January 17th and all persons interested in playground activities and methods, or boy and girl welfare may, if they desire, attend any of the sessions.

The institute will be held at Echo Playground club house, the periods set for Monday, January 17th, Wednesday, January 19th, Friday, January 21st; Tuesday, January 25th; and Thursday, January 27th. The themes of lectures and the topics for discussion are comprehensive of playground work.

Two hundred of the best amateur tennis players of Southern California will compete in the open city championship tournaments that begin Saturday, January 22nd, on the eight new cement courts at Griffith Park municipal playground. The contests will continue on succeeding Sundays and Saturdays until championships have been determined in men's singles women's singles, men's doubles, women's doubles, doubles and mixed doubles. Tennis enthusiasts are invited by the Los Angeles Playground and Recreation Department to witness the matches. William Tilden is expected to play an exhibition game during the finals. The playground is at the Los Feliz entrance to Griffith Park.

Special programs are being prepared at the city playgrounds for the observance of St. Valentine's Day, Lincoln's and Washington's birthdays, and Arbor day. The department of drama and pageantry is directing the varied events that are expected to attract many visitors to the municipal recreation centers.

Women and girl employes of four hundred corporations in San Pedro have been invited to Anderson Memorial recreation center Wednesday evening, January 19th. Groups are to be formed for participation in many activities, including swimming, volley ball, baseball, dramatics and social recreation, with an expert director in charge. Every Wednesday evening is to be set aside for these groups. Anderson Memorial is one of the best equipped community houses operated by the Los Angeles Playground and Recreation Department.

PACIFIC BEACH CLUB PAYS OFF TO ALL MEMBERS

MONEY BACKERS WIN NOTABLE VICTORY AS PACIFIC BEACH INVESTORS RECEIVE THEIR CHECKS FOR INVESTMENT PLUS TEN PER CENT INTEREST

It is an exceeding good taste which is now in the mouths of those who invested their money in the Pacific Beach Club proposition, when, on Tuesday and Wednesday of this week there was delivered in their hands all of the money which they had invested in the ill-fated project, plus ten per cent interest, also for all legitimate creditors who had extended credit to the Sales Organization who have or will in a short time receive every penny owed to them.

OUTSTANDING ACCOMPLISHMENT

This year indeed has been outstanding from the fact of the pyramid of venture of the sort for the last score of years this is the one instance where the people have not been duped, deserted and thugged out of their money. They failed absolutely in getting what they wanted, namely a Beach property but as it was unfolded that circumstances had arisen that the fulfillment of their hopes and dreams could not be, they are to be congratulated on getting their money back plus 10 per cent interest on the same. Yes it is true the Orange County Title Company is paying the bills out of escrow, as per agreement with the Board of Directors of the Pacific Beach Club, with Hal R. Clark the original promoter.

It's a Long Story

It will be remembered that the Pacific Beach Club was organized and started out early in 1925 for a pretentious Beach Site near Huntington Beach, with bath house, club house, dance pavilion, tents and all other accessories for a modern and up to date Beach. The plan was for 100 Charter members to hold in their name the vested title to the property when all agreements had been complied with in addition there was to be 5000 members Life and Associate with full privileges to use the beach for all time.

In fact Pacific Beach though a private club was intended for a playground on the ocean for our group forever and ever with their program in front. Attorney E. Burton Cerutti who Hal R. Clark the promoter had selected to front up for the proposition to the colored people, was elected by the Charter members as President, who with a Board of Directors consisting of Dr. S. J. Whittaker, J. T. Smith, Dr. W. R. Carter and Dr. Vada Robinson had the management of the interests of the charter members.

Things Pick Up

Despite some unforseen delays things began to pick up, a campaign was launched for Life and Associate Members, the bath house was built, a mighty bathing parade was held, more than 10,000 persons being present. The procuring of memberships however lagged. Then the dancing pavilion was erected and these two buildings was an imposing, as well as inspiring sight and just as the stage seemed set for a gigantic and successful drive for membership seemed apparent, a calamity came about which spelled the doom of Pacific Beach.

The Fire

In the fall of 1925, nearing the completion of the mammoth pavillion, early one morning fire was discovered in the new pavillion by the watchman and it spread rapidly and in a few hours the great Pacific Beach Club buildings were but ashes.

It has never been ascertained what caused the fire, but it is generally accepted that it was of an incendiary origin.

Marking Time

Just previous to the fire, at a Charter Members Meeting the Board of Directors had ben increased from five to nine with the election by the members of Dr. W. C. Gordon, Dr. Albert Bauman, Hon. Fred M. Roberts, J. B. Bass, Mrs. B. C. Offut, E. Burton Cerutti, Dr. W. R. Carter, Dr. J. T. Smith and Dr. Vada Robinson comprising the board.

The board for many weary weeks marked time, hoped against hope, that arrangements could be made for rebuilding the Beach. But each lead and every proposition vanished, not unlike the baseless fabric of a vision.

People Become Uneasy

Finally the people began to get uneasy and called for some sort of showdown from the Board of Directors. The board was marking time, trying

N. Y. World Calls Lynching "The Blot on the South"

In its leading editorial on Sunday, January 16, headed "The Blot on the South," the New York World again calls attention to the situation in Aiken, South Carolina, on which the eyes of the country are fixed as a new Governor, John G. Richards, takes office and confronts the problem of prosecuting the lynchers of the three members of the Lowman family. Quoting freely from lynching statistics and publications of the National Association for the Advancement of Colored People, to ridicule the "usual crime" excuse, the World editorial says in part:

"There is no defense for lynching to which an American State can give a moment's tolerance in the second quarter of the twentieth century. The old excuse of the 'usual crime' has always been simply bunk. There were 3,224 recorded lynchings in the United States during the thirty-year period ending 1918. Less than one-fifth of the colored men lynched were even accused of the 'usual crime.' This roster of lynchings actually included fifty colored women. The motives for lynching vary. But there can be little doubt that the principal motive in the 4,000 lynchings which are estimated to have occurred in the South since reconstruction is the desire of ignorant and savage white men to strike terror into a subordinate race struggling to rise. When the Negroes become self-assertive, these men decide that a lynching 'will take it out of them.' That is the conclusion of careful students. Gov. Dorsey of Georgia told a conference which he called in 1921, when the State in two years had witnessed 135 cases of lynching or outrageous assault:

In some Counties the Negro is being driven out as though he were a wild beast. In others he is being held as a slave. In others no Negroes remain. In only two of the 135 cases cited is the 'usual crime' involved.

The N. Y. World in its editorial also adopts the contention of the N. A. A. C. P. that agitation for and threatened enactment of the Dyer Anti-Lynching Bill helped to reduce the number of lynchings in recent years. On this point the World's editorial says:

"In 1922 there were sixty-one lynchings, a normal number. But that year the agitation for the Dyer Anti-Lynching Bill reached its height, while the South took alarm at the continued Northward migration of Negroes. The number of lynchings declined to twenty-eight in 1923 and sixteen in 1924; it remained at sixteen in 1925. This was due to the pressure of public opinion and the wide effect of the repressive measures of such Governors as Dorsey of Georgia and Morrison of North Carolina."

The World editorial is concluded with the following words:

"The worst blot on the South, the worst blot on American civilization is lynching. Is the State of Rutledge and Hayne and Calhoun going to deal with that blot as it should?"

PICKENS IN RUSSIA; WRITES ON LYNCHING FOR MOSCOW PAPERS

SAYS "FIRE IN THE FLINT," "BURSTING BONDS," "VENGEANCE OF GODS" TO BE PUBLISHED IN RUSSIAN LANGUAGE.

New York, Jan. 21—Letters have just been received by the N. A. A. C. P., 69 Fifth avenue, from William Pickens, Field Secretary of the Association, who has visited Russia on his European lecture tour.

Mr. Pickens states that he addressed an audience in Moscow including 22 Chinese generals, a number of Russian leaders and representatives of ten to twelve nations and races. The entire groupe writes Mr. Pickens, was photographed at least 50 times, motion pictures being made of the speakers in action.

Among the Russian leaders Mr. Pickens has conferred with are Kalinin, sisters of Trotzky and Lenin, and prominent editors. He reports that "The Fire in the Flint by Walter White, and "Bursting Bonds" and "The Vengeance of the Gods" by Mr. Pickens himself are to be translated into Russian, and perhaps put on the stage as well as made into motion pictures.

Mr. Pickens has written a comprehensive article on lynching during the past forty years, detailing the campaign conducted for seventeen years against this evil in America by the N. A. A. C. P. This article is to be published in newspapers in Moscow, Berlin and Paris, writes Mr. Pickens, who has also written for Russian magazines on American race problems.

New African University Opened on Gold Coast

New York, Jan. 21—The National Association for the Advancement of Colored People, 69 Fifth Avenue, learn from England that a new university has been opened at Accra for natives on the Gold Coast of Africa. Native dialects are to be systematically reduced to writing and all text books are to be both in English and the native tongue. A report sent to the N. A. A. C. P. from the Plymouth Western Morning News states:

"Careful attention is to be paid to te history, music, art, and folk-lore of the whole colony. The Government's scheme is not to Europeanize the natives and so spoil him, but to help him to advance in his own culture, to express himself in his own way, and to enable him ultimately to conduct his own affairs on lines most calculated to render him fit to assume responsibility."

A brilliant native scholar, Professor J. E. K. Aggrey, is Vice-Principal of the University. Dr. Aggrey is chief of the Fanti tribe. On the teaching staff are some 24 other native professors.

College Survey Shows Negro Benefits By Prohibition

Marshall, Texas, Jan. 20.—A recent survey made by members of the Foundation for the study of Prohibition and and the Negro at Wiley College, shows that "there is plenty of evidence that the economic, educational, and moral conditions of the Negro in Texas have been improved and more cordial race relations have been caused by prohibition.

In making the survey the jail records were analyzed, sheriffs, business men, ministers, and professional men were interviewed. Every individual supported the findings of the Foundation which also showed an increase in home ownership had been affected since prohibition went into effect, that there were less crimes and a decrease in divorces.

WHO RIDES IN "JIM CROWS" AND WHY?

WHAT DO THEY DO, AND WHAT DO THEY SAY, WITHIN AND WITHOUT? EVELYN PREER MAKES INQUIRY

By: THE ARKANSAS TRAVELER

(By A. N. P.)

Hot Springs National Park, Ark., Jan. 20.—There is genuine fascination about this location—after you are once here. Aye, there's the rub! I wonder what's wrong with Arkansas, black and white? This state is not to be sneezed at so far as Negro progress is concerned. This state has a history of Negro development that reads like a fairy tale.

During the period following the Civil War, Arkansas was a Negro paradise. There was a fine element of racial progressiveness, and interracial co-operation. Colored people were in business, big business. They once owned the street railway, you know, in Pine Bluff. They were elected to city, county and state offices. They figured in the real equation of things. They have great power in this state now, but it is underground and not overhead power.

Recently in the United States Senate, Senator Caraway, contentious and sarcastic in a marked degree, declared that Negroes are not kept from voting in Arkansas. Of course, the people here "lafted" right out in meata' in a sorta chagrinned way, because the Senator has the ups on the "publicity department" and they cannot get a hearing. But this state, like many other states, has its fingers crossed, Democrats and Republicans, on Negro voting—there's no question about that from looking at conditions right on the spot.

Governor Gets a Pullman For Friend's Friend.

When once in Hot Springs where the magnificent Woodman of Union and Pythian Bath House are located, and a finer group of Colored people with beautiful homes and glowing hospitality could be found nowhere, there is joy. But the rub is getting in. The white and colored business men and the railroads ought to hold a "get together meeting" and work out a way to treat self-respecting Negro passengers right. It would mean hundreds of thousands of dollars to this community, Little Rock, and other cities. But I know this; the streets could be paved in gold, and the bath houses lined with onyx and silver, but there are hundreds of self-respecting Colored people who will not come down here from their comfortable homes riding "Jim Crow."

It's a sad reflection on American public sentiment to think that people who have the means to pay for first-class service are denied it simply on account of color. It is silly, folly, assinine.

One of the governors of this state was asked by a big white business man to get a Pullman for a highly esteemed southern business man of color. The governor telephoned the railroad office, and got the reservation. You can "bootleg" Pullman service almost anywhere South. But isn't that a shameful condition? It is.

Business Properly Directed May Soften Conditions

John Webb has pointed toward what may help to be a solution. Last Winter a member of this staff tried to get accommodations out of Hot Springs. He was refused unless he bought a drawing room and two tickets. Returning to Chicago he brought the matter to the attention of the president of the railroad, citing the claim of the Pullman Company that they at no time order agents to refuse colored people tickets. The latter deplored it, but claimed that his road dare not brook public sentiment in Arkansas nor the law of the state, begging the question of interstate travel. A few months later the Woodmen of Union held their annual convention. Whole special trains are run into Hot Springs for this event. The railroads were vying for the business. To one great line which wanted the train from Chicago southward, the same one which had refused accommodations, Mr. Webb wrote, "See Mr. Barnett. If he O. K's, your road you can have our business." That road is now trying to improve travel for colored people. Other organizations will do well to follow suit.

Who Rides Up By The Engine?

Up North, many have asked me: "Who rides in the "Jim Crow"? The answer is men and women of all types. Bishops, school presidents, doctors, lawyers, laborers, railroad workers, babies, and growing children. On some roads, some trains, there is an entire coach, but there are many trains where the coach is divided into three parts, like Gaul: white smoker, Colored women's department and Colored smoker. On some trains they have only a half coach for all Colored, with one toilet, and they are often times crowded to suffocation, with people standing in the aisles. I have been on such quite recently.

American sentiment is compelled to change so that men and women of means and high standing in the Negro group can be permitted to have first-class accommodations. The maliciousness of segregation is the crux of the trouble. Certain whites will say: "Well if you don't want to ride by your people, why do you think we do?" That begs the question. In Chicago, New York, and other parts, there are types of hotels and restaurants. They are permitted to have their trade. But there are certain places that have no appeal because they do not furnish the service. That is true of the jim crow trains. It is not a question of pulling away; it is a question of service.

On the other hand, as long as this thing exists, churches and welfare organizations should advise the people on conduct in these jim crow trains. The Negro porters should not be so flippant. The men and women should not air their feet by pulling off their shoes. They should not yell from one end of the coach to the other and holler out the windows and laugh loud while passing through different towns. There is too much of all this. Poor whites do the same. There is sometimes drinking and profanity, but this is usually at week ends, and holiday times. The most detestable person in the world is one who is ignorant and pompous! I have seen some of these that I would like to whip soundly! Since we all have to be huddled together, each should have some regard for the other fellow's comfort and welfare. BE LADIES AND GENTLEMEN!

Miss Preer's Ridicule. The Towns Look Front

Miss Evelyn Preer, theatrical star of New York and Chicago, told me of a time when she was in a certain small town in Georgia, and that beautiful young woman was looking for her "coach".

She said: "I put on all the dignity I could summon, and my best boulevard walk, and went up to the conductor, and in a pleasant condescending way I inquired: "Sir, can you tell me where I will find the 'Jim Crow' car"? Miss Preer continued. The conductor looked at me with mixed bewilderment and indignation. I said: 'Yes, yes, the 'James Crow' car that you have reserved for colored people. He didn't know whether to tell me or swear, but he finally, half-heartedly, pointed to the place near the engine". Incidentally, from all appearances, Miss Preer could have ridden anywhere. She is not only talented and beautiful, but is able to pay her way, and is happily married to Edward Thompson, in private life. But she must ride by the engine.

When the trains pass through the "cities, towns and villages", Negroes along the roadway look first up by the engine! They know that's where they will find Colored America! When you come to think about it, it all seems like a huge joke on the common sense of the white south. I sigh with regret and laugh with pain about this whole system of so-called segregation. There is more real mingling between the races here, open and clandestine; plain, ordinary human friendships and business relationship here in the south than in the north. Slow death of the political demagogue in the south, white and black, is giving rise to a new day and a new type of citizenship that will be more just and fair.

Preacher Shot As He Leaves Church

(By A. N. P.)

Arkadelphia, Ark., Jan. 20.—As he was leaving his church Sunday night and in full view of his congregation, Reverend M. C. Counter, pastor of a rural church near here, was shot and perhaps fatally wounded. His assailant escaped and the motive of the shooting is yet a mystery. Reverend Counter is now confined in the Townsend Hospital of this city.

MALONES IN DIVORCE ACTION

ROMANCE OF WEALTHIEST RACE WOMAN WITHERS

(By A. N. P.)

St. Louis, Mo., Jan. 14.—The Malones have broken. The rumors of a rift in the domestic affairs of America's wealthiest colored woman and her husband, which for several years have been a topic of quiet discussion by all St. Louis, and at times has penetrated abroad, were brought to a focus last Thursday when Aaron A. Malone filed a divorce action here against Mrs. Annie Pope Turnbo Malone, his wife and proprietor of the famous Poro College. The case was set for next Tuesday.

Malone, in his suit which was entered by Attorney Forestoll, a celebrated white lawyer of this city who specializes in high-priced divorce cases, alleged according to his bill of complaint that his wife is "ill-tempered and naggy," and makes a demand for a half interest in Poro College, the million dollar toilet preparation concern controlled by his better half. She is represented by Attorney Charles Nagel, a leader at the St. Louis bar, and former cabinet member under President. Malone's action follows a series of sensational stories derogatory to Mrs. Malone which have been appearing in a local newspaper and which her friends charge were inspired by and in some instances actually written by Mr. Malone in order to provide a background for his court action. The papers carrying these stories have even been shipped and distributed free in other cities where she was well-known and had large business interests.

Mr. and Mrs. Malone were married in 1914 after a romance in which Malone who had been a poor school teacher and later a book agent for the Bible Encyclopedia company, won the hand of the most successful business woman whom he had known since their childhood in Quincy, Illinois, the town where both were reared. He was a bachelor with a reputation of being something of a gallant among the fairer sex and having a flair for ladies well-to-do. His bride had been twice widowed by death.

From several well-informed and authentic sources here the Associated Negro Press correspondent has been able to secure the narrative of their matrimonial adventures. For just two years, it is said, the Malones were apparently happy. Mrs. Malone had been unusually successful in her business venture and was planning the new building, now famous throughout the country as one of the outstanding institutions of the race. Mr. Malone when they married had thrown himself into the enterprise and gone to work. In 1916 on the advice of her lawyers, Mrs. Malone incorporated the business under the name of the Poro College Company. She gave him a few shares of stock and named him president. Later it is said she asked him to return the stock which he refused to do and their disagreement dates from that time. Certain incompatabilities of temperament had developed, Mr. Malone being in ill health, and while from that time on they lived under the same roof, they really were apart.

Separation threatened then but by this time, she, her benefactions and her business had loomed large in the public eye and she shrank from any public expose of their differences. Known as a friend of the needy, a patron of education, and the arts, sponsore for the Hayes Concerts, backbone of the St. Louis Orphans Home, with branch offices of her business in most of the principal cities and thousands of agents scattered all over the country who cling to her with a fealty almost filial. Mrs. Malone, who is understood to have aspired to live "as an inspiration to younger women and to serve her race" is said by her friends to have lived a life of sacrifice for ten years rather than face the sorrow and publicity attendant upon a court fight. Therefore, the public generally remained unaware of their estrangement.

One of the things people here point to concerns the building, supervising, and equipping of the new building. It required effort and business acumen. Malone's refusal to work after he lost his stock led to the employment of Rev. William H. Peek as business manager and later Prof. Joseph Evans and Edgar McDaniel joined the executive staff, the latter continuing yet as office manager. Mr. Malone it is claimed however was much in evidence and proudly signed the business and credit. Mr. Malone is also charged according to these sources with becoming jealous of Mrs. Malone and seeking to discredit her, sowing discord among the feminine employes, causing their insubordination and consequent loss of their jobs with a resultant reputation for Mrs. Malone of being "hard to get along with."

In 1924, $10,000 of Liberty Bonds disappeared from the safe to which Mr. Malone had the combination. Thereupon his allowance was cut off and as he has had no employment, Mrs. Malone's friends feel that the newspaper articles which they charge Malone inspired were the first signs that the ten grand was running low and that a bold bid was to be made for the big stakes, a half share in Poro. Last April Mr. Malone left the Poro Building and moved to the Y. M. C. A.

"I hope he gets a divorce. He has been ugly to me for years," said Mrs. Malone on her return to St. Louis, Friday, the day after he had filed suit, but I will fight to keep him from getting one penny of the money which I have labored for and earned." Many St. Louisians and members of the A. M. E. connection profess to believe Mr. Malone is mentally unbalanced. They point to his nine months' illness in 1919 when, despite their estrangement, his wife nursed him back to health and how they had hoped upon his recovery that amicable relations might be resumed. These people contend that since that time his actions have been erratic and predict that his suit if tried fairly will not line his coffers, although under the dower law of Missouri he probably will have some claim.

SAVE JOCKEY FROM LYNCHING

(By Associated Negro Press)

New Orleans, La., Jan. 24.—Press dispatches from Jennings, La., bring the information that a Negro Jockey, whose name has been omitted in the news story, narrowly escaped with his life for alleged rough-riding at the horse races at the fair grounds Christmas Day. It is alleged that the jockey, riding Dempsey, owned by Dave Spell of Opelousas crowded a white jockey too near the rail when he fell and received a broken collar bone. Alarmed by threats of the crowd, the Negro dashed to the stable where Spell, Dean Raspberry of Iota, and Will Spields, of Texas, white men, are said to have drawn pistols to protect him. They were arrested on charges of carrying concealed weapons. The Colored jockey was hurried out of town to prevent a lynching.

Former Slave Dies at Age of 115

Mrs. Weddington, who has been totally blind for the past twenty years, is survived by two sons, six grand children, and seven great grand children, who assembled around her bier at the funeral service held Wednesday.

Love Sees Old Age

(By A. N. P.)

Blackwood, N. J., Jan. 20.—Love may be blind but sure can see old Father Time. This is the philosophy of Amelio Miglon, sixty-one year old farmer of Blenheih, near here, and it explained his failure to take as his bride Fondula Verrick, seventy-five year-old housekeeper, who kept his home tidy for a year.

Miglon proposed marriage last week and was accepted. His housekeeper told him she was fifty-seven. She became conscience-stricken before the ceremony scheduled for Sunday and reversed the figures which made her seventy-five.

"She's too old for a wife," Miglon said, "but still a good housekeeper.

"I will stay as housekeeper. The woman said: 'If he thinks I am too old to be his wife, I am content to remain and keep the house clean and cook for him.'"

Pacific Beach Club Pays Off

(Continued from Page 1)

Mr. Clark and all others concerned, opportunity to come forth with some sort of solution, they even had the word of the contractor that as soon as he collected the insurance that he would proceed with the rebuilding of the Beach. On the contrary, however, when he collected the $70,000.00 insurance he put the money in his pocket and shut up like a clam.

Demand Action

The Charter members however demanded action and to demonstrate, they formed among themselves what was called a "Moaye Back" organization, they presented to the board signed requests from more than 60 per cent of the membership for the Board to act that the Charter members and all other classes of members get their money back as it became apparent that the beach proposition at this stage was impossible of fulfillment.

Causes Sharp Division in Board

There were on the board those who thought the people did not know what was best for them and would pay no heed to the cries of the charter members for relief and stubbornly contested every issue. But a majority of the board stood up for the people to the extent of overriding the president himself and accepted a proposition whereby the people would get back every penny invested and ten per cent interest.

The minority of the Board talked of a beach for posterity and highly sentimental and some of them were so rude as to say the majority had ulterior motives. This was, however, pure bunk and fallacy when stacked up against the demands of the people that the Board should act to get their money back.

The majority membership of the Board which have accepted the peoples request and are responsible by their votes for the people to get their money back are: Dr. Albert Bauman, Dr. W. C. Gordon, Hon. F. M. Roberts, Dr. W. C. Carter, and J. E. Bass.

Those who wanted the beach for posterity in all its entanglements were the President E. Burton Ceruti, Dr. J. T. Smith, Dr. Vada Robinson and Dr. B. C. Offert. We publish these names as they requested we should.

This in a nutshell is the history of the transaction which resulted in so many glad hearts this week as the unheard of happened, the people were not buncoed. They did not get what they started after, but when their dreams were about to fade out, they were taken off of that awful limb of suspense and at least got their money back.

Not One Chance in a Million

As a man with a rich wide and varied experience this writer, can conscientiously assure the people that after that fire there was not one chance in a million for the people interested to have ever come into possession of that beach. There were too many complications, the morale of the people had been shattered. There was nothing ahead excepting years possibly of endless litigation and at the end empty handed.

Providence Played a Part

It was an all wise Providence which so guided the affairs of this situation which we verily believe saved the people their money and proved that there are at least some people who are both on the level and are square.

BARNUM WAS WRONG! BEACH PROPERTY IS RIGHT!

Many years ago, P. T. Barnum made the now historical expression that there is "a fool born every minute." Maybe that may have been the case in his day, but in these modern times the present generation is instilled with the "show me" attitude. Especially is this true of the Negro race. They have been buncoed, baited, and exploited in colonization and other movements until they can only be dealt with now by the candid and clear presentation of hard business facts, which they will consider from a far-seeing, hard headed standpoint. It is a gross insult to Negro intelligence to try to put any empty schemes over them and he who tries to do it is a bigger fool than he takes them to be.

There has been a stretch of beach property containing over 2000 lots and residences which has been put on sale to colored buyers from the fact that the owners did not find the bonanza of wealth in the town where they are located, and wish to vacate. This is just the opportunity the average colored family has desired as practically all beach property except that advertised as the "Knockout" is privately owned, blocking an access to the pleasures and recreation of the seashore. Considerable secrecy was maintained at first in order to acquire a larger number of listings and to prevent the usual hiking of prices when Negro buyers attempt to buy in districts newly opened to them. There will be absolutely no friction, ill feeling or sentiment to follow the peaceful penetration that is going on rapidly. All that has been settled in the courts and Bruce's Beach will open to the public as soon as spring weather warrants the flocking of the throngs to the beach resort for boating, bathing and general seaside recreation.

Daughter Sarah Saxon, of 170 West 135th Street, member of Salem Church and one of our leading fraternal women, is convalescing in Harlem Hospital.

Mr. Walter M. Wright of Philadelphia, Pa., has opened a regalia and fraternal supply shop at 2257 7th Ave inc. Mr. Wright is one of the young at 32nd degree Masons in the United States. He expects to take the 33rd degree, Scottish Rite, next year.

Mr. Louis Billoups, financial secretary of Unique Council No. 182 Brooklyn, N. Y.; president of the Officers Council No. 1, N. Y., sends greetings to all members and councils in the West.

Miss Velma Bell has left for a three weeks' visit in Staunton, Va.

Among the out of town guests at the Hotel Dumas are Prof. C. J. Woodson of Washington, D. C., well known writer of Negro history; Mr. William Miller of Richmond, Va.; Mr. C. M. Malachi, Chicago, Ill.; Mr. George F. Potts of Harrisburg, Pa., is here to attend the automobile show.

Capital Palace Club, Lenox Ave. 139th and 140th Sts., was opened may 27, 1922, under the executive committee, Mr. John D. Powell Chairman; Mr. Herbert Johnson, managing director; H. R. Weaver, publicity manager; Casslo G. Norwood, secretary; Bob Dean, charge d' affairs.

The Capital Palace Club is known as the pioneer of modern night clubs and has been the stepping stone of our foremost performers. It is noted for its lively atmosphere and hospitality of its personnel.

Lloyd Scott and his orchestra of Springfield, Ohio, have just completed a very successful engagement of several months.

Cliff Jackson and his Krazy Kats, one of the hottest 8-piece combinations in the East, will succeed Scott's Band. The entertainers, Miss Lizzie Miles, Flea Grey and Jackie Brown, help to keep things lively with their snappy songs and dances. Mr. Powell is one of the best known men in Harlem.

Mr. H. R. Weaver of Boston, Mass., has served as seargeant in the Fighting 15th and as second lieutenant in the famous Buffaloes (367th) Regiment. As publicity manager it is his duty to plan and advertise special attractions for the club.

Mr. Vanderzee, of 102 West 135th St., is still taking face at the above address, and has been for the past ten years, sends greetings to relatives and friends of California.

New York City has been selected to entertain the Grand Lodge and convention of the I. B. P. O. E. of W. in August, 1927.

B. F. Keith Theatres gave a benefit performance, and many other colored organizations, for the unfortunate widows and orphans Launch Linseed King disaster; $15,000 has been subscribed to the fund.

The ladies of the Police Reserves were recently entertained at a dinner given at Tabbs' Restaurant, and newly decorated grill room. The captain, (white) of the 16th Police Precinct and a major were the guests of honor. (Y. M. C. A.)

The Plan and Scope Committee of the West 135th St. Branch will hold a special meeting Sunday afternoon at 4 p. m. at the Y. M. C. A. A program will be given as follows: Harry H. Pace, master of ceremonies, singing by the group, led by the executive secretary; Scripture reading, Rev. Richard Bolden; soprano solo, Mme. Lulu Robinson Jones; short talks by Messrs. John C. Nail, Wm. H. Austin, Henry C. Parker and Allen L. Dingle; violin solo, Malcolm C. Cotton, Walter E. Baker accompanist.

This Branch was organized in 1907, at 53rd St. Moved uptown to its new building in 1918, West 134th St. near 7th Ave. Its present membership is 1,297, employed force of 28.

Mr. Harry C. Parker, chairman board of managers; Mr. Thomas E. Taylor, executive secretary.

Tabb's Restaurant and newly decorated grill, 540 Lenox Ave., corner of 140th St., is ranking as one of the leading institutions in New York City. The staircase is adorned with small mirrors, hand paintings of Turkish harems, brass railings and stair casings. The side walls are of golden designs and golden archways, the floor is covered with grey padded Brussels carpet.

The salon has an old-fashioned fireplace and a grandeur of str paintings of Italian sceneries, Roman style, and a sun-set, draped ceiling. The rich tapestries of the chairs contrasting with the lily white table cloths, and richly polished floors produce rather a pleasant effect and charming appearance.

The scenery is a marbel of grandeur and beauty.

A long distance radio furnishes entertainment, tuning from coast to coast.

The beautiful and sanitary kitchen from which the meals are served represents, in every sense of the word, the determination of this institution to equal any other of its kind in this country. Their motto is quality meals, popular prices and efficient service. Special arrangements are made for banquets, dinners and luncheons at short notice.

Mr. Tabbs has recently served 650 officers and enlisted men of the 142nd St. Armory by special arrangements.

Mr. T. C. Tabb, proprietor; Mr. L. O. Robertson, night manager.

PASADENA NOTES

By:
WM. MATT SOLOMON

A Mrs. Sherman of Hammond and Westgate was found dead in her home Saturday, supposedly from an attack of heart trouble. Funeral services were held from Metropolitan Church of which she was a member.

Miss Bertha Miller of South Fair Oaks Avenue gave a dinner party last Thursday complimentary to Mr. Harold Brown who left to attend school in Oakland, California, while there he will stay with his brother Merrill.

Paul Ford, the only one of our group in the light weight basket ball team of Pasadena High School, will accompany the team to San Diego where they are contestants in a hot line-up with the Southern High School. Ford is a star forward in the light weights, besides qualifying as varsity in foot ball and track work. He is one among the few of our boys who are making athletics worth while during his schooling.

Mrs. Anna Woods of 87 S. Vernon Avenue, entertained Sunday afternoon at a six course dinner honoring Rev. and Mrs. Botts of Omaha, Neb.; Rev. and Mrs. Carter; and Mrs. Dr. Thompson of Detroit. Other guests were Mrs. Brown, Mr. and Mrs. Corry, Mr. and Mrs. Gilmore.

Abram Lodge No. 24 conferred the first degree on several candidates last Tuesday evening at their hall, 107 S. Fair Oak Avenue. These are the first candidates to be initiated under W. M. Harold Nelson, the youngest Master in the State.

Rev. J. M. Brown returned Saturday morning from San Diego where he conducted a series of meetings for Rev. J. W. Price.

Rev. Venerable of Detroit is in Pasadena for the winter.

Mr. and Mrs. Hicks wish to thank the many friends who have been so wonderfully kind to them during his illness. He has rallied sufficiently to be out again but not quite strong enough to resume his position.

It is hoped that the race people will rally to the support of the N. A. A. C. P. which is beginning its year's work. The conditions that confront the citizens of Pasadena cannot be handled by individuals, but requires a solid phalanx, and the longer we put off action the less able we are to combat the opposition. An underhanded devil is steadily working in Pasadena, and is gradually being felt, so it is time for some kind of action.

Dr. Cwich, noted for his health lectures gave the last of a series on last Tuesday night at Friendship Baptist Church.

Rev. J. W. Price and wife are up from San Diego. Rev. Price will assist Rev. J. M. Brown of the First A. M. E. Church in a revival effort for two weeks.

The men of Pasadena have been invited by Rev. B. J. Gordon of Scott's Chapel to hear Atty. H. McBeth in a special lecture in the hall now used by Scott's Chapel parishioners during their temporary location at 85 Dayton Avenue on the evening of January 31st.

As a result of the revival meeting at Friendship conducted by Dr. Botts more than 20 persons were baptized on last Friday evening by Pastor Carter.

The fourth Sunday in February is the day set apart by the officers of the C. M. E. Church when the doors of their new church now in the course of erection, will be open for dedication. The church is being built at Glorietta and Kirkwood streets in a locality which surroundings are very inviting for a church edifice. Rev. G. L. Hays is the pastor of this parish, whose membership is growing rapidly.

THE SILVER FOXES ARE UP TO SOMETHING

A lot of tip-toeing around the den, a lot of sniffing at the moonlit air, a lot of wiggling of long ears, gives out the hint that the Silver Foxes are up to something. Sly rascals! But whatever it is, the burg will hear it in a few days for the Foxes always startle the cock-eyed world when they come out with something new. They have a very new and very live Fox also in the person of Dr. Hugh Bell.

Retiring Carolina Governor Condemns Lynching

(By A. N. P.)

Columbia, S. C., Jan. 20.—In his farewell message to the State Legislature, Wednesday, Thomas G. McLeod, retiring governor of South Carolina, proposed the following declaration from every individual assuming office:

"I have not since the ——— day of ——— taken part in a lynching as principal, accessory, or otherwise, and I will not during the term of office to which I have been elected or appointed take part in a lynching as principal, accessory or otherwise."

The retiring governor's message further decried lynching and referred particularly the lynching of the Lowman's some months ago. McLeod termed this crime as "This horrible and uncalled for murder." He reviewed the steps that had been taken to bring the murderers to justice and defended his action in not calling a special term of court to thrash out the matter, claiming that it was not within his power to do so, but urged the speedy trial of the lynchers, declaring:

"I earnestly hope that law-abiding citizens will back up the prosecution; that the jurors will have the courage to do their duty; that the perpetrators of this horrible crime may be brought to the bar of justice and dealt with as they deserve."

Governor elect Richards has been silent as to whether he will do anything to activate the prosecution of the lynchers if indicted. It is, however, reported that he has not responded to W. W. Rogers, who has had charge of the Aiken investigation, as one of the constables.

Negro Lawyer to Defend Englishman

(By A. N. P.)

Toronto, Ontario, Cana., Jan. 21—Attorney E. Lionel Cross, formerly of New York, and now solicitor for the Rationalist Society of Canada, is representing Ernest V. Storry, a self-confessed atheist, charged with uttering blasphemous, indecent, and profane libel of and concerning the holy scripture and the Christian religion. This case is arousing world-wide interest, as Storry, who is an Englishman by birth, was taken into custody under a provision of the criminal statutes which has been invoked on only two other occasions in the history of British law.

GLADYCE GREENAWAY

Our Radio announcer wants to know how seals keep warm.

Heard at the Channel swim—
"You're all wet—drink this life preserver."
"Put the blinkers on him, here comes a lady." (Now is that nice?)
"Island Traffic Cop—Keep going all the grease has melted off. No parking here."

Famous last words: "I don't graduate this term, Mother."

We ask the Judge to give the pest 20 years who says, "I don't file by nails. I just cut them and throw them away."

Wouldn't is be nice if the girls had a nice "Y" like the young men and wouldn't have to go all thru that bunch of taxi drivers, hangers on, riff-raff or what have you, at 12th and Central? 'Struth.

Walter Gregory of L. A. High says anytme you feel devil-cay-carish, drink a bottle—of soda pop.

Well good-bye, till we meet again, as the salt said to the pepper.

We take our pen in hand altho we haven't much to say. This week is taken up with the graduates and parties given for them. Commencement night was January 20th. On the 27th, the graduates danced at the Santa Monica Ball Room. Ha, Ha! They are rising in this world already.

A very pleasant musical afternoon was spent last Sunday at the home of Miss Lilah Bartae; Messrs. Haven Johnson, Dewey Johnson and Harold Forsyth rendering several selections. Haven played and sang "When day is done" very beautifully, while Dewey sang several popular songs as only he can sing them. Harold played several of his own compositions, while we played the victrola.

We wish to congratulate the Silver Foxes for admitting into their ranks our esteemed fellow citizen (hm-m-m) Dr. Hugh Bell, youthful dentist. We know that Dr. Bell will be a great asset to the Foxes, and will shine at all their affairs.

We would like to know where John Pedigrew was last Sunday? Anyone knowing the desired info. please cable us.

Speaking of composers, we would like to say here that Otis Rene (dash after the last "e") has just completed some very fetching songs and we know they will go over big. We wonder if Rene (dash, etc.) will buy us an all day sucker when the royalties begin rolling in?

UPTON'S RAILROAD CLATTER

By Chas. L. Upton

The Ra'lroad Clatter wishes to congratulate the following Porters on the anniversary of their birth during the month of February:
E. James, No. 2 and H. Isaac.

* * *

The pulling power of an ordinary railroad engine equals that of nine hundred horses. Moral: a hint to the wise is sufficient.

Travel Heavy to Los Angeles

Travel continues to be heavy on all three of the transcontinental railroads, The Santa Fe has been coming in in four and five sections; Union Pacific in two and three and the Southern Pacific the same. All travel aparently is headed this way. The Santa Fe has been running their overflow equipment intact deadhead back to the windy city. A call was sent out here from the main office to D. H. Maids back at once to handle travel coming West, no one seems to be grumbling over deadheading all the way back to Chicago as they are only too glad to get the rest after worrying with such heavy loads coming this way. Los Angeles Maids are crying for joy at being able to get one more glimpse at the famous windy city, since they have only been running as far as Ogden, they had put Chicago down in their books as a sweet past memory never to be forgotten.

* * *

Lire Twenty-eight Carries Famous People

For many years, all you could hear in this district was, "The Lark." This man came in on the "Lark" and that man came in on the "Lark," in fact, it seemed that everybody that was anybody came in on the "Lark." In all of this confusion and comment a line which is the most dreaded line in this district was also coming in for a great share of famous people, this line is number twenty-eight, the all night grind to San Diego. In the past week or so such noted people as Babe Ruth, Gertrude Ederle, King Baggott the great moving picture director, Jack Dempsey former heavyweight title holder, Commander Richard E. Byrd, in fact on line twenty-eight the boys have hauled just about everybody that is anybody with the exception of Geo. Young nd Amee McPherson. So Mr. W. J. Logan, Wm. Asbury, please do not let me hear any more of this "Lark."

* * *

Don't forget to go to the Pullman Porters Dance, 233 Broadway, Feb. 11.

* * *

A. L. Brookins in Red Ink on Fight

Kid Brookins has just about given up trying to pick a winner. The Santa Fe boys have been looking for him with a club for the last few days. Brooks led his boys up to the betting ring and put it all on Tiger Flowers; it was his plan to get even for the fight Baby Joe Gans put up against Brown. He showed the boys where they could not lose on the "Tiger," but the referee threw the fat in the fire for Brooks, when he shouted from the ringside—"It had to be you." Now Brooks is hard to catch, and says NEVER AGAIN.

* * *

Santa Fe Red Caps to Get Passes

A rumor is out that all Santa Fe red caps having worked ten years for that company will be given Coast line annual passes, and fifteen years or over will be given annual passes over the entire system. This is some good news for the boys. Now they have got something to look forward to.

Many of the Santa Fe Red Caps have purchased tickets for the coming event: The Pullman Porters Dance on February 11 at 233 South Broadway. Music by Black and Tan.

* * *

Union Pacific Dope

A very pleasing surprise was given the Union Pacific boys when they were informed that the dinners would be pooled on the Los Angeles De Lux and the Gold Coast Limiteds, which allows the crews to make a long trip and a short one to Ogden. This change has been a life saver for the waiters who were stuck on The De Lux as the earnings of this train as far as they were concerned barely paid for their laundry.

Lawrence Cloyd, the Beau Brummel Buffet Porter is on a leave of absence.

Charlie McKinney has again severed his connections with the U. P., this time he will be found on the Golden State Limited.

Handsome Jenkins is now with the C. & N. W., that is, his name is on the payroll, but his heart is with the U. P.

Fred Nevills has been reinstated after an absence of six months.

California Jack was seen at the Tiger Flowers fight last week, we do not know how he got in, but he was there.

Joe Rakestraw is still the class of the U. P. crews and continues to drink his coffee strong.

* * *

Pillow Slips

That red hot Pullman Porters Dance at Music Art Hall, February 11th.

* * *

Mr. J. L. Arthur, Supt. Pullman Co., Los Angeles says, he will call a service meeting four times a year, beginning on the 28th and 29th of this month. If this be the case he has a let to entertain at the next meeting as up to date there are many good suggestions, which were made at the last meeting called that have not yet been adopted. Yes, we will welcome another meeting.

* * *

The boys are now going through their daily dozen at the doctor's office and this time it is on Hill street. Let's hope it will be better than last year.

* * *

C. H. Washington was forced to go up to the office to get his cap which a conductor took for revenge and spit.

* * *

James Tate of St. Louis, Mo., is planning on transferring to this district permanently.

* * *

The running time between Los Angeles and Seattle will be cut down to two nights each way and of course this will call for more bumping.

* * *

The following Maids were reported making trips to Chicago last week: Blanche Mattison, Magnolia Pickens, Hazel Robinson, Ethel Turner and Tennie Upton.

* * *

J. Ponder, the famous Catalina Channel Swimmer will be at the Pullman Porters Dance, Feb. 11, at the Music Art Hall.

I am told that the boys on "Lark" are really singing the blues about running around.

* * *

J. C. Taylor is an old man's darling, last trip on his way back from Seattle they put an old man 100 years old in his charge.

* * *

Everybody who is anybody will be at the Pullman Porters Dance, Feb. 11. Be somebody and come.

* * *

J. L. Sykes is still sick at his home, also J. B. Minter.

* * *

Commander R. E. Bird, the man who took an airplane to the North Pole, came down on the San Diego Owl last week and did not fail to ask the porter for an extra blanket. How come?

* * *

The writer is of the opinion that every knock is a boost for his column so do not stop, keep knocking.

* * *

Have you caught pullman conductor Kennie yet?

* * *

I am told that Vernon Tate has a new car, fair enough.

* * *

What porter was it that went into a San Francisco lunch room and demanded chittlins last week?

SAMSON REVIVED

And God clave a hollow that was in the jaw and there came water thereout; and when he had drunk his spirit came again, and he revived. Judges 15:19.

Poor Samson, we both admire him and pity him. But we glory in him then for his life typifies the life of the most of us in its essential features; and his early and final victories thru the Spirit despite human frailty give courage to those who are not Pharisees, but poor publicans,—Zacchaeuses.

Samson had been in battle with the Philistines. They hadn't treated him right about his wife. Conflict had smitten the Philistines "hip and thigh."

Now they have come to renew the battle. The devil never gives up. He parts for a little season, nurses his wounds and plots his revenge and plans his campaign. Just as well watch. Back he'll come directly.

Samson's cowardly people delivered him to the Philistines. Their craven souls forsook the man who was fighting their battles. But God was with him. And that means a lot, I tell you. He was under special covenant with God, and when he needed help the Holy Ghost came upon him. Oh that ministry of the Spirit! Happy, mighty, victorious is the man or woman or child who has the Spirit's help.

Samson "lit into" the Philistines with the green jawbone of an ass and soon had a thousand of them lying "heaps upon heaps."

Now we see that even though we have the help of God, the flesh grows weary under strenuous conflict. Samson had gained a great victory by the Spirit but he had exhausted the natural powers of the man, and a great thirst seized him.

But his battle had been in a dry land. There was no water for miles. The heat was intense. Samson's soul fainted. His spirit failed. It seemed he must die. But where must he look for help to the God he was serving, or to the one whose battles he was fighting.

Now God never fails us when we fight the fight of faith. And behold the miracle of help. Samson had snatched up the green jawbone of an ass as a weapon. Now exhausted and thirsty, he still held the bloody thing that had broken a thousand skulls in his hand. And just as he thought he must die a hollow place burst in the thing and it began to pour out pure, cool, refreshing water. And Samson drank, and so to speak, became a new man.

The Word of God

Now that jawbone represented the word of God. Some people do not value God's word any more than a Philistine would have regarded the jawbone of an ass. To them it has no power, no value, no nourishment—just a disagreeable thing.

But to the believer the word of God is all powerful and precious. It is not alone his weapon of defense, it is his source of refreshment. Drink, O my friend. There is a cloven place for you. Some tell us that the place cloven was in the valley, named for the jawbone. That God created a new spring there. Maybe. But we'll stick to the dear old word here as translated. It is a great lesson. God can help us from the most unlikely sources. Is your life dry? Have you got a Bible in your house? Does it look dry and useless to you? Well, it is full of life. Streams of living water flow through it. Drink and be revived and live and go on and fight more battles for God. He drank and revived, no use of water if you won't drink it. Drink and live. Amen!

God can help anywhere, anyhow. Let us learn a lesson of faith. He is not limited. Praise His name.

NEW YEAR A NEW DEAL

With a New Year and as Time progresses and a better understanding is unfolded to us, all people are due the results gained in reaching this period. At this moment we have in mind the black spot on the East Side consisting of a Jim Crow Swimming pool. It is unjust, unfair and unlawful and not wanted by either group of citizens which reside in this section. We are in complete harmony with the march of progress of our City Administration, save and except this diabolical situation. We are now calling upon the powers that be to remove this blot for it is not wanted. With this request complied with and equality of opportunity for all, we will indeed have a City Administration which no one can help but praise.

A MIRACLE

The paying off of its members and creditors for all the money they had invested with ten per cent interest by the Pacific Beach Club promoters is indeed a high spot in promotion. Take if you will, all similar propositions promoted by or for our group, and in the memory of man, you will not find **one of them** which was made good, nor did they pay back to their investors one red cent.

We sincerely believe these conditions obtained because the management of these concerns were for themselves or their individual ideas about the situation, without taking in account the interests of the people. Therefore it is reassuring indeed that a majority of the Board of Directors of the Pacific Beach Club at all times kept their ears to the grass roots and looked out for the interest of the members and this brought about the miracle.

Youth Fatally Injured

(By A. N. P.)

Raleigh, N. C., Jan. 20.—Eugene Powell was fatally injured Saturday afternoon when he was struck by an automobile driven by H. O. Slink, a Lexington white man. Slink, who is held under a $500 bond, declares that the accident was unavoidable as the boy was riding on the rear of a wagon and suddenly jumped from the vehicle, and ran in front of his machine.

The weekly meeting of the N. N. B. Club was held at the home of Mr. Clyde Thompson, Watts. As usual we had a very snappy meeting. All clubs are interested in some kind of sport. After a hard fought football season we are interested in track. We are the champions of last year and we are out to repeat.

We have played for the championship of football and lost. To the victors we are giving a dance in their honor at the Humming Bird. Friday nite, Feb. 11, 1927. Admission 50c. Come one, come all! We assure you a good time.

"SONNYBOY"

Ministers Appoint Committee To Co-operate With N. A. A. C. P.

Another block in the structural fabric of the great work of the local powerful branch of the N. A. A. C. P. in doing was laid on Monday, January 24, at the Y. M. C. A.

This was the appointment by the Ministers Interdenominational Alliance of a committee to work with the Association. It is a well known and patent fact that the splendid body of ministers who lead the church bodies here have a power in the community, both by example and teachings, so it is a great achievement on the part of the local branch of the N. A. A. C. P. to be able to enlist their support in the noble cause.

This was brought about by Dr. Claude Hudson, than whom no more conscientious, self-sacrificing and hard striving worker ever struggled for the common good. Though one of the city's leading dentists, with well equipped offices at 843 Central Ave., he finds time some how to direct the activities of the local branch, of which he is president. He has been successful in welding all factions, together, regardless of color, and is to be congratulated upon the work he has done for the cause in spite of the demands his large and growing practice make upon his time. The eloquent statement of conditions in Los Angeles and his appeal to the Ministers Alliance has brought them into the fight, and with these staunch soldiers the battle is half won.

MME P. ERLYNE OSBORNE HAS HIGH POSITION WITH WALKER CO.

Opens Big College in Chicago

Word comes to this publication from Chicago that Mme. P. Erlyne Osborne, national representative of the Mme. Walker Mfg. Co., has opened a great Beauty College there on January 18. She will be remembered in local dramatic, musical and religious circles as the talented and versatile woman who visted here a year ago in recitals incidental to the Walker "Round the World" contest. She has gradually been promoted in the Walker Co. until she occupies the laudable position she now holds.

Among the other cities in which she has opened and thoroughly equipped colleges of beauty culture is a large one at Kansas City, Mo., which has proven a great success. She is accompanied on her tours of organization by Mrs. Marjorie Joyner, national instructor.

HUDKINS vs. ALGERS AND AMATEUR TOURNEY—OLYMPIC AUD.

WASN'T THAT A MIGHTY DAY?

The Slaughter of the "Kings" by the Giants!

Rah! Rah! Rah! Harney, Rah! Rah! Rah! Foster, Rah! Rah! Everybody, yelled Mack House, the California Bear, the Coast's prize light heavy, who is also cheer leader of the "White Sox Rooters" who sit in the right hand stands and make "Rome howl" when a hero appears, whether he is one of the Giants or whether he is an innocent bystander whom they happen to know. But they were not the only ones cheering. It seemed that the whole world was cheering for the Giants strutted still further out in front by taking a double-header away from the White Kings "Puzzle Ball" Harney pitched the first game, with a score of 4 to 0 in favor of the Giants; Willie Foster pitched the second. Both games ended in shut-outs but the figures tell the story of the second stanza, the boys really played ball.

Negro Baseball Magnates Meet Behind Closed Doors

(By A. N. P.)

Detroit, Mich., Jan. 21.—Representatives of the National Negro Baseball League and the Eastern League met here this week. The public and newspaper men were not permitted to attend any of the sessions of the conference. The Eastern League was fully represented, but only five cities in the National League had delegates present.

It is understand that little is the way of preparing for the oncoming season was done, and that several more conferences will be necessary before any action can be taken by ball clubs. One meeting is scheduled for the 27th in St. Louis, Mo.

In the absence of Rube Foster, president of the National League, Dr. J. B. Keyes of St. Louis, vice-president, officiated, Foster, who is now confined in a hospital, will continue as president until death or a re-election. According to the league constitution, he cannot be removed on account of his present disability.

"Bodidle!" the original Bodidle, God's gift to the amusement world! This versatile entertainer will help vastly in giving the patrons an evening of joy and pleasure with newest songs, dances and witty sayings. Mr. Curtis Carpentier, the Garden Manager is all smiles at his return.

UPPERCUTS AND BLOCKS

By: HARRY LEVETTE

Harry Levette

Speaking of upper-cuts, who at the Flowers-Lomski fight couldn't see those four, five or six upper-cuts that the Deacon zipped up under Lomski's chin every time he got in close.

Speaking of referees,—Jesse James had a horse!

Mixed bouts draw the biggest crowds the country over. Are the promoters going to allow schemers and palm-greasers to kill the "goose that lays the golden egg?"

In rounds 4, 5 and 6 Flowers landed 46 clean blows to Lomski's 25. And that's the way the points averaged all through the fight.

Baby Joe Gans tore out of church Sunday morning when Rev. Shaw was going to call on him to speak. Baby says he may run from public speaking but he won't run from his opponent in the ring. By the way, that boy is a regular church attendant.

Poor old Sam Langford! He made fortunes for others, now a benefit has to be raised that he may live the balance of his sightless years in a little comfort.

Billy McClain Challenges Middleweight World For Phil Jackson

The following letter was received from the office of the McClain Theatre in Buffalo:

Buffalo, New York,
January 9, 1927.

To The Sports Editor:

Billy McClain, proprietor of the McClain Theater Building, 376-78-80 William St., Buffalo, N. Y., has taken on the management of Phil Jackson, middleweight boxer and would like to sign him up with the topnotchers, namely: Langford; Callahan; Allentown; Joe Gans. Bill says he don't want nay set-up. If he can fight I will know it and if he can't then the managers and the public will know it and we will then know just exactly how to rate him.

Billy McClain will be remembered by his seven years' management of Sam McVea and his promoting of the Sam Langford and McVea contest in England, Paris, Australia and also in America. He is also the man who awarded the Diamond studded belt for the Colored heavyweight championship in Tulsa, Oklahoma on August 4, 1919 and which was won by Sam Langford.

SECRETARY.

Colored Golfers

Now with a new Municipal Golf links to be laid out by the city, it is expected that increased interest will be aroused in the ranks of the local golfers. So far little interest has been taken by the women, but some of the men have been shooting good scores. To the uninitiated golf language is a mystery, but the procedure of the game in to drive the ball from hole to hole with as few strokes as possible. If be least natural number of strokes is 76 for a nine hole course. Various obstacles are in the way to make the drives difficult such as sandpaper traps, water hazards etc., which makes progress from the tee off to the last hole a series of ever arising unexpected incidents which makes the sport of the nationally popular game. Local golfers who frequently shoot are Mr. Cissby, also Mr. L. G. Grant and brothers.

Ham Jenkins and Vernon Jackson are working every day with Mickey Walker at the Main Street Gym.

Charley Long gets a return match with Harmas. He says he will be careful this time.

THE AFTERMATH OF THE FLOWERS-LOMSKI FIGHT

The last cheer had echoed from the lofty grandstands of Wrigley Field; the last of the thousands of cars had whirled from their parking places out into the boulevards; the last of the still more thousands of pedestrians had climbed on sides, tops, and rear ends of the long line of street cars; night had fallen and in a both at the Entertainers Cafe on 12th St. near Central avenue, sat a man alone. All alone—with his head on his hands and now and then brushing something from his eyes. Was it a tear? Perhaps so, perhaps not; but the figure was as much a picture of dejection as that of Napoleon after the Battle of Wterloo.

It was "Tiger" Flowers on the evening following his great battle with Leo Lomski on January 22nd. All alone; the man who in July as Middleweight Champion of the World had drawn such a crowd to the Union Station that a cordon of police could not keep the cheering crowd from nearly crushing him and his wife and child. But such is fame, so as we sat across from him to shake his hand and congratulate him on his great fight we more fully realized the greatness of the man and fact that he is a real gentleman. Not a word of malice against those who had robbed him of the decision he had earned or at least the credit to a draw but only these words:

"Well, I guess it's all right. I have tried to live right, and done my best, so if people don't appreciate it and don't want to give me a fair deal I think I will just quit the game and go back home to Atlanta. I will be hard to find then, for I will be up in the hills hunting rabbits and squirrels for I really love to hunt."

Such is Tiger Flowers. Fighter, family man, trustee of his church.

Up to January 22nd betting odds along Spring street and Central avenue, barometers of the boxing sentiment, odds had been laid at 10 to 7, 7 to 5, even 2 to 1 that Flowers would win. Before 10,000 people Flowers had fought a game fight dropping Lomski to his knee twice and outpointing him all the way, yet the crowd and even the majority of the Sports Writers had the surprise of their lives to see Lomski's hand raised at the end of the thrilling encounter.

Walk Miller, manager of Flowers, was unable to account for it but he had learned that Harry Lee the referee was the same one who would not concede Baby Joe Gans a draw after putting up such a great fight against Joe (Kid) Brown. There is something under cover about the matter and this is what Mr. Miller said:

"There seems to be a determination to discredit the good colored boys, all over the country, so they have just got to go in and win away out in front. I believe Jack Kearns had a hand in this just as he did in the Mickey Walker decision as he wants to avo'd giving us the promised return match in New York at the opening of the Yankee Stadium."

So saying, he, Billy Miller, Flowers and Bob Lawson, who did win "away out in front," boarded the train and left for Denver, thence to Atlanta.

MARY JANE, THE GOOSE

A new arrival in town is Mary Jane. There are Janes and Janes, but this particular one is a goose which is pictured above, drawing a wagon down the streets of Oklahoma City, Okla. The driver is Dr. Luckett, owner and trainer of this famous goose for 25 years, during which time he has exhibited him in all the leading theatres of the United States. He (the goose is really a gander) has also played in several moving pictures and would have been given a prominent part in Hal Roach's new Comedy now making save for the fact that Farina's little sister being afraid of the goose would not play with it. The wonderful bird with almost human intelligence drinks from a bottle, eats at the table, makes love, and struts arm in arm with his goose-mate, counts up figures, reads A. B. C.'s, and sings in better tone than many human beings can do. He will be seen soon at a local theatre.

Along Fisticuffs Row

Young Jack Thompson is hitting the road every morning getting in great shape for the fights lined up for him. Jack is in great shape now and is going to clean up as he goes.

Baby Joe Gans has the choice of several good bouts. He did wale Brown but now he would rather trim Jackie Fields as Fields carried Brown to the discard.

Vic Alexander only lost a decision to Tony Fuente by a close margin at Fresno January 20th.

Young Sam Langford had a bad break in losing on a foul to Frankie Tierney in the semi to the Fields-Brown match Tuesday at Vernon. It was not intentional and he was winning all the way.

Manhattan Gym had Lomski drawing big crowds all the last two weeks. Young Harry Wills, Whitey Black, Langford and Long all work out there.

Main Street A. C. stages the snappiest fights every Saturday night on their usual bill, that can be found in many miles. Their bouts are always fast and decisive and pulled to capacity crowds.

Tiger Flowers beat Leo Anderson at Denver, Colo., Tuesday night.

"Y" Basket Ball League Now in Third Week

Fight! Fight! It would have gladdened the heart of an ancient gladiator to have seen those four well-matched teams of fast, strong, enthusastic boys play those two thrilling games of basketball at the well-appointed gym of the new 28th St. "Y." A capacity crowd received the treat of their lives to see the close hard fought first game between the Y. M. D's. and College Tramps and the clever, zippy second game between the Flashes and the Eagles. Everybody was good on both teams but Corey and Clark for the Y. M. D's., Hill and Taylor for the Tramps, Colley and Lewis for the Flashes and Johnson and Gladden for the Eagles made outstanding plays that brought cheers from the crowd and see-sawed the scores up and down.

Saturday, January 29th will see the usual games begin at 8:00 P. M. with interest growing greater each week. Below is the tally sheet:

They are stopping at the Bronx Hotel. The personnel of this Quartette is: Wm. A. Hann; Geo. Jones, Jr.; Eddie C. Caldwell and Mr. Graden.

Dust from the Campus

By: TOMMY MYLES

There wasn't much dust from the Campus last week. The reason being there was no college life, just plain, honest-to-goodness school days. The college spirit at this time has been surplanted by hard study in preparation for the final exams. Study hard Collegian lest you become a "funky."

Athleticsally speaking, we might mention the names of a few of the boys. At the Southern Branch, Grant Vanzeable retains his place with the Varsity as a valuable quarter miler; Rolf Bunche, stellar basketballer is on the injured list. Those freshmen who are doped to make a place are continuing to make excellent progress. Newell Eason and Al. Johnson are almost dead cinches to make the boxing team. Eason just recently having polished off two opponents in excellent style. Good boy, this fellow Eason, but should take his time, learn more about his business and keep a level head. Kenneth Levy and Gil. Allen are raising plenty dust on the track and should make the team. Levy excelling in both the 100 and 220 yard dashes, while Allan sprints the hundred and broad-jumps remarkably.

U. S. C. still has Brice Taylor on the track team. Good for points in the hundred and broad-jump.

The Trojans have a new comer in R. Prowel, an excellent 440-yard man. Other than that, there "ain't" no news.

The Institute of Tech Fellows have appointed Mr. Chas. Martin as Director of Athletic activities. He has been directed to procure a suitable place to hold the various coming events. The playground commission will be approached in regards to determining whether Jefferson High Campus can be used for the Clubs.

Who said amateur athletics were non-profitable? Witness the activities of the N. N. B. and Merry Markers Clubs. One gives a dance "The Champion inter-club football team, honoring the vanquished, while the other, praising the victors, gives one to that effect, displaying excellent sportsman and and showman-ship. That swells the gate and brings in the "Bucks."

GIRLETICS

By: GLADYS METHONICAN

Gladys Methonicaan

Letters are coming in quite rapidly now, asking questions pertaining to girls' sports, training, costumes, diet, etc. Below is a paragraph quoted from one of them.

Los Angeles, California.
Dear Girletics

Editor: I am very much interested in swimming and although I have not learned many of the fundamentals of it, I expect to soon. Therefore, I am writing to find out what is the most practical suit to start learning in. Thanking you in advance, I remain,

I. N. C.

Evidently the writer of the above letter signing her name I. N. C. has not been reading the newspapers which were filled with accounts of the suits to be worn in the Channel marathon. It seems that the suit of grease was the most practical as well as the most popular. Concerning this there was a great deal more comment concerning the swimmers who swam in grease only, than was justified. After all if you think evil, you see evil. Those women and men who swam as above mentioned had only the desire to win, and wished to be unhampered by clothes, and it has been reported by those who were on the island for the start, that the spectators, tense with the greatness of the event, and anxiety as to its outcome, paid no more attention to the suitless swimmers than to those who wore everything possible to wear.

In learning to swim though, Dear Readers, the first thing to acquire is confidence. Overcome fear of the water by becoming accustomed to it. Start in water only waist deep. Attach a rope to something solid at the side of the pool or whatever body of water you start learning in, then holding to it with first one hand then the other push the body out into a horizontal position on the surface of the water. It will soon become evident that the body does not sink as easily as it would be imagined. This is just a preliminary lesson. From time to time we will give instruction in the various strokes—breast, trudgeon, Australian and American crawl, back stroke, floating, etc. Every girl should learn to swim, for the advantage of the exercise in appearance and strength as well as the confidence of being able to save themselves or others in time of danger. Then too, it is one line of athletics in which they are absolutely equal if not better than the men.

What Price Glory at the "Tiger" Flowers-Leo Lomski Fight

BY: CHAS. L. UPTON

Through the courtesy of the boss, Mr. J. H. Ross and his Sports Editor, Harry Levette, I had the nerve to occupy a ringside seat at the "Tiger" Flowers-Leo Lomski fight. Of course that was not all that were fighting that day, there were many other fights in different parts of the grand stand which commanded quite a little attention. But the Flowers handicap is what the writer was invited to see. I say handicap because it seems as if our fighters are put in that position by these Los Angeles unbelievers more especially this age who called Lomski a hero! Saturday.

The place was packed, and after looking 'em over I settled down and considered myself glad I was living. Everybody was praying for the Deacon to win; I was praying for the sun to come out, but a north wind came up instead, which took all the joy out of life for me and reminded me that summer time was the time for B. V. D's. and not Wrigley's ball park in January. However, I pulled my muffler around my neck and proceeded to see what I could see, and lo and behold I seen Sheffield in the bleachers. Just then the bell sounded and it was "every cub."

I now speak of the racas between Bob Lawson and Marvin Shector, navy heavyweight. Poor boy, I guess he thought it was a heavy sea after Bob Lawson got four or five good punches into him. He came in the ring chewing, naturally I thought it was some of Mr. Wrigley's famous, but when Bob brought one up from the floor I seen the referee pick up Mr. Shector's false molars and put them in his pocket—don't dispute me, didn't I have a ringside seat? He lasted just long enough to get the Alabama Bear warmed up, after which he got tired of playing with him and put him out in the 3rd round. So far, so good, just at that particular minute another fight started in the grandstand but I lost track of Sheffield and do not know whether he took 'em down or not.

FLOWERS ENTERS THE RING

I seen everybody raise up and look over toward the North-west corner of the park, and the "Tiger" bobbed up out of his lair from this direction. Everyone cheered him except the man in front of me and I found out later that he was from Aberdeen. Lomski followed and this same lumberjack almost fell out of his chair. Just then another fight started directly behind the home plate; things are becoming interesting. I stumbled over to the grandstand to get some matches and who should I see but J. Ponder, but that's nothing unusual, he's from Georgia and had a perfect right to come; Johnny Moore was seen trying squeeze between the iron bars. I guess he made it all right; Billy King was also a spectator along with C. E. Lair, California Jack and others. Pullman conductor Hatch was heavy on Flowers. The referee called them to the center of the ring and gave them instructions and the bell rang. Oh, boy! it was just the bad freja then until the finish which spelled doom for a flock of pullman porters, a gang of S. P. waiters—Brooks and his gang and the writer. When the referee raised Lomski's hand I thought of course they had changed the rules in boxing, and that in this particular instance it was a token of defeat, but they wouldn't pay off on my argument so I will try to shist on again and rob for the balance of this month. Yes, Bo! and the balance of the month, if money has anything to do with it.

BIG FIGHT FOR TUESDAY

Tuesday night, February 1st, the good guessing Joe Levy has another treat for the patrons of the splendid arena in Bear Cat Ace Hudkins against Billy Alger. Prophetic of the crowds that will swarm out to see him was shown in the throng that met him at the station with a jazz band on his arrival. Ace fought here last as a light weight and won the hearts of the fans by his ripping, slashing method of attack. He will not have it all to himself though for Billy Alger has the goods and will be ready to drop him for a loss of his laurels at the first opportunity. The rest of the bill is up to the usual Olympic standard.

February 2nd and 3rd will see over thirty bouts for the Pacific Coast A. A. U. boxing championship titles in eight classics. They will be held under the auspices of the L. A. A. C. and each will be brisk snappy events that wil bring out new talent.

Synopsis

Death stalked about on that night everywhere. The storm was fierce. Melville Gradley (a member of an old family, the proudest of Southern blood) lay dead upstairs in the "Big House" with a bullet thru his brain, the work of an assassin in the earthquake. Angie May, daughter of "Mammy," a wife of only a year and that night a mother, dies in the "quarters." Melville Gradley's wife also becomes a mother that night, but when the baby is brought to "Mammy" she discovers it to be dead. "Mammy" fears to tell "Missus" the dreadful calamity as she is very, very weak and worried over Melville's not returning (his death being carefully kept from her), and the shock might kill her, so she conceives the idea to switch Angie's live baby for Missus's dead one. She takes the live, crying child upstairs and places it in the arms of the little, weeping mother, then returns to the downstairs to inform Jim (Angie's husband) of his great loss. The following day Angie May is buried with her supposed baby clasped close to her bosom cold in death.

Ethel Cartwright, beautiful daughter of Huntington Cartwright, between whose family and the Gradley's a bitter feud exists, is out riding one summer's afternoon when her pony is frightened by the discharge of a rifle and throws her in his maddened get-away from the everglades. She is helpless, cries for help, to which Mel Gradley, hunting, responds. He is very kind in assisting her home and is persistent in his daily inquiries as to her condition. During her convalescence he sends her a little hound pup which seems to take a liking to her immediately and refuses to be taken away, even snapping at Mrs. Cartwright and the servant—This little incident tickles Ethel and she forthwith names him "Defiance."

Mel and Ethel remained friends for upwards of three years, meeting mostly, on their occasional rides, through the wooded country, at the Cartwright gate. On one of these occasion Mel professed his love for Ethel, while Huntington Cartwright hidden in a thicket close by, decides to send Ethel away to Memphis to a "finishing school." * * * * Ethel finishes school with many honors. On her return Mel calls to renew their old friendship. He is met by Cartwright who informs him that Ethel is dressing but retires supposedly to inform her of his presence. Cartwright finds a letter in the library, written by Ethel, intended for a Mr. Henry Clay Hicks whom she had met in Memphis, informing him of her desire to not renew or keep up their friendship. This, Cartwright returns with and offers to Mel Gradley as being a "lil' note" for him from Ethel.
as being a "lil' note" for him from Ethel. The shock was terrible; he bade Cartwright good-day and a couple weeks later registers in Paris.

Five years pass with Ethel wondering all the while where Mel Gradley could be. She finally consents to marry Henry Hicks for family peace. Hicks takes to drinking heavily and so does Cartwright. On one of their numerous drink sprees Cartwright is thrown from his horse and dies two days later. Hicks, who dislikes Defiance for his viciousness, orders the boy to carry him to the quagmire, intending to lose him there. Jube, stooped below a low hedge, hears everything. While here a glove slips from Hick's hand and falls on Jube's back.

(Continued From Last Issue)

* * * * * Jube had early learned to pray, and pray he did until Hicks' footsteps had died away. Then for one of his years, and in his crippled condition, he made it rapidly to the stables. Nat, who had taken his time, arrived somewhat later, and found the brown hound tied in a stall. Hicks had arrived at the swamp and dismissed Nat. Defiance had seemed strangely subdued, no doubt owing to the fact that he was bound and helpless. As the mire began to do its deadly work, Hicks eyes met those of the hound, he glanced nervously about, where had he seen such an expression before? Then he had remembered that some years before, he and a party of friends had been drinking together, when a number of mounted men had ridden up in search of a runaway slave.

Hicks and his friends eager for the chase, had joined them. Hicks being well mounted had been one of the first to close in on the man, at the edge of the swamp. The slave had turned and seeing his pursuers upon him, and the hounds not far behind, had leaped into the mire. Hicks riding up found the runaway to his armpits, in the ooze, into his eyes had been that expression, so like this hound's, and Hicks drawing his revolver had shot him through the head. Hicks had then turned to the party and said he had fixed the slave for cheating the crowd of its vengeance. The recollection of this incident had been rather unpleasant. The swamp seemed filled with strange noises. The hound whined in terror, as he slowly sank deeper into the mire. Then came prolonged howls. Again and again those penetrating howls resounded through the swamp. Hicks cursed himself aloud. What a fool he had been not to have had the beast gagged as well as bound. Somehow he hadn't calculated on all this noise. Defiance hadn't howled before, neither from his kick or blow. Someone might hear the noise and come to investigate. Hicks reached for his revolver, he felt that he must stop the noise, but he was unarmed. Finally the hound's head had disappeared, and the last black bubble burst from the ooze. Again the lying black surface of the mire was quite smooth, hiding in its treacherous bosom this new tragedy and no man knew how many real ones. With a shudder Hicks turned and hastened from the swamp. He hurried on through the clearing in the brake. Then as he grew more nervous broke into a run. Glancing to the right he saw the cane waver and bend, heard a rustling and cracking, that made his spine creep, and scalp tingle. Something came on crashing through the brake. It froze the blood in Hick's veins. Great beads of sweat stood out on his face, he trembled in every limb, he stopped. Defiance leaped from the cane into the clearing. Hicks turned and ran again in the direction from which he had so recently fled.

Defiance, having sighted his quarry, bayed aloud. Then Hicks knew that it was no specter that stalked him but Defiance in the flesh, Defiance whose long, sharp teeth would tear his throat to shreds. Fear weighted his feet, yet on he ran, stumbling, his heart pounded his ribs with a hollow sound, his breath came in gasping sobs, and there the swamp was just ahead. Once more he turned, for the fraction of a second and saw Defiance. The hound's blood-shot eyes gleaned like live coals, his red tongue lolled from the side of his open mouth, his black jaws dripping, steam arose from his sweating body and his hot breath was upon Hicks, who plunged headlong into the mire.

When the fever had taken its toll, and Mammy had made her dying confession to Jim, and Jim, in his turn had confessed Mel Gradley's parentage to a fellow slave and died, Samantha Porter had come to the Gradley mansion, to comfort Mrs. Gradley in her dying hour. When the Gradley will had been read, it was a settled fact that "Miss Samantha" had ceased to be "po' relashun."

Mel Gradley arose from one of the tables in the well crowded room. The little maitre-d'hôtel slipped up, rubbing his dry hands together, inquired in broken English if he could be of further service to Monsieur. Having assured him that there was nothing more required, Mel stepped out into the warm, sweet twilight. He must see the artist that evening, the picture in the art rooms had so attracted him. A golden-haired girl on a spotted pony.

* * * * * * * *

"Again we see the Gradley mansion open," remarked an old settler. Mel Gradley had married Mrs. Henry Clay Hicks, in Paris. They had come to the old Gradley mansion, to spend their honeymoon. No one had been more pleased than Samantha Porter. It was she who had welcomed them home. It was said that years later, one could have found her in the pink and blue chamber upstairs, which had been turned into a nursery, or in the orchard, or on the veranda, still praising Mel Gradley. Relating his many scholastic achievements to his five-year old son, Melville Gradley III.

TO REMOVE SPEED TRAP BANE

L. A. ATTORNEY BRINGS CHARGES AGAINST MORGAN HILL AND JUDGE OF CITY

Small towns along the State highways of California may have to watch their step in fining motorists if the test case now in the courts is decided against the town of Morgan Hill, in the northern part of the State.

Frequently complaints reach the Automobile Club of Southern California and other motoring organizations regarding small towns preying on motorists and using tourists as a source of community revenue. This was one reason for abolishing speed traps in the State.

LOCAL ATTORNEY

The test case that will be watched with interest by motorists all over the State was brought by George L. Sanders, a Los Angeles attorney, against Judge John C. Lewis of the Recorder's Court of Morgan Hill, and against the town of Morgan Hill. He asks the Superior Court for a writ of prohibition to quash what he claims was an illegal action against him on an unknown traffic charge in the Morgan Hill court. He also asks $250 damages for the time he had to spend in Morgan Hill and $500 for each 400-mile visit he has to make to Morgan Hill from Los Angeles during litigation over the case. The trial in Morgan Hill is suspended until the trial of the writ, which is set for the 28th inst.

Relative to the charges against Sanders, Judge Lewis is quoted in a San Jose paper as declaring the case "as a part of a big plot on the part of some Southern California persons to fight the small towns of the north and that Sanders was nothing more than an undercover agent in this movement."

MISUSES LAW

Whatever the outcome of the test case, it is holding the interest of motorists generally, since there have been frequent charges against the small towns that have made arrests of drivers "for revenue only." In past investigations it has developed in some communities that traffic officers were compelled to make arrests enough to insure collection of fines sufficient to pay their own salaries and the expenses of the court. This practice, it is contended, is remote from the intent of the motor vehicle law, and so long as indiscriminate fining of motorists for revenue is permitted, it will tend to break down the entire structure of the California Vehicle Act.

AUTO INSURANCE LAW HELD HELP

Boston, Jan. 24—Does the Massachusetts compulsory automobile liability insurance law, which went into effect the 1st inst., encourage reckless driving?

According to Wesley E. Monk, State Commissioner of Insurance, it does not. Under the present law two swords hang over the head of the reckless driver: the power of the office of the registrar of motor vehicles to revoke licenses, and the insurance companies, which will find reckless driving sufficient cause for refusing the insurance necessary for registration.

Moreover, reckless driving will add to the risk of insurance companies and will result in higher insurance rates. In order to keep insurance rates down, says Commissioner Monk, operators will not only be careful in the future, they will also report all cases of reckless driving in order to protect their own interests.

Accident prevention goes hand in hand with compulsory insurance and one of the most valuable results of the new law will be the mass of statistical information regarding the causes of accidents.

New Traffic Regulations

It has long been the established rule that the rights of pedestrians and operators of vehicles to the use of the public highways are reciprocal, each user being charged with a degree of care according to all the circumstances of its use.

With the acute condition of traffic congestion in the large cities comes a need for a change in the old rule. There are times when, and places where, pedestrians should be allowed the use of the highway to the exclusion of all vehicles, and also there are times when and places where vehicles should be allowed the use of the highway to the exclusion of pedestrians.

The City Council of this city has recognized this need and has made a sincere attempt to supply it by creating pedestrian cross-walks and by requiring pedestrians to wait or move according to signals for the control of vehicular traffic.

Two kinds of crosswalks are mentioned in the ordinance, marked and unmarked. In the marked crosswalks, outside of the central traffic district, the pedestrian is given the right of way, and it is unlawful for the operator of any vehicle to drive into any such marked crosswalk while there is in it, upon the half of roadway on which the vehicle is traveling, any pedestrian engaged in crossing the roadway, until such pedestrian has passed beyond the path of such vehicle.

DALLAS, TEXAS, SEGREGATION DEFEATED ON BASIS OF LOUISVILLE CASE OF 1917

NEW YORK, Jan. 26—The National Association for the Advancement of Colored People, 69 Fifth Avenue, has received from J. W. Rice of the Dallas Express, a report showing that on the basis of the victory against segregation by city ordinance or state law, won by the N. A. A. C. P. before the Supreme Court in the Louisville Case of 1917, a segregation ordinance recently enacted by the City of Dallas, Texas, has been declared unconstitutional by the Texas Fifth Court of Civil Appeals.

This makes the third city segregation ordinance within the last year to be outlawed on the basis of the Louisville victory of ten years ago, the other two victories having been won in Norfolk and Indianapolis. Still another case hinging on the Louisville decision has arisen in New Orleans, and is pending before the Supreme Court.

The case according to the Dallas Express, arose from the desire of a white corporation "to open up a new addition for Negroes in a district which, heretofore, by a joint agreement, according to report, has been designated as white."

According to report, the City of Dallas intends to carry the case before the U. S. Supreme Court.

Mr. Rice in his letter to the N. A. A. C. P. adds::

"Three years prior to the present case," reports Mr. Rice, "a case involving this issue arose in a section of the city presumably Negro but declared white at the instance of white property owners. A Negro was tried and fined and a group of Negroes at once raised $1,500 for defense and employed attorneys. City officials never brought the case to trial and the tenant-owner forced to move.

"It might be of interest to the Association to know that another attempt is being made to draft a state-wide segregation ordinance and the representatives are being approached for their views on the question. The measure is one in five which have to do with city planning. It appears likely to raise a formidable question which will be state-wide in its extent."

Commenting on the above report, James Weldon Johnson, Secretary of the N. A. A. C. P. said: "The National Office will follow these developments closely. Meantime, it becomes more and more clear that in establishing the precedent laid down ten years ago through the Louisville Case, the N. A. A. C. P. created a weapon which can be effectively used by colored people in any city or state to defeat segregation enactments."

Los Angeles Leads Negro Voters

The meeting of the Men's Writers Club next to the last meeting was Lillian Mumey, presumably to meet a girl friend, she was passing thru. After all the members had gathered they were ushered into the spacious dining room where place cards in form of hearts, marked places for fifteen girls, each couple having a verse on it and to the surprise of the girls the following verse was also on them: Mrs. Lillian Mumey to Eldridge Sharpp.

Mr. Sharpp, however, was the girl that was passing thru. A delicious repast was served by the hostess after which cards were enjoyed, prizes being won by Jannett Howard first; Maude Stallings, second; Jeanita Scott, booby. The girls then departed after such a wonderful surprise, wishing that they could exchange places with Mrs. Sharpp, and congratulated her on winning such a wonderful husband. Mr. and Mrs. Sharpp will make their home in Chicago.

IOWA PROFESSOR OF ENGLISH PRAISES AND JOINS N.A.A.C.P.

Branch Protected Colored Teacher Against Klan Threats

The Iowa Bystander reports that at the recent launching of a membership drive by the Des Moines Branch of the National Association for the Advancement of Colored People, the local President, Mr. S. Joe Brown, read a letter from Professor Luther Mott of the Department of English at the State University, highly commending the work of the N. A. A. C. P. and applying for membership.

Professor Mott was at once received and appointed a member of the Publicity Committee of which other members are: Harvey Ingman, Editor of the Des Moines Register; Fred W. Pownell, Editor of the Des Moines Daily Capital; Miss Dorothy Hughes of the Bystander and Gordon H. Kitchen of the Y. M. C. A.

The Branch recently stood by Miss Fay Jeffers, a colored teacher, whose presence occasioned the burning of a fiery cross in the yard of Judge Anthony Buswell. The Branch procured prompt action by the newly elected District Judge who, after conference with the Sheriff, appointed two deputies to guard the teacher. Klan threats promptly ceased when the Sheriff threatened to arrest anyone attempting intimidation. Since then Miss Jeffers has been teaching undisturbed.

Unusual But True

Philadelphia—Arlene Atkinson, 39 years old, was sentenced to three months in the House of Correction by Magistrate Dugan. He told the "judge" he was cold and broke and wanted a place where he could spend the rest of the winter.

Alba, Spain—One of the longest prison sentences ever imposed was given to a mayor of this town, when he was convicted on 217 counts of forging public documents. He was sentenced to 2,983 years in prison.

West Chester, Pa.—Samuel E. Downing, ninety-four, East Yoshen Township, near here, died last week. Although nearing the one-hundred mark, he preferred to walk the four miles distance rather than ride in trolleys.

Meaux, France—Armand Bourdet made a bet with some friends here last week that he could drink 12 cocktails before dinner. He won the bet and then died during the night.

Philadelphia—Cranking his automobile with the gears in reverse, John Gardiner, a Jersey Farmer, received scalp wounds from the flying crank, and his car backed into a house on Wyoming avenue, smashing the entire front of the dwelling.

Bayonne, N. J., Jan. 20—Chester Brake, 30, lost a wager of $2 and his life here recently, when, after gulping down three-fourths of a quart of whiskey he fell dead on the floor of a saloon here. The proprietor of the saloon was arrested.

Philadelphia, Pa.—While working in the cellar of a wrecked building recently a colored man unearthed the bones of an arm and a leg, evidently those of a woman. The workman who made the discovery ran to the street screaming, and would not return. He was paid off in full.

Philadelphia, Pa.—Detectives are seeking the wearer of a 7½ 'C' shoe who broke into a store recently and took 25 pairs of shoes. The store was littered with ashes created by the same fire. Detectives believe the thief took the shoes for his own use.

South Carolina Roused As Grand Jury Gets Evidence on Aiken Lynchings

NEW GOVERNOR JOHN G RICHARDS, PRESIDING JUDGE JOHNSON, AND NEWSPAPERS DEMAND INDICTMENTS

New York, Jan. 28.—The entire State of South Carolina is aroused over the Aiken lynchings now that the Aiken County Grand Jury has met and is hearing the testimony of twenty-eight witnesses, according to reports received by the National Association for the Advancement of Colored People, 69 Fifth Avenue. The outstanding developments in the situation are as follows:

1. Governor John G. Richards on January 24 issued a statement saying that the case was "one of the most important matters inherited by my administration" and that he was "deeply concerned in the outcome of the State's efforts to bring to justice those who participated in the murder of the Lowmans."

2. The leading newspapers of South Carolina are making strong editorial demands for action by the Grand Jury. The Columbia Record, edited by Charlton Wright in a front-page editorial unmercifully condemns the previous Grand Jury which failed to act and says that the present case "is the most important case, in all probability, that any Grand Jury in South Carolina has had to consider within the past twenty years. Upon its actions and decisions in that case depends the honor, not alone of Aiken County, but of the whole people of South Carolina."

3. A charge to the Grand Jury by Judge J. Henry Johnson, calls the lynchings "deliberate, wilful, cowardly murder," and continues: "The time for words is past. It is time for action. Say you propose to bring them to justice or say you don't propose to do anything. And God help Aiken County and South Carolina if you fail to do something."

4. Governor Richards has reappointed Detective W. W. Rogers who had been in charge of the lynching investigation under the preceding administration.

5. A front-page new story in the Charleston News and Courier explicitly credit Walter White, Assistant Secretary of the N. A. A. C. P. with bringing about the expose of the lynching, as follows:

"Walter White (after the Coroner's jury had failed to indict) then appeared on the scene as an investigator for the Association for the Advancement of the Colored Race (meaning N. A. A. C. P.) and also with a commission from a New York newspaper. After a day or two in Aiken County he compiled a report that led the newspaper to send one of its staff men to investigate the circumstances. White's report, it became known, gave a long list of alleged participants and spectators at the lynching. * * * * * * * *"

On January 26, the first day the Grand Jury heard testimony, nine witnesses were called, including eight who were prisoners in the Aiken jail at the time of the lynching when, it is charged, the Sheriff and other officers delivered the Lowmans to the mob. Nineteen more witnesses are being called by the State and it is not expected that they will have concluded their tetimony today.

The present investigation by the Grand Jury of Aiken County is the third time the Grand Jury has met for this purpose. At each of the other two sessions, the Grand Jurors, of whom two were members of the lynching mob according to evidence gathered by Mr. White, reported inability to reach definite results and were discharged at their own request. The present Grand Jury, of 18 members, contains six hold-overs from the Grand Jury which previously admitted failure.

DUBOISE WILL LECTURE IN SANTA MONICA MUNICIPAL AUDITORIUM GEORGE WASHINGTON'S BIRTHDAY

A few public spirited white friends of the Negroes of Santa Monica Bay are instrumental in bringing Dr. DuBois to the Bay Cities by agreeing to finance the entire cost of the lecture.

This move on the part of these men and women is prompted partly by the desire to hear this man who is considered one of the brightest minds in America and to assist the officers and members of the First Baptist Church of Venice to raise funds for their much needed new church building which they are to begin construction very very shortly.

The lecture is Tuesday, Feb. 22, Municipal Auditorium, Santa Monica. Excellent talent will be added to the program for the occasion.

WOMAN BEATEN BY WHITES FINED $50 BY JUDGE

(By A. N. P.)

St. Louis, Mo., Feb. 4.—The brutal beating Mrs. Fontella Lee, 4361 St. Ferdinand Ave., received in Famous-Barr Department Store, here some weeks ago was not the end of her punishment, and while yet under the care of a physician, she was commanded to appear in police court Thursday on a peace disturbance charge and was fined fifty dollars and costs. She appeared without engaging an attorney to defend her. After a recital of condemning statements made by a burly salesman of the store who said Mrs. Lee had bitten his finger, she took the stand and told a pathetic story of how barbarously she was treated by employees of the store where she had gone to purchase a pair of gloves.

In approaching near a counter to exchange places with a white woman who had been served, Mrs. Lee testified that the woman roughly pushed her out of her path, followed with a violent slap on the jaw. The insult was met with a blow from Mrs. Lee, she stated. In a few minutes, floorwalkers and house detectives seized her. When one of the mob yelled, "Kill the nigger," she asserted one of the house men struck her in the eye, causing her to become unconscious. She was dragged to the elevator and carried to a room on the upper floor where a chair was jerked from under her and she had to tolerate all manner of abuse.

Before going to trial, Mrs. Lee's niece made efforts to interest the local branch of the National Association for the Advancement of Colored People in her aunt's case, but to no avail. It is understood the president of the organization was out of the city.

SHRINERS CONTEST TEXAS DECISION

(By A. N. P.)

Washington, D. C., Feb. 2.—The protest against the decision of the Texas courts forbidding Negro Shriners from wearing the same emblems as whites in the State of Texas, got under way here Wednesday when attorneys for the Negro Shriners asked the Supreme Court to set aside the injunction issued by the Texas Court.

The petition, seeking a view, was filed by the Ancient Arabic Order Nobles of the Mystic Shrine, which claims to have been organized in the State of New York in 1872. The injunction which was made by the State Court to apply throughout the United States and enjoined Negroes from organizing additional temples or lodges where such names, emblems, and insignia were used, followed proceeding instituted by D. W. Mieghaux and a group of white men in Harris County, Texas.

The Shadow Lengthens As The Tide Of Color Rises

BY: TOM SAWYER

Washington, D. C., Feb. 3.—Have you been reading the trend of human events carefully? Things are happening in this sin-cursed world worth your noting. The shadow lengthens as the tide of color rises! You must "Stop, Look, and Listen!" You must think on these things!

Read what H. G. Wells, the great English writer, is saying about China, and keep your eyes on the daily prints; news coming from China is startling! Back of facts on China is Russia and the Soviet. Japan is manuevering. India is grilling. Africa is formenting, East West and South. Mexico, Central, and South America are saying this and saying that, but "Language was made to conceal thought", and what those countries are thinking, is our chief concern. That, we are not getting.

Colored America, do not jazz away your thoughts right along through here. Take a little time to learn what the whirl above you means. Danger is imminent. Were you in Washington, you would keenly realize the force of this statement. The President of the United States is in a serious frame of mind. He knits his brow as he talks with caution. Read his utterances on foreign conditions and trends. They are measured, careful; brim full of significance! United States Senators are shaking their heads; they are seeing things from their heights that will not reach your vision in the valley for yet a while.

"There may be war with Mexico, unless we arbitrate," said Senator Robinson. But he, and other senators know more than that! War with Mexico at this time will mean alliances with other nations against the United States, and one of them might be Japan! It is a well-known fact that France, England, and other European countries are inwardly bitter against America, because of this nation's independent financial position and jealous of the flaunting antics of the newly rich who agitate by their haughtiness.

Behold The Chinese Of China!

A great lesson comes out of China. For two decades and more, this nation of more than 450,000,000 has been fighting among themselves. They have two or more governments and armies, North and South. For hundreds of years China slept, though her civilization is one of the world's oldest. China's first awakening caused a change from Empire to Republic. The world's chief nations, grasping for wealth, went into China, and true to the white man's perennial instinct, gave little thought to the real welfare of China, and proceeded, in the night of their power, or the power of their might, to make regulations to suit themselves. They fixed it so they would be tried in white courts for offences, and not by Chinese. Like this: Suppose there were thousands of Chinese in a community, as New York and Chicago, and they would say: "We are not amenable to your courts and judges, we will set up our own, and don't you molest us!" That's about the way things are in China's chief cites today.

They have set up "Jim Grow" regulations there against the Chinese. They hve signs in certain Chinese parks, in China, reading: "Chinese and dogs not allowed!"

The Chinese, essentially a "colored nation, have become "sick and tired" of all this and are demanding fundamental justice. England is sending 15,000 soldiers into China. Warships, marines, and soldiers from the United States, Japan, France, and other nations are hovering at Shanghai and other ports.

What followed the announcement of England's great military gesture of armed forces? One of the foremost Generals of China said: "We are not going to be frightened by England's threat! This issue must be met sooner or later. The time has arrived. We have forces to resist England and all other nations that seek to disturb our sovereign rights." That is a historical statement. That sounds like business, and it may mean the beginning of the next war.

One is reminded of the scrap between man and wife, and the outsider who comes in to separate them, and the two forget their own scrapping and turn, together, on the outsider. "Beware the Ides of March."

Announcement Extraordinary

Minnie Ahrritten-Jackson, the sweet nightengale of the Golden West, who has been in the East for the past seven years, will appear in recital at the Second Baptist Church, March 22nd. 2-4-1

NOAH D. THOMPSON ARRIVES IN NEW YORK

Noah D. Thompson

Word reaches us that our distinguished friend and former fellow citizen, Noah D. Thompson, arrived last Monday in New York City; where he has been engaged as the Business Manager of the well known and high class magazine "Opportunity".

The many friends of Mr. Thompson in Los Angeles were much chagrined and disappointed at his sudden decision to leave for New York. They recognized in him one of our foremost citizens who was ever alert for all things which tended for the advancement of the people. No cause of merit or undertaking which stood for progress ever lacked for his encouragement, in fact he was on deck at all times with his time and means to make Los Angeles go. For this reason the people would have indeed been pleased at the opportunity to tender him a testimonial expressing their genuine appreciation for his worth as a citizen.

Mr. Thompson and his talented wife were most highly apreciated at their home in this city and will be sorely missed.

Mr. Thompson, was, for years, connected with the Daily Express of this city, was a member of the Housing Commission,, an official of the Urban League, prominent with the N. A. A. C. P. and a big and strong booster for everything worth while.

Fresno and Bakersfield Welcome "Golden State"

Mr. Geo. A. Beavers, Jr., Vice-President and Director of Agencies of the Golden State Guarantee Fund Insurance Company who just returned from a trip north, reports that the company is making rapid progress in the Oakland district. Mr. B. N. Hunigan the new superintendent of this district was well received and he is expected to be a big success in the bay district.

The people of Fresno and Bakersfield were very enthusiastic in their welcome of the news that the only Negro Life Insurance Company in the West will soon be operating in their district. Plans are now being perfected to give Golden State service to the people of Fresno and Bakersfield.

Mr. E. J. Johnson has assumed his new duties as superintendent of the Pasadena district. He expects to equal if not surpass the remarkable record that he established in Oakland.

A Timely Suggestion

Los Angeles, alif.,
January 23, 1927.

CALIFORNIA EAGLE:

I wonder if I could make a suggestion through the Negro Press and Pulpit for Courtesy Week among Negroes—old and young.

An article in one of our Negro papers brought to my mind that possibly our leading men and women in their meetings could bring much influence to bear on good manners and much less noise among our people in public places. On the street cars our first class church going and lodge members—Negro women and men—broadcast all of their affairs to the world.

Impress on the older Negroes especially, to be conspicuous by their quietness.

For 1927 United Rights Crusade, Urge 1927 Get-Together

Racial uniting for common cause post-sesqui crusade by renewed organizations recommended for start of America's 4th half century.

Lincoln-Douglas Day for Launching Movement.

BOSTON, Mass., Feb. 4, 1927.—(Special)—From its national headquarters here the National Equal Rights League has issued a 1927 appeal for united racial action against color discrimination. The league calls attention to this country's passing its 150th year in 1926 and urges the race to a special renewal of contention for the rights upon which the new nation was based as its 4th half century begins, a post Sesqui-Centennial crusade for rights based upon a plan.

The Plan

In this plan the specified rights which the entire membership of the race are asked to agree to are:—

1st. Full and identical judicial rights, to stop lynching and court injustice.
stop denial or intimidation in freedom

2nd. Identical political rights, to to vote n primaries and elections.

3rd. Identical civil rights, to prevent exclusion from or segregation in public conveyances, educational institutions, public places of amusement, of lodgings, of refreshment and eating, recreation and others of public accommodation and resort, or in residence, and in government buildings or in connection with government work.

Methods and Means

The methods of the Crusade as put forth are:—

1st. Daily prayer to Almighty God for deliverance from race hatred and the persecutions and proscriptions, with special public prayer annually in connection with Thanksgiving Day Services.

2nd. Publication in every race paper, posting in every meeting room and assembly hall or edifice, social, civic, fraternal or religious, of the preamble of the Declaration of Independence.

3RD. Emancipation from slavery to political parties and voting as free persons for men and for measures to ensure the Crusade's objects, also full registration.

4TH. Renewed racial organizatin for rights and to further the Crusade as by branches of the National Equal Rights League, etc.; and membership everybody with same civil rights organization.

25th Wedding Anniversary of the H. W. Markhams

By:
EVELYN TURNER WARREN

Memories of a wedding in Houston, Texas, twenty-five years ago, when Miss Emma Todd, a daughter of one of Houston's most prominent families was joined in holy matrimony to Mr. H. W. Markham, were awakened when this highly esteemed couple held their twenty-fifth anniversary at Social Hall, Wesley Chapel Church, on Saturday evening, Jan. 29, at which Church Mrs. Markham has held the position of organist for eighteen years. Elaborately gowned women and men in correct evening attire gathered amid gorgeous decoration of pink and white, to witness the impressive ceremony. All the celebrated musicians of the city gathered to congratulate their fellow artist and hundreds of charming young people attended in admiration of such an ideal wedded life. The following ladies received the many guests: Mrs. Leonard Green, in red crepe, Mrs. Mildred Warren in pink crepe de chine, Mrs. Daisy Malveaux, in gray crepe, Mrs. Howard, in green crepe, Mrs. W. L. Gordon, in black, Mrs. L. B. Hill, black beaded crepe de chine, and Mrs. O. L. Davis, and Mrs. Edna Steward.

At the hour of eight-thirty, the following program was rendered with Mrs. A. C. Bilbrew at the piano and M. J. D. Banton accompanying with the violin; Mrs. Helena Smith, solo "One Sweet Day." Mrs. Smith wore orchid and silver lace; Chorus, "Bridal Chorus," Lohengrin, by Wesley Chapel Choir; Solo, "Love Here is my Heart," Prof. J. B. Jones. Then while H. W. Markham, Jr., the talented son of the "bride and groom" played Lohengrin's Wedding March, the bridal party entered in this order: Mrs. M. B. Jenkins, in a stunning gown of white satin and gold lace, Mrs. Jessie Hood, orchid brocaded velvet, Mr. and Mrs. J. D. Mason, who were maid of honor and best man twenty-five years ago; Mrs. Mason in orchid flat crepe. Little Zenobia Cochran, in pink ruffled taffeta, entered, bearing a basket of roses and throwing petals for the feet of the bride who entered next with her groom of twenty-five years. Mrs. Markham wore a beautiful creation of white crepe with georgette lace and rhinestone trimmings, with a large hand made rose of pale pink on the shoulder.

The ceremony was performed beneath a huge wedding bell in a bower of white roses, by Rev. A. Shaw, after which Mrs. Naomi Pharr sang, "Until." Mrs. Pharr wore yellow beaded georgette. The guests were then ushered into the banquet hall where Mr. Amos Smith and Mrs. Bell presided, and the Misses Marie Mason in blue georgette, Thelma Gault, in yellow georgette, Florine Shaw, green georgette, and Emma Roark in yellow satin, served punch. Miss Anna Mae Green in gold lace over pink satin, Mrs. Ruth Kimbrough, pink brocade satin, Mrs. Trimble, in black panne velvet and Mrs. Dorothy Hill-Landegin, in a pink beaded crown received gifts, some of which were: two silver cake plates, five bread trays, two pie plates, one half dozen sherbets in silver stands in a satin-lined case, silver cedar lined humidor, five pairs of candle holders, eleven salt and pepper shakers, one silver covered vegetable dish, one silver bonbon squeezer, four bon bons, four casseroles in silver, two silver jewel cases, one silver fruit dish, two butter dishes, two tea strainers, one nut set, one mayonnaise dish dozens of cake forks, pie knives, teaspoons, serving spoons, crumbers, sugar tongs, carving sets, cut glass stemware, elegant linens dozens of hand embroidered guest towels, Irish crochet guest towels, hand embroidered pillow slips, linen shower vanity sets, and bench sets, bath towels and dainty handkerchiefs, and a beautiful cocktail silver cruet and container from the President of the U. S. National Bank where Mr. Markham is employed. On Tuesday, Feb. 1 from 3 to 11 o'clock the Markhams held open house, and many friends called during the afternoon and evening to view the beautiful gifts and partake of delicious refreshments, and a large wedding cake was cut.

Mme. Schumann-Heink Visits Bethune-Cookman College

It was an unusual distinction for the students and teachers of Bethune-Cookman College to have as their guest today Madame Ernestine Schumann-Heink, world's famous opera singer, to visit the college and in pleasing manner express her feelings with respect to a struggling people. No person is better in position to speak on such a subject than Mme. Schumann-Heink, because her meteoric career has been the result of hard work and sacrifice. It was fitting, therefore, that she should see the work of a woman who has made untold sacrifices for the benefit of the Negro.

Madam Schumann-Heink was received at the College by the President, Mrs. Mary McLeod Bethune, and escorted to the platform by fifteen members of the Advisory Board, where she was introduced by the Chairman, Mrs. C. M. Ranslow, who said: "I am sure that we are not only glad, but very joyful at this moment that Mme. Schumann-Heink has taken a little time from her resting period to come out and look at us. It is very wonderful for us, because we are deprived of going to hear her at the Auditorium. To the school I want to say what, I am sure, she will not tell you, that she has by great diligence and hardship and sacrifice, worked her way up to a grand career, from poverty, like your own. Isn't it wonderful? It gives me great pleasure to present Mme. Ernestine Schumann-Heink."

Madam Schumann-Heink replied as follows: "I am not a speaker, although some time, I find the words to express my feelings. I am an old mother and grandmother. I believe in God. I believe in human beings. They are all alike. We are all children of God, and I have found that your race, the race to which I belong, and all races have some intelligent, fine and beautiful representatives. You are the real, loyal Americans, who have reached a great, big, point in life. Suffering means sacrifice. I sacrificed, I suffered, but knew that God would never, never leave me if I did my duty, and if I did not let bitterness, and jealousy come into my life. I do love the world—I do love, above all, our bleased America! It is the greatest country in the world! It is the greatest nation, and if I never did know what it meant, I learned to appreciate and to bow my head during my life in the tents when they let me serve them—when, met all of the boys—when I sang for them—when I went to the hospitals. . . I felt that that was the time when I could prove to the United States my deep, undying gratitude for what the United States did for the old greenhorn, Schumann-Heink. (I am not a greenhorn any more.)

"You must excuse my poor English. I started to learn English, not from books and reading, nor old teachers—but from the boys in the tents. You can imagine what I learned.

Now, young men and young women, I am not a speaker, as I told you. I just want to tell you to keep up your ambition; never get bitter; never get jealous, because God Almighty will bless your race just the same as everybody else who is decent and good, who is right and ambitious. Later on, when my career is over—I have just had the opportunity to come here and one and a half years more—if I can be of help to you, you can rest assured that, as the soldier boys called me 'Mother Schumann-Heink,' I will be just 'Mother Schumann-Heink' to you and help wherever I can."

Madam Shumann-Heink joined in the singing of "Suwanee River" and all were held spellbound by the richness of her deep contralto voice.

Major William T. Anderson, U.S.A. retired, of Cleveland, Ohio, will address the Y. M. C. A. members Sunday afternoon at 3 P. M. in the lobby at 28th and Paloma Sts. The meeting is open to all.

Automobile to be given away free. Also hundreds of dollars in cash awards will be distributed by the Silver Fox Club. Greatest event of its kind ever offered by any organization. Valuable prizes for all. An "Everybody Wins" contest.

The Silver Fox Club today makes an announcement that will be of interest to every reader of this paper and to every person who desires to enter the contest. Everyone knows the tremendous strides the Silver Fox Club is making in public favor. Its large number of followers conclusively, and without undue egotism, the Silver Fox Club is second to none. A club that brings the public all the happenings and social events of the year.

The Silver Fox Club has launched a twenty-five hundred dollar, ($2500) "Everybody Wins" Grand Prize Distribution, the purpose of which, primarily, is to still further increase the influence and prestige through its friends, each of whom is given the opportunity of becoming the owner of valuable prizes without the expenditure of one penny. Any man, woman, boy or girl, is eligible to enter the contest. If you qualify for the contest you are given a rare chance to make use of any spare time you may have to secure for yourself any of the twenty-five hundred dollars ($2500) worth of splendid and costly prizes. The amount of your award, the size of the prize you will win, whether it be the fine automobile or a large cash award, will depend entirely upon the interest you take in the contest.

NOTICE

This is to certify that the Silver Fox Club, 851½ Central Avenue, Los Angeles, California, has this day purchased a Brand New Latest Model Peerless Sedan, which is to be given away absolutely free as one of the many prizes in the Silver Fox Popularity Contest.

Magnificent, New, Latest Model Car; A Bag of Gold, containing $150, $75, $50, $25, and other cash prizes of that shining precious metal as well as ten per cent (10%) cash awards to active participants who do not win one of the big awards.

Our Slogan "Everybody Wins."

THE CAMPAIGN

This campaign will last approximately ten weeks and will not be a drawn out affair. The exact date will be announced in a later issue of this paper. Just think of being able, in eleven short weeks of securing prizes or awards that would take you years of self-denal or self-sacrifice to acquire.

LITTLE EFFORT REQUIRED

There is so little effort required of you to win out in this Silver Fox contest. All that you have to do is ask your friends to buy a vote from you which is twenty-five cents ($0.25) and that won't break anyone. The main thing necessary for you to win, is to let your friends know that you are in the contest to win.

YOU CAN'T LOSE

You are paid for every moment of your spare time. Every active, non-prize winner is given an absolute guarantee that he or she will be paid for his time ten per cent (10%) of each dollar paid to win one of these big prizes. That is an excellent position in itself, for we all have some spare moments after work that we could turn into cash.

DELL'S BROWN SKIN SERVICE

If someone told you that they were going to make a real honest-to-goodness Ice Cream, you know the creamy custard kind with fresh, golden eggs and jersey cow cream, the kind that just melts away in your mouth, doesn't stick and cling to your tongue long after it has melted, the kind that even dyspeptic folk gulp down joyously and say that they could eat all they could hold of that kind of cream and it wouldn't hurt them, the kind that particular mothers delight to give their babies; knowing it to be as wholesome and more refreshing than the well-known baked custard—Well, you know, just the nicest kind of cream possible to make at a price less than the artificial factory-made ice cream—I guess you wouldn't believe it, neither would I, unless I saw it, tasted of it and paid for it myself. For all of us, more or less are descendants of the biblical Thomas.

You are right in doubting for it would not be possble to make that kind of cream at that price if the one making it did not have the finest jersey cow you ever saw. A cow giving milk so creamy it doesn't seem real—not to city folk. Then too, there are chickens, corn-fed hens that lay the golden eggs from which the custard is made.

So it is that you may receive the benefit of these wonderful combinations. On the 13th of February all preparations will be complete and out at 1350 E. 94th St. You may be served or, if you place your order by phoning DElaware 3637 you may be served at home.

But listen!! More than being just simply delicious, those creams are going to be twisted, curled and molded into many fancy shapes that they may be pleasant to the eye as well. Dainty, pretty, individual service for those high class parties and entertainments. All you will have to do is lift them out on the plate to hear exclamations of, "Oh, ah, how lovely!" Won't that be great?

Of course, one of the reasons these creams are so different is because they will be absolutely fresh, therefore if you would be sure of service you must order a day ahead. They are made to order.

Cakes and pies will also be made to order.

Mrs. Idell Bateman who will make these good things has a reputation of knowing how things should be done and does them that way. You call her, talk with her and know for yourself.

A-MUS-U THEATRE

CENTRAL AVENUE AT JEFFERSON STREET

SCALE PRICES TO 10 CENTS ADMISSION

This high class picture house in keeping with its policy to serve the people, has inaugurated a new policy where the same high grade pictures which this house has always carried will be available at the popular price of ten cents admission.

The management of thi house is hightly deserving of the patronage of our people from the fact that it has always given a preference to the talent produced by our people. Mrs. Fay Allen has for years been employed here as the organist. They ask for your patronage through advertisements from time to time in your own journal. This is in strong contrast to the attitude of other Central Avenue picture shows which seem to have nothing to offer except pa yyour way in and that's all. Up to the minute with the best picture possible to obtain the A-Mus-U is the place to patronize.

Don't fail to see the two big feature pictures next Sunday and Monday, February 6th and 7th. Wm. Fox special: "The City" and "The Revival of Jack Pickford, also a high line of comedies, Hill Bill and others.

This is an "Independent House", all your own. Admission 10 Cents.

2-24-1

The Whit-Delphi Married Ladies Art Club met in its regular bimonthly meeting, January 27th, at the residence of Mrs. Rose Barefield, 1612 North Lakeshore Street, with eighteen members present, and after adoption of the By-laws and Constitution, which had been previously formulated by a committee appointed for that purpose, the Secretary informed the club that the waiting list was getting very large. The president instructed her to notify them that they would have to abide their time, as no vacancies existed at the present time, and that none of the members are making any preparations to quit the club in order to make room for new members.

Then the club members got down to work in earnest. I assure you my reader, that the art and needle work that is being done by the members is exquisite beyond my ability to express and space will not allow me to attempt to write—and if you should see it, I have grave doubts that you would believe your own eyes.

Mrs. Barefield showed herself to be a hostess in a class by herself. Before adjourning, Mrs. Ida Harris, extended an invitation to the club to attend a valentine party to be given at her house, 1216 North Commonwealth St., February 11th, 1927.

The next meeting of the club will be held at the residence of Mrs. Capitola Cooper, 1141 E. 53rd Street, February 10th, 1927. The president urges all members to be present as the first annual election of officers is near at hand. Watch this column.

AN OPEN LETTER

To my many friends who have been victimized by James D. Thomas, my son-in-law by the loan of money and who has said in some instances that it was for the use in his home, I make this statement:—Not one cent of the money he has borrowed has been used by me or in the home, neither has his wife or children received one cent of it. I am sorry for those of my friends who, knowing me, and on the strength of that knowledge and out of sympathy, listened to his lies about the repairs of his car and other things and were swindled by him.

They are the house guests of Mr. and Mrs. Jefferson, 838 East Adams St. An hour in our city has convinced Mrs. Lockhart of the alluring climate, flowers and hospitality of our citizenry. She, like Mrs. Hattie Haynes, will probably become as in love with our city as to warrant her return with the intention of making this her future home. Mrs. Haynes says she was unable to resist the temptation after a stay of a few months here. Mrs. Ruby Lockhart and Mrs. Haynes are not the only ones who would like to make Los Angeles their future home. Mrs. Lockhart will be with us until sunshine in April. Let us all endeavor to show her and her friend that Los Angeles lives up to her reputation.

GLADYCE GREENAWAY

Well, well, this seems to be "Mystery week" what with all the calling up over the phone and warning folks to "let up" on certain things. A certain Eastside Jane calls up a young Westside society bud two or three times a week and we hear that she has even threatened to turn her pink and white face, black. Now, isn't that killing?

* * * *

The ambulance was greatly in evidence on Denker avenue last week after the 15-year-old girl took iodine. And all over a uke-playing boy. We hope she won't try it again, if she gets over this dose, or she will be singing "Juvenile Hall, Here I Come."

* * * *

They tell me that Sonny Clay's Charleston partner at the Bronx the other night, at the occasion of the Utopia Club Dance, shook a wicked hoof and that she would make a good headliner. This eye-twister lives on East 45th St., we hear.

* * * *

Miss Sedonia Hall, popular young Angelena, is giving a little dancing party next week which we know will be a "howling" success.

* * * *

Henrietta Walker wants contributions toward buying a book on "Back Seat Driving." Oh, Ben!

* * * *

Girl Reserve delegates to El Centro, Calif., for the 13th, 14th and 15th of February, are the Misses Hazel Earle, Ann Collier and Gladys Mathonican. We wish them good luck and a happy visit.

* * * *

The Girl Reserves had a very interesting meeting yesterday at the "Y." Three new members were taken in. The girls expect a huge crowd at their vaudeville to be given soon. The costumes are going to be original and "spenderferious." Watch the papers for the date and also the screen at the Rosebud Theatre for announcements.

Romeo—"Liza, let's you and me get married."

Would-be Juliet—"Gwan, black trash. If you is gonna be crazy, be a kleptomaniac and make it pay."

* * * *

Er-sh-who was the young lady Walter Floyd had at the sweet shop last Sunday? Now is that nice, Walter?

* * * *

We have noticed that Roger Boyd's moustache is coming along fine. Roger probably has taken one of those courses in the magazine which says, "Hair grown in 90 days."

* * * *

Famous last words: "I'm going to transfer to Jeff."

* * * *

We think that Miss Myrtle McDaniels made the sweetest graduate at Jeff at the graduation exercises. She's out in the cold, cold world, now.

* * * *

Public: "I'm working this week, mother."

See you at the fights. Toodle-de-def

MAN AMONG MEN

Smith Greer, just passed out, spent an active life in behalf of his fellomen. No night was too dark or cold for Smith to go to the relief of a brother in distress. Kind, genial, generous to a fault, Smith Greer was a man among men. We mourn with his loved ones and friends his passing.

BRIGHTEST PAGE

The benedictions of many an innocent soul will ever rest upon Ma Ferguson, who was acquainted with the circumstances under which thousands of black citizens were railroaded to prison in Texas, and the brightest page in her official history is that she peformed her duty in righting wrong and justice asserted itself for these defenseless human beings.

QUARTER OF A CENTURY

The Los Angeles Forum and its Celebration celebrating the 25th milestone of its existence, which will be held at the Auditorium of the New Y. M. C. A. on next Sunday, should have the undivided support of the Colored people of this city. Everybody should turn out in large numbers and let the officers who work day in and out for its success, appreciate the fact that any sacrifice which they might make is not made in vain.

It would be well for the people to appreciate the Forum in times of tranquility just the same as they would in times of stress. No great calamity ever came upon us in this community individually or otherwise, but what the Sunday Forum would be the first place sought for succor and relief. Bear in mind also that the Forum has never failed to function on behalf of any worth while cause. It has made men and made women, withal it has been an inspiration and hope. The critics have harped, they have frothed at the mouth, but the Forum has marched straight ahead functioning for its high calling where all may have an opportunity to state their case.

With these thoughts in mind the Soaring Eagle bespeaks for the Forum a mammoth hearing for its 25th Anniversary Sunday afternoon at the Y. M. C. A.

BUSINESS CONDITIONS FOR JANUARY, 1927, AS OUTLINED BY THE CHAMBER OF COMMERCE

Report On Business Conditions For The Month Of Jan. 1927

January constituted an active month in practically all lines of business in Los Angeles. Indicative of the degree to which business showed an increase over last year was the volume of Bank Clearings which reached the total of $822,832,484.40 for the month as against $737,906,314 for the corresponding month of 1926. This is an incease of 11½% whereas the increase of December over the previous December was only 7% and the gain for November over November, 1925 was only 6.8%. Thus the increased volume of business compared with last year has shown a higher rate of gain during the last month than for several past.

Incomplete reports indicate that Los Angeles without counting the clearings of Hollywood and San Pedro clearing houses, had for the first month on record the largest clearings of any city on the Pacific Coast. The situation also is to be contrasted with most of the Eastern cities which are showing clearings running below those of last year.

Building Construction

Building permits for the month totaled $8,129,749 for 2,844 buildings as compared with $6,973,252 for 3236 buildings in 1926. This shows a gain in value of about 16 percent. A check-up of architects and contractors indicates a large volume of business pending and confirms the forecast in our annual review that the year 1927 will present a substantial increase of building over 1926.

Price Trend

There was evident during the month a continuation of the general tendency towards lower wholesale prices. Professor Fisher's Index number declining two points to 145.1 as contrasted with 147.2 at the end of December. This tends to retard buying by wholesalers and others who carry large stocks so as to minimize inventory losses with the result that the average stocks of goods on hand in these houses are somewhat lower than last year.

Oil

There was a slight tendency towards a decline in the average daily production of California oil fields during the month. The figures standing at approximately 661,000 barrels per day, as contrasted with a maximum of about 670,000 barrels at the end of December. The figure compares however, with the average for January, 1926 of approximately 622,500. Operators are much interested in the behavior of the Huntington Beach field which has shown a substantial drop in production during the last few weeks. Assurance of the continued development of Los Angeles as the center of the oil industry is brought out by the announcement os the General Petroleum Company of their commencement of the erection of a large refinery costing several million dollars. This follows only a few months after a similar announcement on the part of the Shell Company.

Furniture Manufacturing

Furniture factories report business as being good for the latter part of the month, although disappointing in volume during the first two weeks. The month's total as a whole will show an increase of about 5 percent as compared with January 1926, and manufacturers in spite of a good season last year are looking forward to even better results in 1927.

Wearing Apparel

A successful market was held under the auspices of the Associated Apparel Manufacturers, January 11-12-13. Favorable comment was made by buyers generally as to the improved styles being developed in Los Angeles and a substantial volume of business was booked by operators in practically all lines. Particularly good business was reported by dress manufacturers.

Men's clothing manufacturers are especially active and there have been several new plants started within the last two months.

Manufacturers of shirts and underwear report an average month disappointing in volume at the close but totaling approximately the same as last year.

Canning

Final figures for 1926 released by W. M. Henry, Secretary of the Southern California Canners Association, showed an excellent year as to profits although a decline of about 13 percent as compared with 1925 in the number of cases packed.

Fish Packing

The sardine pack which has been running well below last year until the first of January improved somewhat after that date and ended the month with an exceptionally good week. The month as a whole was approximately equal to January of last year but the total of the pack to date is substantially below 1926. The season will continue, it is expected, until about the first of April.

Meat Packing

Meat consumption during January showed an improvement over the autumn months and was somewhat better than January, 1926 in total volume. Final figures for 1926 show that local consumption of fresh meat during the year increased approximately 1,000,000 pounds. This is considered, however, to be less than the proportionate increase of the population and packers are considering means for stimulating consumption.

(To be continued.)

Federated Club News

MARY E. REED

The Second Reciprocity Meeting of the Southern Division of Federated Clubs met at the Friendship Baptist Church, Pasadena, last Friday. Mrs. Eliabeth Edwards, vice-president, presiding. The main feature of the board meeting was the passing of a resolution fostered by Mrs. E. Edwards, of the section creating a fund to loan to students, whereby they may finish their studies without being handicapped by the need of money.

Board members made interesting reports of work done for the first quarter.

A new club was admitted, the Eliza Warner Social and Literary Club, Ms. E. Westheimer, president.

The afternoon session was conducted by Mrs. C. B. Hicks, past president for Mrs. Homer Dean, the reciprocity chairman, who underwent an operation could not be present to carry out her program.

Mr. Louis Micheal was the main speaker. Duett, Mrs. R. Vaughn, and Mrs. A. Hurds. Remarks, Dr. aCrter and Dr. Solomon. Piano Solo, Master Geo. Bown, and a vocal solo little Miss Rosa Brown.

The State Parliamentarian, Mrs. J. C. Banks, is giving free-parliamentary law instructions at the Christian Tavern every fourth Thursday from 12 to 2 o'clock. All women interested, whether club women or otherwise, are invited to join the class.

The Court of Famous Women and dinner given by the President's Council at Christian Tavern, January 21, was well attended. Each woman depicted her character sincerely and intelligently, in dress, mannerism, and personality, which created much interest.

The delicious dinner was served banquet style, and beautiful music was furnished by Little Miss Emma Miles orchestra.

INVADE ENEMY'S TERRITORY

GIANTS HAVE BATTING FIT

"Forsoothe", 'tis said, "ye Royal Giants may not obtain victory in the realm of ye Shell Oilers!" But nay, nay, methinks those sturdy yoemen may victorize most anyhere.

In modern slanguage, the Royal Giants 'got hot' about losing the Saturday game at Long Beach and on Sunday had a "bitin' spasm." They lambasted, slugged and black-jacked the prancing pill around the Long Beach lawn, till the score board wouldn't behave. As maple masters, those bat busters showed as hit and runners, that they wasn't "nothin' else but."

So when the score boy got tired hanging them up there were 10 for the Giants and half that for the Oilers.

Foster got another hero badge pinned on his crowded chest as winner of the victory. Rogan pitched 2 2-3 of the 9 inning game, striking out 3 men.

Next Saturday and Sunday, Pirrone's All-Stars will try to put a crimp in the top-balancing Royal Giants.

HAM JENKINS IN DEMAND AS MAIN EVENTER

EAGLE PROTEGE A PERFECT TOP-NOTCHER

Down at the California Eagle office they call the quiet little gentleman, Jenkins, "our boy." The reason for this is that Ham and his manager got acquainted with the Eagle staff right after their arrival in town and when the Soaring Eagle gets interested in a new boy it tells the local readers about him. This was done, with a picture and story, prophesying great doings for Ham in his first fight at the Main St. A. C.

This, Ham verified by winning in such an impressive way that he became instantly in demand at the other clubs, and has won every match to date. This is why Morris Cohan saw the good in him as a drawing card at the Pasadena Armory show on Thursday against Sailor Jack Campbell.

Jenkins was a big card in Denver before arriving here, winning 18 out of 40 fights by knock-outs. But all the boys have to show 'em when they get to L. A. in order to make good with local fandom, and that is what this boy has done.

TUSKEGEE BASKETEERS LOSE TO MOREHOUSE

Tuskegee Institute, Ala., Feb. 2.—After playing a fine game against Morehouse through two halves, Tuskegee lost 23-25 in the extra five minutes of play in the game, Friday evening, in the Institute gymnasium.

UPPERCUTS AND BLOCKS

By: HARRY LEVETTE

Harry Levette

Of all athletic sports, there is none that gives more all-around development than boxing.

Power and strength of shoulder, back and abdomen, muscles lightness and balance of foot, quickness of the eye,—all come from this sport.

Best of all comes the training to think and act quickly and a development of fairness and respect for one's opponent.

So Hastings is coming in for some of the glory of Young's swim now at last. Some of the parties who were howling bout Young's unfair treatment of his pal, may have been all wrong.

The follow who helps make a thing possible deserves credit, truly enough, but fter all it was Young who swam the Channel.

The two teams of our girls now training for a baseball tour is a proof of what women can do. Go to it girls! Who said women were the "weaker sex?"

Baby Joe Gans is keeping in trim just waiting for the matchers to settle the argument as to who shall be the next scholar to be turned over to the "young master." Gans says bring any or all of them. He don't pick 'em.

Dick Donald, the great promoter of outdoor events was waiting Jack Kearn's return from Fresno, as we went to press, to clinch the match between Walker and Lomski, to be held t his Wrigley Park arena. One thing is sure, if all the referees in the game were as fair and square as Dick there would never be a bum decision at any of his shows.

Suggs Shows Class

(By A. N. P.)

Detroit, Mich., Feb. 2.—Displaying the wares that won for him two world's championship titles in the boxing game, Chick Suggs, the New Bedford "whisk," roundly whipped Sailor Dombrowski, of Detroit in their ten-round bout staged in the Dutchland arena here Friday night. This being the first mixed bout held in the State of Michigan in a number of years. Boxing being legalized in this state in 1919.

The little colored fighter had every thing known to the game, which includes cleverness, intelligence, speed and punching power. By far the classiest boxer Detroit has ever seen. He won by a wide margin; nine of the ten rounds, toying with Dombrowski throughout. It was a question of opinion as to whether or not Suggs could have knocked his opponent out who showed considerable gameness and ability to take punishment.

YOUNG JACK THOMPSON
Coast Sensation Who Fights in New York in March

JACK THOMPSON TO FIGHT TOMMY CELLO AT SAN FRANCISCO

INVADES NEW YORK NEXT MONTH

The following telegram received by Manager Tom Sielski last week means a great achievement in the career of Young Jack Thompson, the Beau Brumell of the Los Angeles boxing circles who has made such a sensational rise in the world of Sports.

"New York, N. Y.
January 27, 1927.

"Will expect you to arrive with Young Jack Thompson, first week in March. If agree to terms advise by wire. We will start plugging at once. Expect him to be big drawing card here. Get ready. Have good matches lined up. Awaiting answer.

"CHARLEY COOK."

Thompson's last fight on the Coast before going East will probably be against Tommy Cello at the Dreamland Arena in Frisco. Jack will have to use his pile-driving right to perfection against the tough Tommy in order to show him away with the rest of the victims he has copped on the Coast this season. No doubt he will for a loss would not do his New York drawing powers any good right now.

This encounter has a lot of interest attached to it from the fact of it being postponed a couple of weeks ago. Jack is trailing hard now and as proof of how deeply he is interested in his future welfare, he gave the following answer when informed how anxious a group of girls were to meet him:

"Well, I'm sorry, too busy training now, have to win the championship. Just give them my regards."

And it is needless to say that the cool-headed Jack will also be proof against the dizzy white lights of Broadway and Harlem.

Manhattan Municipal Pier has been the mecca for disciples of Izaak Walton in large numbers this week. Yellow tail are biting well and good catches have been made from the barges.

BROWN BOY OF EAST INDIA SHOWS FASTER HUMAN THAN PADDOCK

MAKES 100 YARDS IN NINE SECONDS FLAT

Charley Paddock the great Los Angeles boy basking under the title of the "world's fastest human" has his title endangered by a fleet brown boy with the heavy cognomen of Mukerji.

According to a message from Indore, India, to New York, Mukerji, a native of India, made a new world's record by stepping off a 100 yard dash in 9 seconds flat. He also ran 220 yards in 20 seconds flat at a Sports Tournament presided over by J. R. Glancey, a British resident official of Indore.

Paddock on All-American

In a list selected by the Amateur Athletic Union, Paddock is one of the four Los Angeles athletes named on the All-American track and field team. The other three are Kenneth Grumbles, 440 yeard hurdles; Leighton Dye, 22 yard hurdles and "Bud" Hauser, discus thrower—all of the Hollywood A. C.

Brice Taylor, great Negro football star of U. S. C., now on the track team is fast approaching the world's record with 9.8 seconds for the 100 yard dash.

Colored Golfers

At the various golf clubs of the city and vicinity, there are quite a few colored employes who have developed into good golfers. At the Midwick Country Club a special tourney is held each year for employes and a cup given to the winner. In the play-off of the Spring of 1925, little Pat Patterson who swings a wicked niblick carried away the honors on Wednesday next. Duncan Grant shot a 77 score against Al Floyd, so Floyd reluctantly admits that Grant is "some golfer." A few days before that Floyd made 80 many strokes and loses to one that E. R. Williams at the short end of the twosome admitted Floyd to be some golfer.

In the near future a meet will be organized at a municipal course as an open to all of the city's club swingers.

VERNON CARD WILL DEVELOP MIDDLEWEIGHT CONTENDER

Great things may come from the middelweight tournament being staged by Matchmaker Wad Wadhams at Jack Doyle's Vernon arena from the first start in the elimination bout Tuesday night, February 8th, between the popular Bert Colima and Joe Anderson, the northern idol who conquered Leo Lomski. The weight limit having been changed now from 165 to 158 will make it easier for both of them to be in the best of condition. The winner of this bout which is sure to be a red hot one, will probably get an immediate match with Mickey Walker. Bert is especially anxious as he is still smarting over the spanking Mickey gave him at their last meeting, while Anderson figures he can beat Walker if given the chance. On the rest of the card is Mateo Magdaleono vs. Teddy Silva, 8 rounds; Billy Manzella vs. Mickey Erno, 6 Joe Noto vs. Jimmy Fox, 6 rounds; rounds.

HOWARD FIVE DEFEATS BLUEFIELD INSTITUTE 41-19

(By A. N. P.)

Washington, D. C., Feb. 1.—Stepping out in lively fashion and with their offense working smoothly the Howard University "Bisons" gained the decision over the basketball quintet representing Bluefield (W. Va.) Institute in the game played in the Howard University Gymnasium, Monday evening, January 24, 1927. Howard finished the first half in the van, 21-9. The second half opened with a lightning-like passing game which baffled Bluefield and ran the score to 41-19.

L. A. High Notes

We wish to congratulate the Misses Velma White, Celestine Bailey and Messrs. Lawrence Johnson, Harry Johnson and Aldon Prudhomme, on their recent graduation from the honorable institution of L. A. H. S.

* * *

Those who will leave us this summer are Misses Edith Keyser, Agnes Johnson, Mae Turner, Alicia Allen and Messrs. Walter Gregory and Jack Bratto. We wish them all success.

* * *

We are very sorry to lose one who loves to "drop oil," nobody else but Miss Eugenia Grant, who has transferred to Poly High School as an experiment. It doesn't come up to the standard of L. A. H. S. so she thinks she will return to us.

* * *

The new students are Misses Birdie Lee Bright, Ruby Johnson, and Dorothy Joyce. We extend a very hearty welcome to them.

* * *

Miss Mamie Lee Pickens has started the new term by posing by L. A. H. S. in her new Chrysler Six sedan.

* * *

Miss Alicia Allen has quite a bit of competition this term. Misses Edith Keyser, Mae Turner, Velma White and Agnes Johnson have now entered into the Millinery trade. Look out Alicia!.

* * *

A very delightful surprise party was given in honor of Miss Velma White by Miss Constance Phillips at the home of Velma's sister. The home was beautifully decorated in the famous L. A. colors, Blue and White. There was red hot music and soft lights. Miss White was the recipient of many beautiful and useful gifts.

CLYDE CALVIN

Here we have the former light heavyweight champion of the 25th Infantry—Rough-ouse Clyde Calvin. Clyde takes his name from the class of a battling he puts up. He is strong and rugged, the kind that is not averse to stand toe to toe and slug. He is after the local white and colored light heavies.

CHARLEY PADDOCK
Whose World's Record for 100-yard dash has been beaten, it is said, by Mukerji of India, whose time is reported as nine seconds flat; the official record however, are by Paddock's time of 9.4 seconds. Paddock is one of Los Angeles' pride.

BRONX BITS

The Utopians "Utoped" to a fare-you-well last Monday night. Everybody was happy and the dance floor filled up every time the music started. Many of the down-town performers dripped in and added their bit to the entertainment dished out by Leslie Walton, "Bodiddly the Great," and the reole Orchestra.

Thursday saw the return of the revue, reorganized by the versatile Curtis Carpentier, Palm Gardens manager.

bing to miss the wicked swings the Arizona boy threw at Ace. He put Alger down for 8 in the third and 9 in the tenth and had him in a bad way several times through the bout in spite of Alger's game battling.

The decision in the semi-windup between Charley Long and Billy Harns was as a white passenger on a street car said later: "just another robbery of the colored boys by a referee who didn't referee." The worst Long should have gotten was a draw as he kept up a terrific body attack all thru the fight.

An unusually good crowd witnessed the fights.

Main St. A. C. Starts Heavyweight Tourney

WHITEY BLACK ON CARD

Carlo Curtis, the dapper little captain of U. S. S. "Sock 'Em," better known as the Main St. Gym, as usual has cast his best weather eye around for what his cash customers may like for a change and has organized a heavyweight tournament that is intended to lead up to Gene Tuney, as quickly as the local crop is used up. Nobody is barred not even Jack Dempsey. On his opening card set for Saturday, February 5th, he has that El Paso boy with the wicked left hand to the body, Whitey Black, tough, game and a crowd pleaser. Here is the menu:

Main Event—Benny Hill, (heavyweight) 8-rounds vs. Glen Elwood.

Semi-Final—Rudy Steiner, 155 lbs., 6-rounds, vs. Whitey Black. Special—Richie Aguayo, 138 lbs., 6 rounds, vs. Claude Stotts; Billy Montoya, 135 lbs., 4 rounds, vs. Red Bennett; Carl Granzino, 145 lbs., 4 rounds, vs. Ralston deWeese.

Exciting Plays At The Week-End Bsketball League

Whether the balcony crowded with fair rooters, cheering, calling and fluttering, handkerchiefs spurred the boys to do their best, or whether it was just their dogged desire to win all the boys on the four teams in last Saturday's games really put in some strenuous work.

With the season well under way interest in the outcome is getting greater. This is how the board looked after Saturday's close, well-fought games:

First game—Hi-Y, 31; Eagles, 24.

Second game—Flashes, 19; Tramps, 20.

This Saturday games, February 5th, Hi-Y vs. Flashes; Y. M. D. vs. Eagles.

Dust from the Campus

By: LAWRENCE F. LAMAR

Immediately following the disclosures, we find in our midst little Wilbur Cooden. He informs us his chum and co-defendant, Frank Hawkins, is also somewhere en route. Strange he has been en route such a long time, they must have side-tracked that car, or else, well, no one can tell where those care marked automibles are being sent; he should have caught one marked Pacific Fruit Express, that would at least have brought him to the Coast.

If Luke Rosser makes the grade in these exams we are informed he will report for spring football practice. Good-bye Luke, get in there and make them grades.

Hall from Santa Monica High will appear in the A. A. U. boxing tournament at the Olympic Auditorium, Wednesday, February 2nd. He is a middleweight. Watch him gang, he may be good.

Mr. Chas. Martin of the N. N. B. Club, he is also the dirctor of Athletic Activities for the Institute of Club Fellows, states that immediately following the city meet, the Inter-club track season will open. He will later announce the date for a meeting for determining a definite schedule. Wake up clubs, grab your athletes.

The N. N. B's. are honoring their athletic warriors with a dance at the Legion Club on the 11th inst. Step out gang, and help them out.

Valentinos with their Valentines will be at Labor Temple on the 14th, the La Tremieres with Sunnyland entertraining.

By the end of the week we shall see what we shall see. That is, regarding the results favorable or unfavorable to our boys in the final exams.

Course we don't pretend to know, but let the gang interpret the meaning of this: We want to know how it happened—three local colleges that were last semester, the Alma Mater of some of our boys is now destitute of any. Theopholis Smith has forsaken the Whittier College campus, as he intends to go East to school. Lester Nichols has been missed from the halls of Christian College, and out at Loyola College we failed to find any trace of our first colored student, Ben Crocket. Why? We don't know, but those exams—who knows?

Ha! Here it is again, this time from afar off. Say, somewhere in Kansas. Everybody knows where I mean, Wilberforce. You know the state recently had a big investigation at the school, in regards to a peculiar manner in which the funds were expended and unaccounted for. Well, quite a few of the big boys who were in on the know resigned, took a vacation, and in other undignified ways quitted the scene. Now, we are not accusing our friends of being in on any of them $400,000 bucks, but when all the rest of the syndicate took to the tall timbers, why, I ask, did our boys flee.

GIRLETICS

By: GLADYS MATHONICAN

The weeping skies of Jupiter Pluvius, having been dried up by "Old Sol", the Spring-like sunshine is drawing the girl basketeers to Ross Snyder's Field regularly every Friday afternoon and Saturday morning, for practise. Last Saturday saw among others, the Misses Hazel Thomas, an exceptionally good, fast, top center; Alice Stevenson, running center; showing great promise; Ana Collier; Maudine Simmons; Constance Phillips, guard and Iona Phillips, running center. All the girls are showing great improvement, more with each practise though some need to put more pep and snap into their plays. Though a masculine coach may at some future time be unnecessary, at present one seems indispensable, so at Saturday's practice Mr. Vernon Fulcher officiated. In a few days, the basketball, baseball and football teams will pose for photos in their new uniforms and the pictures will be published in these columns.

* * * *

Word hs come that Juliastta Harris, our tenis star competed in the recent city tournament. Details as to the outcome have not reached the office as yet, but will be published on receipt.

As to the entry of girls into the more strenuous lines of athletics, an outstanding example is shown in the record made by Miss Alice Roden, javelin thrower, of the Pasadena A. C., she threw the javelin ninety feet each of five times last year and is training for the natonal women's championships to be held in the Rose Bowl, Pasadena, early in the summer.

* * * *

Below is a letter received in the morning's mail:

Chicago, Ill., Jan. 30, 1927

Dear Girletics Editor:

What in the world must I do to reduce? I love chocolates, cream puffs, malted milk and all the foods they say are fattening, but never eat over three times a day, sleep nine hours and don't like to dance; am 17 years old, 5 feet 2 inches and weigh 160 pounds.

Frantically,
T. F.

* * * *

Well, Miss T. F. (I suppose that means Too Fat), you must "don't" all the things you "do" now; eat less, and don't sleep so late. Exercise, dance and change your diet then see don't you look better, feel better and even your own mother will love you better.

Curtain Calls and Criticisms

At the Rosebud Theatre—Final Black Bottom Contest, Friday. Saturday, The Silent Flyer.

At Pantages—The Canyon of Light.

At Forum—Tom Gilbert in Flesh and the Devil.

At Shrine Auditorium—The stupendous spectacle—The Miracle.

Dorothy Williams and Pauline Howard are entertaining at Greenwich Village for an indefinite run.

Rag Time Billy Tucker will leave soon with his show for the Orient.

Warren and Gill are still stopping shows on West Coast time.

Too much criticism cannot be laid on a performer who asks for a booking, gets booked and then fails to show, not only discrediting himself, or herself, but also the booker. This occurred last week for an act booked for last Saturday night at the Rosebud, which was placed through this publication's influence, but which was never produced.

With practically all the colored orchestras on parade last Thursday the opportunity was presented to see how well the city is supplied with good colored orchestras.

ASCOT PARK STAGING 100 MILE CYCLE RACE

Sunday's races at Ascot Speedway are featured by a 100-mile motorcycle race. Preparations are under way for reopening of the races with colored auto drivers.

AN OPPORTUNITY

AUTO SHOW IS SYMBOL OF NATION'S GREAT PROGRESS

When man first invented the wheel, civilization made a long stride forward. When he devised a vehicle with two wheels progress started turning handsprings. When he added another pair of wheels, a gas engine and air-cushioned tires the old world rubbed its eyes, threw back its shoulders and has been joy-riding ever since, declares E. V. Weller of the National Automobile Club.

Just about the time that January is swinging into February and the poppies are peeping out of their hiding places in the California hills, the annual exhibition of the products of the motor age will be staged at the Civic Auditorium of San Francisco. It will be a pageant of extraordinary beauty, combining the lure of the open road with the practical attractions of mechanical excellence.

Under the great canopies that depict the history and romance of California will be shown the magic carpets of the age of speed. No lamp of Aladdin, no enchanted wand, no wizard helmet of the childhood of the world ever devised so marvelous an array as this. Here is the vision of the sages of the centuries transformed into reality. Here the genius of the draughtsman, the mechanic and the engineer have been fused into an energy that has developed into the driving force of civilization.

The motor car is the key to the Open Road. It is a most efficient means of education, it binds together the city and the country, it is the very life blood of commerce and trade. The automotive industry gives employment to millions of persons from the toiler in the mines to the salesman of the finished product. It has grown with a few years from a field of most investment t ote ranking position among the industries of the world. With its growth has come an increased prosperity, a greater circulation of money, a stimulation of business and a more democratic spirit in our natonal life.

Auto Total in Southland Now 917,584

Southern California has 56 per cent of the motor vehicles of the state, or a total of 917,584 machines, according to the latest state-wide registration figures reaching the Auto Club of Southern California.

The total motor vehicle registration for the entire state for January 1, 1926, to December 31, 1926, is 1,641,571, while the registration by counties in Southern California is as follows:

The Division of Motor Vehicles of California makes the following statement of number of fee paid registrations of automobiles, trucks, motorcycles and trailers in the thirteen Southern counties—for January 1, 1926, to December 31, 1926:

Autos 785,956; Solid Trucks, 20,412; Pneumatic Trucks, 90,239; Motor Cycles, 5,111; Trailers 15,868.

NEW TRAFFIC REGULATIONS

The present article deals with the subject of overtaking and passing street cars. The California Vehicle Act provides a uniform rule on this subject, but experience has shown that it is not sufficiently restrictive in congested areas. Therefore, the City Council has adopted the rule explained herein, which is also incorporated in the Uniform Traffic Ordinance.

Perhaps the best way to learn the requirement of the rule is to subordinate its exception. First, learn that it is necessary for the driver of a vehicle to come to a full stop ten feet to the rear of a street car which has stopped or is about to stop for the purpose of receiving or discharging any passenger; then, that it is necessary for such a driver to remain standing until any such passenger has boarded the street car or, after alighting, has reached a place of safety.

Having learned the rule, the exception may be considered. It is that when a street car has stopped at a safety zone, or at an intersection which is under the control of a traffic officer or a traffic signal, it is not necessary for the driver of a vehicle to come to a full stop behind the standing street car. However, if he proceeds he must do so with due regard for the safety of pedestrians and at a speed not greater than is reasonable and proper, and in any event not faster than ten miles an hour.

It is always unlawful to pass to the left of a street car, whether it is standing or moving, when there is a traveling roadway to the right of such street.

Motorists are urged to scrupulously observe the requirements as to stopping behind standing street cars, which term includes railway and interurban cars as well. This should be done first to avoid injury to persons who wish to board or alight from street cars. Records show that many such persons are injured by passing vehicles. Then, it should be done to avoid arrest. Chief of Police Davis is greatly concerned at the number of persons injured in this manner, and may soon insist upon a more general observance by motorists of this reasonable rule.

Particularly should the rule be observed because of the effect upon the motorist's civil rights in the event of accident. A failure to observe the rule is a violation of law. This makes the violator guilty of negligence per se, that is, by the fact alone. Unless the motorist can then prove that his act in violating the rule did not cause or contribute to the resulting accident, he will have great difficulty in avoiding a judgment against him, and in such cases such proof is almost impossible. For a selfish reason then, the rule should be closely followed.

"One man is knocked down by an automobile every twenty minutes."

"I know that, sir," said the policeman with a diffident cough, "but he lives in San Francisco." You would think it would wear him out.—Motor Chat.

UPTON'S
RAILROAD CLATTER
By Chas. A. Upton

MANY HAPPY RETURNS

The Railroad Clatter congratulates the following porters on the Anniversary of their birth this month: E. Jones No. 1 and A. Williams.

—00—

PULLMAN PORTERS TO GIVE DANCE

One would almost have to be blind to go about town and not see the placards in the different windows telling of the big dance which the Pullman Porters are about to put on at the Music Art Hall on the 11th of February. Signs everywhere you look, and from the way the different ones are talking about it, it sure is going to be some hop. I feel sorry for Mr. Ross and Mr. Wills on that eventful evening, they should prepare for war in time of peace and get enough porters to protect the lines, or else somebody is going to come up missing. Well, if the man does get short of porters do not be surprised to see the platform man come up to the Music Art Hall and yank some poor porter out in full dress to go out on a line, because boys, you know these pullman cars have got to run. The traveling public should allow for unusual happenings on the 11th and if their Pullman porter greets them in full dress they should feel sorry for him, because he is just one porter that the platform man has come up to the hall and got. So let her go for a real dance at The Music Art Hall on the 11th of February. Music by the famous Black and Tan. Can you beat it!

—00—

AMERICAN RED CROSS CAR COMING TO LOS ANGELES

The American Red Cross car will arrive in Los Angeles on S. P. car No. 32 at 4:30 P. M., February 9th and again on S. P. train No. 8 at 7:40 A. M., February 22nd. The American Red Cross has issued special invitations for Pullman employees to attend first aid meetings on this car, where they will be cordially received by the Red Cross officials.

—00—

PULLMAN WELFARE WORKER OF OAKLAND GOES ON ROAD

It has been reported to the Railroad Clatter that Mr. Hohman of Oakland for some time a Welfare Worker, has gone back to his first love as Pullman Porter. Mr. Hohman has been very active in Pullman circles for the past few years, at one time he was a strong candidate for a seat on the board of directors of the P. P. B. A.

—00—

Mr. C. C. Kenney, former Pullman platform man made a trip on the San Diego Owl last week, and stated that he was very well pleased with his run.

—00—

FAST TRAVEL

It takes a letter just 22 hours to travel from Los Angeles to Chicago. Have you ever stopped to think what the result will be when a human being or passengers can make that trip in the same time. Well, as far as porters are concerned, it will be Bye Bye Black Bird. They will do away with sleeping cars. But it will mean much greater things for this part of the country. Maybe those who are now holding down jobs as Pullman Porters will turn their minds toward other things. Who knows?

—00—

PILLOW SLIPS

Mr. G. C. Curry has returned to work after a long absence on account of sickness and the first thing he did after he got out of bed was to renew his subscription for The Eagle.

Tod Lowry and his gang are still hitting the apple on the "Lark."

J. Carter No. 1 is running in J. B. Minter's place on The "Owl."

Daddy Prescott is still running wild, the boys have got him so he is afraid to settle down. Some say he is about to give up, and is waiting for Salt Lake to turn the "Rat" back over to Los Angeles so he can settle down without being bumped. He was last seen making a trip on the San Diego "Owl."

Notice: Mr. J. L. Hill—J. Ponder wants to see you on some very important business.

Guess the Southern Pacific does not have any more Chef Cooks and waiters on the road. Tom Harrison has quit sending in the dope.

What has become of Sheik R. R. Burns?

Kid Walker says that when they quit making derby hats, he will go bareheaded. That's all right, Walker, but what about the rain?

Otto Johnson had to get married before he knew there was any other line in the district other than the Seattle line. Now he is wondering how he stood it so long, and since he has landed a regular berth on the "Owl", he hoots every night before he goes to bed.

J. A. Green bumped A. W. Starin, not knowing that the car was next to the club car. Well, he failed to get any help in making down with such a rather trying for the gentlemen. Now he says there is too much side and not enough "Owl" and has gone back on the stumper where he has passed a higher limb with a smoothie berry.

On Wednesday afternoon, Mrs. Beulah Johnson, of Towne St., was the hostess to a "surprise" appointed luncheon, which was entertained the Poppy Girls Club. Mrs. Gladys Mathis won first prize; Mrs. Hattie Pitts, second, Mrs. Sarah Cayton, third.

Why cannot there be world-Peace? This will be the subject of the sermon by Elder F. G. Rodgers at the Big Tent 20th and Central Ave., Sunday night, February 8th at 7:45 P. M. In his sermon Mr. Rodgers will endeavor to make clear from the Bible the meaning of world conditions as to unrest, peace proposals and the political aspect of the present time.

In every age God has used the various political conditions as signs for His people and it is certain that the present day signs have some meaning for the people.

The New Seventh Day Adventist Church at 27th and Wadsworth is steadily going up in construction and we invite our many friends to go by and inspect the size and strength of the building. Come in the Big Tent Sunday night. All are welcome.

BROWN-DOUGLAS-LINCOLN DAY

John Brown, Crusader; Frederick Douglas, Educator; Abraham Lincoln, Emancipator! Three heroic figures in the history of the Negro race. Brown, whose dogged determination to battle it cost him hisETAOI N I7E7EEEE the colossal evil of slavery even though it cost him his life, drew many others to the cause of abolition. Abraham Lincoln, the martyred President whose immortal pen struck volcan-like the shackles from the slaves, and Frederick Douglas who through the trying days of the Reconstruction led the world to the fact that the erstwhile Negro chattel was capable of attaining the greatest heights in the culture and achievements of the world. These three men will be the subject of a great Memorial meeting Sunday afternoon, at 3 o'clock at the A. M. E. Zion Church, Pico and Paloma. Orations by prominent speakers augmented by a musical program will make the afternoon an interesting and enlightening occasion. The memorial will be held under the auspices of the local branch of the N. A. A. C. P.

Dr. W. M. Pillow Opens New Dental Office

Dr. W. M. Pillow will open his new dental office, located at 4621¼ South Compton Ave., only 2½ blocks south of Vernon avenue, by Monday, February 14th. It will be the finest and most up-to-date dental office in the South-eastern section of Los Angeles.

Both Dr. Pillow and N. J. Bateman have been in the dental profession for a number of years and have built up a good, sound foundation over which the business now stands, that is envied by their biggest competitors. We are proud to state that they have built their great practice by giving the best of quality workmanship and above all courtesy to each and everyone of their patients. In connection with their dental office they will have one of the best equipped dental laboratories of this nature, and will be handled altogether by Mr. Bateman who has had wide experience in this end of the business.

If you have plate, bridge or mouth trouble, drop up and let them advise you. This, the doctor says, will be absolutely free of charge.

This office will be known as Dr. Pillow's Dental Office No. 2, as Dr. Pillow's Office No. 1 is located at 843 Central Ave.

Both men, by co-operating under their present system will put the very best type of dentistry into every home, and the public will be quick to realize that they cannot get this type of dentistry elsewhere at Dr. Pillow's prices.

Again the Grand Fashion Revue, dancing to the music of one of Los Angeles' best jazz orchestras.

Quite an important and welcome addition to the 20th St. Y is the Cafe opened by Mrs. Carroll in the main floor of the Y annex. She formerly operated the Sterling Cafe, 20th and Central.

Pickens Addresses German Press

(By: A. N. P.)

Berlin, Feb. 2.—William Pickens, field secretary of the N. A. A. C. P. and contributing editor of The Associated Negro Press, of the United States, who is in Europe studying conditions, was the principal speaker and guest of honor at a dinner held by representatives of the press of European and Foreign nations. Speaking on the subject "The Relation of the Problem of the American Negro to

© A.N.P. WILLIAM PICKENS

the Race Problem of the World, Mr. Pickens related the conditions faced by the Negro in America, compared with the treatment accorded minority races in European countries and declared that it was duty of governments of all countries to protect the members of minority races within their borders and to see that they are afforded every right, privilege, and opportunity enjoyed by all other citizens.

In comparing the conditions faced by the Negro with those faced by other minority groups in various countries, Mr. Pickens said: "Men are continually trying to differentiate the struggle of the Negro in America from the struggle of the under-dogs elsewhere in the world. The only difference between the problem of the Negro and the problem of a white class that is economically under, is the fact that the Negro is more easily distinguishable by his color and is therefore a better mark for the exploiter and oppressor. And also the fact that for three or four hundred years the African Negro was treated as common property, somewhat dulled the conscience of Christian nations to the treatment of Negroes. The Negro problem may therefore be a class problem, with this added difficulty of color and history."

The dinner was held at the Rheingold, one of the finest restaurants in Berlin and in Europe. More than twenty newspaper men were present and following his address at the close of the dinner, Mr. Pickens was swamped by reporters seeking interviews with this Negro American who has spent a life time studying conditions faced by his and other minority races, and fighting for their rights. Mr. Pickens address at the Rheingold, as at the festival of the Herrenhaus and at the Kwakke Castra, was delivered in German.

PASTOR VICTOR IN CHURCH ROW

Members of the Mt. Olive Missionary Baptist Church at 3064 E. 1st street, yesterday afternoon found themselves in exactly the same place they were in January. Their internal strife, ousting of the Pastor unlawfully, possession of the church and battles over trusteeship are a thing of the past. The California Supreme Court yesterday granted a writ to the Pastor, W. E. Hutchinson, and his followers to take possession of the little church for colored people. Philip B. Omer, a police officer and six others in February of this year, formed a separate organization. They went into Superior Court and had the minister and his trustees ousted. Then it is charged Omer and his followers took unlawful possession of the property before judgment was rendered. Yesterday the State's high court ruled the pastor and his followers should have restitution.—A. A. Examiner, February 4, 1927.

Rho Psi Phi An Outstanding Feature in the Community

BY: H. L.

Achievements of women when performed in fields of endeavor, where men usually predominate, invariably attract especial attention. This, as a rule is evident, more from the fact that they are women, than from the excellence of their accomplished deeds, in comparison with those of other doers, regardless of sex. But within our own midst is a little body of women whose history of the past two years may not be surpassed, in progress nor importance by any similar body of men, and who quietly and unobtrusively have established themselves, staunchly in the local affairs of the community. This is Beta Chapter of the Rho Psi Phi Medical Sorority.

It is a chapter of the national Rho Psi Phi Medical Sorority which had its beginning at Howard University in 1922. As is usual in all pioneer movements it was the thought and suggestion of one woman which became the nucleus of the now well-founded Sorority. Dr. Mary Jane Watkins is the woman who originated the idea and wit hthe quick co-operation of the other thirty-five young women then attending Howard Medical School, the idea soon became a reality. At that the organization would have lacked strength but twenty wives of the men of Freedman's Hospital and the Medical School headed by Mrs. W. A. Warfield, wife of Dr. W. A. Warfield, surgeon-in-chief at Freedman's Hospital acted as patrons or associate members to the Sorority. The final step, the granting of a charter on the recommendation of Dr. Edward Bullock, dean of the Medical School made the Sorority a National Fraternity. This, briefly, is the history of the Rho Psi Phi which now consists of a total membership of 125 medical women, graduates, either from an accredited medical school or with record of having successfully passed a State Board.

THE LOCAL CHAPTER

Beta Chapter was set up on May 20, 1924, by Emily Brown Childress, Ph. G., with ten members. As in the case of the twenty wives above mentioned who formed an associate body for the moral support and housing accommodations for the girls, so in the local Chapter, wives of medical men and other representative citizens formed an associate body to Beta Chapter. This associate body meets with the Sorors in their literary meetings once a month. The Sorority officers are:

Emily Brown Childress, Ph. G., Pres.; S. S. Turner, M. D., 1st Vice-Pres.; Ruth Wade, D. S. C., 2nd Vice-Pres.; Edith Bell Pruitt, Ph. G., Secy.; Annie J. Leggett, Ass't. Secy.; Georgia E. Offut, D. S. C., Treas.; Helen Lee, Ph. G., S'gt.-At-Arms; Jewell Hoffman, rite; R. Bates Robinson.

The Associate body officers are: Mrs. O'Delia Whittaker, 1st Honorary Pres.; Mrs. Edna Lytle, 2nd Honorary Pres.; Mrs. Marie Marie Fredrich, Pres.; Mrs. Beatrice Thompson, Secy.; Mrs. Florence A. L. Gordon, Fin. Secy.; Mrs. Ada-Lewis, Chm. Social Com.; Mrs. Corona White, critic; Mrs. Laura Smitherman, Chm. Music Com.; Dr. Annie Leggett, Chm. Building Com.

With the thought of a Sorority House ever uppermost in their minds the plans of these noble women culminated in the opening of a beautiful well-appointed House at 1210 W. 36th Place. The genial matron here is Mrs. P. Henry and it has been a home to the girls who avail themselves of its hospitality with all conveniences at a very low rate.

To individually designate the tireless efforts each of the worthy women has put forth to make the work a success would require a large but interesting volume, so to mention its president is in a way to mention all as each of them has whole-heartedly and unstintingly given the best of their time, talent and abilities to assure its success.

Emily Brown Childress, Ph. G., is a graduate of Los Angeles High School and the University of Southern California, with from her course at Howard Medical School. She has been tireless in her efforts, ever striving to aid in the work for the Sorority and at present assisting in a commendable

RACE RIOT NARROWLY AVERTED IN BIRMINGHAM

Birmingham, Ala., Feb. 7.—Prompt action of the special officers of the Sloss-Sheffield Product Coke Plant, and cool-headed employees, probably prevented a race riot in the rooms of the plant here Friday, following the killing of Sam Harris, a white man, and Isan Carter, a Negro.

The shooting was caused, according to the report, when Ed. Tarwater, a white night watchman, pushed Carter out of the pay line and struck him over the head with a revolver. Carter in turn pulled his gun and fired at Tarwater wounding him in the arm, but not sufficiently to prevent the white man from returning the fire with deadly effect.

Will Carter, a brother of the dead man, rushed to his brother's assistance and when crowded by the angered whites fired into the crowd killing Sam Harris. Will Carter is held in jail, charged with murder in the first degree.

National Benefit Insurance Company Dickers For Standard Life

Atlanta, Ga., Feb. 7. Reports are being circulated here that the business of the Standard Life Insurance Company will be taken over by the National Benefit Insurance Company, have been investigating the status of the Standard here for the past three weeks.

The report further states that the deal, whereby the two companies will merge will be consummated on or about February 5th, thereby bringing to an end efforts of several Negro companies to take over the Standard Life Insurance Company, which is one time was one of the largest enterprises operated by Negroes.

The National Benefit Life Insurance Company, one of the largest companies of this group, is operating in 29 States and at the end of 1926 boasted of $33,000,000 worth of insurance in force.

AIKEN GRAND JURY DOES NOTHING

(By: A. N. P.)

Aiken, S. C., Feb. 7.—"Tell to America What You Will Do," urged Judge J. H. Johnson in delivering his charge to the Grand Jury, investigating the famous "Aiken Lynching" and Friday afternoon, this body followed the judge's exhortations and in so many words indicated that they would do nothing and the matter was closed.

According to the presentment of the jury after four hours of deliberation, they did not feel that sufficient evidence had come before them at this time to warrant a request for indictments against any one or more parties. This same presentment thanked all who had assisted in the investigation, and informed the court that the members of the jury "do earnestly believe in the observance of law and order and the enforcement and respect for the laws of our state and assure you of our willingness and desire to do what is in our power to cause such a condition to exist."

The investigation began Wednesday morning and included the examining of witnesses and visits to the jail. While the verdict was not surprising it was generally disappointing. Again Negroes have been lynched and the "evidence is insufficient to request an indictment."

ARE NEGROES CITIZENS?

Can They Ride In Pullmans?

BY: DANIEL W. CHASE
(For the A. N. P.)

The Associated Press carried during the week news item to the effect that the Interstate Commerce Commission had ruled that neither the Pullman Company nor the railroad company have erred in declining to sell a colored man a ticket carrying with it the Pullman privilege.

Referring to this editorially, "The Christian Century," a well-edited and widely read religious weekly, says:

"It is no new thing for Negro passengers to be denied Pullman car accommodations in the South. Until recent years denial to get a Pullman reservation if the local ticket seller was willing to sell it, but such requests are usually met with the answer that they are 'sold out.' Some of the states apply their Jim Crow laws strictly, and, of course, that rules Negroes out of Pullmans where whites ride. The only remedy is for the railroads to provide Jim Crow Pullmans. But in interstate traffic the state laws may be contested. Recently a colored woman, Blanche S. Brookings, purchased a through ticket from New York to Florida, she was forcibly ejected from her berth. The National Association for the Advancement of Colored People has joined her in entering suit against both the Pullman Company and the Atlantic Coast Line for damages of $25,000. Clarence Darrow and Arthur Garfield Hayes have been retained as counsel, and the case will be fought to a finish. As it is a federal court case there would seem to be little doubt of the result, for there are no federal Jim Crow laws. There is, of course, much more involved than the Jim Crow question in Florida. It is a question in the fundamental right of an American citizen to equality before the law with every other citizen without consideration of color, status, or previous condition of servitude, and on that issue the Constitution seems very fair. Whatever justification may be argued for the social separation of the races, any arbitrary deprivation of equal treatment before the law or in the purchase of the necessary commodities of life, such as a bed when traveling, cannot be justified. Professor Carver, one of the scientific geniuses of the generation recently said he could not give the help he would like to give to his people, because he was not physically able to travel without sleep. Truly the citizenship of the American Negro is in danger. Whither are we drifting?

Don't forget the date for the season's finest entertainment, the Fashion Show and Dance, March 1st, Shrine Auditorium.

Oil Scare Hits Watts

PROPERTY OWNERS BUSY SIGNING LEASE-OPTIONS

By: J. E. P.

The property owners at Watts were all in a furore last week when it was noised abroad that there were indications of oil and probably gas in the section South of 103rd street and East of Central avenue.

Things even took on still a brighter hue when our good friend Mr. Walter L. Gordon of the Walter L. Gordon Realty Co., representing the South-West Petroleum Company, secured the signing of Options for Leases from the property owners. According to Mr. Gordon's statement to this writer, many have signed options, and desired me to do likewise, but as heavily as I believe oil to be in Watts, I couldn't sign.

PEOPLE SHOULD BE CAREFUL

The proposition of Options on property are things that require careful consideration especially where the "consideration" is all on one end, and therefore each and every individual should decide his own "consideration."

To begin with that; Option ties your hands from leasing your property, as you see fit, one year (according to the terms of this Option to the South-West Petroleum Company) except to this said company; you lose the opportunities that may come to you during that year, with no provision made for your "consideration." Some say you're taking a gamble, there might be oil; that's all well and good, but if it doesn't your inconvenience has had no "consideration."

Then again, drilling operations are agreed to be started within six months from date of lease; this is all well and good for the individual who only has a lot, but no "consideration" is provided for the person who must pull up stakes and locate elsewhere, all at his own expense, probably. I say probably because Mr. Gordon assures me that the individual may stipulate his own "consideration," to be turned in "bonus" when he signs his lease. This is all well and good, but a paragraph of this Lease-Option specifically specifies what that lease will contain and the property owner's "consideration" is not considered. If the oil theory pans out then of course you're considered with, according to Mr. Gordon, 12½% royalty; if it doesn't, then you have just had your inconvenience, opportunities lost maybe and the expense of re-establishing your residence elsewhere with your "consideration" not provided for. It's a GAMBLE—and it's up to the individual to decide who is to be the gambler, he or the company, for which ever way it goes—win, lose or draw—the GAMBLER PAYS for the opportunity to gamble. For the benefit of those who have not had the opportunity yet offered them of this Lease-Option, I here reproduce the same:

"OPTION"

"For and in consideration of the sum of One Dollar ($1.00) and other valuable considerations to me in hand paid by the South-west Petroleum Company, receipt of which is hereby acknowledged, I, (the undersigned) do hereby give, bargain and grant unto said South-west Petroleum Company, their successors or assigns, the sole and exclusive right for a period of leasing from me for oil and gas or gas drilling and developing purposes the following described property: (Continued on page 8)

GIVES "AT HOME"

A very delightful "At Home" was spent at the lovely residence of Mr. and Mrs. Leonard Green of 2740 Glassell street, Los Angeles, Cal., on February 2, 1927. Covers were laid for Louisianans including former friends of Mr. Green, among whom were Mr. and Mrs. Kimble, Mr. and Mrs Arthur Reese, Mr. and Mrs. Amos Smith and son, Mr. and Mrs. M. D. Luke, Mr. and Mrs. Octave Lavigne and niece, Miss Izitha Smith, Mr. Joseph Robinson of Chicago, Illinois and Mr. Eugene Willis were honored guests.

Made by Mrs. Green was a very unique and clever decoration for the table; a centerpiece portraying a Japanese garden scene, in the center was a fish pnd in which were water lilies. Surrunding this were miniature cherry trees in blossom. Japanese dolls and vari-colored lights added colored to the scene.

Music for the occasion was rendered by Mrs. O. M. Kemble, Mr. Eugene Willis, Miss Smith, Mrs. Green and Mrs. Luke.

PASADENA NEWS

BY: W. MATT SOLOMON

Despite the many inducements from the various colleges, Slick Stocks, the all-around star athlete of Pasadena Junior College is up in the air as far as choice is concerned. Offers come from colleges in Montana, Washington, Berkeley and U. S. C. in California. It goes without saying that Stocks has made an immitable reputation for himself and the school as well and with such a grand outlay of notable schools to pick from we feel sure he will use his better judgment. Many friends are at his back with sound advice, all of whom wish for him the greatest of success.

ARE YOU VOTING?

The lethargy that is always prevalent among our group is very conspicuous when it comes to voting time. So many when asked how they stand on certain propositions about 3 or 4 days before the election, generally come forth with this remarks, "I didn't register." It is a well known fact that the only weapon we can at all boast of is the ballot and a great proportion of our voters do not know how to vote intelligently, and will not avail themselves of the opportunity to be so instructed. Very often now the city director am to be elected, and its the same old story, no organization to endorse any certain man or any group of men. Generally just about a week or ten days before election we pop up with an over-night organization and expect recognition, but such bodies are of no avail and have just about as much prestige. There has only been one organization to my mind that has come any ways near being recognized as a legitimate body which at that time was headed by Mr. A. H. Evans who was very heartily supported; he was succeeded by Capt. E. L. Gaines, but the organization failed to function properly, consequently we had no representative body. Since then other attempts have been made to organize our group in Pasadena but none have had sufficient strength to ask for any special representation. It's high time some permanent move should be made to interest all the colored voters in Pasadena, which is the only source of recognition by the powers that be. Certain jobs were promised men of our group by certain city officials but they didn't materialize. You know why.

Elder Carter Writes From Arizona

THE CALIFORNIA EAGLE,
Mr. Boss, Editor.

Dear Sir: This being my second letter to your office, the former being from Imperial Valley, though quite an interval between. During which time I was making an extensive tour of Northern and Southern California.

I was formerly with Elder F. I. Douglas of 1122 E. 33rd St., L. A., now being in Yuma, Arizona and have purchased a lot on 10th Ave-5th St. for the purpose of erecting an Assembly. The Lord is blessing souls are being saved. We are striving with the conscience of men to make them better.

However, we find the same dogmas prevailing here as in any Southern State, segregated schools, which are the direct fruit of evil workers.

Some five o six years ago, one of our so-called (race) leaders advocated a separate school policy, which became a proposition and was passed, which is the merits of Southern influence.

The separate school policy which is extravagant and very repulsive and an insult to the Negroes of Arizona, a violation of the civil law of 1875, and in infringement on the Constitution of the government, which increases and entails an additional responsibility to every taxpayer for separate maintenance.

My observation of the population of the State, shows the entire State with a smaller population than Los Angeles, with the Mexicans comprising 60% of that, and the Negro voting power being impaired.

Yours truly,
ELDER JAS. CARTER

South Carolina Roused Over Aiken Jury's Failure to Indict

The entire State of South Carolina is aroused over the refusal of the Grand Jury of Aiken County to indict any of the five officers and citizens charged with participating in the lynching of Bertha, Clarence and Demon Lowman, who were taken from the Aiken jail on the morning of October 8 last.

The National Association for the Advancement of Colored People lists the following developments in the situation since the Grand Jury turned in its report:

1. A scathing statement from Governor John G. Richards, calling the Grand Jury's failure to indict a "miscarriage of justice." Governor Richards also said: "I promised in my Inaugural Address that I would stand for the majesty of the law. I meant what I said. I promise the people of South Carolina that if it lies within my power the Aiken lynchers shall be brought to justice."

2. The statement of Governor Richards received not only the commendation of the Committee on Interracial Co-operation in Atlanta, but the endorsement of the South Carolina Senate as well. The Spartanburg Herald of February 2, reports:

"A resolution commending Governor Richards for his stand on the Aiken lynching question, introduced by Senator Grenehar, of Edgefield, was unanimously adopted and sent to the House for concurrence."

3. Scathing editorials in the leading South Carolina newspapers declare the Aiken lynching case has now passed from the hands of the Aiken county Grand Jury and is now before the people of the State. Following are quotations from leading editorials:

Columbia Record (signed by Charlton Wright)—"All enlightened people join in the demand of Governor Richards that they (the lynchers) must be brought to justice and punished for their crimes, which, as Governor Richards says, 'is one of the most hostile that has happened in our State.'"

Charleston News and Courier—"Last week the Aiken lynching was up to the Grand Jury of Aiken County. Now it seems to be up to the people of South Carolina."

Columbia State—"The Legislature now in session could do the State of South Carolina no better service than to put $25,000 at the command of Governor Richards to be used in vindicating the law and in defending the State's honor."

Spartanburg Herald—"That lynching in Aiken was at first simply a murderous defiance of law carried out by a relatively small group of men. But now there is registered in the making of the country a timid surrender of justice to the fear of these men, who strike in the dark."

There is a rumor that one of the Bachelor Girls is engaged. We wonder. Of course, she has a diamond ring, and wears it on the third finger of her left hand, but, "What's in a ring?" We are still wondering.

All members are urged to be present at the next meeting, business of importance.

Below is an article recently published in an Eastern paper concerning the Gamma Chapter of Rho Psi Phi one of the other strong chapters in various sections of the country:

"New Chapter of Rho Psi Phi Here"

"Pittsburg, Pa., Jan. 8.—Gamma Chapter of the Rho Psi Medical sorority was organized in Pittsburgh by Dr. Mary Jane Watkins. This is the only Colored medical sorority in the country and was founded at Howard Medical School in 1923 by Dr. Watkins. The Gamma Chapter boasts of young women of the Alpha Kappa Alpha and Delta Sigma Sororities who are in the medical fields. Rho Psi Phi sorority is similar to Chi Delta Mu fraternity in its aim to promote high scholarship among students of medicine, to encourage Negro girls to enter medical fields and to place women graduates on the parallel with the men of their respective professions.

"Gamma Chapter is composed of: Mary Jane Watkins, D. D. S., president; Marie Kinner, M. D., vice-president; Edith P. Hawkins, Ph. G., recording secretary; Juanita Henderson, corresponding secretary; Maryonette Knott Robinson, treasurer; Norine West Taylor, Ph. G., social secretary; Alta Gibbs, Ph. G., and Gwendolyn Brown, Ph. "The first convention will be held Easter week at Howard. Two chapters are now being considered, one in Philadelphia and one in New York City."

Distinguished Rabbi to Speak At Zion Church

GREAT EDUATIONAL MEETING

Rabbi Edgar F. Magnin, of the Temple B'Nai B'Rith and distinguished citizen of Los Angeles, will speak at the First A. M. E. Zion Church, corner of Pico and Paloma streets, Sunday night, February 20th, on the subject "Education that Educates." This address will be the principal feature of a great educational mass meeting in the interest of Livingstone College, the "Class A" institution of learning of the A. M. E. Zion denomination, located at Salisbury, North Carolina.

Rabbi Magnin is profoundly interested in modern education and he is regarded as a high authority on some of its important phases. His eminence as an orator and his prominent connection with the large movements of civic, social and religious betterment in Los Angeles, make him one of the most outstanding characters of this city. In fact, Rabbi Magnin is a national character, and it will be a privilege to hear him speak on the vital subject of education. In addition to the Rabbi's address, there will be a special program of music. The public is invited to be present on this occasion, and here will be no charge for admission.

The morning service (11 o'clock) at the A. M. E. Zion Church Sunday, February 20th, will also be notable. The birth anniversary of Joseph Charles Price, first president of Livingstone College and internationally famous as an orator and educator, will be observed with impressive ceremonies. A cordial welcome is extended to all who may wish to attend.

The Southern California Alumni Association will have its annual midwinter tea Sunday, February 13th, 4 o'clock at Wesley M. E. Church. All winter graduates of 1927 and members are cordially invited to be present.

TRIPLE CELEBRATION

Well might the Los Angeles Forum and the N. A. A. C. P. celebrate as they will, on next Sunday, the Anniversaries of such giants for human rights as "Old John Brown of Osawatime" whom they hanged; Abraham Lincoln, the Emancipator, whom they assassinated; and the Bronzed Knight, Frederick Douglass, who bursted his chains and went forth to make others free.

JUST A SWIMMING POOL—THAT'S ALL

No better time than right now for the Play Ground Commission to get Los Angeles on the right track for 1927, as standing fairly and squarely for all the people by abolishing any semblance of a Jim Crow city government. The people do not want anything on the Eastside except a swimming pool, that is to say, they want no black pool, yellow pool, white pool or any other kind save and except what we have mentioned, a swimming pool. We are satisfied that we are to get some action right away on this proposition and end the cavil for all time.

Two more gmes on Sundy last stowed away safely, the Giants now have the second half of the Winter League practically nailed to the mast. Stacked up against Pirrone's determined All-Stars the boys had to play and play well. Even the weather seemed to smile on the boy though as Sunday was ideal baseball weather and they made god use of it as the casualty list will tell.

LEAVING FOR JAPAN

At the end of the season which is now close at hand the Giants will be the nucleus of a team which has been organized to tour the Empire of Japan. Following a route mapped out by the Japanese promoters of the venture the Giants will tour the principal cities of Japan stopping for a week or ten days to play several games in the Hawaiian Islands. The Japs though usually small are learning the game rapidly and not only are leagues being founded in the Flower Kingdom but the populace in general have taken to baseball with great gusto.

Many good teams have been lined up to give the Giants plenty of action although according to Dixon, their largest opposition will be met with on the Hawaiian Islands where they will play against some of the best soldiers and sailors in the Army and Navy. Dixon, Pullen, Mackey and Cooper are the five men, some of the best in the Negro League, scheduled to make the tour.

JACK KEARNS WANTS $100,000 FOR WALKER-LOMSKI MATCH

(By: A. N. P.)

Los Angeles, Cal., Feb. 8.—The Jim Italian hand of Jack Kearns which showed itself in the defeatment of Tiger Flowers at Chicago and Tiger's later loss here to Ortell, showed its intentions by demanding $100,000 for a match between his new middleweight champion, Mickey Walker, and Lee Lomski. He is said to have figured that Walker could beat Lomski but could never beat Firpoze. This price would hardly be paid in Coast promoters do not pay big champions.

UPPERCUTS AND BLOCKS

By: HARRY LEVETTE

Here is an uppercut for your beanl

If it fits you take it like a man, it may do some good.

This:— Don't get conceited! If you are already, get out of it. Go away off to yourself, and Harry Levette have a good look at yourself.

You will find that you are not the only one of millions of others, richer, smarter, better looking. Oh, well, I've given you the same advice before.

Valentine Day! Mrs. Huddleson has her's already. The honors of swimming the channel but NO money, Tiger Flowers will send comic valentines to Benny Yanger and Harry Lee, picturing them as "referees".

Henry Ford will mail out his second million of tin valentines. They're darn good ones though at that! Judge Landis should send "pretty flowered

cards to Ty Cobb & Co., to square himself for the false alarm. We have a nice brick for a guy who started an argument with us the other day.

He said all boxers were ignorant. We told him that many of our friends were boxers. That as a rule they had high school educations, that half the world were like him, physical weaklings, hence could not boxing, or they would be doing it for the big money it brings.

Now the Skiff Skimmer's Derby in June! Who can row a boat? The Soaring "Eagle" wants an entry to represent it and win the $5,000. Get in touch with the Sports Editor at once if you think you can win and we will give you what is left after we divide with the office force.

Have you been invited to accompany Ace Foreman on his flight to New York? If we go, send all mail to Pikes Peak, New Moon and Woolworth Building zoo!

Judge Hueston Heads National Negro Base-Ball League

(By: A. N. P.)

St. Louis, Mo., Feb. 8.—The election of Judge W. O. Hueston of Gary, Indiana, as president of the National Negro Baseball League, the dropping of Indianapolis, the admission of Cleveland the adoption of a working agreement between the Southern league and the National League, were the highlights of the meeting of the organization held here Thursday.

Judge Hueston's election was unanimous and was in keeping with the policy discussed at the joint meeting of the Eastern and National Leagues, of electing men to head the bodies who were not connected with the league as a club owner.

Inability to meet the demands of the body was the reason for dropping Indianapolis and the entire Indianapolis team, with the exception of De-Moss, was transferred to Cleveland. Demoss, however, was recommended to the Cleveland owners as manager of the Ohio team.

The agreement affected between the Southern and National Bodies enconches a clause protecting both bodies from influencing players to jump contracts and prohibits teams of each body from making raids on the rosters of teams of the other organization. Exhibition games will be played by representatives of both leagues and upon the agreement of both leagues. The Southern Association was represented by Bert M. Roddy, president of the Southern Negro Baseball League.

Boxing Commission Approves Hudkins-Atkinson Bout

The much discussed but very capable Ace Hudkins will be allowed to fight Billy Atkinson at the Olympic Auditorium next Tuesday night. The match was in doubt all the week on account of the agitation to suspend Hudkins as he has been in Kansas for an alleged fracas up there. But as we go to press word comes that it is a certainty. This assurance arriving too late to obtain news of the part of the card it suffices to say that it will be of the usual good Olympic standard. Hudkins has a hard boy in Atkinson as the Vest should be crowded out with the possibility of the much talked-of Ace getting the call.

Along Fisticuffs Row

Young Harry Wills is rematched with Duffy at Frisco.

At Hollywood Athlet'c Club Friday night, Harry "Kid" Brown vs. Dick Hoppe.

At Dreamland Rink in Frisco, young Jack Thompson vs Tommy Cello, Friday night.

We have several near champions now among the colored boys. Young Jack Thompson, Baby Joe Gans, Bob Lawson, Geo. Godfrey, Walcott Langford, Chick Suggs. What with fighting the third man its hard for one to keep it after he gets it. There will soon be another champion out of this bunch but whatever division he is in there will be hundreds of white hopes waiting for him.

Dixon, Pullen, and Duncan Have Great Records

There is surely a player in the Negro National League who does not deserve a world of commendation, for the brand of baseball with which they have delighted the fans the country over, in both the Eastern and Western Leagues. Three of them were with the Philadelphia Royal Giants this season.

Of Pullen, little can be told, that the local fans do not know already, as he is considered an almost a home boy because of residing recently on the Sun-kissed Coast; he is a great catcher and his work is always watched with zest.

Duncan, a Kansas City boy, first came to the attention of the "powers that be" in the first year of organized Negro Baseball, when a mere boy he played the regular evening and Saturday baseball on the Pasco Park Playground, a great playground in the heart of the city that has turned out many good ball players both colored and white. Duncan rapidly made a "rep" for himself on "big time" by his fast work and knack of following plays from the plate all over the diamond. Duncan is very popular in the old home town where he has always been a member of the Monarchs, and usually receives the keys to the city on his return.

Last, but by no means least, comes Herbert Dixon, as good a leftfielder as ever did lawn duty on the two big leagues. Dixon is a native of Harrisburg, Pa., and got his first initiation around the sand lots of the historic Pennsylvania town. He made his first step out as a member of Harrisburg High School team where he practically made the team, later being taken over by the Bacharachs for a season, after which he was bought by the Philadelphia Royal Giants in 1921 and has been with them ever since, except for a season with the Black Sox in 1924. Dixon is highly elated over prospects of the Japan trip from March to June and states that he will probably join the home team directly on his return. Dixon is well posted on baseball affairs chooses Ty Cobb as the best all-around player and predicts a great future for Negro baseball. Dixon is great at the bat and has made many outstanding plays during the present season.

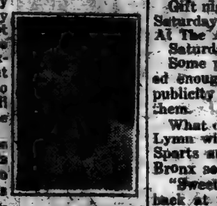
YES SIR! NEXT HEAVY-WEIGHT KING MAY DEVELOP AT MAIN ST. TOURNEY

Gib Ramies and Jimmy Lyall will meet next Saturday night at the Main Street Athletic Club in Promoter Carlo Curtis' second heavy weight elimination show.

If records count for anything the bout should be filled with many tense moments and sensational thrills. Both boys have exceptionally fine records and the equally matched in size, weight and ring experience.

Last month Ramies made a sensational debut at Wrigley Field by dumping Steve Mullens in five rounds and last week San Diego fans saw Jimmy Marine Ellis in 90 seconds. He has the remarkable record of nine straight knockouts, which includes Jack Gentry, Harry Clark, Tony Ramsey, Joey Hughes and others.

Lyall is little known in Main Street by not his record among clubs and he has a host of friends who are looking for a great battle. Both boys are in the pink of condition and will be at the scales at 8 o'clock Saturday night.



CATCHERS PULLEN AND DUNCAN, Royal Giants

GIRLETICS

By: GLADYS MATHONICAN

In the very near future the Hi-Y basketball team from Oakland is coming down to L. A. to play our local Hi-Y boys and it is being rumored that the Girl Reserve Basketball team of the same city will accompany them. We do not of course wish to discourage our expected visitors, but we are inclined to lieve that they will meet with a double headed defeat.

The Girl Reserves Basketball team is getting down to business, having as their captain, recently elected, none Gladys Mathonican other than the keen competent Hazel Thomas. With such an efficient leader what else could these girls do but go over the top.

Everything that I have said about the captain of the basketeers also applies to the newly elected captain of the indoor team, Alice Stevenson. She is putting out a team with the assistance of Vernon Fulcher the coach, which will be difficult to defeat.

The Westside Girls are very eager to play the Girl Reserve team and a game between the two is being scheduled for the very near future.

Watch this column for the date.

Again the female of the species has made the male sit up and take notice. Mrs. Myrtle Huddleson broke the Catalina Channel and not only broke the $15,000 but also smashed the name on the scroll of those men and women to complete that feat. After struggling through the icy waters, bite of a vicious barracuda, hunger, exhaustion, nothing daunted her in her struggle to win the prize for her 11-year old son. That's women for you!

PEDRO AMADOR FIGHTS IDOL OF ISTHMUS AT PANAMA

WHITEY BLACK
Who has won a great battle at the Main Street Athletic Club last week.

From down Panama way where the two great little brown boys, Pedro Amador and Santiago Zorilla have been visiting home scenes, comes the news that the old rivalry between Amador and Pedro Jose Lombardo has culminated in a match to be staged in the Panama bull ring.

Lombardo, a fast, game battler, is a Spanish boy and the idol of the Spanish people. The city of Panama with its Spanish population and the city of color, with its native population are strong rivals, so augmented by the thousands of sailors and marines there. There will be an awful mob at the bull ring to see these two determined little representatives of their respective towns do battle. Soon after this match Zorilla and Amador will return here after which their manager will consider some of the matches offered in the East.

Mr. Ross is in receipt of a wire stating that his new fighter, by the name of Duffo, is on the way to be attached to his already large stable of twelve boxers. Duffo has a great knock-out record on the island and will probably make a similar record here in that made by his other stablemates.

The athletic aspirations of our genial friend, Mr. Luke Rainey, has been cut short by both the doctor's orders and the faculty at U. C. L. A. Little Wilbur Goodson, of whom we read about last week in this column was very indignant at my writing, especially upon my inquiring the state on therefor, he informed me it was his because I had insinuated that he had anything to do with the missing $40,000, which the state of Kansas appease the Board of Regents and the faculty of Wilberforce University of misappropriating, but because I had mispelled his and Frank Watkin's names in connection with so many items.

Writer Cursed; Struck With Bricks

(By: A. N. P.)

Chicago, Feb. 8. Less than four hours after he had been sworn at and threatened with an attack by Earl Dickert, manager and husband of Ethel Waters, the "blues" singer, James Gentry, a theatrical writer for "The Light" who is known as "Gentle Jim," was struck by two bricks hurled from the depths of a dark street by an [illegible] Gentry who [illegible] Mr. Gentry was unable to identify [illegible]

of making her notorious on our stage. Fame rests the other way. The way is open to her to be known and remembered as a great artiste. If she prefers not to be, more popularity, and money, too, awaits her in the trial of Josephine Baker, whose vulgarities have set the Parisian mob howling, and made it necessary for her at Christmas time to give a special performance for the children of the Paris police."

Dancer claimed that the criticism was wrong and unjust because Ashton Stevens, a white critic, had written that Miss Waters was perfect and beyond fault. He suggested in his denunciation of Mr. Gentry that colored critics could not know what they were talking about.

IN "HAWKS" HANDS

"No Senor Judge Honore, I not guilty, I try throw away zee pistola not shoot policeman" stammered the Mexican prisoner at the bar in broken English. John Hayes was the name he gave although Hayes doesn't sound Spanish. Hayes had been arrested at a miserable little hovel in the Mexican quarter as the witnessing officer testified: "Your honor, we found whiskey there and he made for his pistol pocket, and when we grabbed him we found this pistol on him." There were nine children, there all ragged and hungry looking. His wife was there, too, she looked very ill, and not cared for. There she is now in the court room." The wife was called and testified in her husband's behalf; also a Mr. Chas. Hill, who stated he was Hays' employer, and declared Hays was a good, steady worker. Their testimony probably ameliorated the judge's severity for such cases, as he let him off with 90 days suspended sentence.

The next prisoner of unmistakable Hebrew characteristics, answered His Honor's queries in a voice undistinguishable even close at hand, but the judge's voice was loud enough as he sharply reprimanded him: "Ah, shut up, its just talk, talk, talk, as if you're handling your own case, when will you be ready for trial?"

Carlson, a tall, worried looking young fellow walking with a limp, pleaded guilty to carrying concealed weapons. Both he and his lawyer stated he had carried it in fear of assailants who had shot him four times last year and he was released with a 90 days suspended sentence.

Mr. Cheat may have felt cheated of something, at any rate he was down on the scroll as disturbing the peace. "I'm going to give you a chance, the judge said, but stay away from those people. Discharged".

"Stephen Harden!" "Present". There never were more witnesses on a murder trial than were on hand to testify that Harden was on the corner of Jefferson and University soliciting alms. But although Harden drew a severe "call down" from the judge by talking the touch, the judge's questions made the first witness's testimony sound so ridiculous that the case was dismissed. "Now you go to that job you say is promised and get to work!"

The Rigoletto's seemed to have thought is was all right to move part of the furniture then set the house afire. They had lived at 675 East 54th Street, and after part of the furniture and eatables and clothing had been moved the house was burned by the aid of gasoline and oil sprinkled throughout the rooms. The evidence seemed very convincing to Judge Ballard.

Mr. Adams shame-facedly stood with averted eyes as the judge said with biterness, after Adams had mumbled the answers to his questions, "You're a fine specimen. A man with a wife and three large children was will commit an act of degeneracy in a public wash room." One hundred and eighty days for you in jail.

Roney was charged with violence on the person of his wife, Irene. "Did he strike you?" asked the judge of the frail, shy woman. "Yes, he struck me harder than he's ever struck me before." "Where did he strike you?" "On the face" was the reply. "No I didn't your honor", interrupted Roney. "She's mad 'cause I'm late." Well some body slapped her today, case continued to February 7th.

PICKENS RETURNS TO THE UNITED STATES

SUGGESTS PROGRAM FOR NEGROES OF THE WORLD

(By: A. N. P.)

Cicago, Ill., Feb. 16.—William Pickens, field secretary of the N. A. A. C. P. and contributing editor of the Associated Negro Press, has returned to the states after several weeks stay on the European continent. Mr. Pickens went to Europe to attend the Brussels Conference but was recalled by the home office of the N. A. A. C. P., due to the pressing need of his services in the work of the association here at home, ten days before the postponed conference was held.

Mr. Pickens' inability to remain for the conference was a distinct disappointment to the leaders of the movement particularly since he had been elected head of the Commission on the Negro Throughout the World, at a pre-conference meeting. In expressing his regrets upon not being able to remain for the conference to Herr L. Bibartti, of Berlin, Mr. Pickens suggested the following for consideration of the Negro delegates and others interested in the Negro question:

"1. Co-operation among Negro organizations in the different parts of Africa through some central bureau and by some periodic conference.

"2. Closer co-operation between Negroes of Africa and those of the Western World.

"3. The Pan-African Congress as a medium for world co-operation on the Negro question, by both white and black, and by all others interested.

"4. There should be some regular exchange of news and propaganda among the Negro groups that is some sort of agency from Association of the World for regular periodic exchanges of news service."

TOUR IS SUCCESSFUL

While in Europe Mr. Pickens visited the principal cities of Germany, France, Belgium, Russia and England, studying the conditions and problems faced by the minority races in those countries. According to reports coming to this country, no Negro has ever been accorded the reception in Europe such as was tendered Mr. Pickens. In every city or country visited he was in great demand as a speaker and contributed several articles to the journals of Europe.

Looked upon as the "ambassador of Afro-Americans," he carried out the role to an advantage in carrying the Negro's message to thousands of European whites who packed and jammed the assembly halls to hear him speak. In fact so well did Mr. Pickens put over this message many are now wondering whether it would not be a wise move to have him re-visit Europe periodically.

PROMINENT PASADENA PASTOR ILL

Dr. W. D. Carter the popular pastor of Friendship Baptist Church is ill at the Dunbar Hospital where he was taken at the advice of his family physician Dr. J. T. Whittaker. Rev. Carter has been complaining for some time but his illness was not taken to be of the seriousness that it is until discovered thoroughly by Dr. Whittaker. It is the source of much speculation that his illness is due to the extensive work he has under his charge in carrying out the large program of the great Friendship Church.

Dr. Carter is known throughout the country as a great church builder and promoter of Negro enterprises. To him can be accredited the innovation of the great industrial Fair and Exhibit held at Friendship Baptist Church about a year ago which was a wonderful and overwhelming success. Since coming to this section of the country he has steadily maintained the establishment of Negro enterprises that the Negro youth might have some source of maintenance, preached the same doctrine from his pulpit and when he became ill to further demonstrate his faith in such institutions he chose the Dunbar Hospital; a matter of practicing what he preaches.

So many of our race men preach one thing and practice another. The confidence he has in Dunbar Hospital equipment and the efficiency of her nurses is proof enough that Dunbar is in a class second to none in Los Angeles.

The last reports are that he has taken a turn for the better. His many members and friends wish him a speedy recovery.

There's A President to be Elected Next Year.

DOES THIS MEAN ANYTHING TO YOU?

By: TOM SAWYER

(By: A. N. P.)

Wasington, D. C., Feb. 16.—The United States of America—united on some things and divided on others—elects a President once every four years, by Constitutional provision. George Washington, whose birthday we celebrate in February along with Abraham Lincoln's and Frederick Douglass,' was the first Chief Executive. He served four years, was re-elected and served four years more. He had made such a good President, that many people thought it would be just lovely to let Father George keep right on Presidenting.

Then, some of the "Wise Heads" got together, either for political or patriotic purposes, which should be one and the same but they "ain't" always, and solemnly declared amongst themselves that it would be exceedingly dangerous for the future of the Republic, if one man, be he ever so good and worthy, should keep right on Presidenting, ad infinitum—"world without end, amen." Father George saw the force of this argument, and equally as solemnly took it upon himself to declare that it would be dangerous and furthermore, he would not stand,—or even sit—for Presidenting any longer! So that settled that, and John Adams got a chance.

Well, things went along pretty well until one Ulysses Simpson Grant came along. Grant, once regarded as a failure, came along and got his big moment when the Civil War started. As General of the Union Armies, he got matters to such a state that he took a marble top table at Appomattox Court House, Virginia, where get some terms on them, and compelled General Robert E. Lee of the Confederate army to put his John Hancock on the dotted line. They made Grant president once, twice, for this. He liked the job so well that he consented to permit his name to be used for a Third term. Father George had established the precedent of two terms and General Public Sentiment, the greatest ruler of all time, frowned on thrice receiving the crown, and that was that.

Then with assassinations and deaths, a new situation came about, and so on. Theodore Roosevelt, who served out part of the time of William McKinley, was too clever to try for another term immediately after h's full term to which he was elected. He "stuck" William Howard Taft, his War Secretary, in the job and went off to Africa, thinking all the time in his deep mind that the folks back home would forget the big idea, four years hence.

Roosevelt tried with the Republican for nomination, he failed. He established the Progressive Party in Chicago at the Auditorium, tore the G. O. P. wide open, and Woodrow Wilson slipped in. The opposition yelled "Third Term" all through that 1912 campaign.

Now comes the Honorable Calvin Coolidge from Vermont and Massachusetts. His case is almost identical with Roosevelt's. The "Third Term" Bogey Man has been take from the closet and dusted off. They have poured prohibition all about it, and have said to Sir Calvin: "They shall not pass,"—meaning Third term, Prohibition and a Small Navy. Hoss in Washington, Senator William E. Borah, and Speaker of the House, Nicholas Longworth, and "out of the Wild West," like Young Lochinvar, former Governor Frank Lowden of Illinois, who refused the office of Vice-President of the United States, after he had been nominated, and the delegates ready to go home. While there is "only a heart-beat" between President and Vice-President, which some have gambled with and won and we, Lowden said; "Nay, nay, Pauline."

These gentlemen, one and all, along with others, have begun to yell "Third Term." That seems to have an awful scare in it. Incidentally, they, along with a string of Democrats and others, are willing to suffer with a first term as President. But, what does all this mean to you, Colored American? It ought to mean a "whole heap," but the way the Lily Whites are smacking and prowing around in the South, and other interests are "Almost Persuaded" to forget you in the North, it may not mean very much. You can help it, by realizing you are a One Hundred Per Cent American Citizen, by making it mean something.

Now, when I've come to christ, will some kind friend please give me the definition of an "American Citizen" that has universal application? We will rise or fall by the answer. Send it to the editor of this paper and don't all speak at once.

Luxurious Apartment house on East Adams just completed by Mr. and Mrs. J. H. Sykes

J. H. SYKES OPENS NEW APARTMENT HOUSE

J. H. Sykes, well-known transfer man, has just completed the building of a modern double two-story flat on East Adams St., which adds immeasurably to the very creditable class of A-1 edifices on this thoroughfare.

Mr. Sykes is a firm believer in the future of Los Angeles and as a result has made quite a few investments which have thus far proven his keen foresight from a business standpoint. Coming here March 17, 1907, absolutely without means, he started to work for the dining service of the Southern Pacific Railroad, where he later became a Class A Chef. To work and toil for others, he was, however, not satisfied, not content and about this time formed a life partnership with Miss Rose Carter, well-known teacher of Fred Nay Colored, who became Mrs. Sykes and the two prospered and each mile post was a winner. For J. H. Sykes and his wife rank today well up among the progressive and thrifty of this community.

Therefore, after 12 years' service with the S. P. and one year working for the City, the Sykes started out for themselves. With rare foresight they bought property on East 23rd St., sold it for a great profit, bought in the suburban town of Bell, kept it 7 years and sold for a profit of $17600; bought at 5117 Ascot a magnificent home valued at $20,000.00; also property at Manhattan Beach and the East Adams Street property valued at $25,000. The latter up to minute modern in every respect will be open to the public February 26th.

This feat of Mr. Sykes but exemplifies having courage in one's self, fair and square dealing will bring success. Mr. Sykes has always given freely of his time and means to encourage all worth while movements, he is a director of the Unity Finance Company, treasurer of the Negro Business League and withal one of Los Angeles' foremost citizens.

N. A. A. C. P. Pres., San Diego, Interviews New Supt. of Public Scools

WILL FOLLOW IN FOOTSTEPS OF HIS ILLUSTRIOUS PREDECESSOR

When the Hon. W. C. Wood, stepped down and out as State Superintendent of public schools there was some apprehension among some people as to the possible attitude of his successor along the lines of equality of opportunity along all lines of educational opportunities.

Be it known that the Hon. Will C. Wood was an outstanding character for justice and fair play and never hesitated for one moment during his entire tenure in office to demand the same for everybody in the realm over which he presided.

It is therefore reassuring indeed to learn through the following interview that Mr. Wood's successor, Mr. John William Cooper of San Diego, will continue the policy of his eminent predecessor and do all in his power for all American citizens to procure enlightment and knowledge in the great state of California.

1244 Franklin Ave.,
San Diego, Calif.
Feb. 12, 1927.

Editor of The California Eagle
Los Angeles, Calif.

DEAR SIR:

Because of the most obscene and fervid agitation on the part of the colored citizens of California regarding pending attitude and program of Mr. John William Cooper, the newly appointed Deputy Superintendent of Public Schools of California, I arranged a conference with Mr. Cooper with a view of ascertaining his program, his view of mixed schools and positive action he may take along the interracial line, especially pertaining to future education of the colored children of this state.

Mr. Cooper was formerly the Superintendent of public schools of the City of San Diego. I apprehended absolutely no difficulty in arranging a conference with our newly appointed school head. This conference was had following a meeting I had with Mr. Edgar Hastings president of and Mr. Claude Woolman a member of San Diego's City Board of Education, this confidence was regarding my appointment by Mr. Hastings as a position on the Citizens Advisory Committee to make recommendations for improvements and expansion of school buildings and playground development of San Diego.

My conference with Mr. Cooper was held in his private office in the city Board of Education building. Mr. Cooper cordially received me and after the usual greeting we got down to business.

To begin with a misapprehension Mr. Cooper on the part of some citizens of which I mentioned also that misapprehension on the part of some citizens as to possible position he might take on these vital questions; that my purpose was to ascertain his positive intention and attitude on the matter, thanking him for services rendered as San Diego's City Supt. of Schools and protection given the colored children.

Mr. Cooper began by telling me of his plan for an improved educational system for the State of California, to take the people in his confidence with an assurance of non-betrayal of their trust; that his purpose is to serve ALL the people to best of his knowledge with restricting against none. I was assured to place full confidence in him regarding his position on mixed schools and absolute fairness to our colored children; that he did not propose to even suggest a measure against the disadvantage of our children. My attention was called to the fact that our interest was safe-guarded by an Act (Art.) of The State Educational Law, prohibiting segregation against our children because of the fact that we are citizens; the Law is for protection of citizens especially and the color, I was reminded, made no difference. Mr. Cooper in no uncertain terms assured me that should any certain school or school district attempt segregation against our children, he would withhold from them the State educational financial sums allotted Union until said school complied with the Law, but assured me to entertain no such fear because the State Law prohibited such segregation.

I next called attention of Mr. Cooper to passing of the Fifteenth Amendment to our State Constitution regarding establishing school districts. Again, he continued by saying that: The proposed School District Law was enacted for protection of segregated school teachers and especially for forming of school districts to avoid impending friction and dissatisfaction regarding cost of number of employees allotted certain cities for promotion of school work in said cities. He concluded by saying that: Some time during the year an order or statute may be passed to all districts to effect that no discrimination after serving notice as teachers in California on account of color, race or creed, and any superintendent or principal who shall refuse to assign teachers as per regulations of the Commissioner of Education will be subject to removal by the Board of Education.

Mr. Cooper was very pleasant and cordial throughout the interview and assured me that he would be glad to confer with me at any time regarding matters of interest to the colored citizens of California.

Yours truly,
(Signed) [illegible]
President San Diego Branch

TEXAS SHERIFF GUILTY OF PEONAGE

(By A. N. P.)

Corpus Christi, Tex., Feb. 12.—Following closely in the wake of the famous Mississippi and Louisiana peonage cases, brought to light last week which revealed that Negroes were being sold into slavery by whites, was the indictments returned against Sheriff Raymond Teller of Willacy County and five other officers and ex-officers of the law, by the jury in the Federal Court here Friday night, on a charge of peonage.

The arrest of the officers was made following the charges made by several young men who claimed that they had been arrested on vagrancy charges but instead of being tried and fined were taken to cotton fields and forced to work for farmers under armed guards. Those testifying were white.

OLDEST CHURCH IS REMODELED

(By: A. N. P.)

Philadelphia, Pa., Feb. 14.—What is said to be the oldest colored Methodist Church in the world, the Zoar Methodist Episcopal Church, on Melon street, west of Twelfth, this city, has completed the improvement of its edifice, and has a distinct place in the religious history of Philadelphia.

Until the time of its founding in 1794, Negroes of the city who were members of this denomination had been accustomed to attend St. George's, which, the historic home of Methodism, on Fourth street, where our people were seated in a certain part of the gallery.

But they soon became disgusted at this way of learning about God. They went to themselves and founded the Zoar M. E. Church. They made their first humble home on Seventh street, between Fourth and Pine, where they remained until a little over forty years ago, when the congregation moved to its present location. The Rev. J. T. Fletcher is the present pastor.

Brief Sketch Of The Life Of The Late W. T. Patterson

BY: S. P. JOHNSON
A Life Long Friend

In the passing of W. T. Patterson of 214 N. Alvarado Street, Los Angeles, a great character has fallen. Great men do not always come to us with hereditary titles, with military laurels, or with priestly fortune; neither is it necessary to have commanded a great army, or filled the high positions among their fellows, for after all

W. T. PATTERSON

the highest position that can come to us to this life is the position of a true humble Servant of the Lord Jesus Christ, and such was the position of the late W. T. Patterson, the subject of this sketch; and here we have some conception of the man, for out of this character came the life we admired, and the death which we lament today- and using the words of the poet, his life spoke so loud, we could not hear his words, and truly in him was vindicated the greatness of real goodness, and the goodness of real greatness, in that he was always calm and collected, and regardless of circumstances was able at all times to control his spirit; and such a Character Solomon credits as being greater than he that taketh a city.

He came to the State of Kansas some years ago to the little town of Emporia, where he grew up as a young man and won in that city, a reputation worth while; he became a Christian in the morning of his life, and united with the Second Baptist under the Rev. Geo. Brown, and soon became one of the most useful officers and members of that Church.

As early in life as his age would permit, he became a Master Mason, and was identified with St. John Lodge of the City of Emporia and by the confidence reposed in him by the Craft, he soon made his way to the Master's Chair, and was considered one of the brightest Masonic lights for many miles around, and not contenting himself with the heights that could be reached in the Blue Lodge, he made his way to the 32nd degree.

As a worker he sought only such employment that was honorable, his first public work being for the Santa Fe Company in the construction department; and be it said to his credit, that the boys among whom he labored always respected him for his manliness, and looked upon him as a good adviser and safe leader, and in all things in which he had given his word, he could be counted upon as dependable.

While yet in Emporia he was employed by one of its leading citizens, Captain Sterry, one of the leading Attorneys of the Santa Fe Railroad Co., with this family he moved to Albuquerque, N. M., remaining there a few years, he came to Los Angeles yet in the employ of Mr. Sterry, in whose employ he remained until the passing of the attorney, and fortunately about that time the County of Los Angeles was calling for industrious and trustworthy men, and Mr. Patterson, able in every way to qualify, applied and was accepted, and for more than a quarter of a century, he served the County of Los Angeles as one of its most esteemed and trustworthy employees, Secretary of Department.

Uniting with the Second Baptist Church of this city upon his arrival, as his custom was in all Main locations active, and was shortly elected to the Deacon Board, where he served with satisfaction to all till Pastors, the fifty deacons and the members of the Church. He was always found at his post of duty, ready to serve faithfully in church prayer, but in the Sunday School and church Auditorium in

THE CHINESE STRUGGLE AND THE NEGRO

BY: C. V. BRIGGS

The fight for Negro liberation is being waged today on a wide front, in countries far remote from the centres of Negro population, and by non-Negroid peoples.

While the Negro continues apathetic to world politics as well as to domestic issues and seems resigned to the servile role to which he has been assigned by the imperialist nations who first enslaved him, then robbed him of his fatherland and later draped him with an unintelligible patriotism for the very institutions under which he suffers, events bearing a far-reaching effect upon the Negro future are taking place in China, in Europe and in Mexico.

So far as the interest of the Negro in the present onal events which are knelling the doom of white world domination might just as well be taking place on the distant planet Mars as in China, Europe and Mexico.

And not only is the Negro displaying no interest in the colossal onslaughts on white imperialism in China and Mexico, and even in the white homeland, Europe, but so complete is his ignorance of the reciprocal relationship between the struggle of the Chinese and Mexican peoples and his own vague and to the present unactivised desire for liberation that a strong possibility exists that in a war forced upon Mexico by the all interests of this country the Negro would be found suicidally lined up with the white imperialists and exploiters against his own racial interests and against the interests of the darker races.

If this earth's sizable [illegible] his own best racial interests and the [illegible] of the darker races is to be prevented, it is high time that courageous leaders and thinkers within the race got busy educating the Negro masses in the implications of world politics and the meaning and promise of the universal rebellion evident today on the part of the colored races against white world domination, whether in China, Africa, India, Mesopotamia, Java or Sumatra. To delay this education is to invite the use of the Negro as a tool in the bolstering up of white imperialism and thereby earn for the Negro the hatred of the Chinese and other colored peoples struggling against white imperialism and pave the way for his perpetual subordination to the aims of the white imperialists.

It is high time that the Negro was familiarized with the Nationalist struggle in China, and informed of the relationship to the Negro liberation cause of the many victories won by the Red Cantonese armies in their orderly sweep Northward against the forces of the foreign supported Northern militarists. These victories of the Cantonese armies have already had their effect in Java and Sumatra where uprisings against Dutch imperialism have occurred lately. They have caused great joy and a militant stirring in India and the hinterland of Africa where their importance is realized.

The British, realizing that not only are their tariffs and "interests" in China threatened by the approach of the Cantonese armies, but that their power in India would be shattered should a powerful and free China come into being, are doing all in their power to block the Cantonese advance, but already the British have been kicked out of Hankow and other places in the interior of China and the time is fast approaching when these imperialist thieves will have to surrender the Shanghai and other concessions to their rightful owners.

Events in China clearly indicate the swift approaching crash of white imperialism. Will the Negro be alert to his opportunities when that crash comes? Will he be in a position to distinguish between his friends and his enemies? These are questions that Negro leaders and thinkers will have to face.

Forty members of the family and a few friends were the guests.

A Valentine motif was effectively carried out in the decorations, and a most excellent program was rendered by members of the family. The following were on the program: Hazel Anderson, Felice Anderson, Ernestine Wilson, Alice Wilson, Elisabeth Brunson, Mar'e Brunson, Loraine Price, Rev. L. B. Brown and Hazel Gottschalk.

The huge birthday cake, that adorned the table with its many candles, was made and decorated by Andrew Anderon.

A new member, Mrs. Mamie Clairatte was taken into the club and it was announced that the election of officers would be held the first Thursday in March. Aside from the fine art and needle work the members exhibit an interest in each other which is beautiful to see. Just a short while ago twelve of the members surprised Mrs. C. A. Troy of 1436 E. 87th St. with a Stork Shower. The next place of meeting will be at the residence of Mrs. K. H. Hurd 3117 Folsom St., February 24, 1927.

(By: A. N. P.)

Victoria, Cana., Feb. 16.—A survey conducted by the Agricultural Committee of British Columbia during the past year shows that this Province's Asiatic population now number about 46,000, or one Asiatic to every twelve whites. The report states that Chinese, Japanese, and Hindus have increased rapidly of recent years, that the Japanese are increasing the ether two and that for the moment the Chinese are leading all. Asiatics in British Columbia carry on business of almost every kind and hold real estate valuated at more than $11,100,000. The attendance of their children in the public schools is growing at a startling rate and now represents 3.68 of the entire school population. The latest figures show that 1,981 Chinese, 3,691 Japanese and 769 Hindus are in industrial occupations, and there is an astonishing penetration of these races into almost every phase of business life.

Unusual But True

(By the Associated Negro Press)

Paris, France—This city has a new decoration for women's hats. A single nail. It is made of silver and is the sole trimming. The hats are of dark material and the effect is stunning. Another hat, the helmet, studded with silver nail heads, also is becoming popular.

Manila, Philippine Islands—"Pan-chong," a Chinese card game, is said to be responsible for the downfall of many Chinese merchants in this city, and has caused the closing of many stores in Calle Rosario, the busiest street in Chinatown. The game is prohibited here and one victim said the playing is controlled by a Chinese group protected by the police.

Rangoon, Burma—The abolition of slavery in this country has been ordered by England. Sir Harcourt Butler, Governor of Burma, told the Kachin chiefs that "henceforth slaves must not be sold, given as parts of dowories, or in settlement of feuds; neither may families of slaves be broken up."

Klamath Falls, Ore.—A young deer created a disturbance among pupils of the Fall Creek School, in this town, by entering the front door of the one-room building and walking hurriedly down the aisle to the teacher's desk. An operator of the Oregon Power Company was called, who captured the deer.

Wanganui, N. Z.—Great are the springs of the modern automobile, said a man of this village, who forgettingly left his spectacles on the fender of his car, rode many miles over the town and country roads, and after returning to his garage found the glasses still undamaged on the fender.

White Man Convicted of Fiendish Crime

Nashville, Tenn., Feb. 16.—T. A. Huddleston, a white man, was convicted of charges of having improper relations with his daughter and sentenced to 21 years in prison. The charges were preferred by his three daughters, the oldest of whom was 14 and the youngest, being 9.

Can't Leave His Best Girl

(By A. N. P.)

Goldsby, Okla., Feb. 16—Rather than remain at Camp Sibley who is said to be the loneliest Negro tentcab driver in the world, weighing 570 pounds, was offered a "movie" job at Hollywood. But he said:

"I can't leave my best girl behind in Jersey and go toting myself away. Furthermore, and finally, I could not s't up that long without sleep, and no Pullman berth ever built could hold me."

"Local Laughs"

By: O. T. G.

Well folks this week apologies go to Miss E. W.

Lessie Cole says, "yours till an old maid becomes a grandmother."

There's nothing unfair about a short skirt; it gives everybody a show.

Women are like shoes; the cheapest ones always squeak the loudest.

A certain young man in Hollywood is being called "Battling Sam" and his manager is "Running Rush." We wonder who they are.

One athlete jumps 19 ft. 2in. and then goes to the mountains to recuperate. Let's watch him later.

All that were not at the N. N. B. dance sure missed it.

S. T.—"There is at least one girl who doesn't want to get married."
W. T.—"How do you know?"
S. T.—"I've asked her."

FABLE—Clyde says: I've got enough gas, let's go riding.

Clarence is still trying to see "IT."

Again Mr. Al Williams gets the first prize. Ask me why.

Hold Funeral Services For Prominent Pioneer Woman

The funeral of Mrs. Elizabeth A. Talbot, who passed away at her home Wednesday morning, February 9th, was held from her late residence, 1844 East 54th Street, Saturday afternoon, February 12, at 1 o'clock.

The services were conducted by Rev. G. A. Goins, of the First Holiness Church, of which the deceased was a member. Other ministers who took part in the services were Dr. D. W. Miller of 8th and Towne Ave. Church; Rev. E. Fletcher, of San Bernardino; and Rev. Robt. House of Riverside. John Hall and Mrs. Johnson, of the Hall Jubilee Singers, sang a duet, "Death is Only a Dream".

The beautiful floral tributes coming from various organizations and friends of the family were so many that it was necessary to have a truck carry them to the cemetery. Employees of Los Angeles County at the Court House, where Mrs. Louise Young, her daughter, is employed as Deputy Recorder and Comparer were among those who sent floral offerings.

The Pioneer Club furnished the following pall bearers: T. A. Harris, R. D. Dunston, D. Smith, H. Busby, J. B. Bowman and J. N. Sellers.

The funeral was in charge of the Angelus Funeral Home, of which L. G. Robinson is president. Interment was in Evergreen cemetery.

OBITUARY

Elizabeth Ann Hing was born in London, England, February 25, 1842. She was christened in Westminster Abbey. In 1846 she came to Canada and became the wife of Benjamin Franklin Talbot in London, Canada, July 7, 1879. From this union, five children were born: Laura (Mrs. Louise Young), Bernice (Mrs. James Alexander), Benjamin, Elzy (deceased), and William.

On November 1, 1887, the family came to California. Sister Talbot, always gentle in manner and of a sunny disposition, early in life embraced the cause of Christ and as her life grew fuller, it became more perfect. She was a devoted wife, a loving mother and never seemed to find it difficult to live close to Christ. Morning, noon and night, she held converse with him. Opinions might alter, manners might change, creeds rise and fall, but Sister Talbot was always the same—"a being with an immortal part."

Death visited this family on two occasions, both of them tragic. The first time he took the husband and father, the second time he took Elzy, the second son. But even this did not affect the beautiful christian character of this Mother.

Among her many activities was he work as teacher in the Second A. M. E. Sunday School. She also mothered the motherless, nursed the sick and comforted those in sorrow. This beautiful and active life she lived and accomplished until three years, seven months and eleven days ago, when her great end, final illness came upon her. Her care then became a labor of love in her children, her great daughter, her sister and her many friends.

On February 9th, just 17 days before her 85th birthday, she "wrapped the drapery of her couch about her and lay down to pleasant dreams", leaving to fellow co-workers, and two sisters, Mrs. Elsie Mary Gibbs, one grand daughter, Mrs. Norman O. Houston, a great-grand daughter, Betty Jean Houston and two great grand sons, Norman H. and Brian J. Houston.

We know they live for she

Dr. Moton Concludes Visit in Japan

Kobe, Japan, Feb. 7—Dr. R. Moton, Principal of the Tuskegee Institute, and President of the National Negro Business League, in the United States, who has been visiting various points in Japan during the past month, has concluded his stay after a series of interesting and profitable experiences.

During the educator's visit in Japan he inspected some of the leading educational institutions of Japan including the Baptist Theological Seminary, at Kyoto and the Women's College. Speaking of the institutions, Dr. Moton declared: "I was very much impressed with the large attendance at all schools, I have visited. Compulsory education is both a law and a fact in Japan."

At Tokyo, Dr. Eugene H. Dibble, who is accompanying Dr. Moton, was accorded the opportunity of attending clinics at the St. Lukes Hospital, the Red Cross Hospital, which is the largest in Japan, and the Imperial University Hospital, where he made a special study with the idea of introducing some of the features at the John A. A. Andrew Clinic which will be held at Tuskegee in April.

"YELLOW" JIM CROW CARS

Wasington, D. C., Feb. 17.—That the Jim Crow car laws of the Democratic South are intended exclusively for the humiliation and discomfort of Negro passengers, NOT COLORED TRAVELERS, is illustrated by the experience of a Chinese lady, as reported in a recent issue of the "Christian Advocate."

"Your Christian country," said she, "is very funny. Last week I was in Mississippi and everyone was all upset about me. 'Here,' said one conductor, 'you can't put her in the Jim Crow car; SHE IS NOT BLACK.' 'Well, SHE IS NOT WHITE,' said the Pullman porter. 'I don't care, I said, put me somewhere; I am getting very tired. Such a hubbub! Such a commotion! I sat on my bag and waited. By and by they put me in the white car.' She laughed. 'To had you have no yellow cars? Then your race problem would be all solved, yes?'

It appears from the above interesting but rather pathetic incident that all colored people—except native Negroes who are contributing to the support of the Nation, who with unselfish devotion fight her battles at home and abroad, who cherish American ideals and institutions—can enjoy every facility and every opportunity that any [illegible] affords. ALL BUT THE [illegible]

Weinberg's Market

We desire to call attention to the markets conducted by the Weinberg Meat Markets, one of which is located at the corner of Pico and Central avenue and on Griffith and Adams streets respectively.

These markets cater to the patronage of the people by keeping on hand at all times the choicest meats at prices which are the best to be obtained, courteous treatment and honest weight is the ambition of the management.

The colored people are justified in giving their patronage to these markets in preference to others. The firm appreciates your trade to the extent that they seek it, through your own publication, they support your publishing house by giving us their printing and indeed when we learn the lesson of patronizing the firms that appreciate our trade we will get somewhere. Weinberg's is the place.

GLADYCE GREENAWAY

Well it seems that this week's rainy spell has just about washed all the news away. But just the same we have a little news.

The dance given last Friday by the Misses White and Forby in the race for the possession for the "Peerless" was a huge success. The surprise of the evening came in the form of a waltzing contest. Miss Edith Lincoln and Mr. Louis Cole received first prize, Miss Geraldine Evans and Mr. Earl Robinson second prize and Miss Rosalie Lincoln and Mr. Haven Johnson, third. All three couples were judged by popular acclaire. The couples, while dancing, were pictures of graceful rythm. The Dixieland Jazz Orchestra, which is non-pareil, played wonderfully and Mr. Haven Johnson's performance at the ivories was, in the estimation of all those present, his best of the year. Messrs. Peter Douglass, Lewis and Marvin Johnson donated services along the musical line.

Miss Alice Kayus has a very fetching bob and we don't mean perhaps! Speaking of tresses the thought comes to us that the prettiest curls in Los Angeles belong to Gladys Mathonican and little Esther Bock.

The "Scrollers" gave a dance at the Frat House last Saturday which we are sure was a "boomerang".

We extend our heartiest congratulations and best wishes for an unclouded future to Mr. and Mrs. Lewis Scott. Mrs. Scott was, before her marriage, the popular Miss Louise Chism of the West side.

Teacher—"Why do they call our language the mother tongue"?
Bright pupil—"Because the father doesn't get to use it very often."

Teacher—"Use the word "diadem" in a sentence."
Willie—"The people who don't use chains on their tires in rainy weather "diadem" right quicker than those who do."

Professor to Jeff High Stude:—"Now when you finish your graduation oration, Miss Brown, bow gracefully and leave the platform on tip-toe."
Stude:—"Why on tip-toe"?
Prof.:—"So as not to wake the audience."

Fable: I don't care for ice cream.

Famous last words—Who did you take out last Sunday?

We wonder if Miss Jeanne Grant likes Poly better than L. A.

During this weather we have tho't a lot about that "Peerless". It would be a comfort to-day. Well cheerio, see some more.

DR. PILLOW'S OFFICE No. 2 OPENING VERY SUCCESSFUL

Dr. Pillow was very successful indeed the opening week of his office No. 2, situated at 1621 1-2 Compton Avenue, two and a half blocks south of Vernon Avenue. The heavy rainfall and strong weather which greeted his opening did not stop many old and new patients from going to his new office and contracting for their much needed dental service as well as inspecting the modern and up-to-date dental office and dental laboratory attained.

The laboratory says that even though he was rushed quite a bit he likes it.

Peerless Sedan And Hundreds Of Dollars Given Away.— Contestants Must Sign Now

Booming proudly along on the wings of popularity, with the stamp of public approval placed upon it, with interest increasing by leaps and bounds, the 8 best bet "Everybody Wins" Grand Prize, $1695.00 Automobile and Gold Contest is rapidly becoming the chief topic of interest and conversation.

A Real Fortune

The one big feature of the contest which instantly attracts the attention and arouses so many callers, is the fact that the participants cannot lose. Every active contestant is guaranteed either a cash prize or one of the larger awards, and when it is realized that the cash guarantee of 10 percent for those who do not win one of the larger awards, is something to think about, so HURRY!

Votes are being sent and brought in by contestants and new contestants are being received every day, which goes to show that the public has been really convinced that the Silver Fox Club is going to distribute these many prizes absolutely free, headed by that dandy $1695.00 Peerless Sedan, to its own followers and friends. Some were skeptical at first, but they now realize that the Silver Fox Club is going to do just what its announcement says. Friends, when buying a vote, be sure and buy from your favorite contestants, because every vote helps toward winning the Peerless Sedan.

Every where in the community—every where The Eagle is read about the Fox Contest, intense interest is being shown in this wonderful offer, which presents the opportunity of obtaining a Brand New Peerless Sedan in exchange for a little effort in spare moments.

Campaign Just Starting

The Campaign, which is just starting, is open to anybody. All that is necessary to enter the contest is to fill out a card which you are given at the office, 851 1-2 Central Avenue, or by one of the members. Thus equipped, you have but to see your friends and neighbors, relatives and acquaintances, and have them buy their votes from you and your votes will pile up mighty quickly when your friends know that you are in the contest in earnest.

Office Open Until 8:00 O'Clock

Contest headquarters, 851 1-2 Central Avenue will be open evenings and you are invited to call for information you desire. If unable to call personally phone VAndike 7304. Do It Now!

Headquarters Busy

All during the past week, again the contest manager at the Fox Headquarters has been busy answering questions from men, women, boys and girls who call to find out if they have read the liberal offer correctly, and to know the details of this gigantic gift-making proposition. Several contestants have already turned in a few hundred votes. Interest is not being confined to any sex, either, for one of the interesting features is the fact that quite a few men have also inquired about the contest, in fact, it appears from indications that there will be about as many men as women and girls interested in the Grand Prize Distribution.

HOW TO GET VOTES

Each contestant, in order to receive his votes will sell tickets valued at twenty-five ($.25) cents each and each ticket that is sold by a contestant entitles the contestant to ten votes and entitles the PURCHASER of the ticket to a chance to win seventy-five ($75.00) dollars or twenty-five ($25.00) dollars in gold at the completion of the contest.

Remember the PEERLESS SEDAN will be given to the person receiving the highest number of votes over one (1,000) thousand. Each contestant must sell one (1,000) thousand votes to qualify for the contest. The tickets are made in book form and each ticket is perforated to be torn in half, each number on a half corresponding with the other half. One half of the ticket is to be put into a sealed box and the other half is to be kept by the purchaser of the ticket. Each contestant must report to contest manager on Wednesday of each week at office, 851½ Central Avenue. For the convenience of contestants the office will be open evenings. Any contestant who fails to report each week will be disqualified.

BARR LIVELY, Contest Manager.
Contest Office: 851 1-2 Central Avenue

NOTICE

This is to certify that a Brand New Latest Model PEERLESS SEDAN, which is now on display at the Bronx Hotel, 420 East Seventh Street, has been purchased by the Silver Fox Club, 851½ Central Avenue, Los Angeles, to be given away absolutely free as one of the many prizes in the Silver Fox Popularity Contest.

To Those Who Wonder

Everybody is wondering, even scratching their heads where they do not itch, just wondering, "How can they do it?" But put a little light on perhaps a dark subject. Los Angeles has been scoured over and thirty red-blooded young men have gathered together, calling themselves The Invincible Silver Fox Club.

We have undertaken this gigantic prize and money distribution with a fairness that will confront the public second to none. This great popularity contest, not merely a big money scheme, but a real proof of what can be accomplished by co-operation. The management of this organization sees that the secret of our success is due to the loyalty of its members to their leaders and the stick-to-it spirit. We are ever mindful of the slogan of James J. Walker, Mayor of New York, which reads: "Make up your mind what action to take, and take it, stick to it, put it through, and to Hell with fear of criticism. . . ."

this position he served until his passing. He also served the Good Samaritan Benevolent Society for eleven years as President.

Because of the wisdom and ability it was always his to exercise, by contribution, and counsel to the cause of Christian Religion, to the welfare of his country, to the place he was so proud to represent, to his fellows and to the Organizations to which he was connected. He will ever be held in grateful remembrance, and the sudden removal of such a life from among us, leaves a vacancy and a shadow that has and will be deeply realized, and the influence of that gentle, unassuming, but useful and well spent life is imperishable, and can only be eradicated by the consumation of time.

Those who knew this splendid character, and what he meant tothe Community and his friends; his well meant loyalty and devotion to his children, his sister Miss Elizabeth Patterson and other relatives, deeply and most sincerely sympathize with them in the loss of such a father, brother and relative, and trust that in his friends who knew him best and in his good family, his life will be relived. For truly he endeared himself to those with whom he came into contact, by his strenuous devotion to men and things worth while.

N. A. A. C. P. PRESIDENT INTERVIEWS SUPERINTENDENT PUBLIC SCHOOLS

(Continued from Page 1)

mandate or order issued from the State Superintendent of Schools. Continuing he stated that: Considerable friction was realized in some of our larger cities because of number of employees allowed said cities for promotion of their work. For instance, he stated that some of the middle size cities demanded as many employees as larger cities and that the proposition was to establish school districts according to population and number of employees would be granted in proportion of population of our cities. That there would be established three population districts—Los Angeles, San Francisco and Oakland would be district number one; that the next larger size cities would establish district number two and all other Townships would come under district number three; and that number of employees allotted these districts would be according to an established district-employee program and the same would avoid further friction. So now, you see, "that's that."

In conclusion, I was assured that we might place full confidence in our new State Superintendent of Public Schools; that he was as interested as much in education and proper protection of Negro children as he was in children of other Races. In response to a final question I put to Mr. Cooper regarding publicity of our conference, he promptly consented that I might make public and herald our conference and quote all he had said therefore, from us we may have no fear as to our protection under administration of Mr. Cooper and no apprehension of the newly enacted Law of the Fifteenth amendment.

EDITORIAL

NOORMAL AGAIN

The War Scare with China and the complications incident thereto have just about petered out, therefore a degree of normalcy is about to return.

LET US HOPE

We have been informed that our present State Administration looks with favor upon the proposition to give all classes recognition in the distribution of patronage. So mote it be.

TUNING UP

Tuning up is now in order as the time approaches for the primaries in May. The searching up of old records and a general resume of the activities of political aspirants is strictly in order.

ON TO CHICAGO

We regret very much our inability to attend the National Negro Press Association which meets in Chicago Thursday, Friday and Saturday of this week. It is, however, soothed with the knowledge that our Managing Editor will attend and represent the Pacific Coast to her utmost.

BUSINESS

Last issue we ran in our editorial column a resume of business in this section as outlined and furnished to us by the Chamber of Commerce, which body is the main spring and lever for the promotion of all business worth while. We had a reason far greater in publishing the same other than to desseminate knowledge and news value. We wanted our group to read and digest the report and point out just what their contribution has been to the success of this great volume of business which has placed Los Angeles way up to the head of the procession of American cities along business lines.

If we have played our part so well and good. If we have not, then we had better get busy, for otherwise we will have no voice in the benefits which accrue to those who have. Fifty thousand people of any group should by all the rules of the game play a stellar role and be in on all movements for big things.

We know of no better way to give a demonstration of interest than to get right up in front with the program of progress and avowed purpose that the Colored men and women should rise as business factors in this Community. It is almost unbelievable, the apathy shown by our people when it comes to business. They are great churchmen, they crowd even the great Shrine Auditorium to jazz, turn out in large numbers to ball games and boxing contests, but for business functions they are always looking out the window. The question is, how can we expect to be in on the big propositions of our Community with this attitude so outstanding? This is a serious proposition and we are calling upon our thoughtful leadership from all the various angles to give to it their most earnest and serious consideration.

WEIGHTED DOWN

Not unlike the plight of the Negro who is pitted against tremendous odds at all times for a place in the Sun, is the situation of the people of the Imperial Valley. Congress it at a standstill on the Boulder Dam Proposition, despite the super forces including our president who is desirous of favorable action for the people of Imperial Valley.

The mountain in the pathway of the passage of this bill is MONEY. Seven billion dollars protests its passage, and the great rules committee of the House of Representatives stands still in its tracks.

What of the rights and lives of the people, when money desires to assert itself. It is the same old, old story from the very beginning of time when man's avarice for gold would always prove the downfall of the very things which would serve the people.

The more that such situations obtain we are constrained to believe that MONEY in government is the weight which holds us down.

El Dorado Gold Star Mining Co., Inc., Making Great Progress

The Company is now making what we would call "a home run" on its mining proposition. In other words, the directors are getting right down to real, active business in the matter of equipping their mill with additional machinery, which is being done under an expert mining engineer.

This means that the plant will be in operation, in a very short time, and turning out the precious metals of gold, silver, copper, and lead which characterize its vast holdings of two hundred and eighty acres.

This means a big saving in the items of truck hauling the ore to the railroad station, the transportation from there to the smelter, and also smelter charges for treatment. By the elimination of the foregoing expense accounts, the company can extract the values as a big profit from all milling grades of ore. It means that the management knew from the very beginning that there was real merit to the proposition.

The claim made by the company of its shipments of rich ore to the U. S. Smelter, is verified by the Smelter return receipts, now on file in their office subject to inspection.

It means that the level headedness and steadfastness of object and aim, on the part of directors, and a faithful few stock holders who co-operated with them have achieved a great victory to be shared, not only among themselves, but all persons who have invested their money with the company, in proportion to such investments.

It means also, that the stock which is now selling at $1.00 per share will be advanced.

All subscribers to the stock of the Company would act wisely by completing their obligations at the earliest date convenient.

Stock $1.00 per share; not less than 50 shares sold to new subscribers.

EGYPTIAN TEA ROOM HAS LUNCH CHAT IDEA

There is no better time for a social or business chat than at meals. This fact is not accepted sufficiently among our people to make a prevalence of noon day meetings, among the various classes of business or the professions, but the general good feeling and the opportunity to discuss business while enjoying a meal has inspired Dr. Williams, new proprietress of the beautiful Egyptian Tea Room to issue a general invitation to the various groups. In order to meet others engaged in the same business or profession she welcomes all to accept the hospitality of her beautiful dining roms for the 1 o'clock luncheon, and in order to find the largest number in like vocations present at the same time she suggests the following schedule.

Want Pedestrians To Carry Lights

(By A. N. P.)

Hartford, Conn., Feb. 10.—The latest bill requiring pedestrians to be all lit up on public highways it seems has been introduced in the Legislature.

Representative Foote would require all such persons to carry, fore or aft, starboard or port, a light visible 50 feet. For those short Mr. Foote proposes the additional burden of a red reflector. All this is to make the highways "safer for pedestrians."

IN "HAWKS" HANDS

"David Cook" said the judge, "we have you charged with dice playing; is that what they call shooting it?" asked Judge Richardson. "Guilty" your honor said Cook. Well, I guess your punishment is sufficient. You've been in jail long enough.

The case of the people against Bobby Dones scheduled for February 16th was continued to March 1st.

were Chas. Draser, Jno. Howard and John Smith. The colored Geo. List.

The Hawk got Jesus! Wait a minute now, no blasphemy meant. But "Jesus" is or was the nick name for Jerry Cole, said to be one of the slickest, most notorious characters that ever ruled as one of the kings of of the underworld. "Jesus" had been suspected for some time but was always "Mile away" when the hawks of the law made a swoop at him. Mr. Shelski, one of the city's most efficient sleuths, after failing to hold him once on insufficient evidence, finally got the "goods" on him and Judge Richardson's book was not large enough to hold the charges booked against him. Wholesale dope peddler, with two or more boys working for him, violator of Wright act, and Mann act, cocaine sniffer, procurer of women and various other accusations were hurled at the man with the Holy name. He lives at 927 E. 33rd with a family though he is also said to have a similar establishment under the common law. The officers said 180 days were not near enough time for a criminal of his stripe.

Three whites and [illegible] colored l'ned up together before the bar, looking like an equal rights convention. At least the whites had not drawn the color line. The six had been caught in a gambling house on the Avenue playing the mysterious spots on the "Chinaman". The whites

BABY GANS MAKES 15-SECOND K. O.

SHORT WORK MADE OF ART EMORY BREAKS RECORD

A knock-out in 15 seconds don't give the cash investors in the pasteboards much of a run for their dough, but it does settle the fight beyond a doubt, and it does save the chance of the referee making a "mistake," especially if he is color-blind.

Anyway, that is the way Baby Gans figured in his bout with Emory at San Bernoo last Friday. It was a great fight while it lasted though.

Just a word and a blow and all in less than 15 seconds of the first round. The rest of the card was fairly good with Perfecto Mendoza against Louie Contreras and Young Larry in a draw with Battling Manning, a stable mate of Gans and the crowd went away pleased in spite of the quick ending of the main event.

Main St. A. C. Heavy Tourney Features Colored Stars

Carlo Curtis knows the drawing power of mixed matches. So he has three good colored boys against three equally good white boys on the third chapter of his heavyweight elimination tourney at the Main St. A. C.

Mack House, "The California Bear" and Knockout King is matched with Harold Lesterbrook for the 8-round main event. House and Lesterbrook are both in each others way as runners up to the final last contender fests. But Mack figures to win and leave his game hard-hitting opponent out. We shall se!

The semi-windup heralds Sailor Larry's return to the ring after several months rest. He gets a hard pill in Geo. Burman the sailor battler from San Pedro. Eagle Thomas as game and willing as they make them meets Herbert Purcell as good a white boy as can be found among the local bantams.

These, with the rest of the exceptionally good card assures a good program on February 19. House is billed to fight Jack Roper on the following Saturday, February 26th.

Along Fisticuffs Row

"Red" Hogan the man with the megaphone and Sam Smiley the boy with the glad hand have branched out into the managerial side of the sock block and take 'em game. They are lining up a stable of about 15 good boxers and are expecting plenty of matches.

Hopkins Beat Atkinson

The Nebraska wild-cat waded into the Kansas Cyclone for five rounds at the Olympic, Tuesday until the referee stopped the slaughter. Atkinson was almost out on his feet but still kicking against the match being stopped after Ace had gone to the dressing room. Baby Gans received a big hand when introduced as meeting Barcot the Canadian wood-chopper on March 1st. Barcot was also introduced to light applause. Just another pupil for the "young master."

Young Harry Wills To Get Acid Test in Lew Tendler at Vernon

Personally we think the name Young Harry Wills, that someone hung on Ted Smith is a misnomer rather than a help. He doesn't need that name, and he doesn't fight like the "Brown Panther" either. He doesn't have to hold and hit nor does he spend the evening wrestling and hugging. He fights! Yes sir, that boy fights! It is very true as was remarked in the Daily News that his has never been properly recognized but he really deserves to be. As quiet and unobtrusive as most of our colored coast fighters are, yet in the ring he is on his man from bell to bell ripping them smashing right and left hooks to the body that seldom fails to take that starch out of his opponent and prepare him for the finishing chorus. We have always been strong for Young Wills and he and his manager used to be frequent visitors at the Eagle office, as we have always been glad to say a good word for them. Lew Tendler the game Boston Leonard two gold fights for the Welterweight championship is to be the card for the first time and Wills fighting Welcome here, Young Wills for his first battle there. Beach Lots and Bungalows Going Fast

Many prominent, professional and business men and women have journeyed to the beach city to which the golden opportunities for property ownership have been opened and not only endorse it but are enthusiastic about the clear, wide, open, real estate project it is revealed to be. All of them are cool, careful, deliberate people who dissect a matter thoroughly and exhaustively before giving it the stamp of their approval, so the fact that they are the kind of people who do nothing blindly proves the safety of the new "Knock Out" proposition which caused a deal of comment until it became known what it really is.

As warm weather approaches, the need and lack of an outlet to the great cool, refreshing Pacific is greatly felt and there is no other or better way here in California than to own your own. The fact that there is no club proposition, no politics and no strings attached, makes it more attractive to those who have become interested. Many have already bought, and many more are preparing to buy. Dr. Albert Baumann is one of the recent purchasers of a lot. Atty. A. McDougall owns some property in the subdivision, Dr. Whittaker, Dr. Claude Hudson and several other prominent people have visited the Beach City for the purpose of selecting property for the near future. Dr. Emily Caldress will trade two of her lots in Big Bear for a lovely modern residence there. Mrs. Thompson, mother of the famous "Jack" just missed a bargain in a fine ultra modern new stucco for only $6,500 which she wished as a future home for her boy and his sisters. Mr. Adolphus Jones, a far-seeing and well-known youngster will visit the beach next Sunday for the purpose of purchasing a lot while the price is down and before the warm weather rush is on. And so it goes with the list rapidly increasing, so that by summer, week-ends at beach homes will be the order of the day by race Angelenos.

HANFORD NEWS

Mrs. L. Wyatt is now well and doing fine after a long illness. She was able to attend the services at the Baptist Church, Sunday evening.

Mr. Lawrence Clarke, who was married surreptitiously two weeks ago, was given a chivaree by his many friends, last Saturday night.

Mr. Chas. Greenaway has had a relapse and is now in a very dangerous condition.

A large and appreciative audience attended the Douglas-Lincoln Memorial services at the Second Baptist Church, Sunday afternoon.

Mr. Loyd Welcker, chairman for the occasion, opened the program with a few pointed but appropriate remarks.

The program then proceeded as follows: Invocation by Rev. H. H. Mitchell, pastor of the Second Baptist Church; Piano solo by Miss Olga Jane Lewis; Mr. William Miller Calbert made a wonderful speech on the "Life of Lincoln," which literally held the audience spell-bound; Piano Solo by Miss Geraldine Webber. One of the speakers being unable to make an appearance, Rev. H. H. Mitchell, who has been a personal acquaintance of Frederick Douglas, was called upon to speak of him and his speech was worth hearing. Miss Willie Belle Hill and Miss Sady Fields sang a duet. Mrs. E. L. Hinds, the lady who was on the program to speak on Frederick Douglas, entered while Rev. Mitchell was speaking, and was called upon after the duet ended. Her speech was both instructive and inspirational. Closing remarks were made by the pastor.

It is rumored that the Martha Walker Progressive Club is about to accept the challenge of Rev. H. H. Mitchell, pastor of the Second Baptist Church, and make up a budget toward building a public hall on their lot.

Mr. Samuel Young left for Oakland, Friday, to visit his friends.

The Merry Matron's Club has made another generous donation to the A. M. E. Zion Church. Christian ladies, I salute you.

ARRESTS "HANSOM" DRIVER

(By A. N. P.)

New York, Feb. 11.—Mississippi Jones, an aged man, well-known in Times Square as one of the last of New York's hansom cab drivers, was brought in Traffic Court and arraigned with as little deference as if he were the driver of a mere automobile.

"He passed the stop signal and, just to follow his large black behind I could serve a summons on him," said the traffic policeman.

"That's right," agreed Jones. "I had a tight line on that horse, but every time that red light showed that horse just walked harder. No, sir; I can't figure how he went three blocks, except that he just skidded."

Magistrate Glendenning was merciful and Jones finished safely when sentence was suspended.

AUTOMOBILE PAINTING REVOLUTIONIZED

In keeping with automobile improvements, hundreds of which have been made, invented and put into use in recent years perhaps one of the most astounding to come to light is that of automobile painting.

For many years, in fact ever since the automobile has been in existance its appearance has had much to do with the sale of it. Consequently paint put on in many color schemes has it perhaps seven out of every ten cases when the auto salesman. Now of course has a sale least all but completed when the buyer has stated the car was perfectly satisfactory but he or his wife or somebody interested in the family buy didn't care about the color so the company would either have to order one of color desired or they perhaps go next to obtain someone where they saw one painted to their liking.

Today unlike yesterday it is possible to not only paint the car the desired color one likes says Mr. M. Tyahla of the Pigskin Auto Paint Co, but time required to do the job has been reduced years, which once took from 10 to 21 days to put on 3 days. Besides this the paint materials used have been improved so that a finish may be preserved from 3 to 5 years.

To accomplish and make possible this latest method the paint brush has been all but relegated to the junk pile. Spraying in a scientific manner has supplanted the brush thus insuring a uniform, smooth surface, free from brush marks.

The new process has also greatly reduced the painting cost and made it possible for the owner to secure a better job at a minimum price.

AUTO SHOW COMING

The 14th annual auto show is to be held on the 20th inst and will run for 10 days. All the latest in automobiles with their new lines and designs will be on hand as well as displays in accessories. If you are considering purchasing a new car be sure to visit the show and see the latest.

5 P. M. Danger Hour To L. A. Auto Drivers

Five o'clock in the afternoon is the big danger hour for both motorists and pedestrians, according to statistics of automobile accidents, obtained by the Traffic Commission. This hour is marked by most accidents, not only in Los Angeles, but in all cities of more than 100,000 throughout the United States.

Fatigue is the element that causes the increase at the end of the working day draws near, coupled with a desire on the part of the average worker to get home as soon as possible.

When a driver is tired, or in a hurry, he forgets to be cautious. He takes additional chances, and in addition, is inattentive. The result is more smashed machine and even injuries and deaths.

Four o'clock in the morning is the safest hour for driving. Then there are but very few pedestrians and machines. The late drivers who may have been celebrating, is usually off of the streets and the early morning driver is not yet on the streets.

In Los Angeles only fifty-four accidents out of 7000 were reported between 4 and 5 o'clock in the morning. As the city makes and business of the day is started, the accident curve creeps up until 5 o'clock, when most people ride at home.

There is a fall drop in the rate at 6000, but immediately after the curve starts up again to reach a peak at 5 o'clock. In Los Angeles 9% accidents or nearly 10 per cent of the total, occurred in the hour between 5 and 6.

There is another rise at supper time, but the curve does not start a rapid descent until 8 o'clock.

The same condition is shown in all directions. Of 1107 cases [illegible] 1107 cases [illegible] occurred between [illegible] One hour [illegible] 5 and 6 p. m.

Dr. Atkinson, Missionary, formerly in Japan will give a stereopticon lecture at the First A. M. E. Church next Sunday night from the subject "Twenty-five Hundred Miles on Foot Through the Mountains and Villages of Japan," and on the following Sunday "Eighteen years in the sunrise Kingdom."

The public has a blanket invitation to the Mock Conference on Thursday Evening, February 24th at the First A. M. E. Church. The men are expecting a full house.

Wm. Strickland of Waverly Drive who has been ill for some time is now in the General Hospital.

Mr. and Mrs. Porter Ballard are the parents of another beautiful baby daughter; they now have four girls in the family.

Harold Brown, the son of Rev. J. M. Brown, pastor of the First A. M. E. Church is attending the Technical High School in Oakland and reports that he is getting along fine.

Mr. J. C. Oakman of Orange Grove and Mundell Drive continues quite ill at his home. He experiences quite a bit of difficulty in regaining strength because of his advanced years.

Rev. Frank James, formerly pastor of the Calvary Baptist Church of Santa Monica but now State Missionary for the Western Baptist Association, occupied the pulpit at Friendship last Sunday morning in lieu of Pastor Carter, who is indisposed at the Dunbar Hospital and preached a wonderful sermon to a good congregation despite the inclement weather. During the illness of the pastor he will be in constant attendance at the bedside of his wife.

Mr. Parish of Marion Avenue, suffered quite an injury a few days ago when he was knocked from his bicycle while enroute to work. It was necessary to take several stitches in his scalp because of lacerations, but is getting along alright, now.

Wm. Hicks of Glenrietta street who has had quite a time from some affection of the mouth has gone back to the hospital for a minor operation. His many friends hope for him a speedy recovery.

Mrs. D. G. McClain, of Carbondale, Ill., is visiting her sister Mrs. E. Harris of Elevado Drive for the next three months.

The junior department of Friendship Baptist S. S. will give an entertainment Feb. 22nd in social hall of the church for the benefit of the rally which is to come off on the fourth Sunday.

Slick Stocks is the outstanding figure in the summary of high point men in the athletic world as far as Pasadena High is concerned by conquest of the following high averages: Broad jump, 21 ft. 4 in.; Shot Put, 48 ft. 11 in.; Javelin, 14 ft. 6 in., which makes him high point tract man besides being champion baseball man and the way Ford is playing he is fighting hard to equal the pace set by "Slick."

Thursday was the regular meeting night of the N. A. A. C. P. and it is hoped that every citizen interested in his own welfare was there to help foster the cause that alone will at least offer them assistance in a crisis.

Mrs. E. O. Solomon and Rev. Chas. Hampton addressed the young people of the white Baptist Church in Sunland, California, Sunday evening.

LOS ANGELES CAMPS LAUNCH MEMBERSHIP CAMPAIGN

Successful Contestant Gets Free Trip To New Orleans

Graham, Supervisor for the Order in the State of California, calls for the organization of the membership into four divisions with a captain at the head of each division. Every member of the Order is expected to serve as a worker in some division and over $500 will be distributed as prizes to contestants.

A round trip transportation to the convention or its equivolent in cash is offered to the worker who secures the largest number of approved applications by May 31st . The ticket will be good until October 31st, and will include stopover privileges at Houston, Galveston, New Orleans, Indianapolis, Chicago, St. Louis, Omaha, Denver and many other ponits of interests.

The campaign in California will be personally conducted by Mr. Graham from the local office at 1400 Central avenue, assisted by Deputies J. E. Rector, H. K. Watkins and Chas. L. Daniels, the latter being the winner of last year's campaign trip and subsequently appointed deputy. Other prizes offered include a five tube radio, a free trip to Oakland and return where the recipient will be royally entertained by the Oakland camp, and a score of cash prizes.

The Supreme Executive Council at the Home Office in Denver has declared a dispensation and a joining fee of approximately one-third the regular fee will be in effect. Simultaneously with the campaign in Los Angeles, others will be enducted by the camps at Oakland, San Diego and Santa Barbara as well as the twenty-six other States in which the Order operates.

CHINA'S RISING TIDE OF COLOR

BY: C. V. BRIGGS

(Former Editor Crusader Magazine)

CAN THE NEGRO be altogether unconcerned about events in China, when the issue in China is the same issue facing the Negro in his homeland, Africa, and in the New World: the issue of the "divine right" of the white robber imperialist nations to rob and despoil, subjugate and dominate the darker peoples of the world?

There is grave danger of the Negro becoming confused as to the real issue in China. For months now the white daily press, with the exception of labor papers like The Daily Worker (New York) have been busy attacking China and camouflaging the motives of the robber powers who are seeking an opportunity to intervene in the present struggle between the victorious Cantonese (Nationalist) armies, sweeping Northward, and the discredited Chinese militarists, like Chang-so-lin and Wu Pei Fu, one the tool of Japan, the other the instrument of England.

The literary prostitutes who edit the average American newspaper, in their anxiety to serve the interests of the capitalist gang upon whose advertising and credit support the success of their papers is dependent, have shown their readiness to go to any length to malign and discredit the Chinese Nationalists, even to raising the old familiar bogy of Bolshevism against the Cantonese, offering as proof of Chinese bolshevism the simple fact that Soviet Russia, unlike the imperialist powers, has consistently recognised the right of the Chinese to rule nd possess their own country, refusing to participate in the arms embargo by which the imperialist powers hoped to disarm the Chinese and make them powerless and ready for the plucking.

The situation in China for the last fifty years has been similar to the situation which would arise in one's home if some powerful, uninvited stranger came along, made himself perfectly at home, sat at the head of the table, and laid down rules for the family. It is the same situation existing today in Africa, despoiled by the European imperialists, the same in India, held in subjugation by the British imperialists.

The record of the imperialist powers in China has been one of brutal and wanton aggression. Imperialist England, leading exponent of the amazing policy of European eminent domain, made the Yangtse Valley a special "sphere of interest" since 1877. In 1842 she seized the island of Hongkong after a three years war fought by the Chinese to keep opium out of their country and by the British to inflict that deadly drug upon the Chinese masses. Later she forced a weak Chinese government to give indefinite leases on 400 square miles of mainland near Hongkong and the seaport of Weihaiwei. In 1913 when Tibet, then a part of China staged a British stimulated revolt, England forbade China to suppress the rebellion. In addition, as the result of a second war with China, the British have possession of several strategic areas varying in size in the centre of cities of Shanghai, Amoy, Hankow, Kuking, Chinkiang, Newchang and Tientsin.

These concessions fly the British flag, are policed by British troops and ruled by British law. They constitute a convenient refuge for Chinese criminals. And, in order further to cripple China, the imperialist powers have control of the Chinese tariff and customs. They claim extra territoriality for their nationals, that is, the right of Englishman, Americans, etc., to violate Chinese laws and customs with impunity and to be tried in their own courts, under their own laws. Only Germany and Soviet Russia do not claim extra-territoriality or hold concessions in China. Germany, as a result of the world war, having been forced to surrender her concessions and extraordinary status, and Soviet Russia having voluntarily relinquished these claims as the result of the overthrow of capitalism in Russia and the creation of a workers' state.

The situation which resulted from these encroachments of the European powers would be somewhat anomalous (to give another illustration) to the situation which would arise in this country if England, France and other European powers, seized strategic portions of large American cities, like New York and Chicago, and insisted on patrolling the Mississippi River, promulgating an edict which made their nationals resident in this country superior to American law and institutions.

The white imperialist exploiters paraded through China in true tin god fashion, demand abject obedience, robbing and exploiting right and left and enforcing their right to rob and exploit by the ever threatening guns of their war vessels, their private police force, their marines and their regiments of foreign mercenaries.

It is against this system of imperialist exploitation of the Chinese masses, that the Chinese Nationalist Government is fighting. It is because the Canton Government represents the interests and aspirations of the downtrodden Chinese masses and has declared its determination to fight until the imperialist system, which the Chinese people have been made slaves of the capitalists, is destroyed, that the masses have rallied to its support.

The Chinese Nationalist armies have swept forward from victory to victory until today they control more than half of all China, and menace the Chinese war lords, the props and puppets of the imperialist powers. The Chinese militarists, secretly subsidized by England, France and other imperialist powers, have been powerless to stem the rising tide of the liberation movement in China. Onward, ever onward, the Nationalist armies have swept, until today they menace foreign control of Shanghai, China's richest and most populous city.

It is against the Chinese Nationalist that the British imperialists are rushing war vessels and troops, at the same time that they utter smug professions of friendship and sympathy for the Chinese people. It is against the Chinese Nationalists, and their legitimate aspirations for a free China, a China for the Chinese, that the various imperialist powers are mobilizing, including the United States. It is against these same Chinese Nationalists that colored men and boys may be called upon to fight in a war to attempt to perpetuate imperialist exploitation over 400,000,000 Chinese, at last arouse, well trained and adequately armed. And yet it is not too much to say that it is in China today that the fate of white imperialism is being decided that it is in China that white imperialism is receiving its death blow and the way being prepared for universal liberation of the subject peoples and the overthrow of economic exploitation of the many by the few.

In the face of this consideration, what is to be the attitude of the Negro masses in the United States? What the attitude of the Negro press? Is it to be one of continued apathy and unconcern to one of the greatest social manifestations occurring in the world of color—a struggle replete with significance for the Negro masses and the oppressed and exploited of all the earth? Is the Negro to continue indifferent to this tremendous phase of the universal liberation struggle? Do the leaders of the race consider it resident on Mars or on Earth?

T. L. WOOD PASSES

LOS ANGELES' WEALTHIEST COLORED CITIZEN SUCCUMBS TO BLOOD POISONING

Timothy Lee Woods, well known local capitalist, passed away last Saturday at about 3 o'clock P. M. after an illness of about one week's duration from blood poisoning at his home, 2428 E. 4th Street. The news of Mr. Woods' passing came as a shock to his many friends and acquaintances for it was not known by even his closest associates that he was ever sick.

Mr. Wood was born in Raleigh, N. C. 49 years ago, where he was reared and went to Boley in 1908, where he entered business. He rapidly developed into a business man of rare ability and prospered. For years he conducted a general department store and his business was one of the foremost in the State of Oklahoma. He accumulated vast holdings throughout the state. Deciding to retire from business activity he disposed of his business at Boley and in 1921 came to this city, where he, though in retirement, conducted a Realty Business handling principally his own holdings. Mr. Wood owned more than a score of residence properties and besides the Woods' Block on the corner of 9th and Central Ave., in which the office of this publication is situated, owned a large ranch in the Imperial Valley; also retained holdings of rich oil lands in Oklahoma. A conservative estimate of his holdings is in the neighborhood of $500,000.00. He was a devout member of the Christian Science, and was one of the Board of Directors of the 11th Church of Christian Science of this city. Mr. Wood was affable, well met and congenial in every respect.

He leaves to mourn his loss a loving and devoted wife, two daughters, father, brother, a sister in the East and a host of friends.

The funeral services were conducted from the Angelus Funeral Home, 1036 E. Jefferson Street on yesterday at 1 P. M. in charge of the officers and members of the Christian Science Church.

Baumann's Drug Store No. 1 Broken Into And Robbed

On last Wednesday morning between 1 and 2 A. M. burglars forced an entrance through the heavily barred back door of Albert Baumann's Store No. 1, located at 9th and Central Avenue. Almost the entire casings for the door were forced off by a heavy crow bar. On entering, all evidence points that the thieves had a red hot tip just where the secret money box was hidden, and without opening any other drawer, went straightway to the cash and gobbled up about $250.00 in cash and departed without further ado.

The police were called, took finger prints and with several clues furnished are red hot on the trail of the thieves. Lieut. of Detectives McDuff and Brady are detailed on the case.

VICTORY LIFE ENTERS NEW YORK

(By: A. N. P.)

New York City, Feb. 22.—Anthony Overton, president of the Victory Life Insurance Company of Chicago spent the week here completing plans for opening the New York Branch of the Victory Life Insurance Company, the company having been certified by the State of New York Insurance Department, February 9.

The admittance of the Victory Life Insurance Company into the State of New York has been proclaimed an epoch-making event due to thte fact that it is the first company owned and operated by Negroes to be permitted to do business in the State of New York or rather to qualify in this state.

For a number of years white companies have held full sway in the State of New York and it is reported that a special table of rates was compiled for Negro policy holders, thereby forcing Negroes to pay a higher rate than other policy holders. The opening of the Victory Life Insurance Company for business will serve to alley ate this condition and it is believed it will force an abandonment of the alleged practice.

The officers of the Chicago corporation are being congratulated upon a sound business basis.

According to a statement made by President Overton, the company has on foot a plan of expansion which will carry it into the states of Michigan, Pennsylvania and Virginia perhaps during the current year.

ACE FOREMAN TAKES THE AIR

N. A. A. C. P. SPONSORS

An event will take place on Sunday, February 28th that will mark another great epoch in the history of the Negro. Gradually he has pushed into the countless industries and activities of the world until there is scarcely any in which he is not already proficient and making an unusual mark. Aviation although it has not been universally undertaken by our people yet with the world's advancement it too is becoming more and more within the broad scope of our endeavors.

Ace Foreman, intrepid young aviator will attempt the difficult task of piloting the nose of his huge plane from Los Angeles to New York. The N. A. A. C. P. ever eager to advance the spirations as well as defend the cause of their black men, has been this young man's constant inspiration. They have minutely overseen his plans, so as to properly insure the success of this trip, which we hope, might be the forerunner of more gigantic undertakings of some of our adventurous youths.

Everyone of us should make it a part of our duty in assisting the local N. A. A. C. P. by our presence, in large numbers at the air port, 52nd and Western Ave., at 3:30 P. M. to see Ace Foreman take off and bid him God's speed.

So, everyone come out with the N. A. A. C. P. and give your combined moral support to this young man and his mechanic and companion, Artis Ward.

THE HEFFLIN MFG. COMPANY

By LEWIS K. BEEKS

The following is a true copy of an article that appeared in the Black Dispatch (Oklahoma City) of February 10, 1927: "Dissatisfied Stockholders Make Futile Attempt to Wreck $200,000 Race Mfg. Corporation.—Heffin Furniture Mfg. Co., Cleared of Charges at Hearing Before State Corporation Commission."

(Pacific Coast News Bureau)

"Los Angeles, Cal., Feb. 10.—The Hefflin Mfg. Co., the $200,000 furniture manufacturing corporation, founded, managed and controlled by a 27 year old colored youth, the largest and most successful concern of its kind operated by the races throughout the entire west, has just been vindicated of a dastardly attempt by a minority group of disgruntled stockholders to wreck the corporation.

FILE COMPLAINT

"Five dissatisfied stockholders thru their attorney, Lewis K. Beeks, filed a complaint before the state corporation commissioner charging that permission to examine the books and records of the corportion had been denied them and requested that the stock permit of corporation be revoked. The complainants were: J. H. Sykes, vice-president of the Unity Finance Co., holder of $500 worth of stock; Wm. Bowers, apartment house owner, $500 invested; Mrs. Jessie Reeves, prominent club woman, $250 invested, who had paid $100 on stock; and Wm. C. Hammond, director Smith and Williams, Undertakers, who had paid in only $300 on a $1000 subscription."

This and similar articles have appeared since the Heffin Manufacturing Company was summoned before the Corporation Commissioner after the affairs of the Corporation had been investigated by the Commissioner upon complaint of the stockholders named, and the financial condition of said company was discovered to be in such poor shape that upon recommendation of the Corporation Commissioner's auditor the permit of the Company to sell stock was immediately suspended.

The writer of this article does not feel it necessary to comment upon the cheap effort that has been made to take unfair advantage of the complaining stockholders who sought to protect their interest in the Company by complaining to the Corporation Commissioner, but it is only expedient in this article that a few of the facts and figures brought to light by this hearing, and which are now on file with the Corporation Commissioner be given to the ivesting public. The report of the financial condition of the Hefflin Manufacturing Company shows that the Company purchased a piece of real estate at a cost of $15,000.00 and that a mortgage of $14,938 existed thereon; that there was a cash account of $390.69; that the Company operated at a loss during the year 1926 of about $10,000.00; that there existed a deficit of about $17,431.67; that here were accounts payable of $38.33 and an over draft of $87.40.

It is needless to speak of the integrity and character of the citizens who through their attorney, Lewis K. Beeks, filed the complaint which brought the above facts to light. All of them are so well known to the community for their thrift and industry that no one will question their sincere effort to get at the truth of the financial status of the Company which had been denied them on numerous occasions. Contrary to the articles published in the matter, the Commissioner did not concern himself as to whether or not the complainants were allowed to see the books, records and reports of the Corporation and made no ruling thereon as that department was concerned only with the financial condition of the Company which brought the suspension.

At the second hearing of the case, Mr. Heffin in order to make a more favorable financial showing of the Company, assigned an insurance policy on his life to the Company and filed statements to the effect that the creditors had reduced their claims to one-half of the original amount and their indebtedness to about $7,000.00. It was, further represented by Mr. Heffin's attorney, Mr. Dunnigan, that a valuable oil lot been found on the premises being purchased by the Company known as peat. All of these facts were tobe verified by the Commissioner and in the event that the financial showing after the investigation warranted it, after Mr. Heffin filed another financial statement, the suspension would be lifted.

With this statement of the case we leave it to the public to determine whether or not the stockholders should be praised or censured for bringing to light the herein stated condition of affairs. 2-26-27-1

Negroes Guide White Industry

BY: LOUIS MICHEL

The Warren Brothers, Ellis N. and J. A. are Trusted Managers of the Southwestern Portland Cement Company

Liberty, in a veritable labyrinth of grim oppression and dejecting intolerance, spreads its gentle, brotherly wings in Los Angeles. The rusty chains of tyranny are clanging, but the bright rapier of justice is gleaming at the same time.

Here in Los Angeles, two real, not mouth leaders of the Negro race, the brothers, J. A. Warren and Ellis N. Warren, are the two responsible guiding Managers of the great Warehouse of the Southwestern Portland Cement Company, at Mill and Industrial streets.

And what is the wondrous lesson that must be drawn from this grand, inspiring, so very unusual circumstance?

The proof is fundamentally established that not all the Caucasians are unjust, but that big-minded and progressive white men, like the heads of this tremendously big organization, trust Negroes of proven ability, manly intelligence and stimulating honesty. When onee the white man learns of and appreciates the great good in the Black men, the color question is no longer a dividing question, and is removed from the world.

Ellis N. Warren, who is the warehouse superintendent of the firm, has toiled for the Southwestern Portland Cement Company for 20 years, while his brother, J. A. Warren, has been the confidential bookkeeper for 7 years. Thus is Negro capacity, Negro stability and Negro progress shown in a most convincing and constructive way, when in an industrial manner, Negroes guide in a trustiig way, the big business plant of a millionaire white company.

Not only sounds this truthful epic of business like a great romance, but it really represents a refreshing oasis in a burning, wasteful desert, a bright, dazzling star in a mad, crazy world of darkness, it is a heart's-warming picture of Negro rise through sheer integrity upon the sweet Goddess—opportunity's basis of Caucasian tolerant sense, for both parties are faring well by this commercial brotherhood.

It would be a splendid service to humanity if the readers of the Eagle would mention similar cases of a new era in this city.

THE FASHION SHOW

GENIUS OF RACE TALENT WILL HOLD FORTH IN ALL ITS GLORY AT SHRINE AUDITORIUM MARCH 1st

The Phys-Art-Lit-Mo Club will hold its Annual Fashion Revue at the Shrine Auditorium on next Tuesday evening which promises to outdo all previous efforts in displaying the genius of Los Angeles Talent, in the realm of art and artistic touch. Great preparations are being made. All hands who appreciate real worth and accomplishment are bending all of their efforts to assist the club in making this year's fashion show the outstanding one of all others. Several innovations will be in evidence which are guaranteed to please to the utmost.

Aside from the grandeur and realism there is a constructive angle to this great demonstration in that it brings to the forefront the very best talent in the field of production.

The ladies of the Phys-Art-Lit-Mo Club are fully appreciative of wonderful support from the public and for this reason, each year they strive to bring forth the very best for their patrons. In fact they will be satisfied with nothing less and this year they feel that they have been successful indeed, to be able to present a program which will stand the most exacting criticism.

With this function going over the club will be well on its way toward erecting its beautiful home for all time as a monument to the sacrifice and genius of the women of the race.

Doubts "Oil Scare"

February 14, 1927.

The Editor of the California Eagle,
Los Angeles, Calif.

Dear Sir: In reading last week's copy of the Eagle, I was much amused to note the prominence given the "OIL SCARE IN WATTS." This was my first knowledge of this, and I am sure this is another of those "Subdivision Tricks." Advise your readers if they are to buy land in this vicinity to buy their land for a HOME and not an oil well. Nobody is scared in Watts about Oil, in fact we have not even heard about it; too, this is in the city of Los Angeles, and I am sure there is a city ordinance governing oil well drilling in the city limits. The vicinity described in your paper did locate a certain subdivision which has not sold, but has been on the market for more than two years.

Very truly yours,
KNOX-KNOX REALTY CO.

Unusual But True

(By: A. N. P.)

Butztown, Pa.—The question, "Is preaching work?" must be decided by Referee Seidel in the case of Clarence F. Kresge, Allentown, Pa., a student at Beulak Park Bible School. While nailing shingles on the school he was injured, and, in applying to the state Compensation Board, said during his recuperation he was able to preach but not to work.

Quinton, N. J.—Because two West Jersey and Seashore Railroad passenger trains on the Elmer and Quinton branches average only five passengers per train per day, the Public Utility Commission has granted permission to discontinue them. The trips became so monotonous nd lonesome, it is said the train crews welcomed diversions like a cow on the track.

Millville, N. J.—When Mrs. J. Lester Smith, South Millville, was awakened by a noise in the cellar, she thought it was the cat. But the next morning she discovered thieves with a motor truck had taken half a fat porker, fifty pounds of lard and four bushels of potatoes.

Weisel, Pa.—"Slim" Buck and several of his Bucks county neighbors were startled at midnight by what they believed to be a fire alarm. Low, short whistle blasts aroused the neighborhood and after a search the "whistle" was found in a ravine, where a neighbor's hound dog's left hind leg was caught under a rock.

Akron, Ohio.—For sixteen years, John Arnold, seventy-one, a farmer, and Mrs. Arnold, sixty-nine, ate meals together without speaking. He ceased conversation with her in 1910. Now she has obtained a divorce after fifty years of married life.

Keep of this date, Easter Monday night, Wilcox Annual Easter Monday Ball.

Among the Eskimos it is an unwritten law that if any man, from any cause whatsoever, slays his neighbor, the wife and the family of the deceased must be cared for by the slayer during the rest of their lives.

A capacity house was in evidence last Thursday evening to witness the installation of Dr. J. D. Milson as pastor of the Second Baptist Church. Welcome addresses were given by representatives from all the clubs, civic, fraternal organizations and sister churches of the city, interspersed with musical numbers and anthems by a visited choir. Rev. T. M. Davis, state Missionary was the installing officer, assisted by Dr. H. H. Mitchell, President of the San Joaquin Valley Dist. Convention. The Art and Industrial Club served the repast.

Equally as large was the crowd that assembled at the church of God in Christ last Friday evening to bid God speed to Elder L. C. Patrick, he retiring pastor, who has recently been elevated to the Episcopic of his church. Bishop John M. Wilson was present from Los Angeles and gave the principal address of the evening. He was followed by speakers from sister churches, and the music was furnished by choirs from Bethel A. M. E. and the Second Baptist Church. The Rev. Fred A. Hughes acted in the capacity of Master of Ceremonies, and presented an excellent program.

Mrs. Ollie W. Wolfskill is slowly recovering from a lengthy, severe illness.

The "Five Sheiks," including T. J. Dixon, Milton Williams, Macho King, Fred Cannon and Ben Watkins, were hosts at a large and lively party last Friday evening. The spacious dwelling of Mr. and Mrs. William A. Bigby, Jr. was borrowed for the occasion, and their guests included all the younger set, and a sprinkling of the younger married contingent.

Rev. and Mrs. Fred A. Hughes and family have occupied the new parsonage adjoining the elegant new Carter Memorial A. M. E. Church.

The debate, Resolved That Prohibition is a Menace to Society, sponsored by the N. A. A. C. P. at the A. M. E. Zion Church last Sunday afternoon drew a large audience and proved to be a very interesting discussion.

The Negro Citizens Advancement League is sponsoring a series of lectures on various vital subjects, the first of which is being given this week by the Fire Department at Garibaldi Hall.

After nearly five years with the Sheriff's office, William A. Bigby, Jr. has resigned to accept a more lucrative position. He was presented with a monogrammed gold fountain pen and pencil, a token of appreciation, a card bearing the signature of the Sheriff and his entire staff.

Members of the 500 Pinochle Card club were lavishly entertained by their husbands last Tuesday evening, instead of the husbands being entertained at with the regular monthly dinner on husbands' night. A 5:00 o'clock tea at the Wilson Theater was featured the first part of the evening, followed with a chinese banquet at the Pekin Cafe. The party then came to the home of William A. Bigby, Jr. for cards and dancing. The hosts on the occasion were Rev. W. Clarke, Capt. Moulden, Joseph Bonner, Harry C. Wilcox, Sam Hannibal, Cozy Smith, C. Payne Graves and William A. Bigby, Jr.

The Sunday School work with Miss Ida Johnson as its head in Monrovia is progressing.

Mrs. Sadie Sims, president of the Francis Harper club, is confined to her home with a slight illness.

IN "HAWKS" HANDS

The Court will come to order! The gavel fell and Judge Richardson's Court was in session.

"David Watson you are hereby charged with stealing two bottles of milk from in front of a grocery store at 1327 E. 27th St." Officer F. C. Kimbrough had caught Watson stealing two bottles of milk early in the morning. The officer testified that complaints had come to him of a man answering his description stealing money from milk bottles.

Watson was found guilty and as His Honor waved him away he said to the gaunt looking prisoner:

"Well, if you say you were hungry, I suppose the city ought to take care of you. We will give you 30 days in jail."

Albert Chism, well-known citizen, has been married to his wife, Enola for twenty years of unsullied bliss. Each pay night Chism unfailingly came home with the pay check, until a few weeks ago he made the acquaintance of one Lacarge, whom it seems, induced Albert to accompany him to 1101 E. Pico for a few hands of the international indoor sport, draw poker. After several weeks of this invariably ending in Chism arriving home with an empty envelope, Mrs. Chism, who is one of the stellar lights of the Parent Teachers Association grew tired of this, so on last Friday she called up the above address and found him there. Going over to remonstrate with him, after arming with a pistol, she became involved in a bitter quarrel with him during which she shot him in the shoulder. He is in the Hospital and she in charge of the jail matron charged with assault with intent to murder. The officer in the case was L. N. Bradford.

J. D. James was charged with disturbing the peace in the vicinity of 1940 Central Ave. He plead not guilty and the case was set for Friday.

One bad apple spoils a flock of good ones. John Richardson was a good, industrious boy, obedient to his parents and steady working. His brother Albert was a bad egg with a penchant for the stealing and had fortunately gotten out of a previous scrape after being shot by an officer. But one night last week, while patrolling his beat, in the vicinity of 24th and Stanford, officer Anderson surprised the good John and the bad Albert in the act of stealing some spare tires. Pouncing on him they downed him and took his black-jack and were beating him up when his cries for help attracted a family living near. On the man running up they fled. The officer who had not lost his gun in the melee fired at them while running and hit John in the back, the bullet entering the chest. He is in a dangerous condition near death in the hospital. The other brother made his escape and has not been apprehended as we go to press.

G. W. Craddock, erstwhile manager of Traeger's campaign dodged the Hawk's hand on last Monday when a process server attempted to serve a summons on him by refusing to take the same when handed to him, he beat a hasty retreat. This is an echo to the campaign which re-elected Sheriff Traeger last fall, the cause was that of a widow woman, Mrs. Guest suing for services rendered prior to the primaries last August.

PAL-O-MINE SOCIAL ART CLUB

One of the smart social affairs of the week was a dancing party given by the Pal-O-Mine Social Art Club Saturday evening, February 19, 1927, at Eagle Hall. The hall was beautifully decorated with lilac and gold, the club colors, and with a profusion of ferns and flowers, donated by Mrs. M. Allen and Mrs. M. Lacier.

Many of the younger set attended this lovely affair and danced to the strains of Mr. Lacy Reed's orchestra. During a short intermission the officers and members of the club were introduced to the guests by Mr. Chauncey D. Bell, Jr., Master of Ceremonies. At 12:00 A. M. "Home Sweet Home" was played, the guests departing declared the young ladies delightful hostesses.

(By: A. N. P.)

SUES FOR $10,000

(By: A. N. P.)

Camden, N. J., Feb. 21.—Louis Turvey of Barrington, N. J., sued Fred Shorts, also of Barrington, for $10,000 for alleged alienation of Mrs. Edith Turvey's affections and an additional $10,000 on the charge of retaining the affections.

Suspicions of the alleged triangle first grew in the mind of Turvey when his wife heaped the plate of a dinner guest with slices from the breast of roast chicken and heaped him to the neck and a lean "drumstick."

Shorts, said Turvey, enjoyed two slices of pie, while he had to be content with a slender wedge. Turvey further said that he frequently shadowed the couple. A decision is promised at an early date.

MORE AND BETTER VOTING WANTED

The Fifth Ward Republican club has organized to conduct an educational campaign to bring out more voters in its district at this spring's city elections. The plans is one that well might be followed in every district. Educational campaigns fail when they are last minute drives. Ballyhooing, parades and decorated autos don't pay their cost so far as bringing out votes is concerned.

Voting—and intelligent voting—is the price of citizenship. A person who will not take the trouble to vote has no rights that anybody need respect. There never is an election when there is not something important to be decided. The citizen who does not by his vote give his honest opinion of candidates or propositions on the ballot is not a good citizen.

Every man and woman owes some service to the community. Working for one's interest and playing in the interval are not enough to make an existence that one should be satisfied with. There is a public obligation to be performed, and at election time it consists in going to the polls.

The professional politician and his followers always are out on election day. The man and the woman who make their living out of politics do not forget to vote. Are you willing the profiteers of politics should decide the kind of city government you are to have?

The people can manage their own affairs if they really want to do so. But persons who are not interested enough in these affairs to give them intelligent study, and then cast their vote according to the honest convictions they have formed, are a poor type of citizen.

OUR FIRST ELECTIVE NEGRO OFFICER

By: Hon. Wm. Herbert Fields, National Grand Master of A. U. K. and D. of A.

The rising to political preference and the recognition of the Negro as a parallel of stubborn resistance.

But in every crisis there is a man who is willing to pay the price of leadership. In this case the man was Charles H. Turpin. In the year 1910 he started out to win a coveted place. The fight which he put up at that time is well remembered by the citizens of that day. Twice the decision of the Supreme Court of the State was reversed in Mr. Turpin's favor. Mr. Turpin fought and won his place as Constable of the fourth Constabulary District in St. Louis. He held the place to the honor, both of the people of his race and all the citizens of this city. He declined to be a candidate for [illegible] preferring [illegible] aries.

Due entirely to the efforts on the part of Mr. Turpin, we have today, in the City of St. Louis, six elected officers. Judge Clark held with distinction and was elected the second time, to the office of Justice of Peace of the fourth District. We have Constables Langston Harrison and William Morant of the same District, and Mr. Ira Dorsey of the fifth District. All of these men have a number of appointments.

We have the following officers, appointed and elected otherwise: Robert Scott, elected Committeeman of the sixth Ward, the first colored man to be elected to said office in the City of St. Louis. We have as Committeewomen, Mrs. Cassie Harris of the fifth Ward; Mrs. Florence G. Davis, of the nineteenth Ward; Mrs. Elizabeth Slaughter Gamble of the ninth Ward, and Mrs. Carrie Tillman of the sixteenth Ward. In the Legislature we have the Honorable Walthall M. Moore, for the third time elected, and Honorable John A. Davis, recently elected.

With the exception of the City Treasurer, we have representatives in every municipal Department, including two Fire Companies, a squad of Policemen in uniform, a Colored Sergeant of Police, the most noted detective in the United States, Ira Cooper. We have other representatives in the following Departments:

Associate City Counsellor, Walter Hill; In the Probate Court Department, Probate Clerks J. P. Harris and Wm. H. Banks; Assistant Circuit Attorney, George B. Jones; In the office of Deputy Sheriff, six Deputy Sheriffs, Sergeant-at-Arms of Board of Aldermen, C. C. Tillman; in Office of City Marshall, Two Deputy Marshals; Superintendent of City Hospital No. 2, Dr. Fred Slaughter; In the office of Circuit Clerk, R. C. Fisher and others; In the office of City Collector; Albert Burpee; City Comptroller's Office, Lesley Taylor. We have also, colored custodians of the city public buildings: In Municipal Court Building, W. A. Hawkins; City Hall, W. L. Cox; Court House, J. C. Campbell. There are also colored employes in the finest market in the United States, located in St. Louis on Broadway and Morgan. We also have E. T. Summers, Pure Food and Drug Inspector of St. Louis; in the City Assessor's Office, four clerks; in the License Collector's Office, two clerks; in the Recorder's office, five clerks; In the Water Room, two clerks; In Special Tax Office, one clerk; In Collector of Revenue's Office, two clerks; Clerk Court of Criminal Correction Office, one clerk; Clerk Police Court No. 2, two clerks.

Mr. Turpin's activities have also been in the line of business. Not a business or civic movement has been launched but that he has been a vital factor. Today he is a member of the Board of Directors of The People's Finance Corporation, the largest the second largest Negro contributor to the Community Fund, also the proprietor of the Booker Washington Theatre.

Upon the [illegible] of his many friends, Mr. Turpin has decided to allow his name to be presented at the primaries of 1927 as a candidate for Alderman of the sixth Ward.

The united efforts of all the people should be centered on ONE MAN, a man who has the ability, the experience and the intricate knowledge of how to get things done.

Fifteen Claim Reward

(By: A. N. P.)

Reading, Pa., Feb. 22.—Berks County judges here held a hearing in the application of 15 men, including rural residents, constables and city police for the $500 county reward offered for the arrest of three men who killed Jonathan Klopp, a North Heidelberg merchant.

The victim, a white man, was murdered three years ago. The men, all colored, Robert Bruce, Leamon Crocker, and Irving Grinage, said to be from Philadelphia, were electrocuted last year for crime.

"CHARM" FAILS; IS JAILED

(By A. N. P.)

Philadelphia, Pa., Feb. 12.—After defrauding more than 150 merchants, Jews in particular, last year, and then going to Florida, where he bought several charms from voodoo doctors, John Stephens, of twenty-first and Catherine streets, returned to this city Tuesday and believed that his charms would immune him from arrest. The charms did not work. He was held under $10,000 bail for court.

According to the police, Stephens made a practice of visiting merchants and ordering a small bill of goods which he asked to be delivered to a nearby apartment house along with change for $20. When the good would arrive Stephens would receive them and the change for $20. Then he would disappear.

After many complaints to the police, Stephens left for the rich man's playground, where he visited several voodoo doctors. He had implicit confidence in their tricks.

With a lizard's head, a gold shell and a rabbit's, Stephens left Florida to match his charms against the police force of this city. He denounced the voodoo doctors as he was carried to jail.

Alleged Robber Arrested in New York

(By: A. N. P.)

Washington, D. C., Feb. 15.—With approximately $10,000 worth of the furs and dresses stolen from Erlebacher's store last week, Ulric Brownee, native of Panama and resident of the United States for almost ten years, was brought here from his New York home by Detectives Cox and O'Brien on a warrant charging complicity in the robbery.

Brownee before a United States Commissioner in New York sought to evade his transfer to this city. It was held, however, that a prima facie case was established and the commissioner signed removal papers.

GRILLED BY DETECTIVES

Questioned by detectives at headquarters, Brownee proved close-mouthed. He said he was born in Panama and came to the United States in 1917. He said he enlisted in the Army in September, 1918, and was discharged at Camp Dix, December, 1918. He served mostly as a waiter at hotels and aboard boats, he declared.

Seek Pardon for Houston Martyrs

(By: A. N. P.)

Washington, D. C., Feb. 21—Resolutions asking that the members of the Twenty-fourth Infantry who are now serving sentence in prison for having participated in the Houston Riot several years ago, be pardoned and that some measure be taken to stop the lynching of men and women in the United States, were presented to President Calvin Coolidge by representatives of the Lincoln-Douglas Conference which met here this week.

The conference with the President of the United States was conducted by Rev. George Frazier Miller of Brooklyn who also presented petitions for redress and wrongs to the House and the Senate.

The committee further asked the President to take steps to end "racial segregation" in the federal Civil Service whereby some officials "are attempting to perpetuate an official cast system based upon color."

IN MEMORIUM

IN MEMORY
Of
WILLIAM G. GARDNER
(One year Feb. 27)

I cannot say, and I will not say
That he is dead. He is just away!
With a cheery smile and a wave of the hand
He has wandered away in an unknown land.

And left us dreaming how very fair
It needs must be since he lingers there
And you, oh you, who the wildest yearn
For the old-time step and the glad return.

Think of him faring on, as dear
In the love of there as the love of here.
Think of him still as the same, I say.
He is not dead—he is just away.

MRS. Wm. P. GARDNER, Wife.

RECOGNIZING STANDARDIZED DENTISTRY

The majority of people will recognize or buy a standard article in preference to an article manufactured by a firm that does not have an enviable reputation to uphold or in other words here today and gon tomorrow. So it is in Dentistry, says Dr. Pillow. It was really surprising to me the large amount of business we did the opening and ensuing week at our new dental office No. 2 located at 4621½ Compton Ave. two and one-half blocks South of Vernon Ave.

I attribute it to the standardising of our business. It is not our policy to advertise a certain price and have patients come to either of our offices and ask a different or higher price altogether.

The prices are low as well as standard. Our teeth, gold or rubber, in fact all of the materials used are bought from reputable firms with sound reputations.

Goods are bought by us in such large quantities that it is possible for us to give the best obtainable in dentistry at very reasonable prices.

Our past record and volume of business has shown us what the people want.

We give good materials and workmanship at reasonable prices plus a binding guarantee.

The sun went at which the finest work of our very greatest artists and milliners can be viewed by thousands! The Fashion Show and Dance at Shrine Auditorium, March 1st.

N. N. B. CLUB DOPE
By: Martin

Say, fellows! It sure was great. The N. N. B's. dance in honor of the Merry Makers went over big. The boys really got their money's worth. "Sally," "Flying Ford," "Great Marshall" and "Miss Blackbottom" really put on the great for the club members, and I mean made them like it too. When I say they had a good time I mean that, well, you don't have to take my word for it, ask "Days Horton."

We tried our best to give our friends a jam-up time and I think our efforts were not in vain.

The N. N. B's. have started out like a house a-fire, and they intend to make things interesting throughout the year. The election of officers was held recently and the results were as follows: Sam Moore, re-elected Pres.; Al. Williams, Vice-Pres.; Sharpee Patton, Secy.; re-elected; Clyde Thompson, Treas.; Charles Martin, Publicity and Business Manager.

The applications of new members are to be acted on this week.

Again we want to thank each and everyone who attended the dance. It was sure great.

The N. N. B's championship track team will start training soon to get in condition for the "Y" meet. A meet which promises to be the greatest in "Y" history. All of our men and aspiring candidates report to club their intentions for the coming season. We want another track championship. Let's go gang!

Heard in club meeting:

Sam: I'll bet none of you guys can take my girl out!

Jeanine: You bet, I took her to the dance last nite.

Patton, Towns, Reese, Thompson and Johnson are all down on Martin. He gave them a phoney address, saying it was his girl's address in Watts. The boys found a vacant house. Ha! ha! ha!

Beautiful styles from the chic sports model to the most brilliant evening gown will be shown at the Fashion Show and Dance, Shrine Auditorium, March 1st.

Hurry! Hurry!! Hurry!!! Your first time at the Knights of Columbus and your last dance before lent, 614 S. Flower St. Sonny Clay's Orchestra. Admission 50 Cents.

Silver Fox Popularity Contest

Candidates Starting In Race For Auto and Prizes

Peerless Sedan And Hundreds Of Dollars Given Away.— Contestants Must Sign Now

Booming rapidly along on the wings of popularity, with the storm of public approval placed upon it, with interest increasing by leaps and bounds, the Silver Fox "Everybody Wins" Grand Prize, $1895.00 Automobile and Gold Contest is rapidly becoming the chief topic of interest and conversation.

A Real Fortune

The one big feature of the contest which instantly attracts the attention and amazes so many callers, is the fact that the participants cannot lose. Every active contestant is guaranteed either a cash prize or one of the largest awards, and when it is realized that the cash guarantee of 10 percent for those who do not win one of the large awards, is something to think about, so HURRY!

Votes are being sent and brought in by contestants and new contestants are being received every day, which goes to show that the public has been really convinced that the Silver Fox Club is going to distribute these many prizes absolutely free, headed by that dandy $1895.00 Peerless Sedan, to its own followers and friends. Some were skeptical at first, but they now realize that the Silver Fox Club is going to do just what its announcement says. Friends, when buying a vote, be sure and buy from your favorite contestants, because every vote helps toward winning the Peerless Sedan.

Every where in the community—every where the Eagle is read about the Fox Contest, intense interest is being shown in this wonderful offer, which presents the opportunity of obtaining a Brand New Peerless Sedan in exchange for a little effort in spare moments.

Campaign Just Starting

The Campaign, which is just starting, is open to anybody. All that is necessary to enter the contest is to fill out a card which you are given at the office, 851 1-2 Central Avenue, or by one of the members. Then equipped, you have but to ask your friends and neighbors, relatives and acquaintances, and have them buy their votes from you and your votes will pile up mighty quickly when your friends know that you are in the contest in earnest.

Office Open Until 8:00 O'Clock

Contest headquarters, 851 1-2 Central Avenue will be open evenings and you are invited to call for information you desire. If unable to call personally phone VAndike 7304. Do It Now!

Headquarters Busy

All during the past week, again the contest manager at the Fox Headquarters has been busy answering questions from men, women, boys and girls who call to find out if they have read the liberal offer correctly, and to know the details of this gigantic gift-making proposition. Several contestants have already turned in a few hundred votes. Interest is not being confined to any sex, either, for one of the interesting features is the fact that quite a few men have also inquired about the contest, in fact, it appears from indications that there will be about as many men as women and girls interested in the Grand Prize Distribution.

HOW TO GET VOTES

Each contestant, in order to receive his votes will sell tickets valued at twenty-five ($.25) cents each and each ticket that is sold by a contestant entitles the contestant to ten votes and entitles the PURCHASER of the ticket to a chance to win seventy-five ($75.00) dollars or twenty-five ($25.00) dollars in gold at the completion of the contest.

Remember the PEERLESS SEDAN will be given to the person receiving the highest number of votes over one (1,000) thousand. Each contestant must sell one (1,000) thousand votes to qualify for the contest. The tickets are made in book form and each ticket is perforated to be torn in half, each number on a half corresponding with the other half. One half of the ticket is to be put into a sealed box and the other half is to be kept by the purchaser of the ticket. Each contestant must report to contest manager on Wednesday of each week at office, 851½ Central Avenue. For the convenience of contestants the office will be open evenings. Any contestant who fails to report each week will be disqualified.

BABE LIVELY, Contest Manager.
Contest Office: 851 1-2 Central Avenue

NOTICE

This is to certify that a Brand New Latest Model PEERLESS SEDAN, which is now on display at the Bronx Hotel, 423 East Seventh Street, has been purchased by the Silver Fox Club, 851½ Central Avenue, Los Angeles, to be given away absolutely free as one of the many prizes in the Silver Fox Popularity Contest.

To Those Who Wonder

Everybody is wondering, even scratching their heads where they do not itch, just wondering, "How can they do it?" But just a little light on perhaps a dark subject. Los Angeles has been scoured over and thirty red-blooded young men have gathered together, calling themselves The Invincible Silver Fox Club.

We have undertaken this gigantic prize and money distribution with a fairness that will confront the public record to none. This great popularity contest, not merely a big money scheme, but a real proof of what can be accomplished by co-operation. The management of this organization says that the secret of our success is due to the loyalty of its members to their leader, and the stick-to-it spirit. We are ever mindful of the slogan of James J. Walker, Mayor of New York, which reads: "Make up your mind what action to take, and take it, stick to it, put it through, and to Hell with fear of criticism. . . . ."

Pasadena News

BY: Wm. MATT SOLOMON

The Modern Government League is to the fore with their candidates who are seven solid business men announcing themselves as candidates in the primaries to be held March 17. Each of the men represent a certain district and it might be well to note that neither of them represent any particular district populated by any particular group of our people. Of course everything has been cut and dried as to their proposals should they be fortunate enough to lead in the primaries and finally elected. The thing that should interest those of our group is whether either of the candidates consider at all the Negro vote? It stands to reason that should the Negro be considered at all he would get busy and indorse someone of the seven or even all of them as the case might be that he might be along with the Modern Government movement status of Pasadena thoroughly and are in a position to adjust the conditions that have been in a muss since this present corp of officials has been in charge. These candidates come from several walks of life such as lawyers, contractors, real estate brokers, engineers and war veterans. The only contention as to the fitness of the candidates is character, ability and their adaptibility for team work which is an imperative essential in governing a city's welfare. It is not presumed that these men would agree on every proposition brought before them but we would expect them to reach some amicable agreement at least once in a while. Time will tell all things and it now remains to be seen what that thing is. Those who have not registered had better get busy ere it is too late and if you are not properly instructed use a little time and get so informed.

With J. R. Wright and Mr. Crawford as Presiding Elders and Mr. Will Collins as Bishop the great Mock Conference will set sail Thursday night at the First A. M. E. Church with all the delegates in attendance. It is looked forward to with great anticipation as the brothers have spared no pains to make this the best ever and a large crowd is expected.

• • • •

Next Sunday is the day set apart for the great rally at the First A. M. E. Church. Dr. Keaton of Bethel A. M. E. Church of Los Angeles will preach and his choir will sing. Services will be held all day and the public is invited.

• • • •

Mrs. J. M. Wright who has been very successful in her former production of the Spring Fashion Show is busy making preparations for this annual event. It had been announced through some incredible source that the show would not be held but such report is without foundation. Watch the papers for particulars.

• • • •

The Eastern Star will hold its annual session at the First A. M. E. Church on the afternoon of the Palm Sunday.

• • • •

The great Spring rally of Friendship Baptist Church will take place next Sunday when the membership of that parish are making a strenuous effort to raise $5000; to that end all the clubs are putting forth every effort to see that the Trustees are not disappointed. The clubs are giving all sorts of dinners in their efforts to raise their prorata and the rivalry is very keen. Rev. Chas. Hampton will preach at both services Sunday and Rev. W. R. Carter, superintendent of Negro work will maneuver the financial end in lieu of the pastor who is indisposed but continues to improve. Every member is urged to turn out and do his full duty some time during the day. An honest effort on the part of the full membership will easily cancel this obligation.

The Crown City Basket Ball team will journey to Venice Thursday night at the Venice High School gymnasium and a good crowd is expected to accompany them.

• • • •

The High School Club held a skating party at the Presbyterian skating rink. A large crowd of young folks were present.

A few of the thinking women of Pasadena with Mrs. Louise Williams as sponsor met at the residence of Mrs. Nellie W. Baker, 822 Gerrish to perfect a permanent organization of the Y. W. C. A. of this city, and a well selected number of Christian women were elected as officers. They will be installed at the next meeting which will be held Thursday, March 3rd at "Y" building on North Marengo. In unity there is strength so all Christian women are invited to come and give their loyal support, thereby help advance this organization.

EDITORIAL

WAITING, WATCHING

We are watchfully waiting for the Swimming Pool situation to clear up even though it proves a peace without victory.

GOING SOME

It is said that the United States is composed of less than one sixth of the world's area, and less than seven per cent of the world's population, and yet does more than one half of the world's business. We opine that this is what is called "going some."

WORTH WHILE

We are advised that the meeting of the National Press Association held in Chicago last week, was not only a record breaker for attendance, but was both inspiring and educational to the highest degree.

SOUTHERN HYPOCRITS IN U. S. SENATE

The Southern fire eaters, consisting of Senators Heflin, Cole Blease, Caraway, Robinson et al, continue to maintain the spot-light in the U. S. Senate, except when Jim Reed of Missouri takes it away from them temporarily, or Senators Walsh and Wheeler, all of whom are roaring democrats and believe in democratic traditions. This coterie manages to do just about as they please, and there seems to be no republican Senator who will go up against them. Senator Reed of Pennsylvania, is about the gamest republican in the whole situation and hurls the demagogues of the South backward time and again. But playing a lone hand he cannot outlast them. If he only had just a little help he would put such old pettifogers as Heflin, Cole Blease and others on the run in jig time.

DR. DuBOIS' VISIT

The Eagle had the honor of a visit from Dr. W. E. B. DuBois this week who calle dto pay his respects. We appreciate the visit and the great service which the Doctor is rendering the people. He is much pleased at the cordial reception given him on his tour. We will in our next issue give a full account of his meetings in this city.

No Plus Ultra A and L Club

The popular young N. P. U. A. and L. Club had their last meeting at the home of Miss Helen Smith. After the business was disposed of, the meeting was adjourned and the girls began their cooking lesson, it being the 3rd meeting of the month. The girls cooked a dinner of which Mr. Crain, a young gentleman who had come to talk to the girls on a little business matter, partook. We hope Mr. Crain is still living. Wasn't it good Bill!

One of the affairs of the season that will long be remembered by those participating was that of Thursday evening, sponsored by the George Jeffersons of Uarmelee Avenue.

Receiving complimentary to Mrs. Jefferson's nephew, David B. Green, of Chicago, the celebration was one of a reunion after seventeen years. Mrs. Jefferson was hardly larger than her oldest daughter when last she saw her nephew.

'Twas a joyous affair. Those present gave expressions of having enjoyed themselves better than in many moons. The guest list included: Mr. and Mrs. G. Smock, Mr. and Mrs. L. Polk, Mr. and Mrs. E. Holloway, Mr. and Mrs. C. W. Hester, Mr. and Mrs. R. Hayman, Mr. and Mrs. E. Riley, Mr. and Mrs. J. Burton, Mr. and Mrs. W. Mason, Mr. and Mrs. M. Jeffries, Mr. and Mrs. D. Wright, Mr. and Mrs. M. Churchwell, Mr. and Mrs. L. Mackey, Mr. and Mrs. J. Wyndon, Mr. Fred Skinner, Mr. James Jones of New York, cousin to Mr. Skinner, Mrs. N. Bryant, Mrs. L. Richardson, Mr. C. Toronse.

Service for the evening was of I-Dell's Home-made Ice Cream and Cakes

Mr. Fred Skinner, who is well known as a baritone singer, displayed his unusual talent as an entertainer at the piano, having furnished the music for the evening.

Guests parting at the "wee sma' hours voted Mr. and Mrs. George Jefferson, host and hostess, most excellent.

CARD OF THANKS

We, the undersigned, desire to express our sincere thanks and appreciation to the friends nd equintances for their many deeds of kindness and words of sympathy during the sad hours of bereavement incident to the passing of our beloved husband, father, son and brother. Also for the many floral offerings received.

Mrs. T. L. WOOD,

Headed by that fine, brand new $1,895.00 Peerless Sedan, the list of awards is attracting the eye of all Los Angeles and vicinity. MME. OUTLEY'S MEN MUSICALE ARTISTIC SUCCESS

"The Musicale by men only" as carried through by Mme. Mosella Te Outley on February 18th at Phillips Chapel, 42nd and Wadsworth Streets, was a pronounced artistic success, despite the moderate but very appreciative attendance of the hearers.

Mme. Outley is a most versatile and successful manager and in our next number we will gladly review her and the singers and other artists' special efforts to bring out the concert in glorious fashion.

Foster Lays Down Ball Barrage for 4-1 win for Giants' Week-end Series

Clip this out and put it in your scrap book as the last games this season at the White Sox Park have been played and the Winter League series of 1926-27 will be but a memory. Seemingly determined to keep his record of not losing a game this season, Foster the sensational pitcher for the Phillies Royal Giants turned all his guns on the Shell Oil stronghold Sunday to "nil" them.

Day to even up for Saturday's 13-10 loss. He pitched the 9 innings against two Oiler pitchers Moon and Wilkinson allowing only 4 hits. One of these brought the lone tally with a home run by Johnny Kerr in the 8th session. The final three games were set for the Long Beach grounds for Saturday and Sunday to play off the last three games of the 5 in the series. At the close the members of team called to their home teams for Spring training will leave for their respective camps while the team organized for the Japan tour leaves for the Orient and foreign glory.

MANY INSPECT BEACH LOTS SUNDAY

If plans [illegible] which are said to be on foot the great Wrigley interests will build a mammoth pier and transfer the landing point for their steamers from San Pedro to Redondo. The many thousands of passengers daily sailing between the mainland, and Catalina Island will increase activity in the Beach Cities an hundred fold, and prediction is made that in course of time Redondo, Hermosa, Manhattan and all the sister cities fronting on

the beach will be one. So many nice citizens drove the short distance down to the beach Sunday that it looked like a small edition of a land rush. Among them were ex-Lieutenant Stevens, his brother and families; Mr. Adolphus Jones; Mrs. Jones and Adolphus, Jr.; and several carloads of others. Mr. Jones is anxious to find two lots together for he and his son, while Mr. Stevens has picked out one of the few remaining lots fronting on the ocean which he will use as a business venture in anticipation of the scarcity of bargains which is sure to come this summer.

MARY JANE, The Wonder Horse

a champion, Johnson's prestige is well over six feet and weighs around 200 pounds. Discussing his find Jack said:

"If I can't fight any more at my age with any hope of winning, I am going to put somebody in the ring who can fight and I think I have the man. I am not willing at this time to divulge his name and antecedents, but I will say that he is a comer, and shows intelligence, and if I can impart to him some of the clothing tricks and skill that won fights twenty-five years ago I ought to have a man that can win in a walk from some of the present-day boxers."

TUNNEY CLEVER BOXER

"I do not wish," added the former champion, "to detract in any way from Mr. Tunney, for instance. He is a clever boxer. That is why he defeated Dempsey on whom, I may confide, I lost money at Philadelphia. Jack can't fight a clever man and Tunney is clever. But Gene has lots to learn and if I succeed in teaching my find all the tricks before Gene has learned them and then succeed in getting a match I will have a champion of my own."

CHICAGO GIANTS IN OWNERSHIP TANGLE

On account of Rube Foster's illness the ownership of the Chicago Giants has reverted to a veritable contest between Mrs. Foster and Mr. Schorling as to who will be the real owner of the club this year.

Prior to Mrs. Foster's departure for the wilds of Arkansas the two are said to have conferred in a most fitting manner, from which debate, it is believed, a conciliation will be reached. Mr. Schorlings is said to have advised Mrs. Foster to take a rest for which she is to receive a large share of the stock in the American Giants and at the same time Mrs. Foster, it is said, advised Mr. Schorlings to mind his own business and she would give him a share of her American Giants for playing so genteel. Both are said to have accepted, which of course accounts for the very queer entanglement described above in co-ownership.

GIRLETICS

By: GLADYS MATHONICAN

Following is a letter received this past week from a party who signs herself the title of "A Distracted Freshman."

Oakland, Calif.
Dear Miss Letics
Editor:

I don't know whether the contents of this letter will be of any interest to you or no but I do hope you can help me. If you have ever been connected with a girls' team you probably know of the clashes that are always forced and the trouble they usually cause.

I am president of a club with just those circumstances. The reason I am writing to you is that I wanted to see our club take up athletics and don't know just how to go about it with this difficulty of having cliques in our club.

A suggestion from you would be appreciated.

(Signed) A Distracted Freshman

I can assure the writer of the above letter that I was indeed interested in it and think also that the views the opinion of many basketball girls' clubs.

So do you team work in athletic competition is better and is encouraging to see that it is encouraged.

CONTRACTS READY FOR NEGRO NAT'L. LEAGUE PLAYERS

According to Secretary O. D. Gilmore the contracts for players in the Negro National League have been sent various club owners and will be dispatched to the players by the 20th of the month. This information comes as welcome news to the players who have been making inquiries concerning data for mailing the papers.

Several players of the Negro National will journey to Hot Springs before the time to report at their training camps. The list includes Jelly Gardner of Chicago, Hawkins, Allen, Duncan and W. Hall of the Monarchs, Bobo and Vanier of St. Louis, Cooper & Dunie's of Detroit, Tyler and Brake of Memphis.

Meet Abe Lyman and his orchestra at the Ocean Park Casino, Monday Night, February 28th.

YOUNG HARRY WILLS WILL BEAT TENDLER

Get ready you members of the "Hot Foot You Boy" club and be at Jack Doyle's Vernon Avenue pit Friday night to see if the above prophecy materializes. Wills has won eight straight fights, and while has a smashing, slashing style that has fazed the best of sturdy battlers as Tendler, Gene Delmy and with all respect to the boys who can't make the grade, we doubt if they will be able to stand the gaff that Wills can hand out for more than a few rounds. Wills is a hungry fighter which is a big factor in his favor. Tendler is willing to mix it with anyone, but he is not a hard hitter and he has been knocked out by Delmy, Tuttle and Tate. Wills is a hard hitter and he has been knocked out by Delmy, Tuttle and Tate. Wills is a hard hitter and he has been knocked out by Delmy, Tuttle and Tate.

By: "Jake" Moore

The Young Men's Department of the Y. M. C. A. walked away from the Business Men's Flashes in an interesting game last Saturday night in the Y. M. C. A. gymnasium located at 28th and Baltimore. The score being 35 to 19. Clark, Carey and "Dave" Horton starred for the Flashes.

Johnny Riddle of football fame in the second quarter and played more football than basketball to the amusement of the audience. "Dave" Horton scrappy left guard for the Y. M. D's had his feathers up all evening running amuck with the referee "Jeff" Brown once or twice during the melee.

In the preliminary game the College Tramps squeezed out the Hi-Y in a very exciting game. Brice Taylor turned the tide with a long basket in the final minutes of play, 25 to 24.

GAS FEED AND STORAGE IS OFTEN OVERLOOKED

An important item in the maintenance of an automobile which is often overlooked, is the proper care of the gasoline feed and storage system.

In spite of the extreme care used in th emanufacture of gasoline there is still, according to L. G. Evans of the Service Department of the National Automobile Club, a minute quantity of foreign matter which finds its way into the fuel. This occurs in ways impossible for the manufacturer to overcome and must be remedied by the car owner or garage man.

The dust of the road, scale from the inside of pipes and gasoline tank, tiny particles of solder that sometimes fall loose from soldered joints, and most serious of all, water that accumulates from "sweating" in the gasoline tank, and from being splashed into carburetor air valves from road holes, all aid in bringing up the total of foreign substances in the fuel system.

To eliminate the annoyance caused by the above mentioned causes, the gasoline system should be occasionally drained in the following manner:

Drain a quart or so out of the bottom of the gasoline tank and completely drain the carburetor, vacuum tank and all traps and filtering devices throughout.

By following these suggestions the car owner will be relieved of many annoying and mysterious motor troubles.

Slides Removed on Ventura Co. Road

Two gas shovels and a fleet of dump trucks are now in operation placing riprap rock and removing slides along the 66 miles of coast highway in Ventura County between the point and the westerly boundary of the Rindge Ranch, according to recent information received from the Touring Department of the National Automobile Club. Riprap rock for protection of the highway embankment from ocean waves is being quarried at various places along the highway.

Early Spring Tours Attractive Now

Weather conditions are improving in all parts of California and early spring touring is already in progress.

The snow barriers on the High Sierras roads will soon be removed under the influence of the summery sun and traffic already shows an increase on the main trunk lines of the state.

California Water

"When the frost is on the punkin"
Where the old Missouri farm,
And you feel an icy numbness
In your fingers and your toes,

Why it's then you're dreaming fondly
Of a land of lovely skies,
Where the oranges are blooming
And the hills are ever green.

Way out here in California
There's a sky for every whim,
From the white-ribed head of Shasta
To the ocean's cut-away brim.

From the fiery cone of Lassen
To the redwood's cactus spot,
From the azure breast of Tahoe
To the desert's sunset heat.

Summer land of Rose Bowl glory
Where the New Year greets the sun
Where beyond the High Sierras
Lies the Kingdom of the Snows.

Yet may watch the golden sunrise
On Balboa's sandy strand
And are summed with the moonlight
Yon palm whose tall tops fan

Way out here in California
Whatever winter dreads she
When the Open Road is calling
And you own a motor car

$6,913,700 TOTAL FOR 1926 LICENSE FEES

Sacramento, Jan. 30.—California motorists contributed a net total of $6,913,700.63 toward the county highways in automobile license fees paid during 1926, Frank G. Snook, Chief of the Division of Motor Vehicles, announced this week.

Of this huge sum, $3,761,414.55 was paid directly to the state highway commission for use on the state highways. The counties of the state received a like sum, but $320,128.08 was deducted to pay the salaries and expenses of traffic officers, leaving a net total of $3,152,285.37 which was apportioned, on the basis of automobile registrations, to the various counties for road work.

The apportionment was made on total fee paid registrations of vehicles of 1,541,581—the largest in the history of California.

The sum apportioned is the largest ever reported, exceeding that apportioned in 1925 by $497,461.75.

Indicative of California's unparalleled prosperity, Snook's report shows a gain of 11 per cent in motor vehicle registrations. The net gain in vehicles was 154,542.

"Every county," said the motor vehicle chief, "showed substantial increases."

Los Angeles County, with a total registration of 646,997, received $1,164,894.56, the largest sum paid any county. San Francisco with registrations of 122,200 vehicles received a net total of $[illegible]

Records of the division indicate, Snook said, that subsequent fees collected by the traffic officers and fines resulting from arrests they make will amount to vastly more than their salaries.

Pickens Yields "Razor Championship"

(By: A. N. P.)

New York City, Feb. 25.—William Pickens, who laid claim to the "razor championship" on a record of using the razor a score or more years has relinquished his claim to Adolf Scott of Oklahoma City, who holds a record of seven shaves or four score years. In yielding to this in the Oklahoman, Mr. Pickens declared in a letter to Mr. Scott:

"Your razor is certainly 'it'. I have just returned from the Old World and I regret of no razor in those parts that can claim close with yours.

"I have mailed your declaration for the 'Razor Championship' to the 'Black Dispatch' and the Associated Negro Press releases and as I believe your claims are just, my little razor and I are yielding place to you. We still claim rank, however.

"Although you are a white man, I think you are every bit as good as a Negro, therefore, I step over the line and hand you 'The Razor Championship of the United States'."

THE BROTHERHOOD OF SLEEPING CAR PORTERS

Those who failed to attend the dance given by the Brotherhood of Sleeping Car Porters missed one of the largest events of the season. The dance was preceded by a program on which representatives from the N. A. A. C. P. and Civic Boards appeared and gave excellent short talks upon the vital subject before all Negroes today. The Negro and the labor problem. Issues ably discussed from various points of view and much good, sound advice given by Dr. Robert Whitaker.

But oh that music! It was enough to make a cripple forget his crutches and step on the Charleston with all its complications. A huge crowd enjoyed the evening and is waiting for the Brotherhood to repeat in the near future.

WRITES ODE TO ANGEL CITY

The following was written in honor of the Angel City by Mr. E. J. Moore, employed at the Arcadia Station "Mail Order Mose" and a long time resident of the Rosslyn Hotel.

"You may go to sunny Dixie,
You may stop to Kentucky,
You may cross the great Atlantic
You may cross the great Pacific
But you'll never be contented
Till you back in sweet sunshine
Of the date she loves Los Angeles
Where life is just a dream.
You may cross by your fortune
In an Oriental mind.
You may cross the misty Rockies
In a native caravan
You may visit all the pleasure haunts
And view each lovely scene
But you'll soon be back in L. A.

Ace Foreman Wings Way To N. Y.

Dare-Devil Race Aviator Makes Forced Landing Near Salt Lake City on Trans-Continental Trip To East Coast

(Special to the California Eagle)

WESTERN UNION TELEGRAPH COMPANY

Salt Lake City, Utah,
March 1, 1927.

"J. B. BASS, Editor Calif. Eagle,

"Los Angeles, Calif.

"Motor freezes. Broken crankshaft. Forced landing few miles from here. Walked four miles for aid. Plane not damaged, only motor. Can get a motor for $250 plus my motor. See Dr. Hudson, Baumann. Send what you can by wire at once care Western Union.

ACE FOREMAN."

This is the sequel to the hop off of this intrepid and youthful aviator who seeks to cross the continent via the air route and who was given such a tremendous send off on last Sutnday by the mighty throng which was present at the Eagle Airport, 92nd street and Western avenue.

DOUBTING THOMASES PUT TO FLIGHT

The hop-off was a set-back to some of the many critics which arose to the effect that Foreman was not sincere and could not make the flight to New York. The very fact that he has already scaled the heights of the treacher Sierra Nevada mountains and landed at Salt Lake City belies all the allegations and innuendoes which have gone forth and there is not the least question of his ability to cross the continent if given, first, a little support.

MUST COME TO HIS RESCUE

The people of our group must at least be just a bit as courageous as this daring young man, by giving of their support to help him on his way. Just think of the situation of this youthful genius striving to make his contribution to progress depicting the prowess and genius of a race, risking his very life to accomplish the end wholly unmindful of vain glory or any of the colorful things which men sometimes strive for. Ace Foreman is striving to reach his goal for a practical demonstration of the ability of his group to accomplish the big things of life just the same as any other group.

VALIANT HEARTED SOLDIERS WANTED

Therefore in response to the telegram for this worthy young man, the wheels have been set in motion to get for him not only the $250 needed for a new motor but more besides, and the committee will call upon all our business firms and the churches and organizations will be asked to contribute to the fund and let the young man be on his way not later than Monday.

The following answer was wired to Ace Foreman in response to his urgent request:

"Ace Foreman,
"Salt Lake City.

Working on your request. You will hear from us soon, as soon as it is possible to get together such funds as we can. Sorry of your mishap. Don't get discouraged. Great credit due you for effort thus far. In the meantime have company forwarding motor write, wire or phone.

"J. B. BASS
"A. BAUMANN
H. C. HUDSON."

Dr. Hudson will head the committee with Dr. Beckham, A. P. Shaw and J. B. Bass as assistants.

All moneys donated, loaned or given will be published in these columns and the disposition of the same.

You could not subscribe to a more worthy proposition.

FOREMAN'S OWN EFFORTS

Tickets for the benefit were put out weeks ago by Mr. Foreman and this was the means through which he purchased his plane. Others already coming at the gate and by mail were the means as said at the outset to contribute to the payment of the plane in accordance with the amount of work that he personally collected.

LORD OLIVIER CONDEMNS SOUTH AFRICAN "SLAVERY"

(By N. A. A. C. P. Press Service)

Lord Olivier, former British Secretary of State for India, writing in The Nation for February 9, analyses and condemns the "slavery" imposed upon the native workers in South Africa by a system of laws and industry based entirely upon exploitation of the colored man. White men in South African mines, Lord Olivier points out, are paid "on the average about ten times as much as the black"—even skilled native machine operators receiving only a maximum of 54 cents a day.

"The mines," declares Lord Olivier, "are over-capitalized on a scale at which they can only be kept running on a basis of underpaid native labor." Lord Olivier continues:

"Some apologists argue that as the white man is racially superior to the black, he is justified in aiming to maintain his position by preventing the native from attaining equality with him. That sort of self-deceiving pseudo-Darwinism obviously is inclusive of the kind of intelligence used in defense of the South African white labor-policy. It is obviously because in the first place, but all white men, as any ranks of human valuations, are superior to all black, and a great many white men are inferior to a good many black. There are a great many educated black South Africans who show much more intelligence in regard to the essentials of this question than whites who these people. . . .

"If the attempt to rationalize the representative and subsidiary powers should be permitted to it is not the native that is the thing run, will be defeated. It is not they but the white race, that have shown the first symptoms of degeneration—degeneration entirely due to their own perverse social theory. The native is at present destitute and disposed to adapt himself to the life of European civilization; and if white men worthy of that name don't continue to assist him to do so, South African society will develop on stable lines."

HERETIC BISHOP SPEAKS HERE

Bishop William Montgomery Brown, stormy petrel of the Episcopal Church, who after two trials for heresy before the august house of bishops was deposed, will deliver an address on Sunday evening, March 6th, at the Trinity Auditorium. He will speak under the auspices of the International Labor Defense, taking as his subject "The Power of the Workers." A banquet in his honor will be held Friday, March 4th, at 8:00 P.M., at the Co-operative Center, 2706 Brooklyn Ave.

Bishop Brown's evolution from the most orthodox bishop of America to the world's most extreme heretic forms a fascinating chapter in ecclesiastical history. He retired from his diocese because of broken health in 1912, and as he humorously puts it, "lost an opportunity to attain honorable oblivion by getting well and reading some books by Charles Darwin." Relieved of the responsibilities of church administration he found time for the world in which he lived and the result was his remarkable book, "Communism and Christianism," publication of which led to his trials for heresy and the decree of deposition read by the presiding bishop of the church.

The Bishop's home is in Galion, Ohio, where he lives a quiet life, coming out of retirement occasionally to voice his opinion on current politics and social questions. He reviews the conflict between fundamentalism and modernism as one who has fought on both sides." His coming engagement will be his first appearance in this state, and since he is 72 years old, will probably be his last.

Robert Whittaker will be chairman of the meeting.

GOSPEL TENT NEWS

Evangelist Pastor P. G. Rodgers will preach Sunday night, March 6th on the Work and Gifts of the HOLY GHOST. Mr. Rodgers finds it necessary to dwell at length upon this subject because of the confusion that exists in the religious world regarding the offices of the Spirit of GOD—and everyone desiring to hear a sensible exposition of this question should be on hand at the BIG GOSPEL TENT, 50th and Central at the opening hour, 7:45 P. M. sharp.

Mr. Rodgers will present no extreme view—nor will he deal with anything but plain BIBLE facts and parallels. Everybody is cordially invited to be present.

Pioneer Of L. A. Passes

In the passing of C. H. Van Norton the city has lost a worthy citizen, the church a loyal member and a devout christian, the home a kind husband, and a loving and indulgent father. Our loss is heaven's gain. C. H. Van Norton came to Los Angeles 26 years ago from Georgia, and at once connected himself to the Mt. Zion Baptist Church, then located on Second and Rose.

He served in every position a layman could fill with credit and commendation to himself and church, and at the time of his death was one of the highest esteemed deacons on the Board.

He served under the administration of every minister Mt. Zion has called in the last 26 years.

He was married to Miss M. Peters 27 years ago. To this union five children were born, three girls and two boys. All members of the Mt. Zion Church and serving in some official capacity, which serves also as an incentive of the interest in religious matters among the children.

THE BLESSED STATE OF THE GODLY

"Blessed are the Undefiled in the Way who walk in the Law of the Lord."
Psalms 119:1.

We are all mostly mistaken as to who is the happy person. We would think it to be the popular person, or the rich, or the famous or the successful. But the human soul is so constituted that none of these things can confer happiness except a very temporary and unsatisfactory nature. Like the proverbial "apples of Sodom" they turn to ashes on our lips. Furthermore the human life is so overruled by Divine Providence that happy circumstances do follow these perverted benefits, as benefits we may call them. The rich quarrel and divorce each other and live lives full of envy and hate and suspicion, and with wonderful frequency commit suicide to escape it all. The famous often dies in poverty and obscurity. The popular lose their popularity and the crown of social admiration is taken by another. Uneasy lies the head that wears any sort of a crown.

Knowledge and Conscience

Now such is the constitution of the human soul that knowledge and a clear conscience can give, happiness where nothing else can. A clear conscience was never shamed of the past nor afraid of the future; though for lack of sufficient knowledge it often gets discouraged at the present. To such ones heaven speaks its most encouraging word, "Fret not thyself because of evil doers, neither be thou envious against the workers of iniquity; for they soon shall be cut down as the grass and wither as the green herb. Trust in the Lord and do good."

Get Wrong

Now the writer of the 119th Psalm had not been perfect, more is the pity. Yet it helps us all that he had not been; for some many of us need help who are in such a case. He says of himself, "Before I was afflicted I went astray." That was a distressing admission to make, but it took a true heart to make it in an humble and honest spirit.

Again he ended the Psalm by saying, "I have gone astray like a lost sheep; seek Thy servant." A servant of God? Yes. In the way of holiness? Yes. Perfect in the way, undefiled in the way? No.

An Honest Saint

But he might have been and he should have been undefiled. He admits his own guilt and bears his own guilt and his own shame. He does not hide his imperfections behind the unfortunate defalcations of others. He meets the issue four square. He does not make lies his refuge. Isa. 28. The fault is his, and like a real man, he bears it. He is penitent. He is honest. Truth is truth. Right is right. Holiness confers happiness. Sin makes unhappy and ashamed.

The Word Is True

Whoever sins does not make the word of God of none effect. There is a way of holiness, a way of peace, a way of salvation, a way of truth, a narrow way. Whoever walks this way undefiled is blessed, happy. It can be done. It has been done. It should be done. It must be done. I have offended, but I have also been chastened. I am wrong. God's way alone is right. Lord, let me take heed to thy ways according to thy word. It will be happiness to me because it will cleanse my way." Such was the attitude of the Psalmist toward himself and God. God was right, others were right, he was wrong. Confession, heart whole-hearted, wholesome penitence!

Lost! Lost!

Beloved we cannot save ourselves unless we have been overcome (or taken over, [illegible] by the Christ who knows the way of holiness and walks it. He will be filled with those who live in the "bottomless pit" of an unbelieving ever-increasing, unsatisfiable selfishness. Such are unfit to live with anywhere. If the pearls of heaven, O the confusion of the pigs! O the terrible despair of unconverted souls unsaved! O the hot scorching of those whose only passion is the hatred of self that takes the place of a heart one, pure in a cleansed soul!

The Lost Will Weep

The lost will have "weep" for very, they will have nothing in it undefiled and worthy to keep. To the pure the pure will be pure. To the [illegible]

ENTERTAIN 24TH INFANTRY SOLDIERS

(By: A. N. P.)

Fort Barming, Ga., Feb. 25.—The efforts of the Commanding Officer of the 24th Infantry, Colonel Walt C. Johnson, to provide clean and wholesome entertainment for the soldiers of that regiment through services held at Fort Banning were assisted by the Civilian workers at the post. On February 14th this group gave a dance in the theatre of the 24th Infantry at the 24th Infantry Service Club in appreciation of the courtesies rendered by the 24th Infantry Service Company Orchestra, led by Staff Sgt. Louis A. Seiple of that organization.

The patrons of the affair were Colonel and Mrs. Walt C. Johnson, 24th Infantry, Lieutenant Colonel and Mrs. Jesse M. Walling, 24th Infantry, Major and Mrs. E. Ormonde Power, 24th Infantry, Major and Mrs. Evan E. Lewis, Infantry, and Major and Mrs. David G. C. Garrison, Infantry. In addition to those, many other officers and their wives showed their support of the undertaking by being present.

Special events of the evening were the grand march led by Corporal Sadie P. Mays, Company "C," and Miss Ethel Faulkner, exhibition dances of the Charleston and Blackbottom, and excellent refreshments.

Look out for the announcement of the big pow wow to be held in the league headquarters in a few days hence.

The Continent of Australia has been divided into circular districts, each with a radius of 200 miles to be covered by flying doctors.

Judge Guy F. Bush Announces His Candidacy

Formal announcement was made yesterday (Monday) by Judge Guy F. Bush of his candidacy for retention on the municipal bench, office number 9" being the new official designation of the department in the municipal court in which the candidate is presiding.

In recognition to the debt which Judge Bush feels that he owes his aged uncle Charles W. Tabor, a retired attorney now living in Hollywood, the judge dispatched a special message to Mr. Tabor stating his decision to seek election and giving the uncle credit for much that the years have brought both to Judge Guy Bush and his twin brother Eli F. Bush, an attorney also residing in Los Angeles.

"You thought enough of us two harum-scarum boys to give us the money that made possible our course at the University of Michigan," the message said in part. "Without that faith and without your unfailing counsel we could not have accomplished what we have. Your peculiar integrity and high sense of honor manifest all through your law practice have been a guide and inspiration to me, because of your generosity toward me and my brother. I want to take this occasion to say that your faith in me that made it possible for me to reach the judge's bench and I hope that I may be worthy to continue in that position."

Judge Bush graduated from the University of Michigan in 1906 and was admitted to the bar in Michigan in 1909. Two years later he was admitted to the bar in California and practiced law in Los Angeles from that date until his appointment to the municipal court bench by Governor Richardson. The judge is a member of the state and local bar associations; the Temple Baptist Church, Masonic Club, University Club, Brotherhood Club, and the Electric Club. He is a trustee of the Temple Baptist Church and vice-president of the Los Angeles Baptist City Mission Society. Mrs. Bush is a noted singer and is prominently identified with various Los Angeles musical organizations and women's clubs.

U. S. And A. A. LEAGUE TO FORM

The public has long felt and clamored for an organization sufficient in number, logic and humanitarian principles, to arrest and adjust all matters inimical to the best interest of the people.

In this many organizations have fallen short, not because their intentions were not good, but for the lack of program sufficiently comprehensive to cope with any emergency and because of the absence of concentration and co-operation.

Profitting by the error of past experience two of the most powerful Political Organizations of the age, have plans under way by which they will merge, and absorb many of the present organizations throughout the country.

The following preamble sets forth in part, the ideals of this mighty organization.

This League has for its object the real betterment of all members of the human race.

It is a League of Justice. The principles underlying this organization are be ever-enduring foundations of any political democracy which in its fullness will be the veneer-developing crown and glory of this great American nation.

There is a most urgent need for this statesmanlike and businesslike Organization. The principles encroached will not encroach upon those of any other or similar institution, nor will it interfere with the Federal principles, whose services it hopes to enlist, to the end that all Races and Nations in this community may be fully warranted in proclaiming to the world: Now we are a part of the government of the United States.

With able champions at the head of this movement a relentless and unremitting combat will be waged for attaining unto eligibility for the exercise and enjoyment of political and civil right of citizenship within each and every one of the constituent political units of this country, and the provision of suitable and adequate scholastic facilities for establishing and imparting the necessary knowledge and worship for the purpose of engendering within this generation and its posterity true spirits of local Nationalism engrafted upon and conjoined with the one general spirit that should pervade this entire country, the spirit of all persons who are true and faithful in their allegiance to this American Republic—American for Americans.

Our highest aim will be to strike away the bars and blocks which permit the toleration or permissive recognition of departure from or infringement of these sacred and just principles of government. It is our belief that departure from these principles creates internal friction and strife; threatens civil war and rebellion; disturbs the stability and weakens the power of the nations.

The personnel of its officers will be given to the public from our next meeting. They are now known as the U. S. Political League, and All-American League.

Republican Protective League News

The League headquarters are very busy these days getting together on the various measures and individuals that will come before the people at the coming primaries.

Remember the Republican Protective League welcomes you at all times to its splendidly equipped home, 1710 Central Ave. It is the political center for the voters of the Eastside.

CAPTAIN McCLARY REMOVED FROM NEWTON STREET STATION

The League and its members regret very much the removal from this district of Captain I. L. McClary who has by his efficient fairness and impartiality endeared himself to the people of his district. While his removal may be for the betterment of the police department, the Republican Protective League really believes it to be a loss for the time of the people of this district. We hope to see Captain McClary back here in the near future.

War Declared On Lower Calif.-Mexican Land And Development Company

On last Thursday evening Feb. 3, 1927, war was declared in the offices of the Lower California Mexican Land and Development Co., when the directors and stockholders had met in a joint stockholders meeting.

For some time, three of the directors of this company, namely: J. M. Littlejohn, Claudius Troy and Junius H. Stevens and many of the stockholders had grown impatient with the apparent loose and careless way in which the books of the company and the people's monies were being handled. Nine years ago, this company began its operations and not once since its organization, has its books been audited until a week ago.

With this fact facing them, Littlejohn, Troy and Stevens had practically forced the Board of Directors of the company into an audit of its books prior to the stockholders meeting. The books were audited by Mr. Bratton of the Service Auditing Co., and we here wish to state that they put the job over in grand style.

Messrs. Littlejohn, Troy and Stevens had differed with their fellow directors, and naturally their opponent directors had come to this meeting with full intentions to give Messrs. Littlejohn, Troy and Stevens, a sound thrashing into line or better out of line. In order that this might be thoroughly accomplished, the no-audit gentlemen brought along a large steam roller with which they had planned to flatten out the insurgent stockholders and belligerent directors.

For fear that some of his opponents might bodily tear a wheel off of the steam roller or punch the driver in one of his eyes, Mr. Macbeth or some associate of his had ordered two large and well armed policemen from the L. A. Police Dept. Before we go further, we would like here to pay our respects to these officers. They had not been there over five minutes before they understood the entire situation and it is my opinion that they felt like taking a punch at Macbeth for the treatment which was being served out to many an old gray haired mother and father, of whom Macbeth had years ago put in their last dollar in this unbusinesslike and ill handled proposition. After all, I guess Brother Macbeth was right by having these officers there for when Mr. Claudius Troy told him to his head, from the floor, that he (Macbeth) was nothing but a yellow Negro crook, he failed to raise his eyes in resentment.

When the meeting was called to order by Vice-Pres. A. J. Roberts, Hugh E. Macbeth immediately mounted the seat of the steam roller to act as pilot, while to his right and left, respectively were seated J. A. Chavis, his mechanician and Jas. Evans, his chief (greaser) or oiler. To make sure to keep his machine free from ditches, Macbeth, first canvassed the stock to see that he had a safe majority vote in his hands. On checking up, he found that he held within his grasp, about 15,000 shares, which was a safe majority of the stock present. This 15,000 shares were made up principally of the stock of Robt. Read Lew's Bryant, Jas. Evans, J. A. Chavis, Hugh E. Macbeth and a proxy of Rev. A. P. Shaw. Some questions were asked relative to Dr. Shaw's proxy, but we were told that they had it and had been instructed by Dr. Shaw to vote it as they pleased.

First a motion was put and later carried by the no-audit gentlemen, to adopt the auditor's report without having it read to the people, and that it be placed on file with the company's other papers in its office. This was done of course to keep the stockholders from learning how, when and where their monies had been spent.

By using a little thought any one can readily see the trick in this movement. It simply means that if the stockholders are to get the information contained in the audit report, they will have to visit the company's office and read it for themselves without any explanations or comments to help them understand. We would like to ask just here, how many of these old people and youngers ones too will go to that office, and will be able to read and understand that report. I dare say, "only a few."

For lack of time, space and many other reasons, we cannot go in details of the audit report at this time, but let us leave this with you, that the company's books and records show that the purchase price of that ranch was $39,000.00; that the company has collected and spent over $70,000.00 and that they still owe $80,000.00 more; which they borrowed with which to pay for the land. Surmising, it is worthy to say that the ranch today represents $100,000.00 of the people's money. Practically all of the amount of this $70,000.00 has been secured through the issuance of shares of stock to the people, with a large proportion of it personally through the efforts of Hugh E. Macbeth.

Green vs. Painter

Before his Honor, Hugh J. Crawford, Superior Court Judge, presiding in Department 16 on Monday, February 28th, there was a riot of color so far as the names of the litigants were concerned. Walter B. Green being the plaintiff, versus a William Painter. Green a educated race man, a graduate of the University of Edinburgh, alleged that William Painter, white, ran him down at 23rd and Central in an automobile on the 17th of July, 1925, and injured him in the head and on the knee. Judge Crawford awarded Dr. Green, $25000 damages, whereupon the defendant, William Painter informed the Court that he was not a painter at all by occupation, but only by name, and that in and three small children and had no fact he was a butcher with a wife funds with which to pay the judgment.

The testimony adduced by Willis O. Tyler, who represented Dr. Green was to the effect that the defendant Painter was painting the town red in a Star automobile and ran upon the sidewalk and struck the plaintiff, Dr. Green. Shortly after the accident, Painter paid a fine of $300 in the Police Court for reckless driving.

DR. W. R. CARTER ADDRESSES THE EBELL CLUB

Dr. W. R. Carter, Superintendent of Negro Work for the Southern California Baptist Convention addressed the Ebell Club, one of the most aristocratic clubs of Los Angeles, at their beautifully appointed quarters, 18th and Figueroa streets last Wednesday afternoon at 2 P. M. The occasion was their regular meeting, at which time in keeping with a pre-arranged program, featuring the Negro in music. Dr. Carter spoke of the origination of Negro music which developed in the soul of these folk who were bowed down in slavery and misery, with a vague thought of a new day and expressed it in songs and murmurings. It was around their huts that the Great Creator spoke to these people and gave them freedom of speech in proportion to their intellect that burst forth in songs that are yet fresh on the lips of millions. Excerpts from Dr. Carter's address follow:

"Many of our local Negro or white quartets or glee clubs fail to properly interpret the true spiritual of the Ante Bellum Negro. These organizations sing for entertainment and oftimes for your amusement. Negro spirituals were born not made. Born in the bosom of a patient, suffering, trusting, hoping and hopeful people. The Negro spiritual is the very soul of a people who gave 250 years of unrequitted toil in the development of this nation.

"The solace, comfort and inspiration of the Negro slave was found in his religion and he gave expression to it in song. All of these songs were born of the experiences of a people whose lot was trials and troubles, whose hope was surceased in heaven. Will these song ever die? No! They are the songs of a race, songs of America and are the only true source of Negro history in America."

He goes on to say: "If anyone would truly read Negro life, let him study these songs.) They are the connecting link between the young Negro of today and his ancestry. They create racial consciousness, inspire racial pride and encourage racial hope."

Miss Roena Muckelroy, a graduate student, college of music, U. S. C., rendered several Negro spirituals, whose marvelous voice completely captivated her hearers. The richness of her voice was perhaps more clearly realized in her rendition without an accompaniment of the "Balm of Gilead." The finale was a wonderful selection by Wesley Chapel Quartette which was more than appreciated.

ECHOES FROM HONOLULU

Honolulu, T. H.,
February 17, 1927.

MR. and MRS. BASS,
Los Angeles, Cal.

Dear Friends: Just read the issue of February 4, 1927, hasten to congratulate you. As you know, I have been a careful reader of the "Eagle" for many a year but I assure you that the issue mentioned towers mightily over all preceeding ones in real news.

Mr. Noah D. Thompson's departure struck me as most deplorable for I always looked upon him as a fine and mighty pillar of your people and an honor to the city at large. Noah Thompson has chosen great work and with you all dear people, I bid him God's speed. Then, Tom Sawyer's "Ode of Color Kisses" should be read twice, three times, to sink deeply into the hearts of all who, like myself, work and pray for racial equality. Again, "Mother" Schumann-Heink's visit to the Bethune-Cookman College. This noble German woman has my own idea of Human Equality deeply bedded in her great, big heart and God bless the "Eagle" for giving the news to its many readers. The South Carolina lynching trial is another feature worth reading. Hope the next issue will bring a favorable decision. Your ever sparkling editorial, as usual, comes in for its share. Last but not least, DuBois' call to Santa Monica which I hope proves a great success. Last week mentioned the payment of all investments in the ill-fated Pacific Beach undertaking. There truly must be "anxious" moments among Negro promoters worthy of imitation by others. Though handicapped by a double-fractured left arm, I had to burst out true to a German saying: "Of the things which fill the heart, the mouth (here the pen) must overflow.

Main power and success.
Ever yours for equality,
JULIUS C. BEHENKE.

DO YOU KNOW?

Dr. Wm. McK. Pillow in an interview with one of our reporters the other day asked him if he were aware of the fact that headaches, defective eyesight, poor hearing, stomach trouble, bad breath and all sorts of ailments to the body are often caused by poor teeth.

"Artificial teeth," said he, "unless made right for the individual case, will oftentimes cause poor hearing.

"Take care of your teeth.

"Go to a good, reliable Dentist and make sure he is dependable, what I mean by that is, a dentist who will positively guarantee all of his work and do what is right."

Dr. Pillow gives you that binding guarantee and has a fully equipped dental laboratory and has dental technicians who specialize in plate, bridge and porcelain work.

He assures us he can give better dentistry than you get elsewhere at much more reasonable prices.

CARELESS CAR OWNER FIRST AID TO THIEF

BIG MAJORITY OF AUTO THEFTS RESULT FROM THE ABSENCE OF ANY KIND OF LOCKING DEVICE

"Protect your car when it is parked, unless you want to aid auto thieves," is the warning sent out by the theft bureau of the Automobile Club of Southern California. This caution is inspired by the report of stolen cars in Los Angeles. During January, exactly 1006 cars were made away with by thieves, with an average of 32.4 automobiles reported missing every day.

According to the police records, a large percentage of stolen cars are soon recovered, but some are found after being abandoned by thieves after a brief time. A large number, however, are recovered only after considerable time has elapsed and much work put in by the police, detectives and theft bureau of the auto club.

The expert class of auto thieves make a practice of storing stolen cars in recented private garages which are often owned by innocent parties. Weeks later after being altered, the stolen wares are transformed by changing tops, wheels, fenders, lights and colors, and the machines are trundled out and sold, even the engine and license numbers are altered. Frequently the cars are taken out of the state where they are easily disposed of to unknowing buyers.

The large majority of thefts result from the absence of locks on cars. The careless motorist is first aid to the auto thieves, according to the police reports. A large number of the cars are stolen within a few minutes after being parked. Double locks are the best protection, as the records show that single locks on the ignition are little better than no lock at all.

"Make it a habit to leave your car thief proof," says the auto club theft bureau.

Auto Insurance Law Is Opposed

NATIONAL CHAMBER FEARS RESULT OF LEGISLATION

Rural Motorist Would Suffer Under Plan; Being Tried By Massachusetts At Present

New York, Feb. 19. (Exclusive)—urging communities to get fuller data on compulsory automobile liability insurance before rushing headlong into a network of complicated laws, the National Automobile Chamber of Commerce has issued a summary of proposed legislation bearing on this point.

Bills advocating compulsory insurance have been introduced in twenty-one of the forty-two States whose legislatures are now in session. In many of the States there is no expectation that the measure will be passed, but rather the bill is introduced as a trial balloon.

UNDER TRIAL

Unless the public advantages of such a measure can be clearly demonstrated, the motorist should not be burdened by compulsions of this nature, the National Automobile Chamber of Commerce holds.

Massachusetts is the only State which has attempted such a law, and there it has been in effect for but six weeks. It is felt in motor circles that the Bay State has not had sufficient experience with the law yet to determine its effect.

FEAR RESULTS

Among the reasons advanced against compulsory insurance by the automobile chamber, in which the motor club, dealer and other automobile groups concur, are:

(1) Compulsory insurance creates an accident hazard among the irresponsible because it would remove the present fear of financial loss, which tends to hold the reckless in check.

(2). No evidence exists to show the total amount of uncompensated losses due to motor-vehicle accidents. The great majority are being penalized to carry the burden of cases, the number and extent of which are not known.

(3). A cost of $30 per car to handle the burden, which will be the charge if the plan is fairly operative, is probably excessive and should not be imposed until there are more facts.

(4.) It adds an extra burden of transportation.

(5.) It gives undue power to the insurance, which is justifiable only in case of criminal offense.

(6.) It is an added cost on petrol transportation.

A TRUE LIE

Following the recent channel swim when interest was at its highit, Walter, Jr. and an unknown roustabout, both colored, returning to the mainland on the boat got into an argument as to who was the best swimmer. To settle it the captain of the steamboat decided to hold a long disance race for the two on an appointed date. Young Mr. Gordon trained faithfully in the "Y's" swimming tank and arrived in his dad's Hudson on time at the point of starting, down at San Pedro. Having to wait for the arrival of his challenger he decided to get limbered up and proceeded to swim across the channel and back a few times.

Finally the roustabout appeared loaded down with canned goods strung on his shoulders, a ham and 15 or 20 loaves of bread, 2 watermelons, several cooked chickens and a case of beer. He looked at the young and handsome Mr. Gordon in his dashing bathing suit and then loudly exclaimed:

"Man am you carrying no vitals?"

"Vitals"! no, what do I want with grub to swim this race?" says the astute Mr. Gordon.

"Well," said the roustabout, "you don't need ask me for none of mine cause my first stop is going to be Canton, China and my next stop Liverpool, England."

Mr. Gordon changed his mind and attended the "Y's" Basket Ball Contest last Saturday night, while his challenger who couldn't swim a lick laughed as he told the Avenue how he called his bluff.

Would the driver of the car whose license number is 720-468 please get a night of his own to call on Miss—— and stop butting in on Mr. E. S. H.

Mr. Joseph Edwards, wife and daughter, Miss Cornelia and her two brothers, Aleck and Cal and their uncle and aunt and three grand children were seen enjoying their first ride in the family's new car tother day. What make? Five passenger Ford.

Mr. J. E. Prowd krabbed a state Saturday afternoon while the roads were yet hot from the washouts and later landed in San Diego, from whence he hurried to Coronado. How come, old man Prowd, why always Coronado?

Mrs. D. R. Jones exchanged her little Overland the other day for a number of dollar bills. Her excuse for doing so was that dollars don't depreciate. You're right.

Received a mental telepathy communication from Mr. Noah D. Thompson a day or so ago and he says one needs a car in N. Y. more so than in California and that he is going to get one. Don't feel us!

Would Dr. Bauman kindly inform us for the public's benefit whether he has a new car or just re-tired the old buggy over? Got us guessing.

Looks like one of our popular and good-looking school teachers is about to desert the school house for matrimony. The gentleman has a handsome enclosed car. Pictures both to attractive to her.

Mr. Hawkins of U. S. C. fame who is considered and looked upon by the feminine gender as the best-looking and best-dressed beau brummel in the city had his smart-looking Nash robbed the other day before journeying to the court house. His action has caused considerable gossip as to whether he visited the license dept. in the interest of matrimony or whether his Nash had a hand in the deal. Time will tell.

Dr. H. C. Hutton is driving his Fostmobile this week, his Franklin was taken seriously ill and undergoes a major operation. As the patient writing it is rapidly recovering under the care and attention of Dr. E. A. Hawkins, popular automobile surgeon who performed the operation.

Who is the young lady of 28th St. who keeps talking about Sonora and Stockton and an auto trip? Where there is smoke must be some fire for she sports a diamond ring we're told.

Mrs. Hattie McKnight of Alta is getting back Studebaker all rolled up at Porter Paint Store. Looks mean, she tells the wifey.

Can it be true that Louis Scott has turned down his marrying man?

NEW TRAFFIC REGULATIONS

LIMITED PARKING

There are certain places where the limitation upon parking is a time limit rather than a purpose limit. There is a forty-five (45) minute limit and a sixty (60) minute limit. The forty-five minute limit obtains in the central traffic district, and runs from 7 o'clock in the morning until 4:30 in the afternoon. The central traffic district, roughly described, takes in those streets between Ninth street on the south, Sunset bouleyard on the north, Figueroa street from Ninth to Fourth, and Hill streets from Fourth to Temple streets on the west and Los Angeles street on the east. The sixty minute limit obtains in any business district between the hours of 7 o'clock in the morning and 6 o'clock in the evening. A business district is any block in which fifty per cent or more of the frontage is used for wholesale or retail business purposes and, when so established by the board of police commissioners, any block immediately adjacent to a business district.

PARKING SIGNS REQUIRED

The board of police commissioners is required to erect and maintain signs designating the limited parking provisions.

A combination of the time limte and purpose limit is found in the central traffic district between the hours of 4:30 P. M., and 6 o'clock P. M. of any day except Sunday. During these hours it is unlawful to park any place in the central traffic district, except for a period of time necessary to load or unload passengers or materials. Not more than three minutes is allowed for the loading or unloading of passengers and not more than twenty minutes for the loading or unloading of merchandise.

It has been found necessary, in order to expedite the movement of traffic through the Second street tunnel, to forbid parking on Second street between Broadway and Spring between the hours of 7 o'clock A. M. and 9 o'clock P. M. of any day except Sunday. Loading or unloading of passengers or materials is permitted not more than three minutes for the one, and not more than twenty minutes on the other, but this permission operates only between the hours of 9 o'clock A. M. and 3 o'clock.

UNLIMITED PARKING

Strictly speaking there is no place in the city where there is unlimited parking; for Section 29 of the ordinance makes it unlawful to park a vehicle on any street for a period of time longer than thirty minutes between the hours of 2 A. M. and 4 A. M. of any day. The object of this provision is to prevent all night parking. The street department complains that all night parking prevents the proper cleaning of the streets, therefore this provision. A short parking period between these hours is permitted so as to enable doctors or others on emergency calls to attend to them.

Sense Sentiment

By: H. S. OSBORNE

Years ago, I admit, when I first had a car

I counted the total expense

I was able to say at the end of each day

What it cost me in dollars and cents.

I plotted the curve of expenditures, too,

The gas and the oil that it took;

And whenever I blew my tube or a shoe

I entered it all in a book.

But I found that I hated to go for a drive

Before I had even begun;

A puncture, or such, would affect me so much

That it spoiled every bit of my fun.

So now I've abolished every system of cost;

My spirits are way above par;

I'm as free as the air, without worry or care

And I'm truly enjoying my car!

The motorist was a stranger in Boston's streets. It was dreadful. A man approached.

"Sir," said he, "your beacon has ceased its function."

"What?" gasped the astonished driver.

"Your illumination," explained the man in unruffled attitude.

"The transversal ether oscillations in your incandenscer has been discontinued."

Just then a newsboy yelled, "Mister, he means yer lamp's out!"

Downpour Puts Many Cars Out of Commission

The record-breaking rainfall last week caused no end of trouble to thousands of motorists who were not prepared for it. A summary up of the work of the emergency road service of the club showed that more than 1000 stalled automobiles were started during the first forty-eight hours of the downpour in Los Angeles and vicinity alone.

Wet motors was the chief trouble experienced. Some cars were stalled for this reason three or four times because motorists drove through puddles too fast and splashed water into their motors, or because their ignition systems were not properly protected against it. With the rain coming down at the rapid rate such is the water soon literally gets the distributor and wires and this stop the motor.

A recent act of an oil rubber tire company is recommended for all motorists who do not want to drive motorcycles, who have not yet purchased the modern system. What is it, you ask? Why it keeps the bottom of automobile tires from coming off from getting hot.

Rubber cans on the road are another major cause of tire accidents.

EAGLE SPORTS WRITER LEVETTE FLIETS WITH DEATH

For the past few weeks our brilliant Sports writer for The California Eagle has been constantly in company with a dare devil aviator by the name of Ace Foreman. All the pugs are becoming restless and snarky at the scribe's actions, and it has been rumored around the different hang-outs of the boys who make a living out of changing men's faces by left and right jabs, that the writer, Mr. Levette is planning on making a trip in the air. While we all believe that Ace Foreman is perfectly capable in handling the joy stick, we cannot help but feel uneasy about our sports writer, when our minds drift back to the time that officer Sheffield made his historic landing in the tree tops of Elsmore. No one doubts for one minute the splendid nerve of Officer Sheffield, Ace Foreman, and last but not least, our sports editor, but the thing we are worried about is WHO WILL HANDLE THE SPORTS SHEET AFTER THE FLIGHT!

WHAT IS A SKIFF?

Those who are asking this question will soon be gratified with an answer. During the recent channel swim in which a Pullman Porter by the name of J. Fowler was an entry, an argument was started about SKIFFS; said skiff being a small boat, which in many instances was used during the swim to follow the different swimmers in their race across the channel. The skiff question has caused what is to be called the Skiff-Skimmin Derby, and is to be run over the same route as the Channel Swimmers took, some time in June. Owing to the [illegible] being made by the various [illegible] Fowler [illegible] Skiff-Skimmin Derby. Just whether the great Fowler will accept or not is not known at this writing. However, we hope to see him in the race and will be glad to keep our readers advised when he starts training.

SANTA FE EMPLOYEE BADLY HURT

During the heavy rain storm Sat. night a bridge on the Santa Fe tracks near Whittier, Calif., was washed out, causing a derailment of a passenger train. [illegible] Bolden, [illegible] was injured [illegible]

PULLMAN PORTERS HIT HARD BY BIG RAIN

The recent heavy rain throughout California may have done some people a lot of good, but it did the Pullman Porters in many instances much harm financially. Line 28 on the Santa Fe has been completely tied up and will be for some time to come. Bridges, tracks and everything else connected with a train has been washed away. Fourteen porters were held in San Diego for a period of ten days; some from New Orleans, Chicago and Georgia, besides the regular line men from Los Angeles. They were allowed two meals a day while they were held there but they lost money by being idle. Trains are now operating from San Diego to Los Angeles from 3 P. M. until about 10 P. M. as that is the time it takes for a train to get through to L. A. They carry no dinner, and you have to detour at Ocean Side by stage for five miles. No night trains have been placed in service as yet. This ties up a regular crew of seven men in Los Angeles and they are forced to buck the extra board. Many farmers in different parts of the country claim that the rain will force vegetables up to a high price, one saying that he would have to plant potatoes all over again on account of the rain washing the seed away. All railroads are paying heavy toll on account of the capers of the clouds, and it will take months to get traffic conditions back to normal.

W. H. BOLDEN, UNION PACIFIC EMPLOYEE INJURED IN WRECK

W. H. Bolden had his legs and feet crushed when the crack Los Angeles Limited plunged through a bridge near Whittier, Calif. Earl Fields, crack buffet man on the same train was also slightly injured.

PULLMAN OF AIR MAY COME

People in close touch with affairs of the Pullman Company believe the pioneer builders of sleeping cars are preparing to build aerial sleepers. In his connection a paragraph from the letter issued last week by President Darry announcing the reorganization plan was said to be significant. It is believed the paragraph relative to projects for engaging eventually in aerial transport, or at least supply equipment for carrying passengers by air. The paragraph speaks vaguely of the company's plans for broadening the scope of its corporate activities.

While official explanation was not obtainable in circles close to the company, it was pointedly stated that the company does not intend to be left behind in the development of new forms of transportation. The company is already making automobile bodies.

Making of airplane and airship passenger cars will be but a step forward in the development of this branch of business. And who will be the Porters is what the Railroad Clatter wants to know!

Maid R. Butler, a former Golden State Maid was transferred to Los Angeles, where she intends to operate from in the future.

R. Hicks Spends Honeymoon

On account of the recent rain Mr. R. Hicks, one of our recent newly weds had an enjoyable time at home which served as a much needed honeymoon. DID THE RAIN DO GOOD? We'll say it did.

Maid Has Choice of Trains

Maid Green had the novel experience of sitting in the Arcade Station under orders to take the first train that left as Maid. Under these conditions she might have gone to San Francisco, New Orleans, Ogden or Chicago. It happened that the first train that left was The Gold Coast, so she took that to Ogden. Some pick!

The boys are all wondering what has happened to Kid Brooks at the Santa Fe. They say he was always a familiar face at any prize fight or anything else that went on in the evening but now he is hard to find when he gets off. Still he claims that he wears the pants at his house. Now guess!

The Maid Instructor at Chicago now demands all the Maids to don black stockings instead of grey. The poor maids sure do have a time trying to keep up with the different orders issued. They have changed the uniforms from black to grey and the stockings from grey to black. Now, what next?

Mr. Hanatus can go back on the Phoenix line again. They have changed it to operate between Phoenix and Los Angeles.

The porters operating on the Phoenix line keep down the high cost of living by eating grape fruit.

The Conspiracy in Literature Against The Negro

By: Drusilla Dunjee Houston

Department of Research in Negro History of The Associated Negro Press

In most modern books there seems to be preconcerted understanding to calumniate and disgust the world with abominable pictures of the ruined Ethiopian, ruined by the African Slave trade of four hundred years, in which the white nations hunted the African because he was the most highly esteemed as a slave and to fill the coffers of the European families of today that stand first in financial affairs.

There seems to be world wide conspiracy to conceal the facts that prove the greatness of the Negro race before the ruin of the slave trade. So successful has it been that the average Negro of today thinks that he sprang from jungle ancestors. This suppression of truth has made world crimes against dark people easily possible. The race is held in low estimation because of this hidden truth, that race genius must uncover.

Though today more favored races seem at the apex of human accomplishment in earlier ages the wheel of destiny carried upward races that now seem hopelessly under. To wipe away the black stain of the slave trade, modern literature has represented the slave trader as having traffiiced in depraved human beings. Today the lower types of the Aryan race look upon them as creatures fit only for spoliation, to fill the coffers of the colonial renegade who could not succeed at home. Were Ethiopian nature understood these crimes would cease.

Because of world ignorance that the black race was the mother of the greater modern nations and the germ of their civilization it has been easy to stifle the life of ruined and defenseless black peoples. This spoliation of the weak, returned in counterstroke from which it was impossible to escape in the WORLD WAR. Belgium reaped in identical measure and kind what her lower types had meted out to the defenseless people of the Congo. Nations must reap what they sow.

This criminal injustice is not the nature or intention of the kinder men of the civilized nations, but we are misinformed about alien peoples. We are narrow and provincial in our views. The hatred of the races springs out of misunderstanding. The men of the world who have traveled and read and thought upon ethnological problems are the men who have the cultivated instincts of human brotherhood. Shall England, France, Germany, and America suffer further because we have not taught the unthinking among us that we must pay a still heavier toll for a continued measure of injustice to weaker peoples.

In this retribution, innocent must suffer with the guilty; we with them, for it is in our power as Negroes to search out the truth and inform and curb the selfish. Christ said, "The TRUTH shall make you free." The question looms large in the mind of every thinking white man today, whether Ethiopians are worthy of equal opportunity. Let us settle forever out of time's irrefutable evidence whether if they have as the chance, we would treat them as they have treated us. Those used by no conjecturings for the archives of the past hold the facts. The history of the Cushite Ethiopian down through the ages is one of the most thrilling as well as tragic of man's age old stories. It is most incredible that we fail through lack of knowledge for developing our undeniable heritage as long veiled.

GRIT

You cannot beat the grit and determination exemplified by young Joe Foreman who is determined to go by air from the Pacific Coast to the Atlantic. He has demonstrated his courage to the utmost, he has scaled the dizzy heights of the Sierra Nevada Mountain range and landed, although a forced landing, but a safe one, on the plains of Utah at Salt Lake City. There are possibly only a very few who can vizualize this hazardous undertaking and the tremendous odds against its success, yet in the face of it, practically without any finance at his command bought and paid for an air plane, cared for incidentals in preparing for the hop off to New York City and has actually made one third of the distance and without the mishap of a frozen motor would have triumphantly landed in New York as per schedule, for he surely had encountered and passed safely through the most dangerous part of his journey, that of the dangerous air pockets and cross currents of the Sierra Nevada Mountain range.

We take off our hats to this youthful and intrepid young man and pray for his success and will do all in our power to help him on his way to make worth while history for the race.

CAPTAIN L. L. McCLARY

There are not many police officers of the calibre of Captain L. L. McClarey who has just been transferred from the Newton Street Station to another division. He was an executive who accomplished things, a man who can bring order out of disorder, a man who gained the respect of the people by enforcing the law and held the friendly feeling of the law breaker for showing him that crime doesn't pay.

For more than 15 years we can testify to vice conditions as they have existed in the territory in which Newton Street Station is located and we can state from a personal knowledge that conditions during his regime have been by far more satisfactory in the history of that time.

This condition has been wrought skillfully and surely by a fair and square deal for all people. Captain McClary has been in touch at all times with the people and they have co-operated with him to the end that this particular division has been as near 100 per cent as it has been possible to be.

He goes from the district with the benediction of a grateful people upon him for his leadership in bringing law and order out of a chaotic condition and their best wishes for success wherever he may go.

DEAR PARISHIONERS:—

You and I are standing today at the threshold of another Lent and realize again that Jesus of Nazareth passeth by. Life is too real to be trifled with, and death too certain to be forgotten. Too many of us have no real anxiety about the future. We are fully engrossed in the cares and pleasures and anxieties of this life. We are absorbed in the interests of this world, and, assured that God is a Father of love, we forget that He is also a Judge. The world in which we live has a sterling moral code, but, trifling, pursues death. God gives us in the temptations that we may be strengthened. It is only through the process of temptation that the soul is perfected, it is only by the Resurrection from the dead that the soul is born again to the life eternal. It is a crime to [illegible] it is a [illegible]

tion or resist it and overcome it. He may be nothing more than an animal, he may be a saint. He may be a devil or he may be a son of God. He stands at the parting of the ways. One road leads upward and onward, higher and higher to the Holy City; the other is the broad way on which so many travel that leadeth to destruction.

It is during Lent that these thoughts come home to us with greater clearness, for we are brought face to face with the struggle and temptation our blessed Savior underwent to lead us back to God. Can any one look at Christ in the wilderness and say there is no such thing as temptation? Can any one stand at the foot of the cross and say that there is no sin in the world? The conflict there is too real to be denied. As our representative the Saviour underwent temptation, as our representative He carried His cross. You and I, too, if we are to be true men, must resist temptation; you and I must bear our cross; you and I must develop our character. The power for good that resides in this precious season, with its more frequent services and its greater spiritual opportunities, will come to us with an influence that will prove its power to meet our individual necessities and lead us nearer to God and a dutiful life. May we all be earnest in keeping these forty days, that we may rejoice together at Easter in the risen life.

Your Friend and Priest,
W. T. CLEGHORN.

Rosamond Johnson and Taylor Gordon

The Negro singers, Rosamond Johnsen, baritone, and Taylor Gordon, tenor who will present a program of the moving Negro songs known as spirituals at their concert on Sunday afternoon, March 13th at the Philharmonic Auditorium, are highly accomplished musicians, who have devoted their lives to the study of music and research in the folk-lore of their people.

Mr. Johnson was born a Jacksonville, Florida, and began to study music under his mother's guidance when he was only four years old. After a period he went to the New England Conservatory of Music in Boston, following which came an extended training in Europe. His piano work was with Charles F. Dennel and Mme. Dietrich Strong, the organ with George Whiting, his harmony under Carl Reissman and Davenport Kerrison. The study of the voice was carried on under the direction of William Dunham and Clarence B. Ashenden.

Boston was the scene of Mr. Johnson's professional debut after which the singer returned to Jacksonville where he became supervisor of music in the public schools. A tour of the United States and Europe occupied some time, and, while in Europe, Mr. Johnson served as director of music in Hammerstein's London Opera House. On his return to this country he became head of the Music School Settlement for colored people in New York City. Other posts have been held by this baritone, as, for example, that of director of the singing orchestra of Mrs. Emelie Hapgood's Colored Players in New York.

During the war Mr. Johnson served in the United States Army, holding the rank of Second Lieutenant.

On the creative side, Mr. Johnson has to his credit over 200 popular songs, including such as The Bamboo Tree, and many musical comedies—Humpty-Dumpty, Sleeping Beauty and the Beast, and others. But it is on the scholarly and musicianly work of compiling and arranging over 120 Negro spirituals, which have now been issued in two books by the Viking Press in New York, that Mr. Johnson's enduring fame will probably rest. For there is not only a great discrimination to be seen in the choice of numbers, but a discreet and highly musical handling of the accompaniments, which supply the harmony as it would be heard if the spirituals were to be sung by a group, as originally they were.

Mr. Gordon's musical education also started with his mother. As he had his first inspiration as a small child from listening to his mother's crooning the spirituals. She was noted for her ability as a leader of camp-meeting songs in the seventies at their home in Kentucky. When, in 1915, Mr. Gordon came to New York, he began to study under his present colleague at the Music School Settlement for Colored People. This training has happily not robbed Mr. Gordon of the essential qualities of true Negro singing—a power to throw himself into the spirit of the spirituals, retaining all their dignity, a capacity for natural and sincere feeling, and a true naivete. His birth and training have combined to make Mr. Gordon one of the best, the most authoritative interpreters of spirituals now giving public performances.

Modern Noah's Liberian Bubble Bursts, Lands In Jail

(By: A. N. P.)

Los Angeles, Cal., Feb. 28.—Rev. E. G. Lewis, (colored), and S. Baron Brown, alias Burke (white), are still in the toils of the law, for promoting a bunco scheme, represented as a steamship line to Monrovia, Liberia, from San Pedro Port, Los Angeles.

The Rev. Lewis will be remembered as having announced the harvest of the world is building mostly by his own hands an ark patterned after the Biblical one of Noah. He planned to [illegible] followers and gained by his prospective teachings and feels always of Promised Land in a new Utopia in Liberia. Very liberal donations from the brethren and sisters had responded (to funds for the building of the ark, but with an unfortunate accounting to find down the days of the ship yards, rented a warehouse on the shores of the water, that [illegible] and Excelsior Mining Company of Monrovia. He became allied with Brown, Burke Burke, and all resplendently dolled up in gold-braided uniforms as admirals, captains, etc. opened offices on the deck of the old steamer Chipals of Frisco in which they had a $5,000 equity and sold stock in the steamer's projected voyage to Liberia. Merchandise and passengers were to be carried over, gold and other precious metals, rubber, diamonds, and [illegible] to be exported and delivered at ports of call, the dividends to go to the investors at home awaiting the easily acquired wealth. The date of sailing set first for September was set back from time to time while the promoters still sold stock. To climax and exposure came when the white general manager and financial adviser, Burke, was arrested in the Y. M. C. A. at San Pedro. He had been selling commissions entitling the owners to a place on the Chipals' crew of sufficient rank to assure them a place on the officers' mess at $60 a head.

African Art Dying, French Critic Fears

(By: A. N. P.)

Nice, France, Feb. 26.—Is European colonization killing the native Negro arc of Africa?

Certain French writers fear that it is. M. Saint-Girons has given expression to this fear in a recent article in the Petit Nicois.

"You remember Batouala, the famous novel written by the French Negro Rene Maran, which a few years ago won the Goncourt prize," writes M. Saint-Gireon. "Batouala has now a brother in our literature. This new book, entitled Aggadra, is the work of Mme. Delhaize who expresses in its vibrant pages all her profound sympathy for our black brothers. And in these pages Mme. Delhaize invites us to visit an exposition of native character and [illegible] wholly unedited, unaltered.

"It is a collection, admirably gathered in the scenes of African peace passed in the heart of savage Africa.

"The extreme rarity of authentic Negro art works is well known. The reason is simple. European civilization implanted in Africa by colonization has penetrated and stirred up the primitive art centers.

BONG! GOES THE GONG

COLIMA-HUDKINS-HAWKINS-FUENTE INTO THE FRAY !

With just a few hours from now the gladiators will spring into the great Wrigley Field Arena Saturday night, March 5th, for one of the greatest boxing shows ever given on the coast. Bert Colima, the dashing Mexican, pride of the Spanish population, as well as the majority of the other nationalities in California, will settle for good and all the question of supremacy betwen himself and the great Ace Hudkins, "The Nebraska Wildcat.

Equal in tense interest is the ten round bout between Long Tom Hawkins, the great colored San Diego light heavy weight swapping wicked wallops with the famous Tony Fuente. Feunte made a brave start for the championship a little while ago but after a brief set-back he is out in front again with a world of followers behind him. As for Hawkins, he is the man who sailed big Bull Cisby out into the audience like a kite down at San Diego week before last. The colored people of the border town consider him already world's champion and the hotels here have contained half of San Diego, here to see their "Long Tom" against the Mexican battler.

With the weather in his favor Dick Donald should be able to add from five to ten thousand dollars to his gate by changing to Act Hudkins-Bert Colima fight, scheduled to take place at Wrigley Field on March 5th from an afternoon to an evening fight.

Dick favors the afternoon battles, but so many protests were filed by fans who have to work on Saturday afternoon and who wanted to witness the battle that he decided to change the hours.

By delaying the bout Colima will have an advantage. Bert signed the articles to weigh in at 150 pounds at 10 o'clock the morning of the bout. His manager, "Dutch" Meyers, refuses to change the weighing in time and when Bert enters the ring he will have had almost 12 hours in which to pick up weight.

Clyde Hudkins argued about the change and insisted that Bert weigh in at 2 o'clock in the afternoon, but the "Dutchman" refused to accede to his demands.

A moving picture company made arrangements to take pictures of the main event for a big fight picture which is now being filmed.

Donald has arranged to have a long canvas stretched from one end of the upper stand to the other to protect the customers from the cold. His lighting was installed the day before the battle.

The advance sale has been the greatest of any show this season, for as a rule most every one waits till the last few days.

When Dick Donald made the match between Ace Hudkins and Bert Colima which is scheduled to take place at Wrigley Field on the evening of March 5th, he figured that his regular amount of seats in the infield would be sufficient to take care of the crowd.

Nine days before the fight Donald was completely swamped and he issued a plea to his regular customers for whom he reserves seats to kindly pick up their reservations as quickly as possible.

JOHNNY FORBES AND TED FRENCHIE TRAINERS

Just what the boxing game needs in California is plenty of new material. New faces and new names of good boys will always keep interest around and prevent the interest of Mr. Tax from getting larger. And that is just what Mr. Henry Mitchell recently arrived from New York intends to assist in doing. At the same time he aims to add a few more names to the fistic roll of fame.

Mr. Mitchell is a newspaper of fighters from New York. He will bring several of his boys here with the first one of these being Frankie Forbes who Forbes has been through Arizona fast scaling 126 pounds.

Everybody has heard of Johnny the boy who was thought to be in tention of Mr. Mitchell a day or two after his arrival. Forbes was watching the boy work out at the Main Street gym and his attention was attracted to his natural easy movements and the fighting instinct he showed. Hearing his remarks concerning the boy Mr. Mitchell offered to take him in hand provided the great handler of pugilists would supervise his training. This he agreed to do so Pierce is under the careful training of Johnny Forbes and Ted Frenchie.

Frenchie was one of the Coast's best fighters up until about three years ago when he quit the ring. Forbes who is also training Mickey Walker has been a trainer and coacher of champions for years having had the great Jack Britton, Harry Forbes, Louis Kid Kaplan and many others.

Mr. Mitchell is well known in New York in the big sport circles and his father was one of the prominent figures of the old circus days. The boy Pier on whom he has centered his activities will be brought along carefully for a while but all who have seen him box prophesy that he will in the near future be one of the great figures of the ring.

BRICE TAYLOR IS AUTO SALESMAN

(By: A. N. P.)

Los Angeles, Cal., Feb. 28—Brice Taylor, the great U. S. C. football star, who has helped make the Trojan squad famous, is now in his last year in college, and is engaged in selling a high-class make of automobile in his spare time. He hopes to be able to obtain a position as coach for some good school. Failing to get an appointment he will follow auto selling after completing his course. Since the close of the football season he has for reasons he has not divulged, refused to join the pro ranks.

Pesek-Landon Wrestling Match Postponed

Nick Lutze, wrestling fans will be handling Lee Daze's mitts next show at the Olympic auditorium on March 8, along with Frank Hodge, former Harvard wrestling coach.

Nelson tossed a wrestling exhibition in short order for Daze last.

Daze says that the proposed Jap Pesek-Jim Landon match which he had hoped to stage on March 8, will probably be held on March 22.

ACE HUDKINS DOES NOT DRAW ANY COLOR LINE

WILL FIGHT ANYBODY

When Young Harry Wills surprised the sporting world by knocking out Jimmy Duffy not many days ago, the report went out that a tentative match between Wills and the "Bearcat" had gone on the rocks because Hudkins was afraid of Wills. This was all wrong. Ace is just about as big a drawing card as there is in the West now and just because he can really fight and loves to is no reason why he should battle a boy like Wills without getting sufficient wages for it. That is positively the only reason the match fell through, and not because he draws the color line.

To the contrary, not only Ace but his whole family of brothers are as broad, friendly and sportsmanlike a bunch as one would care to meet. They have always been interested in colored fighters appreciating them and helping them in any way possible.

Art, who is a classy debonair fellow and Clyde very business-like and exact, brought Charley Long from their home in Omaha on his first trip West so it is said. Back at Omaha they made Long welcome around them at all times and Ace would let Long have the use of one of his cars. They still speak well of Charley although he is not connected with them in a business way any longer.

Jack Thompson Fights King Tut.—Brown Gets Return Match

Not satisfied with the knockout he suffered at the hands of Young Jack Thompson a week ago, Harry Kid Brown has asked for and gotten a rematch with the slender brown boy whose rapier-like right lands with such a steady sock. Marty Mario cancelled his match with Thompson and left for New York at the instance of his wife who had been writing and wiring him to return.

King Tut got the match and he tough little scrapper meets Thompson Friday at the Dreamland in Frisco.

National Colored Tennis Champion in Indoor Match

TILT TO BE STAGED AT KANSAS CITY, MARCH 28

Eyre G. Saitch of N. Y., National singles champion was matched for an indoor game at the Dreamland Dancing Academy at 18th and Paseo. A classy number of preliminary events were lined up among them a match between Mrs. Dorothy Ewell of Chicago against Mrs. C. C. Eames of the same city. Prizes were given for the best sport costumes and dancing followed the matches.

Walter Palmer Plays In Good Luck

FIGHTS EVERETT STRONG MARCH 8th

Pop Russell's great middleweight, Walter Palmer, whom we introduced to the cook-stove-world last week and who has heard a lot of good boys through the tourney feet-right in line with a new spark. He will bat Everett Strong at Fresno March 8th. Walter's footsy dexterity for Strong is a good bet and he will have another opportunity several big cards later, including one of Dick Donald's rooms, others shown. He is also ready to engage a middle on even terms. Bat Smith is challenger. That he will make good good give additional reasons and he will give Strong a good battle either way he looks at getting a decision.

CURTAIN CALLS AND CRITICISMS

Ott and Wilson have returned from [illegible] Theatre. These is a couple of real performers. They act for the love of it. Hot leafers from the word go with fastest, latest stuff.

* * * *

Helena Justa's radiant smile lights up a dark room every time she walks in. No wonder she is such a big hit.

* * * *

Curtis Carpentier, formerly of original Chocolate Dancers, works yet at times in his Bronz Revue. He is as

good a "straight" as you may find, sings in good voice, carries his lines clearly and distinctly. The Revue could hit the road right now. Here it is:

"Sweet" Baby Dorothy (somebody will steal that cute little girl yet. She is getting better and better); "Peerless Pauline" her teammate. These two are a perfect team in size, weight, height, pep and harmony in voice and movements. Pauline is very cute. There hasn't been enough said about her but there will be. Maybe in electric lights some day. She's just a kid yet.

Axele Hickey, a tall girl, good worker. Nice dancer.

Ethel Stevens, a brand new girl. She is impressing rapidly with more naturalness of expression of face and action she will hold her own with the best. Leslie Walton is the by-word of the Bronx. The oldtimers would miss her if she slipped off out of town. Good ballad songster, good personality.

Then Howard Brown, the boy with the mouth organ. Imitates the Day-Hunted L. A. to Frisco to perfection.

The Creole Orchestra (they're real Louisiana Creoles) have the jazz trust cornered. "Long time, garcon mes ami you no made like that hear no!

Jack Wilson is a good performer with original stuff.

Royal Giants In Last Games Saturday

The last, and what promises to be the most thrilling game of the winter league season, will be played Sunday, March 6th, between the Philadelphia Royal Giants and a carefully picked All-Star team of Pironne.

The Giants are the other half of the tie for the Winter League championship, and to better display their superiority over the other teams, have condescended to play, and agreed to defeat the team chosen of the best among the aggregate of clubs. This game should be awfully tight. In this last game, the boys are taking no chances, they expect to receive the farewell wishes, from happy and sincere fans, and so be welcomed back in a like manner. Pironne can't be overlooked from this angle either. It can be expected that he will with diligence, chose a team that will be almost unbeatable. The entire populace might, if the limited area would permit, swarm out to witness their final struggle.

CHANNEL ROW BOAT RACE TO BE HELD IN JUNE

A letter received at the desk today from Mr. E. W. Smith, Catalina Island complimenting our story of the Channel Swim, also the J. Ponder Pullman Porter article. He informs us that the row-boat race across the Channel in June is a reality and preparations are being made for a $5,000 prize to the winner. He also suggests that we have an entry in the race which we undoubtedly will.

Mr. Smith was for a number of years on the Chicago American and is one of the most enthusiastic boosters for the Skiff Skimmers Derby of all who have become interested in it. The event will be of great interest to every following as it will on the heels of the Swim Marathon, and although not arousing as much interest yet will draw many people to the ships that follow the rowers and to the waterfront to watch the finish. Owing to the pace the rowers will keep the Derby will probably be finished in daylight. Several Beach cities are interested to his extent of contributing to the prize.

ALL BASEBALL PARKS FOR NEGRO NATIONAL LEAGUE BEING IMPROVED

All he parks at which the N. N. L. teams play are being enlarged with the prospects of a great season. Except for Muelbach Field at Kansas City, the home of the Monarchs, which is a new and nearly perfect field, all will be greatly enlarged.

Owner Lewis, of the Memphis Red Sox, let the contract last week for the enlargement of his grand stands. The park at Memphis is one of the finest plants owned by a race magnet.

HERBERT DIXON
Who leaves for Japan as soon as do Five Other Giant Players.

The increased stands will add more than 3,000 to the seating capacity.

Mr. John Rosine, the owner of Mack park in the city of Detroit, which is used by the Detroit Stars, has started to rebuild the grand stand. A new fence is now being built and work on the stands will start in time for the opening of the season.

The American Giants park at Chicago is due for great improvement and Mr. John M. Schorling has stated that he will do everything in it's power to give the Chicago fans one of the finest parks in the league. Two new dugouts for the players, one of the many improvements will be made at once, and a new club house built.

Cooper Field, the home of the new Cleveland Club, was one of the best club houses and stand in the league, and the new owners are going to add several improvements. Dr. Joe T. Johnson states that there will be a monster booster's banquet next month at Cleveland, at which time some of the most prominent citizens of the Ohio City will take part. President Hueston and Secretary Gilmore, will attend and efforts will be made to have several of the leading sport writers there for this big occasion.

Kid that Nigger! Thus yelled some back woods hoodlum. It was at the Gans - Bercott fight, Tuesday night.

The other thousands of white spectators were true sportsmen.

Some cheered Bercott; many cheered Gans.

But all wanted to see the best man win, regardless of his race. They were gentlemen and ladies and [illegible] gentlemen.

So the hoodlum had the nerve [illegible] to himself to make a monkey of himself. He showed that he was from behind the sun. Enough of that though.

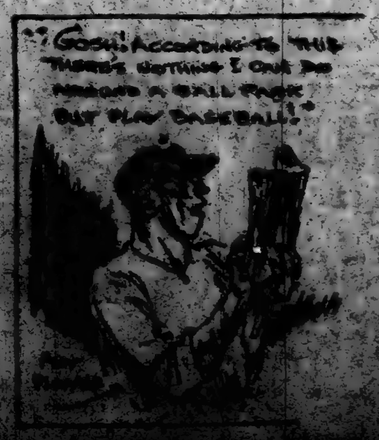
We incorporated a K. O. trust last week.

Now I am going to open up an Information Bureau. Any top notch fighter seen loafing, sleeping, or

the dizzy "White Lights" or otherwise mistreating himself, out at 13 G. M. when he ought to be resting "just before the battle mother."

That fellow will be reported to the fight fans in Box Car letters so they will be careful not to bet on him. You can only make good when you are in demand and you are only in demand when you win.

The Royal Giants will not go near Shanghai while in the Orient, no, no.



Mr. Ward, mechanic for flyer Ace Foreman, believes a splendid new corduroy suit, cap and boots to match necessary for flying.

Batter! batter! Find the batter; that's the Olympic Club muddle; promoters squabbling among themselves; more out doer shows; they'll soon kill the goose that lays the golden egg.

What with Fashion Shows, track meets, parties "etc", it has been difficult to find time to garner news this week although there was plenty. What we want to talk about another time is of the glorious, exhilerating, and beneficial exercise of dancing. What we deplore is the Race Girls in Annual track meets last week conspicuous by their absence.

Girls Star In Sports

Co-eds of the University of California at Los Angeles are indulging in the four sports which are popular on the campus at this time of the year. The California co-ed, clad in the summeriest of garments and carrying her bow and arrows, may amuse herself by tripping out on the green in front of Millspaugh Hall to improve her aim in archery. The archery classes at the university attract much attention because of the novely and the picturesqueness of the sport.

Miss Laura Payne is the former head of archery at the University of California at Los Angeles. She participated in the Pacific Coast archery exhibition contests of last year, and plans to enter this year's contest. Archers from U. C. L. A. exhibited their skill at the Coliseum on February 5th, where an athletic program was given for the entertainment of the Canadian visitors to the Southland, under the auspices of the Canadian Tourists' Association.

If she prefers the more strenuous sports the California girl may go out on the basketball court to pracice, for the ensuing inter-class combats, or she may go in for the more unusual game of field hockey, which is rapidly gaining in popularity on the campus. According to Miss Carol Fletcher, swimming is the most delightful of all summer and winter sports. Miss Fletcher brought honor to Southern California when she carried off third place in the ten-foot dive in the Olympic contests of 1924. She is looking forward with a great deal of pleasure to the next Olympics, in which she hopes o take part.

Young Harry Wills May Get By Lew Tender May Be Not

Next Tuesday night Jack Doyle is presenting a cross-word puzzle for the fans. Whether Young Harry Wills can get by the tough, game and clever Lew Tender, veteran of the ring or whether the younger Wills will be able to offset Lew's ring experience, remains to be seen. Both men are in great shape and a monster crowd will follow the San Diego boy from the "Avenue" to see him go. Willie Henry the Texas steer who broke Kid Worfolk's jaw in Galveston a few weeks ago, boxes on the same card.

Reginald Siki Back In Wrestling Game Makes Daring Bet

Reginald Siki, the Abbyssinian panther, made his re-entry into the mat game last week by wrestling on Lou Daro's Jones Koisonaro card against Chris Michaels. Siki, who is shown here in his native costume, is a giant in size. He has been out of the game several months nursing a wrist in which ligaments were torn in a match last summer. He is the only wrestler of the Negro race that has reached the height in the mat game that he has with hopes of winning the heavyweigh belt. So great was his confidence of throwing Michaels that he has $100.00 side bet to turn the trick in 15 minutes and only failed by a few seconds. Siki has been playing prominent parts in the movies among them Tarzan and the golden Lion and many others, but will now devote his time throwing the big fellows for a goal.

BERT COLIMA, THE MEXICAN IDOL WHO MEETS ACE HUDKINS AT WRIGLEY FIELD, SATURDAY, MARCH 5th

Baby Gans and others have been working out there all week.

Main St. A. C., the old reliable, is dark Saturday in deference to the Wrigley Field bouts. Jack Thompson, Willie enry and a string of other good colored boys have been working there all week as also have Colima, Anderson and another big bunch of topnotchers.

It was told around the Avenue that a certain colored fighter whose people live ou of town only sent his mother $30.00 out of a purse of several thousand dollars after a recent win.

Willie Henry and Walter Palmer bob got bouts right after we published the history of their past, present and future. Wonder if that means anything.

Norris Cohan is staging an elimination tourney also among the heavies featuring out own Mack House in this week's show. He is also going in for wrestling. It isn't far over so all should show their appreciation by dropping over to Pasadena for his weekly treats.

Ta E. Pluribus Unum met Friday, February 25th, at the home of Miss Esther Beck, 975 S. Bernado St. The meeting was kept quite interesting by hte president, Miss Luis Perdue. The club was royally entertained by an address, "Lincoln The Master of Men" by Mr. Jules Narciase, two piano solos, "In a Little Garden" and "In a Little Spanish Town" by Mr. Leon Perdue; also, "Tuitte You Belong to Me" and "Don't Say Hello" by Miss Evelyn Eldridge. Miss Beck, the charming hostess, served dainty refreshments. The next meeting will be at the home of Miss Evelyn Eldridge.

Three cheers for "Ace" Foreman. "Ace" hopped on last Sunday amid the cheers of a vast throng. (Note—the words, "vast throng" is a throwback to three days but it shows that Mr. Foreman made the Grand Break. We wish Mr. Foreman a successful flight, and many future successful flights.

Oh, ye fashion show! March 1st will always be remembered as the date when many pretty girls posed in fetching gowns. While we would like to mention every girl who participated, we are not the fashion editor and besides, space will not allow. However, we have to mention these: the Misses Ethel Ralph and Anna Louise Griffin wore the latest things in the sport line, while Miss Ione Johnson was resplendent in an afternoon gown. Petite Miss Lucille yson wore a dark blue chiffon evening gown with lace pointers. She was a vision of loveliness. Well, we guess lots of these young blades, or is it red bloods ?) will be sending poems to the young ladies, either extracts from Browning or Keats, or in original.

Heh, Gang! Look at this. Who do you think is the editor of this, the California Eagle paper? Yes, that's it, everybody knows; J. B. Bass is the editor; but that isn't just what I was hinting at. The people out at the Shrine Auditorium, where the Miracle Play is showing, thought not so. The reason being that somsone else had presented in person, a previous claim to that position to them. Now, we do not know positively who this was, but we have our strong suspicions, as o the identity of the little light-complectioned, red-headed and officious appearing young fellow, who presented himself as the proper person to receive newspaper compliments from the theatre management. We think, Gang, when one has severed connections with anything, he should not continue to have himse.f appear otherwise. Now, our editor and the whole staff is out of luck for tickets, and someone stands the possibility of telling the judge why the misrepresentation. Take care, young man!

Walter Towns upon whom Roosevelt High pins her hopes for the city track championship, was defeated again in the dual meet between that institution and Pasadena Hi. Welch, who besides holding the California and Southern California record in the hurdles, has equa'ed the world's prep time, again proved Towns nemesis. Towns says, after he wins the city meet he hopes to defeat Welch in the Southern California. Go to it Towns, you're a good loser, now make yourself a good winner.

Kenneth Levy, freshman sprinter at U. C., L. A., continues to improve as a star in the 100-yard dash and the 220. In the dual meet with Inglewood Hi, he won handily both events, romping home for the good time of 10.1 for the century and 22.3 for the 220. Git, boogah, git.

* * * *

Look what I found way down here at the beach, Gang. There are six boys of our group at Santa Monica Hi and everyone of them has made good in some commendable activity; some record, eh? 100%. Two are members of the football team, Fred Whitley plays right guard and Rolf Tucker, right half. Nathanial Rucker, Fred Whitley and Rolf Tucker are fast track men. Nat. Rucker running the 100 in 10 flat and the 220 in 22.3; Rolf Tucker also makes the century in 10 flat, Fred Whtley making it one, two, three. Johnnie Rucker stars in the field meets, hurling the discus 103 feet and tossing the shot 43 feet. Venice Hi squeazes in here also for some recognition, with Lloyd Reese 440 yard dash man, who steps it in 53.4.

* * * *

Southern Branch, U. C., will meet some strong opposition Friday in these boys from the Bay District, in their dual meet. The Branch is pinning its hopes on Kenneth Levy, to hold up their ends in his events; while Samo Hi places her's in Rucker and Tucker. All our boys, that git him, won't it, Gang? S'truth.

John Pettigrew and William Crain want to know what do you mean "trombone". They only care for violin music, its so aristocratic.

We will close now, altho' we hate to tear ourself away from the typewriter. (Aesop Fable).

The Wood Chopper Gets Chopped

The young Master put over another school session on Tuesday night last at the Olympic Auditorium by teaching Dode Bercot the finer points of being a south paw. Bercot would have been dangerous against a less brainy man but Gans out-figured working away from that left and leading with his right, landing six and seven blows solidly to Bercot's jaw without a return

Bercot was in bad shape when the towel mercifully saved him from further punishment. Gans is billed to fight Tommy O'Brien at last. The bout will take place at the Olympic Auditorium on the 28th.

New Tire Man in Town

Realizing the consistent demand for its high class goods and its inadequate facilities to meet that demand, the Pennsylvania Rubber Co. has enlarged its traffic, service, and shipping departments to take care of this growing demand. In arriving at this conclusion it was not without consideration of their reputation of efficiency. They therefore imported one of their experts in this line to supervise and manage the same.

The company is to be congratulated upon its ability to recognize worth and efficiency, not only in the manufacture of its wares, but also efficient service in the personnel of its employer. Such is the reward of Mr. Bailey Bowen of Kansas City, Mo., who has served this company for several years, and is held in very high esteem by his company. He comes to our city to continue the service of the Co. in the capacity of traffic and Service manager which position requires a general knowledge of shipping, Billing and invoicing. His salary is commensurate with the responsibile position he has. We welcome him and his family in our midst.

Wields Axe on Rival

(By A. N. P.)

New Orleans, La., Feb. 28.—Claiming that Thomas Edwards was the third angle in a domestic triangle, Harrison Woodard wielded an axe and is charged with murder. The trouble is said to have been over Woodard's wife, Cora, who it is claimed was too friendly with Edwards. The police are now searching for the missing wife in order to clear up the mystery.

PASADENA NEWS

BY: Wm. MATT SOLOMON

CIVIC LEAGUE PROPSED

After a careful canvas of the city to determine the Negro population and incidentally to determine the strength of the vote of our group, Judge O. O. Overr, formerly Justice of Peace of Allensworth, Cal., assisted by Mr. Littleton Baker and other influential citizens of Pasadena will set about to formulate plans for the inauguration of a organization among the Negroes of Pasadena to be known as the Civic League for the purpose of better acquainting those of our group wiht the city activities and more impress them of the necessity of casting their ballot. Mr. Baker who did the canvassing expressed himself as being much pleased with the results and also of the solid support promised him is this attempt to get the people together. Mr. Baker is known among his many friends as being a tireless worker for the benefit of any proposition that will serve as a relief for our group from any embarrassment. Judge Overr of Allensworth fame needs no introduction to the public having made his reputation long ago as a prospector when that section of the country was first opened and who now owns more than a section in that district. It is hoped with the support promised this organizaion should be second to none of a similar nature with such men as Messrs. Baker and Overr at its head. More publicity will be given this organization as it progresses. They predict the largest vote to be cast in the current primaries than has ever been gotten out due to this canvass; if you have not registered get busy.

With the assistance of their master player, "Slick" Stocks the Junior College has won the Southern California championship and are now waiting for the Northern Division to finish their schedule that they may offer them a challenge.

Rev. Chas. Hampton preached at Friendship at the morning and evening services last Sunday to appreciative congregations. In the afternoon the members from the First Baptist Church were present with their assistant pastor at which service Rev. Dr. Harper of the Southern California Convention preached a wonderful sermon from the subject: "And He went a little bit Farther," beautifully portraying the events leading up to the Crucifixion. The results of the rally which occupied the minds of the parishioners during the day was very satisfactory though not quite up to the expectation of the officials but were most justfied. Dr. W. R. Carter wonderfully handled the financial end.

On Friday evening, February 25th at the beautiful home of Mr. and Mrs. W. C. Hicks, the Corean E. Hicks Club was hostess to their retiring and newly elected officers. The interesting feature of the evening was the very instructive message given by the vice-president, Mrs. E. Edwards of Los Angeles, who installed the officers in a very pleasing manner, accompanied with Mrs. Edwards were Mmes. Hattie Stafford, Supt. of Education and Mrs. Mollie Moore, Charter member of the State Federation. Mrs. Stafford gave a beautiful outline of her work. Mrs. Moore gave inspiring remarks. Mrs. S. E. Strickland, Supt. of business, gave an outline of her work, which was interesting, timely remarks were given by the visitors.

During the social hour, a very interesting program was rendered, after which Mrs Hicks then announced that they were informally celebrating their 24th marriage anniversary. The forty guests then showered them with hearty congratulations, wishing them many more years of happy married life. The house was attractively decorated with the season's flowers.

THE BACHELOR GIRLS CLUB

Well, it has happened again. Anyone who attended the Mid-Winter Festival given by the Bachelor Girls at Christian Tavern will tell you that they had a jam-up time. Dancing to the melody furnished by Mr. Leon Rene, playing whist, and being served by Senoritas, Don Juans, and Bull Fighters. Most articles sold in the bazaar were made by Bachelor Girls. The Bachelor Girls Club thanks its many friends for their patronage.

The next meeting of the Bachelor Girls Club will be held at the home of Miss Charlie Cotton, East 49th St.

Metropolitan Insures 10,000 Negroes

Detroit, Mich., Feb. 28.—It is estimated that more than ten thousand Negroes were insured recently in the Metropolitan Life Insurance Company by the General Motor Corporation for $1,000 each when that corporation insured all its employees, numbering 100,000 in which is said to be the largest group insurance, in point of numbers, ever taken out by any one company at one time.

No examination was required and it only costs the insured 50c a month, the G. M. C. paying the balance. The employe is allowed to keep this insurance, at a little higher rate, after he leaves the employment of the company, which is a great advantage to many who otherwise might not have been considered good risks for this amount of insurance. There are many colored employees.

IN "HAWKS" HANDS

The Couldn't Understand

A little brown-skin woman from 1469 East 23rd, neatly dressed in gray crepe dress, tan coat and black hat sat nervously on the prisoners' dock in Judge Raymond Turney's Municipal Court. Her house had been raided during a party and liquor was found. It takes only a few minutes in Municipal court so the trial was over and fine assessed before the perturbed prisoner seemed to realize it.

"Lucile Andrews", asked the judge, "how many members are in this club of yours".

"Forty-two, sir", she answered.

"Well then, can't you collect your fine from them pro rata, say at about $2.00 a head?"

"No sir, we never play for money. It's just a whist club that meets once a month."

"Well, as you are the president, I presume they will produce that sum, mused his honor."

"Thank you sir. This is my first time and it will never happen again", said the trembling prisoner as she started out.

"But wait there", exclaimed the judge. "You don't seem to understand. You have been found guilty of the Wright act and your fine is $200 or 20 days, and it will have to be paid now!"

And thoroughly enlightened now, she burst into tears and sank down into a chair in prisoners' row again.

What seemed to be only reckless driving turned out to be an important case last Friday when three Mexicans were captured by officers, Kelly Price and Washington. They were speeding south on Central Avenue while Clarence White, colored of 935 E. 29th was walking East on 12th and a "B" car was headed West on 12th. The auto hit White smashing him against the street car, fracturing his leg, arm and two ribs. The driver, Jose Valencia leaped from the car and ran escaping to 712 Merchant Street where he was captured through the efforts of Officer Price. The other two, Antonio Lopez, and Carlos Acedo, were taken with Valencia to the Newton Street Station. Valencia resisted arrest, and put up a stubborn fight before he was subdued. It was found they were "three" desperate characters and the car they were in was stolen.

John Wade arrived in from Indiana and was arrested at 1031 E. 32nd St. by officers McDuff and Green for robbery. Transferred him from the Newton Street to County Jail.

Walter Davis leaked long upon the wine when it was put in the cup, so Sergeant Parker and patrolman Henderson gathered him in at 9th and Towne for drunkenness.

Mrs. Estelle Hankins, 1245 E. 26th Street had liquor in her possession in this dry state, so officer Casselbury took her and the oil of joy to Newton.

Andrew Goiner was caught in the "Hawks Hands" at 1172 E. 43rd by officer Brown for vagrancy and lewd.

Chas Wagner was drunk at 9th and Central Wednesday so officer Slaughter took him to the Newton East Home to sober up.

Geo. Brown was an important capture made also by officer Slaughter on suspicion of burglary. He was found at 11th and Central.

John Hensel also tated the burglary game and officer McGruder got him at 1115 East 12th Street.

Capt. Geo. McClary is now Captain of the Newton Street Station and will lend his very efficient services to continue in the excellent work performed from this station.

GORDON MANOR

FOLKS:

Dr. Gordon has asked me to make a statement to the purchasers of Gordon Manor.

March 9, 1927, we go to court with a view of getting these 213 acres or its value in money. OUR PREFERENCE IS THE LAND. It is much easier to find money for our group than it is to find land. Therefore we are waging a relentless battle—not as BIG MOUTH would do it—but silent strategy, thinking, manouvering for position or advantage and at all times remembering that it is a poor general who does not plan a successful retreat and who does not plan to take the line of least resistance.

In this wise WE WILL WIN!

And remember this:

The Constitution of these United States MIGHT be a strong defense for you. But EDUCATION—WEALTH BY GROUP OWNERSHIP—and FAITH IN YOUR GOD, collectively will serve you as your most powerful weapons of defense.

EDUCATION gives you knowledge.

ORGANIZED WEALTH, secured by the land, GORDON MANOR, upon which you stand, means INDEPENDENCE. FAITH strengthens your endurance. Now with KNOWLEDGE, WEALTH and ENDURANCE, visualize for the sake of posterity, then back up your vision with much ENERGY and HARD, CONSCIENTIOUS WORK. When you shall have done this—it matters not how black the skin, you will have gained much recognition.

Unfortunately, at this time we cannot discuss openly our plans for defeating Southern California's effort to retard our progress. But, remember this: Only by GROUP OWNERSHIP WILL YOU WIN.

Then exercise your franchise.

Respectfully,

JOURNEE WHITE.

BOOK CHAT

By: MARY WHITE OVINGTON
Chairman Board of Directors of the N. A. A. C. P.

"THE NEGRO IN AMERICAN LIFE".

By Jerome Dowd. Published by The Century Company, 353 Fourth Ave., New York City. Price $5

This book is in nine parts, including a resume of the historical background; the Negro in the Northern and Southern States since the Civil War; the Negro in the World War; Negro migration; the Negro in Literature and art; proposed solutions; the future of the Negro, and paths of hope. In all, a comprehensive, careful study.

One is impressed as one proceeds with Professor Dowd's sympathy with the colored people in many of their trials. He tells us that when he read Uncle Tom's Cabin he did not think it any more exaggerated than was legitimate in a work of art that was to convey a realistic impression. He has a strong chapter on lynching with a stirring rebukke to the clergy for failing to preach against this barbarous practice, they seeming to regard it as not comparable to the sin of card play or dancing or going to the theatre. He shows the sins of peonage and the iniquitous conditions in all our prisons. There is not an American penal institution he has seen that he would not like to scrap. Throughout the book one sees that it expresses the convictions of a humane, thoughtful man.

Professor Dowd speaks strongly against these things that debase men all over the country condemn. But he is a conservative when he touches apparently less serious evils. He accepts segregation and political disenfranchisement but he wants the Negro to know that the white race has the right to act as it does, not because the Negro is inferior, but because of the sense of "conscientiousness of kind," the inmate feeling that like must associate with like. The old superiority talk, the "Negro as a beast" oratory, is entirely lacking; but the stigma remains. It is given a sociological setting.

I can only point out a few things in the volume that show, what I believe, militates much against its importance. Though printed only a few weeks ago it is a book of yesterday. Its authorities belong in the past before the World War, Ray Stannard Baker, with them is Giddings' sociology, as antiquated as Santa Claus. It fails especially when it attempts to give the Negro's reaction to present conditions.

To give two examples. Professor Dowd says that the problem of race separation is working out to the satisfaction of both race groups in a few particulars and that if the white people will offer the Negro adequate libraries and parks and adequate transportation accommodations, there will be much hope for harmonious civic relationships. There is just enough truth in this to make it dangerous the more real. The Negro is glad to get what he can while segregated, but just as he resists patronizing Jewish more do the more resents the insults of being shunted off as undesirable. The "white" and "colored" signs grow never so loathed by Negroes today, especially by Negro youth.

Another example in his conclusions that if the Negro had the ballot he would vote solidly on a racial basis. On the contrary he would vote in the South as he votes in the North, according to his individual interests. Given a vote the Negro capitalist in the South would cast it for property as well as the white capitalist and not bother under what name it went.

Black Man's Mind No Different From White Says Prof. Hoernle

New York, Feb. 25.—The National Association for the Advancement of Colored Pepole, 69 Fifth Avenue, has received a copy of the January, 1927 Journal of Philosophical Studies, containing an essay by Professor R. F. Alfred Hoernle on the black man's mind. As a result of evidence derived from studies of the Bantu peoples of Africa, Professor Hoernle concludes there is no reason for supposing any essential difference to exist between the white and the black man's mind.

"As regards power to assimilate the white man's civilization," writes Professor Hoernle, "the available evidence is for, rather than against, the Bantu. On the material side, de-tribalized natives, living in town-locations are rapidly acquiring the white man's standards of life, in respect of clothing, housing, furniture, games, etc. just as they are steadily acquiring the skill to use the white man's tools and machines—else whites would not find it necessary to erect 'color-bars.'

"On the spiritual side, let alone the spread of Christianity among them, individuals have successfuly sought and achieved higher education and a professional training in Europe and America. There are, e. g., some five or six medical men in the (South African) Union who are of pure Bantu descent; who have acquired their professional qualifications at Edinburgh and other good medical schools; who count both Europeans and Natives among their patients; and whose professional conduct has never been impugned by the General Medical Council."

Reciting the handicaps imposed by Europeans upon the native, and the obstacles in leaving one culture behind in order to conform to another, Professor Hoernle says: "Anyone watching the Native's progress at the present day with eyes not utterly unsympathetic will marvel rather that it should be going on at such a rate."

The essential difference between white and black at present, Professor Hoernle believes to be due to different social traditions and not in any way caused by difference in type or degree of intellectual capacity.

Status of Native Agitates South Africa and Britain

New York, Feb. 25.—Widespread discussion throughout the British Empire accompanies the effort of white South Africa to dispose of the status of the native through the "color bar" and land bills proposed by General Hertzog.

Negro Innocent Though Convicted

WITE VIRGINIA EDITOR POINTS MORAL

New York, February 25.—The National Association for the Advancement of Colored People, 69 Fifth Avenue, has received copy of an editorial published in the Virginia Pilot which points the moral of "speedy justice" for Negroes in the South and the lynching, legal or otherwise, of colored persons accused of crime. The Virginia Pilot's editorial in full is as follows:

A SOBERING LESSON

John Wilson, the Negro who was found guilty of the murder of Mrs. Ella S. Heath, of Olive Branch, and sentenced to die in the electric chair, appears after all to have been innocent. He is still in the penitentiary, and still, theoretically, in the shadow of death, but if the recommendation made by Commonwealth's Attorney Carney to the Governor is complied with he will soon be a free man.

The facts are as follows:

Mrs. Ella S. Heath was murdered on August 21, 1926.

On August 24 the court convened a special grand jury.

On September 1, the grand jury indicted John Wilson and Paul Green, alias Rat, jointly, and John Wilson separately.

On the same day, Green being then at large, Wilson was convicted and sentenced to die on October 22.

On November 26, Green was tried and found guilty of the crime and sentenced to the penitentiary for life. Meantime two reprieves had stayed the execution of Wilson.

The principal witness against Wilson having admitted that she lied, and Green having been convicted of the crime on evidence precluding Wilson's implication in it, the Commonwealth's Attorney, after "lengthy, careful and prayerful consideration of the facts in the case," has reached the conclusion that Wilson is not guilty and that he should be at once released from the penitentiary. On the face of the facts as they stand determined of justice, the conviction of Wilson was a mistake. Only the grace of God has prevented it from being a fatal mistake.

Here is a sobering lesson with a special moral for Southern justice. The murder of the aged white woman was a brutal one. Public sentiment was aroused to such an extent that when suspicion fell on Wilson, the judge of the Circuit Court, who shared the public safety and ordered him transferred to the Norfolk city jail. What might have happened had the court not acted promptly to remove this man to a place of safety and had the friends and supporters of the dead woman vented their wrath upon the prisoner, is a matter for speculation. But a shudder thrusts all such thoughts from the mind. Negro business handed first page Wilson this year is hard to avoid. Will any one ask how many innocent men

Rules of the Contest

The conditions under which manuscripts may be entered in the contest are as follows:

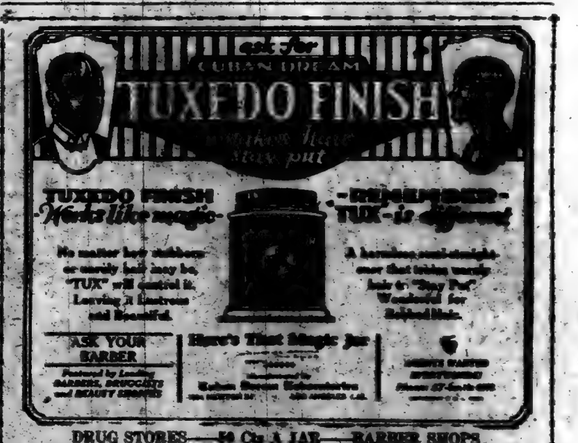
1—Manuscripts must be plainly marked on the outside of the envelope as well as on the manuscript itself with the classification for which they are intended.

2—Manuscripts must be legibly written in ink and preferably printed music paper should be used.

3—An assumed name must be written clearly upon the manuscript, and the envelope must contain the assumed name which appears on the manuscript, and no other writing whatever. *The sealed envelope must accompany the manuscript and not be sent separately.*

5—The employment of the Negro musical idiom melodically, rhythmically and harmonically will largely influence the judges in determining the winning compositions, although quality of musical thought and workmanship will be the first consideration. The Negro idiom is preferable but not necessary.

6—The contest is limited to Negro composers of American citizenship. A composer may enter as many compositions as he wishes in each class.



7—Contestants are urged to keep an extra copy of the submitted compositions. Manuscripts will be returned only upon request and when the necessary amount of postage is enclosed in the sealed envelope with the real name and address of the contestant. Every possible means will be used to safeguard the manuscripts but the Robert Curtis Ogden Association assumes no responsibility for lost manuscripts.

8—The copyright of the successful manuscripts of each class shall remain the property of the Robert Curtis Ogden Association for six months after the award shall have been made, at the close of which time the copyright and all other rights in these compositions shall revert to the composers. The original manuscripts of the winning compositions shall, at the option of the Robert Curtis Ogden Association, remain the permanent property of said association for filing in its archives, this, however, not interfering in any manner with the rights of the compositions reverting to the composers at the expiration of six months, or sooner, at the option of the association.

9—The rights of public performance of the winning numbers shall be vested in the Robert Curtis Ogden Association for the period of three months.

10—All compositions submitted in the contest must be in the hands of the Robert Curtis Ogden Association not later than June 1, 1927. Address

Mr. Kahn's offer requires a gift of $10,000. The city has agreed to do this and it is hoped that the gift will be made in time to secure the building for use this year.

CONGRESS MEANS LITTLE TO CITIZENS OF COLOR

Washington, D. C. (Special to the A. N. P.)—The 69th Congress of the United States, sputtered, fumed and finally droned away last Friday, with the senate locked in the death grip of a filibuster over "Mussolini" Reed's election investigation committee, while the house was witnessing the spectacle of a southern democrat proposing the name of its republican speaker for president.

Few congresses have accomplished so little. Some of the most important bills of the session were lost in the parliamentary battle occupying the last few days, among them the general deficiency bill carrying provisions of the utmost importance to veterans of the world war, farmers north and south as well as public building projects which would have released a flood of money into various cities and helped somewhat the unemployment situation throughout the country.

Negroes must have viewed the 69th Congress with mixed feelings. Not a single measure, which might be construed as of especial benefit to the group, passed. The immigration quota bill became a law, controlling future immigration on the basis of the number of nationals already in America. This measure which takes effect in 1928 will restrict somewhat the quotas from northern European countries. The south opposed it unitedly. Many well informed Negroes contend that while a few more foreigners will be admitted under the new law, they had rather see members of the latin races coming to America than those of the English and related nationals. The former do not fit so well into the channels of national prejudice. Skilled workmen in northern cities claim that the English artisan is the most intolerant of any that come to America.

The Watson-Parker railroad labor bill backed by the Republicans and Democrats alike took away the old railroad labor board under which the Negro railway workers had made repeated gains and substituted therefor machinery more difficult to manipulate. The Pullman Porters have the first case on record before the new tribunal and they are matched with able leadership and counsel. Onlookers are waiting to see what they can accomplish.

There was hope when the fight came up in the senate over the seating of Frank L. Smith, senator-elect from Illinois, and William S. Vare of Pennsylvania, that it might react to turn the spotlight on disfranchisement as practiced in the South. The Democrats fighting to unseat these Republicans, Smith, Vare and Gould of Maine, expected if successful, to gain control of the senate. They flung themselves behind the effort to continue during the summer the "Mission" Reed committee, which had uncovered the slush, in the hope that it would dig up still more material embarrassing to the Republican party. Southern senators, the Heflins, Carraways, Harrison and others of their ilk, everyone of whom also in the senate is a fraud tainted seat due to the nullification of the constitution in the states which they represent, insofar as Negro voters are concerned, railed loud and long about the sanctity of the senate and cast reproaches on the north for its money controlled elections. The Republicans, never able to stand up under the lash of the South, continued in their seats, inconsistent, vacillating in a half hearted way when it came up the matter of Negro disfranchisement and retaliation, but the Democrats laughed at them. Too long have they sat supinely by and even connived in the practice by their silence of the unconstitutional and illegal disfranchisement of the crackers and hill billies from Georgia, Mississippi and Arkansas. Reed, the red-faced senator from Missouri, who hopes to ride into the Democratic nomination for president on the publicity which he is getting in his committee's investigation of Republican elections, when threatened by Senator Reed of Pennsylvania with an investigation of Southern elections, laughed contemptuously and said, "If the Republicans control such an investigation in good faith, it would have been had long ago."

The "anti-lynching" bill was not even brought up this session, even to be introduced by members and representatives from Negro districts, who wanted it as a campaign issue. Senator Moses, who is one of the best public sons in the senate, hailed Heflin of Alabama who made the fourth filibuster of Mississippi, by his anti-Catholic and anti-Negro tirades. Every mention about Heflin's connection with the anti-lynching bill and referred to him as being a "scare to the Negro race" brought a Washington street car driver, who became a voter returned to the senate

Commits Murder To Maintain Reputation As Hard-Boiled Gunman

A mere youth was murdered by Special Officer, Brown, employed by the West Coast Theatres, Inc. On last Monday evening Officer Brown in his attempt to eject Richard Harper and his boy companion from the building, someone struck him. He accused Harper, whereupon, Harper is alleged to have run away from Brown who chased him outside the theatre, firing a bullet into Harper's back inflicting a fatal wound. Harper died a few minutes later upon the operating table at the Receiving Hospital.

Several eye-witnesses testify that Brown was not pounced upon by a crowd of youngsters as one of the West Coast Theatre employees testified. The dying youth's statement was that he did not strike Brown but simply tried to get away from his grasp, which he succeeded in doing.

Brown stated to Officers Kimbrough and Green that he was knocked down on the sidewalk and pounced upon by eight other boys and when he got in his feet he was so blind from blood and grime that he didn't know which way he was shooting, but just shot and his victim happened to be Richard Harper.

Evidence introduced at the coroner's inquest tended to show that Brown had a chip on his shoulder for this young man. Harper was a high school youth of only 19 years. He was popular among his school and club friends. He had never been in trouble before and bore a good reputation.

Brown, is noted for his promiscuous use of his gun; this is the third youth he has shot or attempted to shoot. Just a few months ago he shot and wounded a high school football star. Brown is being held for murder.

MRS. MINNIE DAVIS INJURED IN AUTO ACCIDENT

Mrs. Minnie DeVis, well-known social worker who conducts a girl's school at Duarte, Calif., was the victim in an automobile accident last Monday when on her way in the city the machine which she was driving was struck from the rear by a large truck. The machine was totally wrecked and Mrs. Davis received painful cuts and bruises. The accident from death was a miracle. Surgical indeed for Mrs. Davis's head were broken and she quite remained in bed, is getting on as well as could be expected.

Prominent White Citizen Passes Away

WIFE OF RETIRED BUSINESS MAN LAID TO REST

The relatives and many friends of Mrs. Merriam Reagan, for many years a citizen and resident of Long Beach and Los Angeles were shocked to learn of her recent passing at the family residence, 2305 West 6th St., this city.

While her illness was of a protracted nature she having been in failing health for several months her passing was somewhat of a surprise to most everyone.

Mrs. Reagan was a woman of sterling quality, high ideals and a pleasing personality. Willing and ready at all times to assist in an unassuming manner any worthy cause.

Prominently active and associated with yester-year's affairs she at the time of her death led a retired life with her husband, Mr. John C. Reagan whose name previously to becoming a citizen of California was a landmark in Colorado.

Mrs. Reagan who had traveled extensively abroad at various intervals early became acquainted with the psychology of life, individuals and races and was an interesting person to encounter as regarding information along such lines.

She was a friend in the broader sense of humanity in general irregardless of race or creed.

Mrs. Reagan was a native of Kentucky and became a resident of this state some years ago, locating in Long Beach and later in Los Angeles.

Southern California in general, the cities of Long Beach and Los Angeles in particular, have lost in her passing a noble, honorable and upright citizen. A character whose life might be well for all to try and emulate.

Plain and impressive services were held on last Tuesday afternoon at the little church in Forest Lawn, Glendale and interment was in a crypt bedecked with many beautiful floral offerings in the mausoleum, token of the deep esteem in which she was held.

The immediately family has the sympathy of the entire community.

ACE FOREMAN, AFTER MAKING REPAIRS, WILL RESUME TRANS-CONTINENTAL FLIGHT TO NEW YORK

Owing to the fact of the rare skill and courage of Ace Foreman, race aviator, the good people of his home town are making it possible for him to resume his journey which was interrupted by his forced landing near Salt Lake City, caused by a frozen motor. On last Tuesday funds were sent to him for the needed repairs for his ship. After due investigation by persons whom Foreman does not know, we can announce that his version of his flight to the capital is absolutely true, and further that the funds sent him, or requested to be sent, are absolutely essential to complete the repairs on his ship.

Therefore we are asking for the people and organizations which have not contributed to this fund to do so at once that he may again take the air not later than next Tuesday. It has been his fondest hope, despite his delay, to reach New York Sunday the 13th. However, he is dependent upon the home folks, and cannot leave until the expense of repair has been paid.

Every penny collected we guarantee to be used for the purpose of aiding and assisting this young man in completing his journey by air to New York, thereby not only achieving signal credit for himself but establishing a precedent for all time that Los Angeles race people have produced the first member of the group in the world to make such a flight.

Response Most Noble

The Volunteer Committee to raise the needed funds for the succor and relief of this intrepid youth is composed of Dr. H. C. Hudson, Dr. Albert Baumann, and Editor J. B. Bass. Dr. Hudson has spared no effort and worked incessantly in the premises. Dr. Baumann likewise, has been of great service and enthusiastically supported the effort. Dr. Gregg of the Independent Church; Dr. Shaw of Wesley Chapel; Dr. Griffith of the Second Baptist Church; The Exclusive Thirteen Club; and individuals have responded. Between this and Monday the Committee must raise at least $200.00. Other churches and individuals and organizations have signified their intentions to help the cause; therefore on Monday, we are satisfied, the people will make it possible for the amount needed to go forth and by Tuesday Mr. Foreman will resume his flight.

In our next issue the name of every contributor and the amount will be published, and the disposition of the same.

The committee, in order to confirm the reported situation, sent the following telegram to Rev. R. H. Harbert, pastor of the A. M. E. Church, at Salt Lake City:

"Rev. R. H. Harbert, 634 5th East,
"Ace Foreman, race avitor, reported arrival in your city Tuesday. Badly damaged motor.. We are raising funds for him. Want assurances that things are as represented. Kindly investigate and wire immediately to help us in our plans to help him. He is stopping at 359 West South Temple Street.

"J. B. BASS."

We received the following reply which speaks for itself:

"1927, Mar. 9, A. M. 11
"Salt Lake City, Utah.
"J. B. Bass, Eagle Office, Central Ave.,
"Los Angeles, Calif.
"Investigation shows that one hundred fifty dollars more is necessary to finish repairs on motor and start him on journey again. Don't hesitate.

"R. H. HARBERT."

Another telegram from Foreman reads:

"Grateful indeed for $150 sent and will proceed with repairs. When balance comes will proceed on to New York and Los Angeles will be proud of us."

"ACE FOREMAN."

Another letter giving his experience when motor froze 8000 feet in the air. And what sort of a ghoul is it who would for one moment doubt a young man who has accomplished even what he has thus far.

"Salt Lake City, Utah, March 8, 1927.

"Mrs. Alice Chapman, 354 S. Central Ave., Los Angeles, Calif.

"Dear Mr. Baumann:—

"I am in Salt Lake at present, hoping to get away as soon as possible. Have had a little tough luck, not enough to get discouraged, but just enough to delay me a few days.

"My trip was a very easy one until Tuesday afternoon when I was nearing Salt Lake when I ran into a storm in the Wasatch Mountains. The snow began falling very lightly, so I climbed higher to get above it, but it seemed to get thicker the more I climbed, so there was only one thing for me to do and that was find a place to land and be quick about it. Then I had to do something as I was in a mountainous country, and it meant a safe landing or work my cause. So I began circumnavigating, I landed at 6,000 feet through a tremendous snowstorm. I am really lucky to be alive. As I descended I met pretty hard in the motor, so I shut it down to a very low speed, and really I had designs about each tree I came into, but God, knowing my heart, He made me safe and gave me a good landing. I am now at Salt Lake at present, hoping to get away as soon as possible. Have had a little tough luck, not enough to get discouraged, but just enough to delay me a few days.

IS THE NEGRO CHURCH DETERIORATING?

The other day, I had a long drawn out conversation with a friend of mine who has had long experience in the Christian ministry, and who possesses a comprehensive grasp upon the general movements of the time. He is well versed in the traditional theological learning, and may be called a fundamentalist with modernist tendencies.

That the Christian church as a whole is apostate to the principles of the founder is a widely accepted belief. The World War furnished proof ample of this proposition. Let the theological adepts, if they can, point out upon what concept of Jesus this titanic struggle was waged. Christ cautioned that you cannot serve God and Mammon; the present day church elects to follow the latter. But perhaps the simplest test of the Christian creed is to be found in its missionary application. The so-called heathen, in all parts of the world, are repudiating the missionary's gospel because of the break down of his teachings in the home land. The heathen mind in its unsophisticated state, is severely logical. A people who profess to follow a religion which proclaims—"thou shall not kill" must not kill ten millions of fellow professing Christians, and expect the heathen Chinese to be impressed with their moral consistency. A nation which boasts billions on top of billions need not expect the heathen mind to head the preachment—"lay not up treasures on earth." When Christians, lynch other Christians because of the color of their skin, they need not deceive themselves that they are doing the will of Him whom they call master.

I spoke to a white audience recently on Christianity and Race, pointed out to them the amazing inconsistency between the professed principles and actual practice of the ordinary white Christian. If Jesus should come to Washington, the capital of the great extant Christian nation, under the guise of a colored man, how would he be received? The Christian proprietor of the great hotel would slam the door in his face. The Christian restaurateur would give him no meat; the proprietor of the dog store would give him no drink; he would find no welcome in a single white Christian home. If he sought Christian fellowship and made application for membership in any one of the churches which he died to establish, the pious priest who worships in his name, would point him to some little colored church around the corner, courteously pointing out that this church is for white Christians only to the exclusion of condescendents of his color.

The attempt to reconcile Christ and caste, creed and color, is a hopelessly impossible undertaking. The white Christian may indeed do these things, if he thinks he must, but the Negro must never let him deceive himself that he can do so and remain true to the gospel of the meek and lowly head of the Church. But let not the Negro professing Christian assume any spiritual superiority because he is not disposed to this particular mode of apostacy. May be not practice other forms of apostacy which are just as revolting to the pure and undefiled gospel which Jesus released for the guidance of the world?

My learned friend and myself discoursed at length upon the effect of the doctrine of evolution upon the lapse of faith. It was my good fortune to hear the late William Jennings Bryan, in what I believe was his first important pronouncement upon this great theme. It was while he was on his western lecture tour in 1920, at Twin Falls, Idaho. He stated that Darwinism had undermined the faith and morals of the rising generation. There has raged bitter controversy about this proposition. Modernists and fundamentalists have arisen, each defending his view with hearts of controversy. But so far, no one has yet undertaken to dispute, much less to refute, Bryan's basic proposition. I am an avowed evolutionist and have been ever since I was in my teens, and yet to me the lamentable fact is too painfully apparent. Science, whether rightfully or wrongfully interpreted, has frustrated the religious belief of the rising generation. It has weakened the authority of the Bible as our father's interpreted it, without pulling any other interpretation, with like sanction in its stead. Darwinism will doubtlessly prevail. Science will win, as it always has done, in its historic conflict with religion. The church will execute or adapt itself to interpret the teachings of science satisfactorily to the rising generation. But the period of transition will experience great suffering and

ST. LOUIS RISES IN PROTEST

St. Louis, Mo., (Special to the A. N. P.)—Conrad Paeben, the white Poro receiver, has discharged two more Poro employees, one for many years the secretary of Mrs. Malone. Those who have lost their jobs thus far are Edgar McDonald, office mgr.; Chas. S. Stone, personnel manager; Mrs. A. H. Stevely and John L. Procope, a bookkeeper.

These sudden dismissals together with a series of other high handed acts at Poro College have aroused all St. Louis to a realization that the very perpetuity of the organization is threatened. From the start, the tactics of the received have shown how ill advised his appointment was. Though a lawyer, and ordinary type politician, Paeben, who it is said is a former hack driver, actually appears ignorant. He talks condescendingly to the employees, threatens and storms about and with some differences in degree, acts, it is said, like a prototype of Simon Legree. A different kind of man would have gotten along very well at Poro, but Paeben's attitude is unfortunate.

Ministers of the city, Baptist, Methodist, and of every persuasion, preached on Poro last Sunday morning. At staid St. Paul when Rev. Noah W. Williams, the pastor of Aaron E. Malone, and long his friend, finished the morning sermon on what Poro meant to the race, in which he condemned Malone's actions and ended with a tribute to Mrs. Malone for her accomplishment, the audience disregarded tradition and stood cheering. Rev. Williams proposed a mass meeting of St. Louis citizens to protest against the receivership and the threatened dispossession of Mrs. Malone.

Paeben, accompanied by S. E. Garner, a colored attorney, who was named 'Attorney For-The Receiver" has even taken charge of the chapel services at Poro, where he lays down the gospel, perverting occasionally a bible quotation to suit himself. Recently he said, "To him who hath shall be given and to him who hath not, even that which he hath, shall be taken away." He told the employees that "Loyalty to Poro College means loyalty to me." He advised the employees "Pay no attention to what you see in Negro (newspapers."

Some of the definite charges made against the received are that he had a check for Five Hundred Dollars ($500.00) drawn in favor of himself. Mrs. Malone's lawyer, Mr. Kirby, hailed Paeben before the judge, Master Hartman, and demanded to know what the receiver was going to do with the check. Paeben refused to tell, saying he would explain to the judge in private. Friday he returned the checked uncashed to Poro.

It is said that Receiver Paeben has taken personal charge of opening the mail at Poro, using a colored night-watchman, whom he recently hired, to assist him. Much of Mrs. Malone's personal mail has been opened, according to rumor, which also explains because of her close relationship with the business, that many agents write Mrs. Malone personally.

Paeben probably finds it hard to understand the brethren. In an effort to ingratiate himself, he takes Mr. Garner with him every morning on a round of the departments and stops to smile and get from each employee a "good morning." Attorney Garner, charged by some with instigating the dismissal of [illegible] McDonald and Stone, strenuously denies it. Mr. Garner, who has practiced here for several years, formerly was a resident of Mississippi, where it is said he was well known. Citizens here are awaiting March 21, Monday of the next hearing, almost with bated breath.

UP-TO-DATE SERMONS

THE POWER OF A RISEN SAVIOR

"All power is given unto me in heaven and in earth."—Matt. 28:18.

The disciples had found out that Jesus of Nazareth was the Savior of the world. The truth of this had been revealed into their hearts by the Spirit of the Father. Matt. 16:16-18. And he assured that nobody gets hold of this gracious truth but those to whom it is divinely revealed. "No man can come to me," said Jesus, "except my Father draw him."

WHAT POWER MEANS

Now power in the New Testament translates two Greek words, one meaning "force," the other meaning "authority." The one expresses the ability to make things happen, to remove obstacles and change conditions. The other expresses the ability to get things done and to see that other things are not done. Force and authority.

Now the word used here by the Savior was exousia and meant authority. But since all authority in heaven and earth was given to him, the put all dunamin, "force," at His command. The word used expresses the Savior's heaven-given right to be King of Kings and Lord of Lords, "angels, principalities and powers being subject unto Him."

ALL POWER HIS

The salvation of the soul, the indwelling of the Spirit, the earnest and seal of same, the healing of diseases, the conquest of the nations by gospel truth, the resurrection of the dead, the final dispositions of eternal judgment, all hinge upon this declaration of our risen Lord, "all power (authority) is given unto me in heaven and in earth."

POWER LOST

These disciples had seen Him in great power. They had seen the wind and the sea obey Him. They had seen diseases of the most malignant nature change to health at His word. They had seen death give up its prey at His presence and command. They had seen multitudes hang upon His words at a time. Then they had seen the tide turn. Like Samson, his strength had become as that of another man. He had been condemned as a malefactor on false evidence. He had been lasht like a slave. He had been convicted of heresy and blasphemy. He had been denied, ridiculed, spat upon, then crucified. He had died crying that He was forsaken of God as well as men. He had left His followers pitifully humiliated.

POWER REGAINED

But now arisen from the dead, He makes them know Him, and proceeding to leaven them to be the salt of the earth, the light of the world, the preachers of salvation. He assures them that He has gained more than He had. All power in heaven and earth was now given to Him.

WHO BELIEVES?

It is such a Savior that we trust and preach and follow that we believe in and love and rejoice in. His powers, His blessings are all ours now for the asking, not mere tongue asking, but the asking of faith.

Do you believe in Him? Is He real in you? Whom having not seen ye love, said Peter. Do you believe in His resurrection? Do you love Him? Have you committed your soul, your life, your affairs to Him? It's a great thing to do. Judas was not so committed—Peter and James and John and Jude and Mary and Salome and a host of others.

Great Revivalist Here

Rev. B. C. Calvert

Rev. B. C. Calvert of Jackson, Mississippi is conducting a soul stirring series of revival meetings at the Birch Street Christian Church, corner 14th and Birch Streets. The meetings began February 27th, and will run to March 27th. Rev. Calvert is living up to his national reputation for saving souls and all are urged and welcome to hear him. Come, hear the unadulterated gospel preached with fire and force.

Emanuel Hall will have charge of the singing commencing Sunday.

A. W. JACOBS, Pastor. 3-4-1

He came to earth and brought us a great salvation. This salvation is in Him—not in great or gifted men or women, not even in Moses and Elijah but in Him. The authority of it is His, the force, the might of it is His. The glory of it is His. They who love Him enjoy it.

RIVAL POWERS

Now Science and Art and Wealth and human organization and religious cults and governments, these claim authority. They are reaching after the dominion. They are trying to undermine His word and make Him the minister of sin and the author of human misfortune; but the refuge of lies shall be swept away. Isa. 28. "Jesus shall reign where'er the sun doth his successive journeys run. His kingdom spread from shore to shore, Till moons shall wax and wane no more."

They call Science the handmaid of religion. She was once, maybe, but now the handmaid wants to be the whole show. She is trying to usurp the house. She is the handmaid of unbelief, the mother of pride and death and irreverence and irreligion. She is no longer careful to make this claim, that of handmaid to religion. She claims truth as hers. Her discoveries have deceived her heart. Her converts are declaring her the light of the world. It is a dark world offering us a dark future. Mind not high things, Jesus said, "I am meek and lowly of heart. Come to me and I will give you rest. Lets go to Him. Try Him out. Push His claims. Know Him and tell the world about Him. Give Science her dues, but follow not her vagaries. Stick to Jesus.

"Al power is given unto me." Yes, but men must have faith in that power if they would be benefitted thereby. Have you His faith? O, I know Science is not holy. You don't have to be born again to follow her. She is therefore easier to believe and follow and worship. But she leaves you where she found you—in death. She has for you no heaven, no future glory, no compensation for your sufferings here, no reward for holiness, no incentive to goodness. She leaves you in darkness. For a few old bones and a few mental vagaries and a few deadly inventions that complicate life and make it a little easier, she robs you of eternal glory. Jesus saves from all this and changes the sinful nature into a holier one. Lets try Him out. O believe and be saved. You'll never regret it.

THE BIG GOSPEL TENT

Sunday night, March 13th at the BIG GOSPEL TENT, 20th and Central Ave., the Evangelist Pastor, F. G. Rodgers will present a stereopticon sermon entitled "WITHIN THE VEIL." No subject could come more appropriately after the subject of last Sunday night on the question of the office gifts of the HLY GHOST.

These sermons at the BIG TENT are strictly Biblical—without the private—personal interpretation that sometimes goes with such deep subjects like as are present at the Big Tent. All lovers of a straight forward intelligent Gospel sermon should attend these Sunday night services at the Big Tent. The song services begins at 7:30 and the preaching at 8 P. M. sharp. Short services and everybody made to feel at home.

Five Friends

Tom is the leader.

It looked as though they'd be late for the ball game one Saturday afternoon.

Tom stept to the curb and hailed a passing Yellow cab.

They all got in. They arrived on time. They were surprised how little it cost. Now wherever they go they ride in a "Yellow" and divide the fare.

Five ride for the price of one.

Judge Guy F. Bush Announces His Candidacy

Formal announcement was made yesterday (Monday) by Judge Guy F. Bush of his candidacy for retention on the municipal bench, "office number 9" being the new official designation of the department in the municipal court in which the candidate is presiding.

In recognition to the debt which Judge Bush feels that he owes his aged uncle Charles W. Tabor, a retired attorney now living in Hollywood, the judge dispatched a special message to Mr. Tabor stating his decision to seek election and giving the uncle credit for much that the years have brought both to Judge Guy Bush and his twin brohter Eli F. Bush, an attorney also residing in Los Angeles.

"You thought enough of us two harum-scarum boys to give us the money that made possible our course at the University of Michigan," the message said in part. "Without that faith and without your unfailing counsel we could not have accomplished what we have. Your peculiar integrity and high sense of honor manifest all through your law practice have been a guide and inspiration to me, because of your generosity toward me and my brother. I want to take this occasion to say that your faith in me has made it possible for me to reach the judge's bench and I hope that I may be worthy to continue in that position."

Judge Bush graduated from the University of Michigan in 1906 and was admitted to the bar in Michigan in 1909. Two years later he was admitted to the bar in California and practiced law in Los Angeles from that date until his appointment to the municipal court bench by Governor Richardson. The judge is a member of the state and local bar associations; the Temple Baptist Church, Masonic Club, University Club, Brotherhood Club, and the Electric Club. He is a trustee of the Temple Baptist Church and vice-president of the Los Angeles Baptist City Mission Society. Mrs. Bush is a noted singer and is prominently identified with various Los Angeles musical organizations and women's clubs.

AS A DEPUTY DISTRICT ATTORNEY

In 1923 Joseph Marchetti was first appointed a deputy district attorney by District Attorney Asa Keyes and assigned o the trial of cases. Commenting on his work in this office, Mr. Keyes said:

"The work which Judge Marchetti did while there, was splendid. He was a most successful prosecutor, possessed of a good, active legal mind, had wonderful court presence and exercised unusual judgment in all matters assigned to him."

Announces Candidacy To Succeed Himself In City Council

Councilman Otto J. Zahn announces he is standing for election representing the Tenth Council District.

My long experiences and participation in civic work and a lifetime acquaintance with Los Angeles, her problems, her progress and political knowledge, has made my work in the City Council no experiment but a record of accomplishments.

I have now to offer, in addition, the experience that two industrious years have given me. I believe I can serve you better than could a new person, who must be broken in, and that it would be poor economy to waste the experience I have had.

I am a native son, a Mason and a member of a church, and belong to several clubs and associations. I am a taxpayer and property owner and am at your service for the district.

SANBORN WILL STAND RE-ELECTION

In response to the gratifying requests of many constituents of the Ninth District, asking me to agn be a candidate for the City Council, I have decidede to enter the race and stand upon my past record of achievements during my eight years of continuous service.

I wish to thank my thousands of friends and supporters in the past and hope to receive their support and confidence in my campaign for fifth consecutive term in the City Council.

W. J. SANBORN.

R. Morgan Galbreth

Judge R. Morgan Galbreth, a resident of Los Angeles since 1887, has been actively connected with civic matters in this city since he enlisted Company A of the Regiment that went from Southern California in the Spanish War in 1898. A graduate of the Los Angeles High School and the Law College of the University of Southern California. Admitted to practice in 1913, he engaged in general civil practice to turn to appointment in the Municipal Bench in February, 1923. His departments have handled civil matters with courtesy and dispatch and the members of the bar found Judge Galbreth very considerate and patient.

He is an Elder in the Presbyterian Church, a Mason, and has been very active in Veteran affairs, having been Department Commander of United Spanish War Veterans of California during 1922. His family consists of a wife and two daughters, one attending Marlborough School and the other a recent graduate of the Los Angeles High School.

PASADENA NEWS

TRYING TO MAKE GOOD

George Edwards, a youth, is making an honest to goodness effort to make good at the business he has chosen for a life's work, that of a landscape gardener and a constructor of new lawns. To better equip himself that he might meet the demands of the public he is taking a course in landscape designing under Mr. Kidner, designer of the Horticultural Department at the Pasadena High School. It is very pleasing that you see one of our boys that will pursue a like part of business and with the effort he is putting forth he needs your encouragement. Since the time is ripe for planting flowers and renewing lawns why not give young Roland a chance? As a matter of fact the reason so many of our youth are vaguely discouraged is because of the non-support and encouragement given them by those of our group. The Eagle representative in conference with Roland was appraised of the information that he had not received but a little patronage from his own group yet we wonder why our boys don't make good; the answer lies within yourself. George has flowering plants of all descriptions for sale and of the better variety and why not patronize him when you want anything in his line and encourage this youth? Not only can he raise flowers but is known for his ability as basket ball player who made an enviable reputation while in the game. Let's get behind young Roland and help him make good. He could have chosen a vocation much less appreciative than the one he has chosen but his intentions are good and why not help him to develop them? Help your youth.

At a mass meeting of the men of the church Sunday afternoon in one of the departmental rooms of the church when more than 40 men were present, Dr. W. R. Carter addressed the men from the subject: "Man Power," which he very ably handled to the delight of the men. The occasion was the getting together of the men of the church preparatory to making a drive for members to the Bible School on Sunday mornings. The goal is for 100 men and the already organized Russian class has been divided into two parts with a captain to each. Of course there will be a friendly vieing between the captains to reach the coveted goal. The names of the divisions are Los Angeles and the Shenandoah, with Mose Humbert and A. Barton as Captains respectively. You may look for great results as both sides say they are out to win.

JOHNSON AND GORDON IN PROGRAM OF NEGRO SPIRITUALS THIS AFTERNOON

The deep emotion and haunting beauty of Negro Spirituals will be revealed this Sunday afternoon at three when J. Rosamond Johnson and Taylor Gordon will give their only Los Angeles program in thme Philharmonic Auditorium.

Johnson is one of the foremost Negro musicians who combines with most complete training, the musical talent of his race as well as the heart-affinity for the tunes of his people. A graduate from the New England Conservatory, conductor at Hammerstein's Opera House in London, Johnson has devoted the last nine years to making an authentic collection of Spirituals.

Making an informal appearance with his friend and collaborator, Taylor Gordon, brilliant tenor robusto at the New York Music School Settlement, theirs was such success that at the encouragement of men like Damrosch and Stokowski they have turned research work into concert programs of unsurpassed success.

So popular have proved the Johnson-Gordon programs that one of the leading New York publishing houses has issued their collection of Spirituals. As no other collectors Johnson and Gordon have caught and preserved the subtle inflections and delicate colors of melodies and harmonization. Tomorrow's concert will offer these fine instance of realism in Negro music, as Gordon has uniquely comb' to Andy them, his mother having been renowned a generation ago as the best singer of Negro melodies in the South.

through the motor thus causing overheating and the knocking was of such force, and vibration so great, caused by motor not firing properly I thought I might throw the propeller or tear the motor from the plane, so of course there was only one thing left for me to do, and this I did immediately. I turned off the switch and glided from an altitude of 2000 feet with a dead motor. I landed safely without any damage to the ship or ourselves. We are just a few miles out from the city, but had to walk about five miles through the snow to a railroad, but I am all together, and I don't feel any the worse from my experience.

"When I sent the telegram I didn't know exactly what was wrong, but at the writing of this letter I have the motor down and I have found that the crankshaft bearing is burned out, two wrist-pins cracked or broken, and three cylinders cracked. All of this work can be done by my mechanic and myself, consequently I will not have to get another motor, and this can be done for a little less than I stated in my telegram.

"Dr. Baumann, if you people in Los Angeles can do anything I certainly wish you would as your assistance is certainly needed now. It will take about $200 to repair motor, and unless I have the motor everything will be lost because I can't get away without a motor, and the ship will have to stay here because I won't have the finance to have it shipped to Los Angeles. I hope I will be able to complete my flight as the hazardous part of the journey is over now.

"Dr. Baumann, you see Dr. Hudson and Mr. Hass, and Rev. A. P. Shaw. See what you men can do. I wouldn't ask this of you people, but when I left Los Angeles, I scarcely had gasoline money, and you know how many people were out to see me leave. I started not to "take off", but I hated to disappoint the crowd.

"I have the motor torn down and can get parts here at an airport as soon as I receive the money. The flight has been wonderful up to Tuesday afternoon when I struck that snow storm. But regardless, I started for New York, and that's where I am going. Do what you can, Doctor, as I am depending upon you people back there. Hoping to receive an early reply, and thanking you for the interest you have shown, I am,

"Respectfully,

"ACE FOREMAN.

CONGRESS MEANS LITTLE TO CITIZENS OF COLOR

(Continued from Page One)

car incident, explained that he paid $2000 in doctor bills to keep the Negro whom he shot from dying. He said the Negro aroused his Southern chivalry by lurching against a white woman passenger and defended his opposition to the anti-lynching bill by saying it had been introduced by Northern Republicans in the House to capture Negro votes, and that it would expose white women to "the unmentionable crime." Heflin recently made a speech of two hours in the Senate, confined to telling dirty stories on the Negro which brought constant laughter from Democrats and Republicans alike.

The senate confirmed during this short session Minister to Liberia, James G. Carter. It was about the only constructive racial action taken. The Liberian appointment was one of the few opportunities which the administration had, to play politics, but it turned down the many political applicants including "Billie" Francis of St. Paul backed by the colored advisory committee of the Republican National Committee. The passing of the 69th Congress finds the political fortunes of the Negro at low ebb, and colored Washington watches it go with a sigh of relief.

IS THE NEGRO CHURCH DETERIORATING?

(Continued from Page One)

tion and lapse from the faith of the fathers. It seems that the offense must needs come; but woe unto that generation by which it cometh.

If we could take a census of the actual, bona fide religious belief of young people in our high schools and colleges today, it would startle the elders almost beyond recovery.

This is just as true of the Negro as of the white youth. A deeper indoctrination in the physical and spiritual basis of things may restore the old foundation or perhaps lead to a still firmer basis for higher and better things. This is the only hope.

"A little learning is a dangerous thing;
Drink deep or taste not the Pierian Spring.
There shallow draughts intoxicate the brain;
But drinking largely sobers us again."

Our youth today are in the intoxicated stage. They got but a smattering of science and are not yet able to relate it to the whole question of life. But we cannot afford to imitate Bryan and deny them science altogether because of its harmful first effects. We must rather rely upon the sobering effect of the larger draught which will come with time. We decry the mad rush after wealth and pleasure as the dominant passion of our day. This is because the imagination is not dominated by a more fascinating ideal. Herein lies the task of religious statesmanship. It is needless to enter into any loud denunciation of the degenerate tendency of the time. You can never reform the heart and character of youth by condemnation; but they must be shown a more excellent way. Have our religious leaders the ability to do this?

Let me now speak more specifically of the state of affairs of the Negro church. I must first qualify as an expert. I presume that I have met with the ministry in all parts of the country as generally as any other living Negro layman. I have been equally acceptable to all denominations and have addressed ministers meetings practically everywhere.

The Negro church partakes of the general apostasy of the times. This is true of the laymen rather than of the clergy. There is not an avowed Negro modernist in America. If so, he must needs keep his modernity in the back part of his mind; for the good and sufficient reason that the older half of his congregation would repudiate him utterly. But the younger generation is shot through with the newer interpretation. There is an almost impossible task to hold them enthusiastically to the same mode of interpretation which the elders demand to satisfy their faith. The Negro clergyman deserves great sympathy in the dual task of such great spiritual complexity. The new issue has little or no spiritual passion; the older element demands little else than passionate presentation. How to quicken in the product of the high school and the college to the moral and spiritual enthusiasm which actuated their less educated forebears? Here is the rub.

If one attends the conferences and general meetings of our great denominations, he will be impressed with the thought that their energies are almost wholly engrossed with raising money and secular promotional activities. There is little spiritual vitality. The Negro churches, except the Baptist, are scarcely more than holding their own. I have been in Washington for more than forty years. The Negro population has more than doubled itself. The Negro churches, either in numbers, or spiritual force, have made little or no headway since 1896. All of our great cities are being baptized while the other denominations are looking on. The simpler mode of organization and less rigid directions, and account for this balance of advantage in favor of the Baptists.

The highest cost of religious advancement is to be charged by the impression which it makes upon the minds of the young generation. The older ones are passing away, and into the hands of those who are now coming on. Will they have the spiritual equipment to manage it? Who would like to regard the future of the Negro churches in Washington to the young men now in the Dunbar High School or those of Baltimore to the product of the Frederick Douglass High School or those of any other city to the rising intelligentia?

We are greatly concerned over the disgusting reports and rumors of misdeeds in high and low ecclesiastic circles. If those who now bear the burden of moral and spiritual leadership of this race of ours hope to have the best minds and character in the race take hold of the work which they must shortly lay down their mantles, let them with clean hands and pure hearts.

KELLY MILLER.

THE PRINCE HALL MASONIC CEMETERY

(Continued from Page One)

18 miles east, from the heart of the city and just 10 minutes drive by automobile out Telegraph Road, converted this land into a cemetery. This has been done, the survey has been completed,—a permit to conduct the cemetery has been issued and made permanent, and burials have taken place thereon already. The cemetery contains 1,641 graves, which are called plots, but the word 'plot' means an individual grave.

The cemetery was originally offered to the public under the name 'Paradise Cemetery' and in seeking the approval of the public they presented their plans to the interdenominational Alliance in which I was chairman of the committee to investigate the proposition offered. Remembering the humiliating experiences many purchasers of graves had in Roosevelt Cemetery, I saw the opportunity to make sure of a full protection of every buyer of a lot in this cemetery, and at the same time to greatly benefit the craft that has honored me with seven successive elections to the highest position in the jurisdiction,—that of Grand Master.

I have always been desirous of a Masonic Cemetery for myself, and those of the craft who might desire to rest with their families in a Masonic Cemetery. I therefore proposed change of name from Paradise Cemetery to Prince Hall Masonic Cemetery, and this of course under my perogative as Grand Master of the Jurisdiction.

My proposition was accepted, and happily the change of name did not operate to change the conditions under which the cemetery was opened and offered to the public. It is a religious and fraternal burying ground without restrictions as to race or color, and the change of name to Prince Hall Masonic Cemetery operates no further than to hold for the craft three sections therein, to wit, "A," "O," and "P," and leaves the entire remaining portion open to fraternities as such, to churches as such, and to the public in single graves, or in groups large enough to accommodate their burial necessities.

Adequate and proper provision for the perpetual upkeep of the premises is fully guaranteed and provided for, and this more securely than that of an cemetery in the city. It will be remembered that the craft as such nor any committee, body or sub-division thereof, has not, nor cannot assume One Dollar's responsibility in the matter of the purchase or sale of this cemetery, or for the upkeep thereof. The Prince Hall Masonic Cemetery will place the proceeds from the sale of 541 lots into a permanent investment of gilt-edged securities, the interest and income from which is to be applied annually to the upkeep of the cemetery.

Should the cemetery increase in size, and from the cordial response it is getting from the craft and from the public, this becomes at once apparent, the funds will be increased in proportion so as to forever guarantee its beauty and its appointments.

Already the cemetery is surrounded by a beautiful ornamental fence of an unusually good character; the roads are in, and the curbing and surfacing are now being completed. The landscape gardening has been contracted for the entire surface will be planted in blue grass with an abundance of flowers, trees and shrubbery. Paul R. Williams has been employed and has completed the plans for the chapel, which will contain accommodation for a congregation of a hundred at any service. The contract for the construction of this chapel has been let and May 29th, the corner stone thereof will be laid. The cemetery has its own water facilities and all of the latest improvements for cutting the grass, watering the lawns and shrubbery, etc., are being installed. The price meets a popular demand and conforms to the ability of every person in the community.

Your inspection, your co-operation, and your interest in this great progressive step are invited.

THE PROPER SPIRIT

We appreciate very much the spirit of so many of the public spirited citiens of our group who have so nobly come forth with their financial assistance for Joe Foreman in his effort to cross the continent via the air. If successful in his ambition it means much favor for the race in the estimation of the world and demonstrates that the Negro will sacrifice side by side with his white brother in the realms of scientific effort.

Thousands of lives of white men have been given that the air might be conquered and be made safe for travel and if Ace Foreman succeeds in landing on the Atlantic Coast truly the race will take no second place in this line of endeavor. His accomplishment will stand out greater than all others owing to the obstacles which he had to overcome in his worry to finance the effort.

THE MOB SPIRIT

The experience of the Hon. Clarence Darrow, the great criminal lawyer and friend of man, gives him even a closer-up view of the spirit of the mob. He was in the right place to receive it, down there back behind the sun in Alabam, where Heflin comes from, is one of the several uncivilized spots of America.

We feel that this first hand experience of Mr. Darrow will possibly start the machinery rolling for freedom and civilization in the Southland. When men will be just to their fellow man and even the most humble may go forward with an abiding faith that all America is safe to live in and to express themselves as they may in keeping with the tenets of the Constitution.

ANOTHER ACCOMPLISHMENT FOR THE N. A. A. C. P.

The Supreme Court's decision this week rendering void the Texas primary law was a signal victory for the N. A. A. C. P. which waged a relentless fight uppon this vicious law, for if it was possible to disfranchise a Negro who wished to vote at the Democratic primaries, any sort of reasoning would disclose that the same law could be effective against the Negro's voting at the primaries of any other party. Bully for the N. A. A. C. P.

WAITING AND WATCHING

We feel that in due time we will get word from Sacramento that the long dry spell has been broken for our group at the political trough and we shall be allowed to drink freely thereof.

War Declared on Lower Calif. Mexican Land And Development Company

(Continued from last week)

It has not been nor is it to be our purpose in this series of articles, to make an attack on the Lower California Land Company, but it is the system under which this company has operated, and the person or persons who instituted and help maintain this system that we wish to introduce to the public.

There are several persons connected with this movement who are honest in heart and purposes, who have stood firmly by this organization for many years and have put their best, honest efforts to make a success of it, although they have often been foolishly and ignorantly led, counting myself among the ignorant class to acquiesce in the many ill advised and ill framed propositions of this company.

Too often has the charge been hurled at the Negro race and too often has it been true, especially among the "higher up" that Negroes are gifted at debating and protecting their rights. The press is not the place to correct the evils of this company nor any other company. The Civil and Criminal Courts are the places that is where the stockholders of any company will go when the time seems expedient.

Referring back to the audit we had made to the stockholders and public at large that the records of that Hugh R. Macbeth, Theo. [illegible], J. H. Littlejohn, Louis H. [illegible], Claudius Troy, E. J. Roberts, [illegible] and E. Walker have been members of the Board of Directors of this company that this organization with the exception of Mr. Walker, they were those men who first instituted purchasers of the Santa Clara ranch and that a trust deed had been negotiated between these men and Senor Ricardo Romero, a Mexican citizen, for him, Mr. Romero to act as their trustee. Mr. Romero is these men's trustee and not the Lower California Mexican Land and Development Company's Trustee. To simplify this in your minds we would state that the Mexican laws are so framed that no foreigner can hold clear title to land in the domains of Mexico. Therefore for any American to acquire a piece of property in Mexico, he can only hold title through the offices of a trustee who must be a bonl fide Mexican citizen.

The records show that these seven men are in reality, the sole owners of Santa Clara ranch and that up until the present time no agreement of trust has been negotiated between these men and the Land Company. If such an agreement has been made and not recorded elsewhere Mr. Claudius Troy nor Mr. Littlejohn have ever signed it and therefore it would be illegal and null and void.

Now, what does all this mean? It simply means that the Lower California Land Company does not own the Santa Clara ranch and the person or persons who have purchased land from the above mentioned company have simply bought for themselves a great "white elephant" in plain English "nothing." If the Company owns nothing, how can they sell land to other people, and if they cannot secure title to the lands as American citizens, how can they furnish titles for other persons, whether this person be American or Mexican?

Personally I have been "stung" to the tune of $2200.00 in this proposition, in the purchase of stock, but I would like to say to my other "sucker" friends, stockholders, that the records do not show it to be worth the paper it is written on.

As previously stated in these articles, all of the directors have not been pleased with the affairs of the Company, Messrs. C. Troy and Littlejohn are much astounded with these revelations and have openly asked for a recession of the investors. I have a copy of a letter written nearly four years ago by Mr. Troy to the Company asking or demanding an audit of its books which there are others who have fought the shape of the bonus with such zeal suggested as "it is a foolish expenditure of money just now."

It is quite shocking when one pauses to meditate that with a great race and political leader a graduate of the law school of Harvard University, acting as chief councilor and advisor, and what not, that this organization has been allowed to drift in to such a complete and uncompromising "mess."

MANAGING EDITOR RETURNING TO NEWLY EQUIPPED AND RENOVATED EAGLE'S NEST

The Eagle Sanctum is all astir these days. Great preparations are being made for a right royal welcome at the Eagle plant for the return of the Managing Editor who has been absent for six months in the East.

Returning she left the home of her mother, Mrs. Catherine Spear, Providence, R. I., on February 14th, returning to New York where she had spent the winter at Columbia University. She left for Chicago on the 16th, where she attended, and was on the program of the National Negro Press Association. Leaving Chciago she filled a speaking engagement at Springfield, Illinois and visited Mr. Wm. Jones, pioneer resident of that city and the uncle of her husband, J. B. Bass. Leaving Springfield she was the guest of Mrs. Annie Malone of Poro College for ten days and made several addresses in St. Louis. She left St. Louis Wednesday 12 P. M., and barring a stop at Topeka, Kansas, will arrive probably Saturday or Sunday at her home amid the environs of the Soaring Eagle, which will welcome her "all dressed up" and certainly some place to go.

Capt. Geo. Washington Bright Will Celebrate His 65th Birthday

George Washington Bright

The celebration will be given at the Second Baptist Church, 24th and Griffith, on the 27th day of March, 1927, at 8 P. M. There will be speaking and music, and refreshments served free by the "B" shift of the Colored Fire Department.

Mr. Clark will be the toast-master, John G. Todd, Asst. Chief, retired, of the Fire Department will be one of the speakers, and Capt. Steve Corrolla of the Fire Department will be another speaker.

The following old pioneers, are among the parties sponsoring the celebration in honor of Mr. Bright: Jim Alexander, W. T. Harris, W. T. Lovings, S. Oliver, Bob Bryant (who was the first colored policeman of Los Angeles) and Mr. A. J. Roberts, undertaker.

Capt. George W. Bright will give a short sketch of his life as a self made man. Everybody invited.

William Solomon Passes Away At Phoenix

William Solomon, 20-year old son of Mr. and Mrs. William Matt Solomon 1661 East 23rd Street, passed away at Phoenix, Arizona, from a hemorage on last Monday evening at 8 P. M. to which place he went many months ago seeking relief from pulmonary troubles. For a time he seemed to improve, and strong hopes were held for his ultimate recovery.

William was of a kindly disposition and was not only idolized by his parents but by all who ever came in contact with him. He was born in Topeka, Kansas, went to Philadelphia, when two years old with his parents, remained two years when he came to Pasadena where he remained until forced to go to Phoenix. His decline was the aftermath of a severe attack of the flu.

His father, William Matt Solomon, is the foreman of the press room of this publication, while his mother is the Director of Religious Education for the Western Baptist Association, both of whom have the sympathy of legions of friends throughout the entire country in this their sad hour of bereavement.

Funeral services will be held Saturday from the Friendship Baptist Church of Pasadena of which William was a devout member.

BASKETBALL

The Post Office Eagles were trounced by the Hi-Y to the tune of 31 to 3 in the first game last Saturday night in the gym. Hicks of the Hi-Y being the high point man.

The poor Eagles stated for the bargain basement in the league never had a chance. They were here and there but the Hi-Y's were everywhere. Five busy boys had the symptoms of a society racer Ewen Ready to take the ball and leave proper trailing.

In the second game the Flashes beat the College Tramps in a thrilling battle royal. It had the gallery in a constant uproar from the start to the final whistle. It really had the earmarks of a battle royal with Hill and Dresden taking the event. Referee 'Jeff' Brown chasing them to the showers for unnecessary roughness.

Mark Lewis and Quinn started for the Flashes and Brice Taylor and Hill for the Tramps. Score 21 to 19.

This Saturday night will see the T. M. D's. vs. Eagles and Hi-Ys vs. Flashes. The Y. M. D. should have little trouble defeating the Whites as the Eagles have failed to win a game to date. The Hi-Ys vs. Flashes promise to be a thriller as the five boys from each a howling mad. And believe me, Mark Lewis and Quinn of the Flashes are really two big package of basketball.

UPPERCUTS AND BLOCKS

By HARRY LEVETTE

Wise crackers!!

The see all, know alls!

They stand on the corner obstructing the sunlight and the traffic. Popping off!

Always after some flitty young fellow or some nervy girl who has back-bone enough to do things.

This is a young people's world. Why throw cold water and bricks? They say Ace Foreman rode to Salt Lake in a Pullman, instead of a plane. They don't know that. They should find out first. If he fails to fly to New York give him credit for trying. Forget his faults and correct your own.

Got a letter from Mr. I. M. Bonehead. He "promulgates" whyfore don't we confine urselves to colored sports. Mr. Bonehead hold your chin

steady for this upper-cut.—As you don't know Cattigan is dead we will tell you. Our readers are litterateurs in every body. The world of Sport is wide as the world and our readers are of all rates from Londoner to South Sea Islander.

The Information Bureau is getting in its work. Tre boxers who are "burning 'em up" late at night best it for the hay as soon as they spy "Yours Truly" strolling own the line. We'll have better fighters now.

Everybody misses young Jack Thompson's smile when he is up in Frisco knocking them into the Golden Gate. Good boy Jack! Good manager, Tom! Verdon Jackson is making a good start. He bought a home out East already.

Hats off to Dick Donald! I told you so didn't I He murdered old man "Jinx" and came out on top at last. It pays to be a square shooter. Now everybody all together, Hip, Hip Hooray for Dick!

Sunday Base-Ball By Watts Monarchs At White Sox Park

After all the base-ball fans who have attended the Winter League games will still have the opportunity to see real ball even though the Giants have gone. Jim Hunt's Watts Monarchs will take their places for the week end games, but at a much reduced admission of 35 and 50 cents. Mr. Hunt built up a good aggregation of players last season putting on his games at the Park in Watts. But from constant demand he is bringing them closer in now so more may enjoy the treat they have in store for the coming season. With several new players added and the pitching staff strengthened he intends to give the various teams he will play each Sunday the same brand of baseball that the Giants dished out.

The opening game this Sunday, February 13th will be against the Hobbs Battery team. This is a splendid team and will give Hunt's Hitters a hard battle. On their pitching staff they have Joe Barnes, the Louisiana Big League hurler wintering here. He will pitch this game as a favor before leaving to join his team at Marlin training camp.

Baby Joe Gans and "Killer" Tommy O'Brien will meet at Olympic Auditorium, March 22nd.

Long Tom Hawkins Has Good Record

Long Tom Hawkins, San Diego fireman, who put up a game battle against Tony Fuente last Tuesday night at Wrigley Field, is under the wing of Sam Mata, who will develop the big fellow into one of the best in the game. He has made a good start already, and has this string of battles to his credit.

Long Tom Hawkins, colored, age 21, weight 215, ring weight 205-215, 6 ft. 4 inches tall, Sam Mata, Mgr. Last year's fights.

A FAIR REFEREE

To fight before a referee who not only knows the game but will decide it on the merits of the contestants, means a lot to them. Careers are often ruined by a prejudiced, bought, or incompetent referee. It means a lot also to the public. The majority of the fans want fair play and it hurts the game to put too many funny decisions over. Billy Darnier is one of the referees officiating in local rings who can always be gambled on to give a fair decision. If a fighter wins regardless of how close the tally of points he raises that fighter's hand regardless of his race or pull. It takes a man to do this especially when an army of the losers, dissatisfied friends are raving and "booing" from the balconies. Billy Darnier who is an ex-fighter, is much in demand especially at Wilmington, Fresno and other inter city fight circles. "More power" to a judge who judges.

HUDKINS BEATS COLIMA AT "CALIFORNIA RICKARDS" SHOW

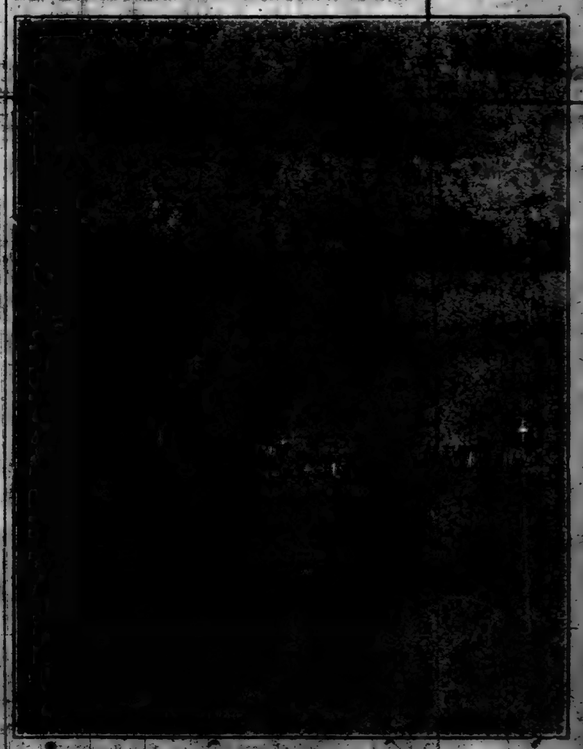
Rumors had been ringing all week that Ace Hudkins would ask for Colima to do some of the leading instead

of placing himself at a disadvantage by tearing into him in his usual way. So it was prophesied along Fisticuffs Row that the battle at the great Wrigley outdoor Orchard would be a slow one as Colima is somewhat of a wrestler too. But if ever Ace had that plan under his "brown derby" he either forgot it or changed his mind. Instead of living up to his name of wild cat he fought more like a determined bulldog leaping in close getting his hold and staying there. Colima fought back gamely shaking Ace several times with hard sharp shooting rights to the head but the least on California's mind as he came in. Ace was in hammered away at his body till he almost had him at his mercy in the last two rounds. Bringing his share of consistently to pass and Colima's fans a merry night with yells and applause and left pre dazed and beaten. The decision was well received by all except the claimants of Hudkins opponent. Many fans feeling the results a matter of petty jealousy but the fact remains that Hudkins is a real drawing card and will be seen in many more battles at the Wrigley Field Stadium.

Exposition Park Will Have New Swimming Pool

An all-year-round swimming pool is under consideration by the Los Angeles Playground and Recreation Department and preliminary architectural plans, with a cost estimate, are being prepared. The proposed pool would be located in front of the present grand stand, with the plunge now in use converted into an additional dressing room. The proposed water contents, including the present water content, would be 1,000,000 gallons. Some improvements are also planned for children and a diving board, among them being a 10 foot platform. Other improvements planned include a new entrance, a new management office, and a new filtering system. Financing projects of Recreation Commission plans will be required before the improvements can be made.

Along Fisticuffs Row



YOUNG WILLS A HOME LOVER

Inquiries have been into the editorial sanctum as to the identity of the boxer whose success has made him forget his home obligations. We are very sorry that we do not know his name for we would like to express and shake him. More comes in from various sources and the secrecy did not name the party concerned. But rather it was Young Harry Wills, who can always comfortably put there if one not, was it a good fight. His father, a fine, well set gentleman, who always wears Pat Henderson his Athletic Belt, his son Harry Wills another and all the men of the family possess wonderful physiques and are good fighters. Mrs. Wills is a fine woman and is very proud of her boy. Young Harry Wills is a home lover and is never happier than when he is with his family.

Fight fans are predicting that the "Young Mexican General" has just found his stride boots, Kenny Ballo from Petersburg College in Roanoke, a., where he starred in football and other branches of athletics.

Young Harry Wills At Grips With Lew Tender

A panther leaps from a tree limb on his unsuspecting prey. A timber wolf leaps in ripping, slashing, tanging, face to face with his fighting foe regardless of his size of power. So young Harry Wills could not possibly be called the "Brown Panther", but rather the "Brown Wolf." Any body who ever watched young Harry fight will tell you that he tears in with wicked rights and lefts to body and head, fearless of punishment but crafty and lightning quick. He has the "killer" instinct just like the great timber wolf that redoubles his onslaughts when he feels his prey weakening. Wills will find a worthy foe in Lew Tendler when they meet at the Olympic Tuesday night. The Philadelphian is not only one of those difficult south-paws but a veteran at the fight game with

plenty class and cleverness than the name ran at them. Tendler was weighing in low at 142½ last week, but his trainer, Al Long, has built him up some since the postponement of the bout. That will be the first bout staged under the new regime of the great Jack Hurley who moved from his Commonwealth Athletic Club to the Olympic Auditorium on the Grounds at 18th and Grand. Besides all the Ace has seven bouts on hand at 6, 8 & 10 Ounces. Some of the older way

"Miscegenation" Bill Killed in Massachusett's Legislature

New York, March 4.—Continued victory against the anti-intermarriage bills introduced in Northern legislatures is reported by the National Association for the Advancement of Colored People, the latest victory occurring in Massachusetts under the leadership of Butler R. Wilson, president of the Boston Branch of the N. A. A. C. P.

Mr. Wilson reports that the Committee on Legal Affairs of the Legislature has reported "leave to withdraw" on the bill, which means that it will be heard from no more. Mr. Wilson reports that he had a delegation of members from the N. A. A. C. P. living in cities and towns from which the 15 Committee members come, and as each member had the delegation pledged to vote against the bill. The report on the bill came as a surprise.

Among the Branches of the N. A. A. C. P. in Massachusetts represented were those from Boston, Springfield, Worcester, Springfield, New Bedford, also the Suffragettes, Girls Divisions, Women's Clubs, Women's League for Community Service, Women's Political Club, Women's Republican Club, Women's Democratic Club, Women's Progressive League, Women's Civic League, Women's Trade Union League, Women's Service League, Women's Christian Temperance Union, Women's Suffrage Association, Women's Equal Rights Association, Women's Municipal League, Women's Political Study Club, Women's Service Club

white reducers. Such a law as is proposed is a long step backward and downward, and it would be a disgrace to Massachusetts, if it is not defeated overwhelmingly."

Others who submitted statements include Miss Alice Stone Blackwell, leading suffragist and Florence H. Blackwell.

1. There is no demand for such a law.

2. It is notorious that in States where such laws exist they do not prevent the intermingling of the races.

3. It will be in direct conflict with the letter and the spirit of the whole body of laws of the Commonwealth which guarantee the rights of all races.

4. Such a law would be discriminatory and unjust.

5. It will be class legislation of the most insulting kind, degrading 50,000 citizens of the Commonwealth in that it would establish by law that the blood of Negroes is tainted and that Negroes are inferiors.

6. The legislature repealed in 1843 a similar law enacted in 1786. Rhode Island, Connecticut, Ohio, Iowa, Michigan and the Federal Congress have recently refused such a law.

The performers in the company are all right and no reflection is meant on them for the jim crow methods of the managers.

CALIFORNIA HAS LARGEST HIGHWAY SPAN IN WORLD

Crockett, Feb. 19.—With steam shovels and road gangs busily engaged at both terminals of the Carquinez Bridge, the State Highway Commission is rushing to completion the widening and straightening of the approaches to the world's largest highway span across the northern arm of Francisco Bay.

Slides of frequent occurrence in the high hills on the Crockett side will not delay motorists in future. After this week the entire hill will be leveled and over it will be built a thirty-foot concrete highway leading on a gentle slope to a road of similar width laid across the entire stretch of the mile-long span.

FINISH ROADS

On the Vallejo side, workmen have already started pouring concrete for the road from Mgrow's Cove to the bridge approach. Both roadways, which will tie this final link in the Pacific Highway, are scheduled for completion in ample time for the official opening of Carquinez Bridge on May 21.

Hearty co-operation is promised the bridge celebration committee by automobile associations and civic and commercial organizations throughout California and her sister States. Along the entire length of the Pacific Highway, from Vancouver to Tia Juana, and on the Redwood, Victory and Lincoln highways, contributions to the dedication festivities planned for Carquinez Bridge are being ocered.

FUNDS SENT IN

Much of the scenic back country of Northern California, Oregon, Washington and British Columbia, rarely visited now, will attract motorists from the South and East when the final bolt is riveted in this giant span. Many northerners who have been deterred from journeying to the Southland by the great loss of time due to inadequate ferry service at this point, will find that the mile across the treacherous Carquinez Straits can be negotiated in one-tenth the present time when the new bridge is opened.

CALIF. EASTERN ABSORBS JULIAN PETROLEUM

DEAL FINALLY PUT OVER AFTER MANY MONTHS

The Julian Petroleum Corporation, a 27 Million dollar business machine assembled and built up by C. C. Julian now disconnected with same, and which toward the end of his reign stumbled on the rock of financial stagnation and was salvaged by S. C. Lewis, it's present head has been absorbed by the California Eastern with Mr. Lewis as President.

A rousing stockholders meeting was held several days ago at Olympic auditorium and the transaction was consummated. The company has grown and prospered under Mr. Lewis' management and its actual assets after deducting all liabilities are today in excess of 16 million dollars earned net profits for the fiscal year just ending were over $920,000 dollars. A wonderful showing for one to make in such a short space of time.

Mr. Lewis was the chief speaker at the meeting and for two hours or more held the vast audience spell-bound as he unfolded in an eloquent and convincing manner how the company had grown and prospered and discussed its future.

Perhaps the most visible sign of this gigantic merger instigable to the naked eye is that of the service station the colors of which have been changed from green and white to the combination of tan, red and green.

These stations are under the direct and personal supervision of Mr. Seinfeld, and his motto is efficiency. Southern California is pretty well dotted with these stations which serve the automotive public.

Mr. Seinfeld stated in a brief interview that the service problem of the automobile owner was a problem that required specialists, and the company was giving much time and attention to seeing that each station was efficient to the last degree in employes and equipment. As rapidly as is possible the problem is being met and served thruo these lines."

BIG TREE ROAD TAKEN BY THE STATE

Sacramento, Feb. 19.—The California Highway Commission, on February 16, took over the section of the Mount Ada Mail Highway between Murphys and the Calaveras Big Trees, Calaveras county. This section of highway has been under construction by the Bureau of Public Roads as a forest highway project and Calaveras county has co-operated to the extent of more than $60,000. The formal vote authorizing State maintenance on the route, which was declared a State highway by legislative act in 1925, was taken at a meeting of the commission in Los Angeles on February 7.

OWNER MUST PAY $1 TO GET BACK HIS CAR

Detroit, Feb. 19.—Every city has its traffic problems but few have such serious downtown parking congestions as Detroit. Each year the Detroit police department has found itself badly hampered by inadequate legislation. Only recently did it take advantage of a portion of the state code relating to public nuisances. It was found that an automobile parked in violation to police regulations could be classified as a public nuisance.

The first step on the part of the police was to buy a tow wagon. Two crews worked this wagon day and night. When a car was hooked to an "automobile pound" that had been provided near headquarters it cost the owner $1 to retrieve it.

This experiment proved successful. Auto owners who had a habit of parking day after day in a restricted spot eventually had their cars towed in. They then were more careful in choosing a parking place.

PROVES BIG SUCCESS

The wagons have paid for themselves. Collections from December 3 to February 15 made by the police department traffic violation bureau totaled $18,772. This sum of money was taken from the owners of 6257 cars which had been illegally parked in the downtown district.

New Model of Whippet Now Being Shown

Handsomely finished and upholstered, the first new Whippet six inclosed models have arrived here and are displayed at the salesrooms of the Willys-Overland-Pacific Company and Willys-Overland dealers. They are attracting much attention and are declared to have performance ability that establishes a new standard in the light-six field.

"Factory engineers declare that in the development of the Whippet six motor for power, close attention has been paid to providing high-grade performance without sacrificing economy," stated J. E. Bence, salesman of the Willys-Overland-Pacific Company. "These cars are capable of sixty miles an hour but it is the power of the motor rather than its speed qualities that will be appreciated by owners.

"The Whippet six motor is an L-head type, compactly built and containing the best features of American and European power-plant construction. It has a bore of three inches and a stroke of four inches and develops forty horsepower at 2600 revolutions per minute. Piston displacement is 169.6 cubic inches.

"Among the models now here is the landau, which is a very beautiful car. It is finished in Ozark blue with black fenders and top. It is long, low and sleek in appearance. The interior is very roomy and is upholstered in a fine quality of gray mohair. Seats are wide, deep and set at a most comfortable angle. Interior woodwork and instrument board are of mahogany finish. Fittings are of the newest design, done in silver finish.

"Among the first to try out the landau is Miss Bonnie Hoose, film player, who expressed surprise at the ease with which the car is handled. She was amazed at its rapid acceleration and the manner its speed is controlled by the efficient four-wheel brakes."

1926 Foreign Auto Permits Total 25,100

San Francisco, Feb. 19.—California maintained her reputation as the third greatest of the world during 1926. The invasion of tourist vehicles continued today when there were issued permits from other states and from foreign countries during the year, the total being 25,100.

Though California has one of the most liberal arrangements of any state in the Union for foreign cars. They may remain here for six months without taking out a license provided their owners secure a permit on entering the state.

Every state was represented as well as nearly every foreign country. There were cars from Australia, Belgium, Guam, New Zealand, Porto Rico as well as all the larger nations.

Washington led with 3619, Oregon was second with 3200 and Arizona third with 2350. The far-eastern states of Maine and Vermont sent seventy-seven and forty cars, respectively. The more remote came from all the southern states.

least $2,600,000 in the state during their respective sojourns here. Thousands of dollars were collected from them in gasoline tax to be used on the highways of the state and counties.

California has one of the most liberal arrangements of any state in the Union for foreign cars. They may remain here for six months without taking out a license provided their owners secure a permit on entering the state.

Every state was represented as well as nearly every foreign country. There were cars from Australia, Belgium, Guam, New Zealand, Porto Rico as well as all the larger nations.

Washington led with 3619, Oregon was second with 3200 and Arizona third with 2350. The far-eastern states of Maine and Vermont sent seventy-seven and forty cars, respectively. The more remote came from all the southern states.

TRUITY LODGE, NO. 25
OF F. & A. M.
Meets 2nd and 4th Tuesday evenings of each month at Masonic Temple, Central Ave. and 12th St.
Visiting brethren welcome.
[illegible]

The Railroad Clerks Congratulate the following persons whose birthday anniversary comes during the month of March: J. E. Montgomery, Todd Lowry and W. J. Logan.

Through Service to San Diego Started

Working night and day, a crew of section men and bridge engineers completed a temporary bridge this side of Oceanside, Calif., which will allow through train service to once more travel the rails between Los Angeles and San Diego. The first passenger train crept across the bridge last Tuesday at a snail's pace. This is good news to the Santa Fe dining car crew which has been stuck feeding the trains operating between Los Angeles and Oceanside.

Lark Porters Have Birthday in March

Well, maybe they didn't want me to tell it, but during this windy old month of March, James Montgomery, Todd Lowry and W. J. Logan better known as Spark Plug, all three of which are expert sheet artists on the famous "Lark" will become one year older. The writer suggests that in order to keep down expenses they should have one big party and one big cake, order their candles from a wholesale house and invite all of the young porters whom they are keeping out of a good job over to their house for a square meal. I am also going to suggest while it is in good form that the boys take up a subscription and buy Todd Lowry a handbag for his birthday as the one he is now carrying is about to fall apart. Many happy returns.

L. Jenkins, Jr. Visits Former Home

Mr. L. Jenkins, Jr., one of our popular young men of this district paid a visit to his former home in Phoenix last week. When last seen in the hot old town he was preparing for a big night. The chief of police met him and told him everything would be all right and gave him the key to the City Jail. He said he might be in bed when he came home and he didn't wish to be disturbed.

New System on Bidding

Some brilliant mind has invented a new system on bidding which has been put in operation in this district. The lines up for bid are placed inside a glass slide and posted on the wall, but there is no place to sign your name. When asked regarding this new system the informer told the writer that those wishing to bid on the lines would have to bid on a separate slip of paper and turn it in the office. This method would keep down a confusion which has always resulted in the old system, as they had many complaints of porters rubbing other men's names off when the sheet was about to be removed. If the man happened to be the only man older than them this would give him clear sailing to the line.

Bids

The lines up for bid last week were as follows:

Car 54-56 line 3465, and Car 55-57 line 3472 better known as The Coast Fool, were assigned to the following porters: W. N. Mitchell M. B. Brasley, J. A. Lee, J. L. Hill, C. Smith, W. H. A. Prescott, H. E. Washington, W. M. Brown, W. H. Walker, L. C. Busby, E. Nash, and J. M. White.

680-638 were assigned to C. A. Glover, and C. W. Russell.

53½ to M. B. Johnson and C. H. Drish bumped T. Davis No. 1 off of car 94, line 3460.

There are nine vacancies in line 3442½, 3439½.

Line 13½ to San Diego up for bid.

76 2 to Phoenix over the Santa Fe.

2 men on line 3460, Car 90.

3 men on line 3462, Car 69, and 1 on line 685, 1 on 3455.

A. W. PERRY VISITS MEMPHIS

The old saying of When you are railroading you never know where you are going proved true with J. W. Perry recently when instead of quitting his car out at El Paso, Texas, they sent it through to Memphis, and of course Uncle Sam has stated in his bill that the Pullman Porter must die with his car. It's just the same as a command to a soldier that he must never let the Flag touch the ground. Therefore, Mr. Perry, true to old traditions stuck to his car. It landed

EGYPTIAN TEA ROOM CATERS TO RAILROAD MEN

Railroad men who are hungry and desire good wholesome food served in inviting styles are missing their one best bet when they fail to drop in the Egyptian Tea Room at 1163 East 12th Street. Mr. E. You would actually be surprised how reasonably you can dine at this Tea Room. In the evenings they have entertainment that is an equality with the best in the city. Go by and give them the once over. They are open day and night.

HAIL! HAIL! THE CHIEFTAIN'S HOME!

By: E. L. DORSEY

'Twas an all-inspiring sight that greeted the spectral eye of a cosmopolitan gathering at the S. P. station on last Sunday morning about 8:30 o'clock. Necks were strained, people who constituted passengers and home folk going and coming were shoved aside, ears were pricked, likker odors were stopped, train crews from conductor to porters forgot their orders, even the eight-day clock that graces the wall of the spacious depot lobby hesitated momentarily on the job, nature calmed the elements that control the atmosphere and caused Jupiter pluvius to shine newer and better than ever before. The news boys and jani'tors' voices were stilled, splendid-looking officers—black and white—stood looking their best at attention as engine 1472 hitched to that palatial overland express slowly creeped into the yards and with the assistance of a veteran engineer's hand upon the throttle came to a stop.

I repeat, 'twas a glorious sight as all I've just stated came to pass on last Sunday morning.

A short hurry and bustle of passengers and then, there stepped from a compartment of the sleeper just ahead of the observation car, a modest-looking individual, dressed in a smart-looking traveling suit, looking the picture of health, a national character in the newspaper realm, a genius, Los Angeles' own Mrs. Charlotta A. Spear-Bass. A moment's pause as the camera clicked and then a short exchange of greetings between Editor and Managing Editor, and the staff—from shop foreman to office boy stepped forward while Mrs. Bass became the property temporarily of the public.

Her first words were: "This is my own, my native land," and the smile that Los Angeles had missed for the past six months appeared on her face as she was greeted by those in charge in her faithful absence and inscribed for the occasion, was exhibited in the office.

She could hardly believe her eyes as she alighted still smiling and caught sight of the front. The dear was unpacked and she was more bewildered; "You don't mean to tell me, Mr. Bass, that this is the Eagle office."

"Yes, but we do Madam," spoke up the acting manager who was about to relinquish the reigns and once more feed the public with those masterful editorials that only a J. B. S. signature can produce.

Well, 'tis a long story and time is short, suffice to say Mrs. Bass is back on the job in the finest, equipped newspaper office and print shop in the West. Rested, and inspired by the months of travel and college work to go forward, back on and upward, carrying with her the good will and support of the entire community in her effort to help the Negro and humanity.

Henry Allen Boyd Returning to Southern California In April

After an absence from the City of Roses for two years or more, Henry Allen Boyd of Nashville, Tenn., accompanied by his wife, Mrs. Georgia Bradford Boyd, will visit Los Angeles. They are due to reach Los Angeles on Tuesday, April 5th, coming down from Oakland and San Francisco. Three days will be spent in this city. While here they will be established at the home of Mrs. W. H. Peters, 4760 Hooper Avenue. Phone Blank-9085-W.

The Rev. Mr. Boyd will probably speak at the Baptist Church pastored by Rev. A. Lindy, but will be the guest of the Baptists of Southern California. Hundreds of former Texans and Tennesseans residing in this city, will already planning to give them a royal reception.

NEGRO ZONING LAW DEFEATED

RIGHT TO LIVE IN WHITE COMMUNITY UPHELD

HIGHEST COURT VOIDS CITY AND STATE LAWS

NEW ORLEANS FEARS TROUBLE DUE FROM DECISION

Washington, March 14. (Exclusive) —Louisiana State and New Orleans municipal segregation codes under which Negroes are barred from communities where a majority of the white residents have not given their consent in writing were held unconstitutional by the United States Supreme Court today.

The case came up from New Orleans, where a Negro, seeking to rent apartments in a white community to other Negroes, was enjoined and carried his contention that the restrictions were invalid and unconstitutional to the State Supreme Court. The latter court's ruling upholding the injunction order was reversed in today's decision, which briefly cited as ground for the reversal "the authority of Buchanan versus Warley."

The latter case, decided in 1917 involved a Louisville (Ky.) ordinance prohibiting Negroes from occupying homes in blocks where the majority of residents were white. That ordinance the Supreme Court decided, was unconstitutional because its effect was to prevent the sale of property to Negroes.

NEW ORLEANS FEARS TROUBLE OVER DECISION

New Orleans, March 14. (Exclusive) —New Orleans and Louisiana face what may result in serious trouble as a result of the United States Supreme Court today in which Benjamin Harmon, a Negro, 223 Andulusa street, was given the right to live in a [illegible] block. A [illegible] of the house [illegible] has been struck in New Orleans since the decision of the high court. It may come in other sections due to the fact that more than 100 other suits have been filed in different courts to oust Negroes from places in which they abide in the white sections of the city. Such seems possible because of the feeling that has been generated largely over the question as to whether or not the whites had a right to put the Negroes out or homes in their localities.

Three dynamite bombs have been thrown at the house of a Negro in a white section. Dynamite has been exploded twice under a Negro theatre. There have been several fusillades of Negroes who refused to move from white sections.

It cannot be said positively that the people who wanted them to move were to blame, but three people applied for the courts to make them move.

Now the decision of the United States Supreme Court says they do not have to move. The police of New Orleans have been warned to be on the lookout for any unlawful movements that may bring about trouble, for it is feared that certain drastic action, will be taken in many of the country districts although New Orleans and the towns adjacent are the ones most seriously affected.

ROLAND HAYES--World's Greatest Tenor Singer, Who Will be Heard in Recital at the Philharmonic Auditorium, March 28th and April [illegible]

[redacted]

A Short Sketch of the Rise of Roland Hayes, World's Sweetest Tenor Singer

No novel is more fascinating than the life narrative of the career of Roland Hayes, the great tenor who is to sing at the Philharmonic Auditorium, on March 28th and April [illegible] under the management of the Wetherbee Musical Bureau, Inc.

Not many years ago, he was a poor farm boy in Georgia, taking factory jobs, domestic jobs, and in fact any kind of work he could get, to help his efforts to educate himself while supporting his family. He sang as he worked, and people noticing his voice, it had the mellowest sweetness characteristic of his race, but it was a remarkable voice. Filled with ambition, Roland Hayes, unconsciously overtaxing his training it.

Encouraged to try his fortunes in Europe, he went to London in 1920, where he barely managed to secure a recital.

But immediately the musical aristocracy of England was upon him. He sang eleven recitals that season to packed audiences.

Invitations came from Paris, and now from Vienna. After singing there he was hailed about the new tenor. [illegible] and [illegible] [illegible] [illegible]

THE BIG GOSPEL TENT
One of the most interesting lines of Bible Prophecy will be presented at the Big Gospel Tent, 29th and Central Ave., Sunday night, March 20th, at 7:45 P. M. when Evangelist Pastor P. G. Rodgers preaches on the subject of the 2300 days. This is a line of history and prophecy contained which the Angel made clear to Daniel as recorded in the 8th and 9th chapters of the book that bears his name. It is the clearest, most interesting, and yet mighty spiritual hope that could possibly appeal to a mind that yearns for the deep things of the scriptures.

The services held at the Big Tent are under the direction of the Organization of the Wadsworth Seventh Day Adventist Church, while the new church home is being finished at 54th and Wadsworth streets. Here a spacious edifice is under construction which will seat about 700 persons when completed. The object of the congregation are striving to make it a home where all may learn what God is.

HAWK'S HANDS

Plain clothes officers Randolph and Morris working out of Newton Street Station were driving slowly along Central avenue Thursday afternoon. The day was fine and everybody seemed trying to be good and not get in the Hawk's hand. Stopping in front of the Midway Smoke House the officers suggested to some fellows standing around out front that they go to work as they could not name any means of livelihood. It was well and good, but one fellow with a long overcoat and a hand bag had to talk smart and away went all six of them for a "buggy ride."

Mrs. McKinley Moulden won the consolation prize. Luncheon was served on several small tables laid in the dining room and the feature of the repast was miniature foxes frozen out of lemon ice. Members of the club include Mesdames Gene Moulden, Alex. W. Clarke, Henry L. Wilkes, Cosey-Smith, Samuel L. Hankerson, C. Payne Graves, Joseph Holmes and William A. Bigby, Jr. Their guests were Mesdames William Hemmitt, J. Evans Trigg, J. E. G. Knicholls, McKinley, Moulden of Hanford, Kelley Morgan of Los Angeles and G. W. Young of Hanford.

The Minor Whist for the benefit of the building fund of Mt. Pleasant Baptist Church at the residence of Mrs. Willie Butler was a grand success.

The Second Baptist Church is progressing in a very definite way under the capable pastorate of Dr. J. D. Wilson. Eleven new members were added to the membership roll last Sunday. The church has been recently carpeted by the Sentinal Guild, and the floors painted by the Trustee Board.

ICONOCLASTS HOSTS AT BRILLIANT DINNER

Out of the chaos of weirdly named and insane purposed organizations that hold sway at the present time in Los Angeles' younger set, there has arisen, like a landmark, or, as it were, a monument to the Great God, Common Sense, that radical group of individualists, The Iconoclasts. Having pledged themselves to contributing something to the advancement of the Race, they have mapped out an extensive programme toward that end, and the first large joint in that chain was forged last Friday evening at a formal dinner given at the home of Mr. Eardly Gauff, 1571 West 36th Place.

For sheer brilliance and distinction, this affair is probably without parallel in the annals of social history among the younger group of the city. It marked the birth of a new and esoteric social scheme with which the writer understands, These Iconoclasts hope to smother the traditional cosmopolitanism of the city and erect a system similar to that which holds sway in Eastern cities.

Preparations were made for only twenty-two guests, consisting only of the club members and their company. Mr. Willie Middleton as toastmaster, was responsible for the brilliant conversation at table, as his devastating wit probed all by turns, and his suave personality made him as vivid and as attractive as a Wilde.

After the dinner, a four-course affair, lengthy and brilliant addresses were made by Willie Middleton on "Partners in Fyber," Theodore Banks on "Social Systems" and Harold Forsythe on "Tradition and Ignorance." The speech of Mr. Forsythe, a devastating and satirical threat at traditional and nonessential pearilities created much adverse criticism among our church goers, as the young man did not bite his tongue when assailing the traditional religious beliefs, but, in keeping with the club's slogan: "DOWN WITH TRADITION," he indignantly and sarcastically tirraded pious souls; and even quoted Nieutzsche, to the consternation of pseudo-saints.

A very interesting monologue was then given by Lawrence Johnson, whose abilities as a raconteur are known throughout the city. Mr. Lawrence Lasaiter's violin solo, a Fantasia by Mr. Forsythe, was characteristic of the former's virtuosity and interpretive skill.

At eleven, the table was abandoned and dancing took place to the alluring strains of high class jazz produced by Miss Ruth Lee.

The young ladies, whose gorgeous evening frocks blended so successfully with the formal black and white worn by the boys, were the Misses Gladys Mathonican, Irma Jones, Alicia Allen, Lucille Hyson, Alma Thomas, Iola Morris, Quincella Nickerson, Jessie Mae Nickerson, Ernestine Mathonican and the Mesdames Ella Johnson and Juanita Wilson.

The personnel of The Iconoclasts is as follows:

Theodore Banks, Roy Johnson, Willis Middleton, Eardly Gauff, Harold Forsythe, David Floyd, Haven Johnson, Lawrence Johnson, Lawrence Lasaiter, Marvin Johnson and Ronald Jefferson.

War Declared On Lower Calif. Mexican Land And Development Company

Since the publication of these articles, we have been repeatedly approached by stockholders and investors in the Land Company with such questions as: What are the chief causes, relative to the state of affairs of the Company? Did its entire board of directors help suggest the program of its activities and did all of the directors agree with its program?

To such inquisitors and to other persons who may be interested to know, we shall try to give you in this article, a full and detailed answer, and we promise to do so without hesitancy or equivocation. Since the first article appeared in the papers, one of our distinguished brothers who has enjoyed quite a bit of limelight in these articles for his activities in the affairs of the Company, has written a letter to certain persons who have been connected with their publication, warning them that they had better "lay off" or else they may find themselves facing charges of libel. The three names below signed to this article wish to here state that they are fully and wholly responsible for every word and line and that such threats bring to us no terrors or fears. If Mr. Macbeth, the attorney for the Company wishes to prefer such charges against us, he could have done so a long long time ago. Principally what we are stating in these articles, concerning Mr. Macbeth, we have stated some months ago to an ex-L. A. County Grand Jury. This Jury was in the midst of an investigation when they were dismissed from further jury services. Possibly we will give you more about this later. We also preferred charges of moral turpitude against Mr. Macbeth and filed them with the L. A. Bar Association. These charges were signed by all three of us and they are now at this time still before the Bar Association waiting for a hearing.

We would say in answer to the first question, that too much speculative and promotion of projects that were almost entirely foreign to the welfare of the Company were presented to its board of directors and these directors, without full investigation or weighing the significance of the matter presented to them, simply fell in line or acquiesced.

To be a bit more specific, the lease of Vallecitos ranch, a large ranch adjoining the Santa Clara ranch does now appear and should have then appeared as a simple case of downright "humbugging." We would like to say just here that our president, Theo. Troy fought it and fought it hard, but they put it over him just the same. This ranch was leased for the purpose of growing a large wheat crop. The rain fell was very light that season, hence the wheat crop was almost a complete failure. Had it been a success from the money making standpoint, God knows, we do not, what the Company, or its individual members would have realized out of it.

One thing we do realize and that is that it cost us hundreds of dollars individually to lay off delinquent bills. There is one man that we think may know and that man is the Company's attorney who handled the contract, and so thoroughly did he handle it that we have never seen or signed any contract. Our knowledge is not sufficient to swear as to who the contract was made, whether to the company or some private individual.

This bit of information might cause you to draw an idea about the contract. There was a gentleman whose name I need not call, who went into the lease for his own personal, private interest, something went wrong about the finances. He sued Hugh S. Macbeth not the company and collected judgment. Macbeth asked the Company to help pay the judgment.

At times there were some of us who objected to such actions and would attempt to inquire into the ways and whereabouts of these propositions, but when we would rise to raise these objections, there were others of our group who would raise that old familiar hymn, entitled "Peace and Harmony."

Hundreds and possibly thousands of dollars of our money was spent in good faith on Hugh S. Macbeth's trip to Oklahoma for the purpose of raising funds to pay off the indebtedness of the Santa Clara ranch and to purchase the Vallicito ranch, and for Mr. Macbeth to take a trip to Mexico City as our President Obregon has stated himself, on the said lease. Money orders were sent through the mails or were sent telegraph wires, to Mr. Macbeth thereof recently. The Los Angeles office staff and many others heard him state pendantly during the three months of extra pay by Mr. Wills for this extra duty. He often wrote us such lovely letters telling us that our company would be able shortly, that he would be home soon and that he was actually working on some great plan of action whereby we can save our investment. We took it all in good faith and we have nothing to say against Mr. Macbeth, but we do say that we would like to know the truth about the lease and the contract.

Judge Guy F. Bush Announces His Candidacy

Formal announcement was made yesterday (Monday) by Judge Guy F. Bush of his candidacy for retention on the municipal bench, "office number 9" being the new official designation of the department in the municipal court in which the candidate is presiding.

In recognition fo the debt which Judge Bush feels that he owes his aged uncle Charles W. Tabor, a retired attorney now living in Hollywood, the judge dispatched a special message to Mr. Tabor stating his decision to seek election and giving the uncle credit for much that the years have brought both to Judge Guy Bush and his twin brother Eli F. Bush, an attorney also residing in Los Angeles.

"You thought enough of us two harum-scarum boys to give us the money that made possible our course at the University of Michigan," the message said in part. "Without that faith and without your unfailing counsel we could not have accomplished what we have. Your peculiar integrity and high sense of honor manifest all through your law practice have been a guide and inspiration to me, because of your generosity toward me and my brother. I want to take this occasion to say that your faith in me has made it possible for me to reach the judge's bench and I hope that I may be worthy to continue in that position."

Judge Bush graduated from the University of Michigan in 1906 and was admitted to the bar in Michigan in 1909. Two years later he was admitted to the bar in California and practiced law in Los Angeles from that date until his appointment to the municipal court bench by Governor Richardson. The judge is a member of the state and local bar associations; the Temple Baptist Church, Masonic Club, University Club, Brotherhood Club, and the Electric Club. He is a trustee of the Temple Baptist Church and vice-president of the Los Angeles Baptist City Mission Society. Mrs. Bush is a noted singer and is prominently identified with various Los Angeles musical organizations and ——— clubs.

THE REPUBLICAN PROTECTIVE LEAGUE HEADQUARTERS

1719 CENTRAL AVENUE

The league is now, through its Executive Committee, C. Olivier, Chairman, working overtime in getting various districts organized for the coming primary campaign.

All members are expected to be present on next Tuesday evening for the get-together meeting at the Club rooms.

The League will leave no stone unturned in its effort to secure a united front for members of the council who are in harmony with the people in preference to the dictates of some political boss.

All hands at the Republican Protective League are aware of the fact that this coming campaign is the place to express your disapproval of both men and measures and are therefore sharpening up their battle axes to do some real and lasting trimming of dead limbs.

The Republican Protective League calls your attention to register from now until April 2nd, that you may be able to vote at the coming primary election May 3rd. Districts as follow:

District No. 6—West Jefferson.
District No. 7—East Side.
District No. 8—East Side.
District No. 9—East Side.
District No. 10—East Side.
District No. 11—East Side.
District No. 12—Temple Way.
District No. 15—Watts, New Territory.

This election means a great deal to our group in these various districts. We intend to oppose all the administration candidates. We have not received any consideration through them. This is our opportune time to cast our vote against the administration candidates.

At the next issue of this paper the candidates name of each district will be published. Don't forget to register.

"March 10, 1927.

"Mr. Raoul T. Edwards,
"560 W. Washington St.,
"Pasadena, California.
"Dear Sir:—

"We have for acknowledgement a recent communication from Mr. C. Olivier of the Republican Protective League, relative to the present status of your publication under the Veterans Farm and Home Purchase Act.

"We are pleased to advise that your application was presented to the Board at its last meeting and tentatively approved for home aid. Your case will be forwarded to our Los Angeles office at an early date where you will be called to appear for a personal interview, which is required in all cases before final action can be taken. At that time the possibilities of your receiving aid desired may be discussed thoroughly.

"Very truly yours,
"Secretary.

Announces Candidacy To Succeed Himself In City Council

Otto J. Zahn

Councilman Otto J. Zahn announces here today his candidacy for election representing the Tenth Council District.

"My long experience and participation in civic work and a lifetime acquaintance with Los Angeles, her problems, her progress and political knowledge, has made my work in the City Council no experiment but a record of accomplishments.

I have now to offer, in addition, the experience that two industrious years have given me. I believe I can serve you better than could a new person, who must be broken in, and that it would be poor economy to waste the experience I have had.

I am a native son, a Mason and a member of a church, and belong to several clubs and associations. I am a taxpayer and property owner and am at your service for the district.

SANBORN WILL STAND RE-ELECTION

In response to the gratifying requests of many constituents of the Sixth District, asking me to again be a candidate for the City Council, I have decided to enter the race and stand upon my past record of achievements during my eight years of continuous service.

I wish to thank my thousands of friends and supporters in the past and hope to receive their support and confidence in my campaign for fifth consecutive term in the City Council.

W. J. SANBORN.

Marchetti For Judge

Out Of Respect, And at The Request of Many Friends, Announces his Candidacy For Position Of Municipal Judge For Division 17

Joseph Marchetti came to this city in 1905 with his parents and brothers. He is the son of Carl and Emma Marchetti. The family has been well known in civic and commercial circles in Los Angeles for over 2 years.

Joe Marchetti

Joseph Marchetti attended the Los Angeles Grammar School and graduated from the Manual Arts High School. He is also a graduate of the University of Southern California College of Law. During the World War he enlisted and later served in the United States Navy. He was later appointed to the position of Navy Yard detective in the provost marshal's office.

His brother, Roger Marchetti,

HIS RECORD AS JUDGE

Upon record on the bench as a Justice of the Peace, we feel confident the family will be well pleased with this effort.

Joseph Marchetti attended the Los Angeles High School and graduated from the Southern California College of Law in 1923, being admitted to the bar on January 22, 1923, by the Second District Court of Appeals of California. In 1917 she was appointed Deputy District Attorney; having previously served as referee in the woman's court. Judge Bullock has acted as appraiser of the Probate Department of the Superior Court and also as Judge pro tem of the Superior Court. She was at one time appointed special referee.

After eleven years practice of law, Judge Bullock was appointed to the Police Court on December 27, 1926, as a police judge by Los Angeles County Board of Supervisors, and on February 9, 1926 she was appointed judge of the Municipal Court of the City of Los Angeles. She has been special counsel for the Legal Aid Society of Los Angeles, Vice-President for California of the National Women Lawyers Association, was one of the founders of the Phi Delta Delta Legal Sorority, and was made an honorary member of Phi Kappa Sigma Sorority. She is a member of the Professional Woman's Club, Southern California Woman's Press Club, Woman's Law Enforcement League, Woman's Lawyers Club, Business and Professional Republican Club, and the Republican Study Club.

Judge Bullock has been active in the work of the Los Angeles Bar Association, being the first woman admitted to this organization. She is a member of the American Bar and California Bar Associations. Judge Bullock belongs to the Protestant Episcopal Church.

Why Judge Bullock Should Be Reelected

Judge Georgia Bullock will be a candidate to succeed herself in the coming municipal election on May 3rd, it was announced today. Judge Bullock has served in the Police and Municipal Courts for over two years, being the only woman who has ever held this office in California.

Judge Georgia Bullock

Judge Bullock was born in Chicago, Illinois, and attended the Chicago schools and schools in Europe. She finally came to California in 1910. She then served as juvenile probation officer and started at that time her life-long devotion to the work of the county court.

She was admitted to the practice of law on January, 22, 1923, by the Second District Court of Appeals of California. In 1917 she was appointed Deputy District Attorney; having previously served as referee in the woman's court. Judge Bullock has acted as appraiser of the Probate Department of the Superior Court and also as Judge pro tem of the Superior Court. She was at one time appointed special referee.

After eleven years practice of law, Judge Bullock was appointed to the Police Court on December 27, 1926, as a police judge by Los Angeles County Board of Supervisors, and on February 9, 1926 she was appointed judge of the Municipal Court of the City of Los Angeles. Judge George S. Richardson for Re-Election

While handling the calendars of two of the local municipal courts, Judge George S. Richardson, a candidate for re-election to succeed himself in division 5 at the city elections May 3, has established an enviable record of judicial achievement.

Between September 7, 1926, and February 1, 1927, Judge Richardson had the distinction of causing out justice to serve imprisonment more than any other judge in the United States.

In that period he handled 4413 misdemeanor cases and a total of 5715 complaints involving charges of misdemeanor. His highest record for one day was 350 cases.

Judge George S. Richardson

Judge Richardson was born at Santa Paula, Ventura County, on April 17, 1877. He was educated in the city schools of his birth place and graduated from the Santa Paula high school.

After completing his school work at his native town he came to Los Angeles and began study at the University of Southern California. He returned to Ventura County a short time later and began work in the oil fields.

Returning to Los Angeles again, the judge took up duties in the boiler shops of the Santa Fe railroad. From this employment he went to the Sterling Boiler Company, where he held the position of superintendent of installation. While in this capacity he installed many large plants in large cities of the Southland.

Judge Richardson was electrical engineer for eight years for the Los Angeles Railway, making many friends in Los Angeles. During this period he attended night classes at the University of California law school. He completed his legal training there and was admitted to practice law in 1919.

Following four years of general law practice he was elected police judge in 1914. Since that time Judge Richardson has served continuously on the bench, handling thousands of misdemeanor cases.

Headquarters for his campaign have established at 407 Story Building with A. R. Hewitt actively in charge.

R. Morgan Galbreth

Judge R. Morgan Galbreth, a resident of Los Angeles since 1887, has been actively connected with civic matters in this city since he enlisted Company A of the Regiment that went from Southern California in the Spanish War in 1898. A graduate of the Los Angeles High School and the Law College of the University of Southern California. Admitted to practice in 1913, he engaged in general civil practice to turn to appointment by the Municipal Bench in February, 1926. His departments have handled civil matters with accuracy and dispatch and the members of the bar found Judge Galbreth very considerate and patient.

R. Morgan Galbreth

He is an Elder in the Presbyterian Church, a Mason, and has been very active in Veterans affairs, having been Department Commander of United Spanish War Veterans of California during 1926. His family consists of a wife and two daughters, one attending Marlborough School and the other a recent graduate of the Los Angeles High School.

Pioneer and Criminologist Aspires To Judgeship

In James Hosick, candidate for Municipal Judge, Office No. 19, Los Angeles has one of its best qualified lawyers, who combines a thorough knowledge of the law with an experience of men such as probably no other attorney in the state possesses. Among other accomplishments, Mr. Hosick might qualify as an expert criminologist, but his enthusiasm and hard work for several years have been devoted almost entirely to his growing practice as a lawyer. Mr. Hosick has been a resident of Los Angeles for 25 years.

Judge Hosick instituted the Los Angeles Police Department Finger Print System, of which system of identification he is an expert.

Mr. Hosick served as Chief Deputy City attorney 1913-1915, resigning to enter the private practice of law.

In 1912 he was presented with a gold medal and certificate for courage, valor and patriotism, for his heroic work in the Warr Dynamite Fiend Episode.

APPRECIATION

We are glad to be home again, and we wish to thank our husband and others of long and short standing on the force for sincere service during our absence.

When we came in Sunday morning, we could see at a glance that not alone our devoted partner and staff had been busy, but outside loyal relatives and friends had come in to brighten and cheer home and office, and had succeeded in such fashion that it would be impossible even now, for our stub pencil, with all the feeling we possess to express our gratitude.

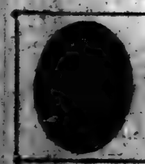
We only hope that through future service and strict application to business we shall in some small way try to prove our gratefulness to our many friends and patrons hereabout.

MANAGING EDITOR.

SOME EVIDENCE OF JUSTICE

And the United States Supreme Court has said to Texas and Louisiana, "STOP! You have trampled beneath your feet the Citizenship rights of the Negro long enough."

We want truly to know where we stand in the category of Citizenship in this our country, and this latest Louisiana decision has certainly furnished a ray of hope that the time is nearing when we shall be granted all of the rights and privileges guaranteed under and by the Constitution of our government for which we have labored, suffered, bled and died.



Close upon this decision we hope that an unannounced but certainly determined protest against any attempt on the part of a state or states to invade our citizenship rights will meet with unanimous protest from black America.

EDITORS FROM NEW YORK TO CALIFORNIA REVIEW PORO SITUATION

On the evening of March the 9th, editors of newspapers scattered over the country from New York to California met at St. Louis and were participants at a Mass meeting called by the citizens of St. Louis at the St. Paul A. M. E. Church. It read resolutions expressing hope that a settlement of a divorce suit, which threatens to disrupt Poro College, might not destroy the future of this splendid institution.

The trend of sympathy was with Mrs. Malone who is the founder and builder of Poro College.

It seems that this is a case where a man figured instead of worked his way into financial fame, but the people, both men and women, know that Aaron E. Malone will not succeed in his pernicious attempt to destroy Poro College.

J. W. Botts, Pullman Porter Investigator Gets $6700 Job in P. P. B. A.

Mr. J. W. Botts, former Pullman Porter Investigator of Oakland, Calif., was promoted to Tom Web's position of Comptroller of the P. P. B. A. of A. with offices in Chicago. Mr. Web is now Secretary of the Negro State Bank, a post from Brot's ambition to get Mr. Webb position for some time, and has been no secret to those who were on the inside dope concerning matters of the P. P. B. A. of A. Whether the new Comptroller of Pullman Porter investigator will be filled again, or abolished is a matter of speculation which probably will be shed. All the prominent

the world—Detroit, Mich. As I sit by my window in the Cadillac Hotel I can see very readily why Henry Ford is considered one of the greatest men in the world. Fords in all shapes and sizes pass constantly all day long beneath my window on their way to the railroad yards. I can almost picture most of them going to Los Angeles. If Mr. Ford could only visit Los Angeles and make a tour of the thousands of second hand auto lots he would see many of his autos rotting away in the rain. So much for Uncle Henry.

Hot Dog

I am told by letter that my sister has a dog. That seems a funny thing to speak about, but for the fact that she has asked me to select a name for it I would not consider it worth mentioning. I am up against it. I am appealing to my readers to come to my rescue and help me select a name for it. The creature being a female it would be foolish to call it Jack or Rover, so in the event that any of my readers are good at selecting names I would be very grateful if they would mail them in to The Eastside Clatter care of California Eagle. Pen names will be published in this column or mine, however, for the poor dog has got to have a name. Hot Dog.

A Letter to Miss Gladys Mathenican

Los Angeles, Calif.

Dear Madame:

I have been reading in The California Eagle your most wonderful column "Girlettes" which always contains such helpful advice to young athletes. Although I am not a girl, I am appealing to you for some advice in regards to training for the Skiff-Skimmers' Derby. I have just signed a contract to enter this race, and have so far been training on chitterlings and corn bread but find that it is giving me weight. Of course I cannot be too heavy when I take the water with my skiff. Would it be detrimental for me to change my diet, if not, what shall I eat? Would neck bones hurt me? How much should I weigh. Would you kindly answer these questions for me in your column and I will be very grateful to you. I mean to win the Skiff Skimmers' Derby in June.

Respectfully,

J. PONDER.

Former entrant in the Wrigley Channel Swim.

When A Snake's Ready to Bite

When a man gets very familiar, asks a lot of questions, and tells you a funny story—THEN LOOK OUT!

When he takes his shoes to bed with him, or when he wears white canes.

When he says that's alright I will carry my grip in porter, BEWARE! He will carry it out in the morning the same way, and your tip along with it.

When a lady tells you she is going to get right on another train.

When a man hands you a ten dollar bill to get changed and you are coming right into the depot.

When the man in upper berth goes to bed last, places there the man's shoes that's going into the [illegible] back next to the steam pipes with his grip and you do not discover it until the man in the lower rings the bell and asks for his shoes expecting to see them polished up nice, BOY! Then Look Out, YOU ARE BIT-BIT-BIT!

Oakland To Get The "Padre"

Some time ago a report was circulated that San Francisco was going to operate the "Lark." The rumor caused quite a sensation among the men of this district. Now we have it from the inner sector department that it will be the "Padre" instead. Regardless of which train our Northern friends get, it will effect at least 12 or 15 men in this district, and if it should happen—Well, it will be every tub, and the bumping which will follow will rock the entire district.

The Women's Mite Missionary society of the A. M. E. church will have their sermon next Sunday afternoon at which time Rev. Miller of the 8th and Towne Ave. church, Los Angeles will be the speaker. The services begin promptly at 3 o'clock P. M.

Mrs. Cora Morrow, the wife of Geo. Morrow, clerk of the Friendship Baptist church, is now the recently acquired director of the choir of the First A. M. E. Church. This church is to be complimented for such an efficient acquisition, since she is a former student of Fisk University and having taught successfully in the Topeka Industrial Institute of the Capital of Kansas, also in the Miles Memorial College of Birmingham Ala. That she might better meet the demands of the musical world a post course was taken in the Chicago School of musical technique which puts her in a class second to none. Mrs. Morrow has a very sweet voice full of harmony, with enunciation above criticism. This choir, with such splendid leadership should be able to compete with any choirs in Southern California without fear of being outclassed.

Mr. and Mrs. Morrow are the parents of three beautiful children and they reside very happily at their home on Mundell Drive, at No. 473.

Rev. L. M. Curtis, the pastor of the Macedonia Church, at Watts, was the morning speaker at Friendship Baptist Church last Sunday. The services were well attended with the visiting preacher for the first time out since his recent sickness and with a continued improvement will be able to fill the pulpit on the Fourth Sunday. Rev. W. R. Carter, who has been in constant charge since the pastor has been ill, is handling the services in a high class way and the members of the church are very grateful to him for the interest manifested regardless of the relationship of his official capacity to the denomination. On next Sunday Rev. Brent, formerly of Long Beach, will preach both morning and evening.

Prof. Chiniquy [illegible] will give a St. Patrick [illegible] Program at Y. M. C. A. on the evening of the 16th where of course every thing will be green even down to the ice cream. On the evening of the 22nd they will give a skating party at the Presbyterian Church, Oakland and Colorado Streets.

Young Miss Claudice Jones, the daughter of Mr. and Mrs. M. C. Jones, now of Santa Barbara, formerly of Pasadena, is fast becoming an adept at the pipe organ as the result of having taken 17 lessons which are being paid for by the Junior Church of which she is organist. Little Miss Jones is organist also for the Sunday School in which capacity she has been for several years and has stuck right to the job without a kick in years. After one hears Miss Jones play they immediately draw the conclusion that she has all the qualifications for a virtuoso. With just the few lessons that she has taken she seems already able to get out beautiful blending of tones and with her inate ability as a Musician there is no reason why she shouldn't make good. Miss Jones resides with her aunt on North Chester.

The Civic League, a recently acquired organization, will hold its initial meeting tomorrow night in the Social Hall of the Friendship Baptist Church. The object of the roganization is to better inform those of our group as to their right of suffrage.

The beautiful home of Mrs. Hattie Johnson will be the setting of a St. Patrick Tea on next Sunday afternoon when the Trustee Helpers of A. M. E. Church will be in charge. The public is asked to attend.

On Thursday evening, the Junior Board of First A. M. E. Church was entertained at the home of Mrs. Weathers by Mrs. Hattie Parnell, 47 Glorietta Avenue, where visitors are always appreciated.

Mr. Henry Wright, one of the well known citizens of Watts, departed this life last Sunday afternoon at his home in the North after the ravages of a brief illness. Mr. Wright had been sick on several occasions but no alarm was felt as to the seriousness of it until the end came peacefully on last Sunday. The funeral services were held last Wednesday at the First A. M. E. Church with the Rev. J. M. Brown, officiating, he being a prominent member of that parish. He was also a member of Hiram Lodge No. 13, who will participate in the services.

Mr. and Mrs. O. J. Gilsey of North Benton Avenue were guests on the Golden Gate Park Links last Sunday where Mr. Gilsey is playing in the city tourney.

This isn't the first time this paper has played this role, and it apparently gloats over such issues, as they feature only the most dastardly happenings in the town. Southerners Hold Colored Girl at Minneapolis

(By A. N. P.)

Minneapolis, Minn., Mar. 1.—Two years ago, Mr. and Mrs. W. F. Hall came here from the south, bringing with them Mary Lizzie Jones, a young colored girl, sixteen, as maid of all work. Mary, who can neither read nor write, was to receive, abstracts, a salary of three dollars ($3.00) per week for doing the washing, laundry, and ironing for one family.

On account of the sickness of Mrs. Hall returned South last summer, placing "Mary Lizzie" with another white family by the name of Fisk, who lived at 1125 Hawthorne avenue. Here she was to work for her board and room, although she had never received a cent of the salary which the Halls had promised her. Mrs. Hall did not return to the South, but her husband who remained in St. Paul called frequently to see "Mary, Lizzie" and take her out. He explained that he had promised her and wanted to see how she was getting along. Finally, he learned she was not right. She was examined and the case was brought to the attention of Miss W. Gertrude Brown, head resident of Phyllis Wheatly House, who investigated it. Hall was arrested and charged with carnal knowledge. He claimed that the girl was sixteen years old, but he is still in jail. Various social agencies and leaders in Minneapolis and St. Paul, headed by the N. A. A. C. P., are interested in backing the case which comes up Monday.

mond Johnson, his guiding genius, manager and mascot.

Not only American Negro Spirituals but songs of all the world are the stirring lyrics for such a mellow, powerful tenor and counter-tenor voice as Taylor Gordon has, and two big concerts in the same great theatre are not too many in one city, as the Gordon voice is great and rich enough to reach all the people. Taylor Gordon can do what Roland Hayes has done, if the opportunity is given him, or if he wants to accept the opportunity. Only the church, or the whole world is the deciding line for Taylor Gordon, either one or both.

To give the Negro as he is, as he was, is, indeed, a grand work of these two notable men. But to give the Negro as he should be and as he will be not only with the song of his sorrow and his ecstatic temporary joy, but with his future song of home, liberty, love and life, flowers, rivers and deeds of nobility, making the Negro arrive as he must arrive to be the equal of any man, this and all this it is the bewitching throat of Taylor Gordon and in the dexterous masterly hand and brilliant mind of J. Rosamond Johnson. If these two noted Negro artists, so close together and yet so far apart in age and other things, just decide to see the whole staging, rolling and changing world, not only in spirituals of the Negro, but in the lyric language lyrics pre-eminently rendered, of all the world.

GAME OF BASEBALL IN A REAL ONE

Weather Not Part, Sunday, saw something new in baseball annals—big league games after the winter season has closed. Jim Hunt's Wattsmen, better known as the Watts Monarchs opened up the spring and summer season by playing a doubleheader against as good and tough a team as ever played outside the leagues—the Hobbs Batteries. In the first game after getting away to a good start the Monarchs dropped the game 3 to 2. But they came back strong in the second and in a close fought battle trimmed the white boys, 2 to 1.

Farley pitched the first game to Smith's catching. Lewis pitched the second to Williams behind the bat. Perhaps because of the Johnson-Gordon concert or perhaps because they did not know the brand of Apple boxing these Monarchs were going to put up the crowd was not all it should have been. But those who attended declared they had never seen better ball off the winter season.

A game to a game and lovers of good baseball will be out in numbers to see the Watts Monarchs clash with the Star Truck Co. team of Whittier, pennant winners of the San Fernando League, this Sunday. This is a good strong team and will give the up-to-date Monarchs a tight fight. Jim Hunt has been picking all winter and if he has a wonderful aggregation lined up as follows:

Smith, c; Williams, c; Hunt, 1b; Green, 2b; Salisbury, ss; Flores, 3b; Wilson, cf; Hewitt, rf; J. Lewis, p; Cunningham, p; casualties, p; S. Lewis, utility; Anderson, 3b.

In order to keep the prices within the reach of all the admission beginning with Sunday will be only 25c and 35c.

GIANTS LEAVE FOR JAPAN

On board the Japanese liner Ko Plata the team which will play on a tour through Japan left the city Tuesday, February 5. The success of the team is composed of five members of the Royal Giants who have played here this winter. They are Dixon Mackey, Pullen, Cooper and Duncan. They have been threatened with penalties from the Negro National League but the tempting financial bait induces them to take a chance.

Los Angeles, Cal., Mar. 31.—In a letter written to the sports editor of the "California Eagle" inviting the publication to represent on the Pacific Coast, as in the Catalina Series, Mr. H. W. Smith, formerly of the Chicago American, suggests that the Eagle be represented in what will be called the Pacific Ocean Marathon. This is to be a row-boat race over the same 22 mile course followed by the swimmers. How is the memorable race to be staged, Colonel Young, Eagle editor.

The winner of the race will get $5,000 in cash. The fact that of all the clubs represented in the Grand Central Marathon there were no colored entrants is greatly deplored, as the material publication accepts the challenge and is making preparations to enter a crack crew. Who knows they may have a chance to win the $5,000 and the fame that goes with it.

GIRL-ETICS

By GLADYS MATHONIAN

The rain has been wonderful for the duckers and fish but not for athletics, especially the outdoor sports. So far they have stayed to somewhat here the last week will ask what the title side world is doing in girl's sports. This news comes in over the Associated Negro Press of which this publication is one of the 100 members.

At Lacy, Tennessee, the Washington High School girls trimmed the Wyatt Trades School players 19 to 5.

At Dranesville, N. C., the Claflin girls played themselves too much for the Pirie outfit in the Claflin gym when they won by a score of 17 to 13.

At Tuskegee the Tuskegee girls basketball team won its fifth consecutive victory when the State Normal school girls were defeated by a score of 30 to 12.

Into among the normalites. Very recent was again. As a Tuskegee Lady Annie Pickens scored 27 out of 30 points in the Y. W. C. A. Bowling Alley in the swimming matches at the 37th Street Branch, February 16th. Miss Pickens scored nine points more than the Hampton team. Miss [illegible] (number of strokes)—Second [illegible] were Everett Ware and Ben Jones who represented "Good" champions of the Y. W. C. A. and of Hampton Institute.

Miss Harriet Ida Pickens, daughter of Professor and Mrs. C. Calvin Pickens, of Fisk University, Nashville, Tenn., is a Senior in the College and also a member of the Senior Class. AUTO CLUBS ASKED TO AID

CAR MAY BE RUINED THRU POOR LUBRICANT

New York, March 11.—All the automobile clubs of the country have been asked by the American Fair Trade Association to co-operate in a nation-wide check on fraudulent sales of motor oils. In a letter addressed to between 700 and 800 executive officers of these clubs the association declares that substitution is being practiced in almost every part of the country and that the resulting losses to motor car owners are enormous.

In his report on trade mark protection work for the year 1930 Edmond A. Whittier, the secretary-treasurer of the association, says that some of the most striking results have been obtained in the campaign to put the substitution of inferior oil—[illegible] high-grade lubricant—ordered and paid for by motorists. As the result of criminal and civil actions in different parts of the country and of warnings issued by the association and by public officials and automobile and motor-oil manufacturers, the motoring public is beginning to realize the need of exercising great care in the purchase of oil.

Ruin Motor

"Every motorist," says the report, "knows that good oil is necessary to the life of his car, and yet thousands of motorists will stop anywhere and pick up a quart of oil, and the dealer, who may never see them again, gives them some inferior product, not the kind he asked for, on which the dealer doubles or trebles his profit. Only a small percentage of car owners ask for the brand and grade of oil they know is best suited for their cars. The dishonest dealer takes advantage of this carelessness and, for the sake of a few cents' extra profit on a service of lubricating oil, has sent more than one good car to untimely ruin.

"Investigations in different parts of the country, and notably in New York, Detroit, Buffalo, Cleveland and Washington, have revealed that this practice of supplying inferior oils exists to a degree that is almost unbelievable. Forty-one samples of oil collected from stations in New York City during a test investigation showed many inferior or worthless oils. The chemist who analyzed the samples reported that if this test gives a true picture of a situation the motorist stands a poor chance of getting the oil he should use, unless he knows what he wants and makes sure he gets it.

Bring Prosecutions

"The movement started last summer by the American Fair Trade Association has caused organizations in many different parts of the country to look into the local situation as regards distribution of motor oils.

"In a number of cities service station owners have been prosecuted under the laws against dishonest merchandising and the attention paid to these cases by the local newspapers has had a very wholesome effect in warning irresponsible dealers.

"In some States, notably New York, Connecticut, South Carolina, Washington and California, steps have been taken to strengthen the laws so as to make it easier to prosecute dealers guilty of this practice. The New York State Legislature last year passed a law which permits an oil manufacturer to guard the integrity of his product by recovering from the dealer a penalty of $100 for every substitution of another product for the manufacturer's brand. This law took effect on July 1, 1930, and was highly commended by Atty.-Gen. Ottinger.

"The district attorneys of all the counties where prosecutions have been brought by the American Fair Trade Association have co-operated to the fullest extent with our investigators. Asst. Dist. Atty. Max Eastman, who has been in charge of these prosecutions in New York county, recently declared that although the amount involved in these offenses is individually small, the principle is of widespread importance. Judging from inquiries received by the New York District Attorney's office, he said, 'similarities in other counties are receiving great interest the officials of which being quick to clean up instances of frauds in New York. I am informed that the situation here can be duplicated in many other states.

"The city authorities of Chicago have been interested and steps are now being taken there to enforce prosecutions. The [illegible] Chamber of Commerce [illegible] [illegible] [illegible]

matters inimical to the best interest of the people.

In this many organizations have fallen short, not because their intentions were not good, but for the lack of programs sufficiently comprehensive to cope with any emergency and because of the absence of concentration and co-operation.

Profiting by the error of past experience two of the most powerful Political Organizations of the age, have plans under way by which they will merge, and absorb many of the present organizations throughout the country.

The following preamble sets forth in part, the ideals of this mighty organization.

This League has for its object the real betterment of all members of the human race.

It is a League of Justice. The principles underlying this organization are the ever-enduring foundations of any political democracy which in its fullness will be the veneer-developing crown and glory of this great American nation.

There is a most urgent need for this statesmanlike and businesslike organization. The principles enounced will not encroach upon those of any other or similar institution, nor will it interfere with the Federal principles, whose services it hopes to enlist, to the end that all Races and Nations in this Community may be fully warranted in proclaiming to the world: Now we are a part of the government of the United States.

With able champions at the head of this movement a relentless and unremitting combat will be waged for attaining unto eligibility; for the exercise and enjoyme[illegible]tical and civil right of citizenship within each and every one of the constituent political units of this country, and the provision of suitable and adequate scholastic facilities for establishing and imparting the necessary knowledge and worship for the purpose of engendering within this generation and its posterity true spirits of local Nationalism engraften upon and conjoined with the one general spirit that should pervade this entire country, the spirit of all persons who are true and faithful in their allegiance to this American Republic—American for Americans.

Our highest aim will be to strike away the bars and blocks which permit the toleration or permissive recognition of departure from or infringement of these sacred and just principles of government. It is our belief that departure from these principles creates internal friction and strife; that stirs civil war and rebellion; disturbs the stability and weakens the power of the nations.

The personnel of its officers will be given to the public from our next meeting. They are now known as the U. S. Political League, and All-American League.

ROLAND HAYES, THE GOLDEN-VOICED TENOR, WILL SING AT PHILHARMONIC AUD., MARCH 28, APRIL 2

"When I sing the Negro spirituals which are always a part of my concert programs," says Roland Hayes, "there are sometimes people in the audience who laugh. It cannot kill me when that laughter does it to me. Those people might as well thrust a knife into my heart.

"Those songs of my race—what are they? They came from out of the struggling to express something that was the essence of our Biblical emotions."

Europe of America scarcely knew this great American treasury of folk songs until Roland Hayes sang them there. It is not surprising that he started England, France and Central Europe talking about them. When Roland Hayes first sang before the King and Queen of England, and when he sang again before the Queen last spring, both were profoundly stirred by the "spirituals"; they questioned him about them, and followed him in song all of them he knew.

Roland Hayes has sung his spirituals in all of the world's great music centers. Symphony Orchestras have made special music so that the great tenor could sing the spirituals with the orchestra.

It is not only in the spirituals that Roland Hayes reveals his genius. But the English, French, German and Italian masterpieces, have found in Roland Hayes, A perfect artist. Musical France never ceases to marvel at Roland Hayes' fine artistry and English comment in Musical World says: Sings Berlin and Vienna forget cause to regret that he sings the German Lieder as if born to the language and mood of those little songs."

Two beautiful programs will be given by Hayes at the Philharmonic Auditorium. The first is Monday evening, March 28th, the second Saturday evening, April 2nd. Among the "spirituals", on the program are "Deep River," "Nobody Knows the Trouble I've Seen," "Were You There When They Crucified My Lord," and "Wonderful Redeemer."

Seats are now on sale at the Philharmonic Auditorium, and music lovers are urged to buy their seats as early as possible, in order to secure the good seats at moderate prices which are available in any section of the house.

IN NEW YORK

(Continued from last issue)

But those who go [illegible] Negro were for more disappointed.

In making this little survey of Harlem, we are not responsible for its accuracy in every case, but to the best of our ability, we gathered facts from the most reliable sources available, and while it is almost impossible to follow any chronological order, we are going to try to make it orderly so that our readers here in Southern California, even though they may not get the inspiration to locate in Harlem, they will be at least awakened to a sense of the necessity of posting their financial interest in all lines.

Harlem Churches

It is said by some that the influence of the church is waning, but this contrited certainly does not prevail in Harlem. Of course, the frenzied, old-fashioned camp meeting where the spiritual of the moment, the incantations, cries, swaying of bodies, and over-exuberant response to music has passed and the church has become the dignified social center of the Negro people.

In Harlem, there seems to be no fear a movement can be formed for a better trained ministry.

Harlem has 28 churches. The most conspicuous among these are: St. Philips Episcopal, which has 5,000 members, and a property valuation of $1,000,000; Salem Methodist Episcopal Church; the Abyssinian Baptist Church, which has in connection a community house, and is answering a vital need in the community in which it is located; "Mother Zion" which has but recently entered its new home, a palatial church edifice; St. Martin Protestant Episcopal Church, recently constructed at cost of [illegible] million dollars; Grace Congregational; Catholic; Calvary; Independent; [illegible] Christ Church, and [illegible] a church at a cost of [illegible].

Dr. George E. Haynes, secretary of the commission of Church and race relations of the Federated Churches of Christ in America, says, that the seating capacity of the churches and missions of Harlem is 24,000.

It might be interesting to know that Bapatist Abyssinia Baptist Church and St. Philips Episcopal Church were both designed by Negro architects and built by Negro contractors.

[illegible] we close this chapter on Negro churches in Harlem, we must call attention to the social uplift work that is being sponsored by the good old [illegible] the Rev. Dr. Powell, who has an assistant pastor, the Rev. Willard Morris, a young man of but a few years ago was just a boy with an unusual talent, but who is now an able pastor and very often fills the pulpit of Abyssinia and preaches a sermon that is worthwhile and full of good advice.

And while we feel that the church money is being spent on the churches, sometimes at a cost of half a million, Church, which has recently purchased by Antioch, [illegible] that church lifts in Harlem is having a powerful influence for good in that community.

War Declared On Lower Calif. Mexican Land And Development Company

This week we will continue our article by telling our readers a bit more of the inside doings of the International Community Welfare League. This organization and its doings were brought before the Company's Board of Directors by Hugh E. Macbeth for their endorsement. Some of the directors heartily endorsed it while others gave their endorsement by acquiescing. Some joined and were named to various offices in the organization; but, thanks to God, some of us had sense enough to save that dollar.

Public meetings were held by this organization in churches and various places in and about Los Angeles, San Diego and other cities and towns. Sums of money were collected in membership fees. None of this money was turned over to the company. So if you wish to find out what became of these funds, inquire of Atty. Macbeth and he may be able to tell you.

Some weeks later, the most apparent crooked deal that has ever been pulled off among Negroes in Los Angeles was pulled in a non-maturing or fake automobile raffle. "Big Hutch" in his balmiest days would not have had a heart to do so. This raffle was conducted by Hugh E. Macbeth, Robert F. Fite (a white man), and Mrs. Robert Fite, his wife. It was conducted under the auspices of the League. Tickets were sold or offered for sale indiscriminately to the rich, the poor, white, black, yellow and Mexicans wherever they could be sold at 50 cents a chance on this Packard automobile that was supposed to be given to the winner.

The money which they raised from the sale of these tickets was to be used for the erection of a tuberculosis sanitarium at Santa Clara ranch, to be used by American citizens of color, Indians and Mexicans in conjunction. Hundreds of dollars according to our knowledge was realized for hospital purposes. The money was turned over to Mr. Macbeth and Mr. and Mrs. Fite.

While the ticket campaign was still in progress, one of the members of our group pointedly asked Mr. Macbeth concerning what was being done with these finances for safe keeping. Mr. Macbeth's reply was: "That the money was being placed in the bank and that these funds were being closely safeguarded by having arranged with the bank officials so that none of these funds could be withdrawn without the signatures of Mr. and Mrs. Fite and himself. After a year or two had passed and no raffle had taken place, some of the persons who had bought tickets from individual members of the Board of Directors of the land company began to complain for a refund of their money. The matter was brought to the attention of the board and some of the good fellows of the board who have always supported and still support Mr. Macbeth, suggested that the land company make these persons' money good. Some of us openly and loudly opposed the suggestion, for the company had not received a penny of this money.

When the peoples' cries and complaints began to become so general, naturally some of us began to interest ourselves to see what could be done. In a meeting of the Board of Directors, we openly asked what had become of this money. No one attempted to answer our questions. Then one of us asked Mr. Macbeth personally what had become of this money. His answer was: "I do not know." Later, one of us succeeded in having a personal conference with Mr. Fite. Mr. Fite frankly said that what he and his wife had received personally they had spent and what Mr. Macbeth had received they supposed Mr. Macbeth had spent, for they had not received any of what he collected.

One lady, whose name we shall not here mention, personally to our knowledge turned in $250.000 that she secured from the sale of these tickets. There are others who turned in $10 and $20, $50 and other amounts.

We feel safe in saying that with the exception o fpossibly one or two, there is not a member of our board that does not know these statements to be the truth and nothing else but the truth.

We reported this fake automobile raffle to the district attorney; he sent us to the city attorney. The city attorney told us that he was powerless to prosecute as the laws were so framed that such cases were out-lawed if the charges had failed to be made before the expiration of one year. The two above mentioned places failing to find ways by which to prosecute, we finally reached the L. A. County Grand Jury. In the midst of their investigation they were dismissed from further jury services, as we told you in our last article. In an interview with one of the business men of Los Angeles, who was a member of that grand jury, we got some startling information that may be given to you next week.

BORN A SLAVE, EDUCATED HIMSELF

Now a Fireman in Los Angeles. Life of a Southern Negro.

Dept. G. W. Bright

Born a slave, self-educated and by his own exertions raised to a position of responsibility in the local fire department! That is the life story of George Washington Bright, the colored driver of Chemical Engine No. 1.

George Washington Bright was born in 1862 near Austin, Texas, the slave of John B. Hancock. The first event of his life that still lingers in his memory is the reading of the Emancipation Proclamation by his owner. Although that proclamation went into effect January 1, 1865, it was not until many months later that the slaves in the remote parts of Texas were liberated. The owner of Bright called all of his slaves before the porch of his plantation house and read a copy of the document that set them free. After he had finished the reading, he laid his hand on the head of the little pickaninny who is the subject of this sketch and said to his mammy: "Sally, take care of this boy and educate him; he may be a smart man some day." Mrs. Hancock, who had nursed the little black baby at the same breast at which she had nursed her own white child, added a like piece of advice to the negro mother.

During the slavery times Mr. Bright's father had been sold to a distant plantation. His mother married a second time and the boy was unable to get an education while he lived at home. At the age of sixteen he left his home and Texas, determined to fight his own battles and get an education for himself. He went north. There he saw more clearly than ever before the necessity of an education and he went to school, working his way at odd hours. He went to the public school a short time and then attended night school.

In 1887 Mr. Bright went to California. He wandered to old Mexico in June, 1893, and bonded 85,000 acres of land. His attempts to sell the land were unsuccessful and so he sought a position in the Los Angeles fire department.

This was in 1897, Oct. 2, Mr. Bright was given a temporary position in this department and in two weeks he had an opportunity to prove his worthiness. He had always had a strong ambition to do something that would distinguish him. His performance in this first fire was heroic. A two-story building at Rockwood street and Union avenue was in flames when the fire company reached the scene. Thos. Holmes, now a lieutenant of the department, was sent up through the attic to the roof of the building and the hose was passed to him. The flames spread so rapidly that before any one noticed his danger the four sides of the building were burning. There was no chance for escap eover the walls. He used the hose as best he could, but the heat was so intense and the smoke so stifling that he was exhausted before any one realized his danger.

Death was certain for Thomas Holmes unless some one hurried to his rescue. Two men were ordered to go through the trap-door in the attic floor and try to risk their lives to save their comrade. Bright was one of the two who then volunteered to go to the rescue of his exhausted comrade. He seized the hose, helped Holmes descend through the trap-door, and finally got the flames under control. Holmes fell in his arms and was crippled, bearing the marks of his narrow escape until the present day.

Bright was confirmed in his position as hero after his exhibition of valor and was promoted to hoseman. The next year he showed his mettle again at a fire in Los Angeles street between Commercial and Requena streets. For three days after this fire, Bright was confined to his room as his lungs were affected and he was unable to see. His diet during this time was confined to milk and tea.

In 1906 he was promoted to the position of driver of Chemical Engine No. 1, and there he still remains as a popular member of what is known as the Colored Company."

Miss Pearlie Johnson read this sketch, which she got from a magazine of 1901, at the celebration of Mr. Bright's birthday, March 17 at Second Baptist Church. Everyone present had an enjoyable time.

Widowers come and meet your widow Easter Monday nite at the Merry Widows Grand Easter Ball, Labor Temple.

PASTOR VICTOR IN CHURCH ROW.

Members of the Mt. Olive Missionary Baptist Church, at 3564 East First street, yesterday afternoon found themselves exactly in the same place they were in January. Their internal strife, ousting of the pastor, unlawful possession of the church, and battles over trusteeships are a thing of the past.

The California Supreme Court yesterday granted a writ to the pastor, W. H. Hutchinson, and his followers to take possession of the little church for colored people.

Philip B. Omar, a police officer and six others in February of this year formed a separate organization. They went into Superior Court and had the minister and his trustees ousted. Then, it is charged, Omar and his followers took unlawful possession of the property before judgment was rendered.

Yesterday the state's highest court ruled that the pastor and his followers should have restitution.—L. A. Examiner, Dec. 6, 1926.

Mai Tatum; Remarks by President, Mrs. Myrtle Howard, who spoke of the many good deeds Mrs. Brown had done, and many kindnesses shown to all. In the midst of all the joy Mrs. Brown was much surprized to be presented with a most handsome bouquet and many other beautiful presents by members of the club. Each present with a motto. Mrs. Brown gratefully responded by saying many interesting and inspiring things, but especially emphasising that—

She would live and die
For the Club,
In the Club, and
By the Club.

Closing song with motto "Together we stand, divided we fall."

P. S.—The Woman's Self Improvement Club has put over some work in the recreation centre in this city, that has been highly commended by the strongest clubs of this city.

We are going to do more "Lifting as we Climb."

L. A. Playground and Recreation Dept.

A handcraft, nature study and music 'exposition' will be held by the municipal playgrounds on Thursday, Friday and Saturday of this week at Echo Playground. The three day display of exhibits will give the general public an opportunity to see the results of the manifold activities of a recreation center. Many of the themes of "play" are of practical and education value. The public is invited and no admission fee is being charged.

Among the handcraft displays will be table decorations and favors, fabric painting, lamp shades, rugs, pillows, wool, silk and paper flowers, dolls, dresses, cross stitch bags, kites, scrap books, sewing cards, soap carving, metal work and wood modeling.

Exhibits of special interest will include the stop-by-step process of placing motion pictures, complete electric train song by playground boys, dots in natural costume, miniature circus and a model playground.

On Saturday night music will be furnished by the Hazard Playground orchestra, Recreation Center orchestra, Manchester Ukulele Club, playground harmonica band, Echo Playground quartette and Pecan Playground quartette.

A new municipal playground has been added to the city's recreational facilities by the completion of work on the Slauson play center at Sixty-third and Hooper streets. The site comprises five acres and has been improved with a field house, baseball diamond, two indoor diamonds, two volley ball courts, two basket ball courts, outdoor gymnasium, croquet court, two sets of swings and a sand box for small children.

Let us be grateful for homes. We have some place to stay while the car is being repaired.

An automobile accident is the other fellow's fault.

N. N. B. CLUB DOPE
By: Martin

The N. N. B. Club is planning to pull a surprise soon, so we are giving all our friends fair warning. The club and its entire membership wishes to thank the younger set for the splendid support that has been given them. We wish to show our appreciation by sending our services to any club or organization that presents us the invitation.

In our recent new membership drive four new members were added to the list. Their names are as follows: Billy Boyce, John Henry Reese, Alfred Johnson and last but not least, the famous key and ivory man, Mr. Jessie Gipson. There need be no comment upon these men as their names speak for them.

All athletes who are planning on competing for the N. N. B. Club in the annual "Y" meet should tell some members of the club so entrance fee can be arranged. As the meet this year is expected to be the greatest in history all athletes should look forward to it and help put it over in first class order.

The last meeting was held at the home of Mr. Alfred Williams, the big man and becon man from the city of Troy, better known as U. S. C. The next meeting will be held at the home of our distinguished citizen and brother Darling J. Reese, and that reminds me, Darling is no relation whatsoever to John Henry Reese, so friends please be careful and make a distinction between these names and what they represent because the boys are very high-powered and are liable to explode if you call one by the other's name.

Heard in Club Meeting

Clyde: I shall now tickle the ivories, as he gently fingered a tooth pick.

It is rumored that Patton's days are over for doing "parlor duty," but I disagree.—so I won't say any more.

It is reported that Darling J. Reese has a big dentist bill facing him, as he has just had his teeth sharpened for the forthcoming back-biting contest this summer.

Sam Moore says a certain young man told him that he had found his "heart desire," so Al Johnson says he is going to see that this young man loses what he has found.

Dave Reed Hopson is contemplating on running the two mile event in the "Y" meet—more power to you Dave.

GLADYCE GREENAWAY

Miss LeVera White entertained several young people at her home Sunday, introducing Miss Gladys Venerables from Ohio as her guest of honor. Miss Venerables has been in Los Angeles only two months and we hope she will decide to stay. You second the motion, Woodson?

We congratulate Mr. Earl Robinson, Jeff Hi athlete, on reaching his 19th birthday. A surprise birthday party was given in his honor Saturday, the 19th, at the residence of Miss Fannie Hayes on the West Side.

Miss Lois Towns, County Hospital nurse, gave a wonderful talk on "Health" at the Business Girls' meeting Thursday, which was thoroughly appreciated by everyone. We wish more girls could hear talks like this.

It is a shame how a certain young lady with a boyish cut bob really gets away with that certain "Jordan." We believe if the cops seen her coming down Central at 50 miles per they would smile and turn their heads. Oh death, where is thy sting!

All one has to do now to get the Silver Fox "gift car" is to get the lucky number. And we says to ourselves, says we, "try and get it!"

Oh, you would do that sort of a thing, you're just that type, said the girl when her sweetie bought her lollypops instead of chocolates.

Lost and Found Department

Found—A dramatic actress. Miss Lucille Martin, 1926 President of the Girls Reserves, gave a vivid portrayal of the different characters of "An American Tragedy" now playing at the Vine St. Theatre. Miss Martin can get our vote any time.

16 Girl Reserves and Miss Jefferson left the "Y" on a hike to Mount Baldy, Saturday at 7:30 A. M. Although the cars became separated they had a good time.

A basketball game between the Girls Reserve of Los Angeles and Pasadena will take place on the 28th if everything goes well. We hope a crowd will be there to root for our girls.

We hope dear publice (as Bob Nelson at the Met says) that you were not too disappointed at the omission of this column last week, but the printer forgot us. But here we are, bobbing up a per usual.

Ken Levy who as everyone knows, is the "college cut-up" makes this wise crack—"If students who sit thru three straight hour lectures were lined up three feet apart, they would stretch."

Walter Floyd says, once he knew a girl who used "Three Flowers" powder—wheat, rye and barley.

The $50,000 goes to Granpa for the following:

"There was a young man from Calcutta
Who talked with a terrible stutta
He screwed up his face
When he tried to say grace
And blew his false teeth in the hutta."

The track meet between Jefferson Hi and Manuel resulted in a score of 56-47 in favor of Jeff. All Jeff studes are breaking buttons off their shirts, swelling up with pride.

The Business Girls Club met at the "Y" last Thursday evening. The names of those holding offices will be published later. All business girls are asked to join the club and make it a bigger and better one.

This is what we will be saying if Pitts Westbrook doesn't drive slower and if Major doesn't keep his hands off the wheel—

"They're pickin' up the pieces
With a shovel and a rake
Because she used the horn
When she oughta used the brake."

Easter is coming and on Easter Sunday we will be dazzled with costumes from deep red to bright yellow. We hear, in good authority, that the predominating color for males this Spring will be bright orange with polka dot vest.

Famous last words: "I'll open up a Chile Parlor and hold crap games in the rear. The police are my friends."

News has crept in that during a visit to the Sebastian Club last week, three charming co-eds showed 'em how. Dorothy Armstrong won a prize singing; Geraldine Slaughter "cleaned" up with her graceful dancing and Myrle Gidney copped a prize by dancing.

HAWK'S HANDS

This is not a Scandal Column or "Oil Dropper", but only a report on the careless birds who fail to watch their step and fall in the Hawk's Hands. Yet there has come to notice an incident which hardly escaped the Hawk, yet must be told in order to let it be a warning to the holy and righteous brother and sister concerned. It seems that a certain Good praying brother of a certain Holiness Church, (said brother being married and blessed with two children), and a certain devout sister of the same church, also married, had found such favor in each others eyes that they became soul-mates. Either for holy communion or to keep a love tryst they met along in a Japanese hotel at 16th and Central. While there they were surprised by a Morals Investigator. With visions of iron bars, church trials, disgrace, and divorces, the sister began pleading, "Oh please sir, please sir, if you are an officer, please don't take me! Oh Lawdy, I'd rather you shoot me than take me to jail!"

And the old brother in fear-shaken bass chimed in, "Jes' put all the blame on me mistah, ahm all to blame!" And what a relief when they found they were not in the Hawk's Hands!

Times are getting ultra modern when women fight over each other. Lillian Tyler, 21, of California; Gladys Sprate, 22, of Colorado; and Marie Spencer, 24, of Texas, were arrested by officers Slaughter and Kelly of the Newton St. Efficiency Squad at 1133½ East 12th St.

The officers arrived [illegible] hurry-up call had been phoned in from a Mr. Major next door complained that the noise of fighting cursing and breaking of glass and furniture was disturbing his peace. The minions of the law found the women furiously engaged in a three sided battle, and only with [illegible] difficulty got them separated. The Spencer woman had left the Tyler woman at their home while she went out returning about 2:30 she found the opposite woman present. Furious with jealousy she attacked them both, with the result as related above and all were charged in Judge Richardson's court with fighting and disturbing the peace.

Ashton Paige, a 15 year old school boy was arrested at Newton and Central. It was found that young Paige had run away from home and had been living at 1512 West 35th St. He was booked by the arresting officer Price at the Newton St. station and arrangements were made to ship him back.

Investigate Carver Acres— A WONDERFUL OPPORTUNITY FOR ECONOMIC INDEPENDENCE

TO THE GENERAL PUBLIC:

In order to offset certain unwholesome rumors, to wit: That T. S. N. Maloof, owner of Carver Acres, is not the actual owner; we wish to make the following observation:

REV. RICHARD H. WADE
Manager

I solicit a thorough investigation on the part of anybody who doubts the honesty, and integrity on my part in offering these lands to the public. If any statement made to the public can be proven false, or not absolutely as advertised, I agree to frofeit $1,000 gold coin U. S. money to any one proving same.

CARVER ACRES, is the property of T. S. N. Maloof, and I am in position to give title to individual purchaser, on payment for his acre, whether one acre is sold, or the whole of the acreage is sold.

The records of San Bernardino are open to the investigation by any citizen who may desire to do so.

You will find Tract 2177 of the Maloof Highland Avenue Tract 1, recorded in book 31, page 51, San Bernardino County. You will also find Maloof Highland Avenue Tract, 2178, Plot 2, recorded in book 31, page 52.

Search the records, they speak for themselves. My offer stands to any one, and every one. If it is not as we say, you don't have to buy.

Here is a splendid opportunity to make One Thousand Dollars, by anyone who doubts our word. Remember this offer is unconditional, to anybody, anywhere, at any time.

The Rev. R. H. Wade, a man of outstanding character, and 18 years of unquestioned integrity, in California, who has for the first time to deceive the public, is my General Manager. He is known as a man of the highest honor, and invites investigation to the fullest extent. And Mr. E. B. Maxey, building contractor of 20 years' residence in Los Angeles, known everywhere as an honorable man, of strong business qualities, certifies as to truth of the facts above stated.

The land is now going. Get in now. Water rights go with the land. He who hesitates will lose.

T. S. N. MALOOF, Owner.
E. B. MAXEY, Contractor.
RICHARD H. WADE, Manager.

Buy one or more acres at once. Prices advancing with improvements. Delay means loss—get in on the ground floor.

This is your one opportunity to own some of the best land in California. Rich, level soil, midst highly improved orchards, vineyards and olive groves. Geological survey shows abundant water supply; water rights with every acre. Buy one or more acres at once—$600 per acre and up.

This acreage is surrounded by several large cities. Plenty of water, guaranteed for domestic use by the owner.

T. S. N. Maloof will endeavor to assist you in building your home with all the necessary improvements. I am not a promoter, but owner of this tract. I am in a position to give a grant deed, and a certificate of title to each individual acre bought and paid for.

Do not measure my proposition by others of a like nature. Mine is different from any other yet given to the people of California. In fact there is nothing to compare with this proposition.

I also finance and build homes anywhere in Southern California. Resources unlimited. If you have the purchase price on your acreage we will make every effort to build for you; putting in fences, chicken corral, rabbit hatchery, allowing you to pay out in small monthly instalments.

E. Burton Ceruti Dies Of Heart Failure

(Continued from Page 1)

of personal rights, his easy grasp of the facts in the case, and his deep sense of constitutional law enabled him to win victory after victory in matters of discrimination and injustice.

In cases prosecuted against theaters for unjust discrimination, in cases against restaurants; against members of mobs who had attacked and beaten members of our group, and in matters affecting property rights, Attorney Ceruti, not only in the local courts, but in the Supreme Court won a score of cases, each of which tended to confirm and make secure the Civil Rights Bill of this state.

To my mind, the crowning effort of Attorney Ceruti's work in Los Angeles along the line of human rights was his effort in regard to the Training School for Nurses at the County Hospital.

The manner in which this fight was organized and conducted attracted the attention of the reading and thinking public at the time to such an extent that there was created sufficient public sentiment to overcome the opposition those in charge of the Training School had to the admission of our young race women, and as a consequence, this branch of our public service, and this opportunity for training and humanitarian employment has been opened to our group ever since.

Every girl graduate of the Los Angeles County Hospital Training School for Nurses, or, who in the future may become such a graduate, is, and will be indebted in a large measure to the fearless and painstaking fight that Attorney Ceruti made for our group against those barriers of discrimination which had before that time barred the admittance of our race girls.

As much might be said of the fight Attorney Ceruti launched against the appearance of the Klansmen in this city; against the unjust discrimination in the swimming pool cases and for his relentless attack upon all form of discrimination in public institutions and semi-public places. As a vigorous and active member of the Board of the local Branch of the N. A. A. C. P. his services finally attracted the attention of the national officers and he was elected to a place on the National Board of Directors of the National Association, which position he held at his death.

Attorney Ceruti approached his fellowmen from the standpoint of encouraging efficiency and promoting a higher degree of self-government and of service more particularly in the various lodges and societies of which he was a member.

For about seven years he was the Exalted Ruler of the Elks Lodge, and saw the lodge grow in numbers from a few to nearly a thousand under his gavel and saw it rise from a condition of chaos and a bankrupt treasury to the ownership of an excellent piece of property on South Central Avenue, near East Jefferson Street, and to the erection of a building fund for the erection of an Elks' Home.

Just as effectively, too, was his work in the Knights of Pythias Lodge. Serving this fraternity as Grand Commander, all of the wrinkles were worked out of the Endowment Department, and the Insurance and Benefit Funds were placed upon a sound and secure basis. He rose to the position of Grand Chancellor of the State of California, and attained notable recognition in the National Councils of the Order of the Knights of Pythias as well as in the National Councils of the Order of Elks.

Attorney Ceruti was one of the charter members of the Holland Lodge No. 20 F. and A. M., and was also one of the charter members of the Sigma Pi Phi Fraternity.

One would think after having read of the many various activities of a local nature conducted by Attorney Ceruti that he was blessed with an enormous income and enabled to amass wealth as a result of his ability and untiring work. On the other hand, the contrary is wholly true. The great criminal cases in which he engaged not only occupied weeks of actual trial, but weeks and even months of preparation both for trial use and on appeal. In no case with which I am familiar that he handled, was he ever paid a fee at all commensurate with the work he performed, or the importance of the issue or rights involved.

His work in the field of human rights and more particularly in matters of defense and prosecution of civil rights bill of this state, would not bring sufficient of remuneration to carry his general overhead office expenses.

It was the prosecution of an ideal, the fight for principle, the exhilaration that comes from expending ones mental and physical force, in maintaining high standards and in securing for others the things that make life worth while, that invigorated, sustained and drove Attorney Ceruti on through fight after fight and through labor after labor to his untimely death.

In appearance Attorney Ceruti had the stature, the build and the countenance of a warrior. That fight was in him, was apparent at first glance. The deep richness of his voice made him powerful in oratory and gave to his public speaking a conviction that overshadowed the charm of his good english and correct diction. The greatest of Ceruti was that of the argumentative brand. He set up always wrong, injustice and lassitude and inefficiency, and attacked them with convincing zeal with compelling force for right, and injustice and cooperation and efficient, proficient conduct.

The unfortunate situation which has resulted in a lack of playgrounds, and more particularly in a lack of interest in physical recreation among our group, claims its fourth notable citizen in the person of Attorney Ceruti. I deem it of an importance that cannot be expressed, that there are now some two or three hundred persons using the gymnasium of our new Y. M. C. A. The close confinement of the office, the Court Room, and of the library, the strain that the burdens of clients cast upon any lawyer who approaches his work conscientiously and feels the results; (this is true in regard to physicians and their patients;) wears this heavily upon the constitution bringing a breakdown without ample physical play and recreation.

Then what C. W. Wickham, attorney and prominent Mason; and then host to Dr. Shadrach, host to the choir of St. John fully equipped for rich contributions to the delicacy of the occasion.

pressed and in welfare work. The demise of T. L. Wood was no doubt due in a large part to lack of physical exercise, and so too, the untiring labors of Attorney Ceruti, coupled with the worries which attend the prosecution of criminal and civil rights matters crowded out his time for play and left him an easy victim to the ravages of overwork, of worry and of care! A few friends at his house at night to enjoy the hospitality of his home where his wife stood by his side to welcome and make pleased those who dropped in for a social hour, was the limit of the time he took from his work, the fruit of the recreation he provided for himself.

Attorney Ceruti was a member of the St. Phillips Episcopal Church, and at 12 o'clock on Saturday, the 26th of March, High Mass will be said for him by the Rev. W. T. Cleghorn, the rector.

This mass will be followed by services at the Hamilton M. E. Church, participated in by the Knights of Pythias and the Elks. The interment will be at Evergreen Cemetery.

On Sunday, the 3rd of April, at a place and hour to be announced, public memorial services will be conducted for Mr. Ceruti at which time the members of the bar who labored with him, and who knew him, his friends from the Bench and members of the National Association for the Advancement of Colored People and of various organizations will pay such tribute to his labors among the people of Los Angeles, as comes to their minds and hearts to pay.

THE CALL OF THE BLOOD

In the Sunday Examiner of March 13th, the Ex-Kaiser of Germany says, "France faces peril in Nationalizing the Negro."

The article starts out with these words—"The battle cry of 'Africa for the Africans' may soon be heard ringing throughout the Dark Continent.

"The race consciousness and self-reliance of the African races has been strengthened to an appaling extent in recent years. The fact that the colored men were permitted to fight side by side with white men and against white men on European soil during the World War is primarily responsible for this development, pregnant with dangers to the supremacy of white man. The misuse of colored troops by the French in occupying the Rhineland has also helped to develop the black man's ego."

The Ex-Kaiser sends forth, as it were, a warning to white men. He says that before the war Africa was considered just so much space wherein European nations could expand, and he seems to think that it was perfectly all right for Germany, England, France, and Italy, as well as minor republics to step in and take a nice little slice of Africa without consulting the Africans. But the Kaiser thought this procedure all right.

What the beloved Ex-Kaiser seems to think the message the world needs today concerning Africa is the part that France is playing in and out of Africa—says he; "Africa can no longer be easily politically divided. French colonial power now extends from the Mediterranean to the Gulf of Guinea indicating that France by right of territory will eventually influence Africa as a Nation." He also laments the fact that "added importance is lent to the Pan-African movement by the fact that it frequently links up with the Pan-Asiatic movement".

This fact inspires a thought that is being advanced in this Country with regards to the Negroes' religious affiliation. In Chicago a few days ago when we visited one of the larger churches of that community, we had occasion to notice a body of men attired in costumes not unlike those used by the Turks. We inquired "Who are they?", and were told that these are they who have denounced the white man's religion, and have embraced the faith of Islam; and this brings to our mind that in this very article our sorrowful, and much disappointed old Kaiser says that the relation between these two Pan movements is due to the prevalence of Islam in both Continents.

Again says the dethroned German ruler, "During the World War, it was France who especially invited her colonial peoples to avail themselves of the weapons of European warfare. And at present, France is busy militarizing her whole colonial Empire.

The most important fact in the case, however, is this; the Ex-Kaiser wishes to call the white world's attention to France's attitude with regard to her policy of not only strengthening her army, but alike her depleted population from the blacks within her domain or reach for that matter.

Some important information, says the German—

In considering the future of the white people, it is appaling to note that in 1924 France's peace standing strength army of 780,000 men contained 220,000 colored troops, and she was prepared to put in the field in an emergency, not less than 1,600,000 colored warriors.

And again he calls attention of the white people to France's dwindling birth rate, which he declares, has caused her to abandon the color line.

It seems to us that the object of this article from the pen of Germany's Ex-Kaiser is to stir the animosity of the entire white world against France because of her attitude towards Africa—for says he, "Attention has often been directed to the fate of Rome on account of her far-reaching racial intermarriage."

NOTABLE CHARACTER

The sudden demise of the Hon. E. Burton Ceruti marks the passing of a notable character from our midst indeed worthy of mention to the utmost. He was for many years a commanding figure, a part and parcel of all the movements which stood for the advancement of mankind. We know of his wonderful ambition for the advancement of the race with which his destiny was linked. Kind, considerate, and generous to a fault, no cause which he thought stood for advancement ever failed for his support. We acknowledge his loyal support in our efforts to accomplish something in this community for many years and until his passing. We join with his loved one, relatives, and legions of friends these words of condolence in this their hour of sorrow.

BLACK AMERICANS ORGANIZE FOR GREATER RACE DEVELOPMENT

For a number of years a young man of Los Angeles has been visualizing—he has been dreaming dreams, and now, he feels that the time is ripe for the launching of a proposition that stands for a concrete organization of Negro finance within the group. We shall not call his name, but as we glance over the prospectus of his organized plan, we can but feel that it merits the confidence of the public.

We hope that this will merely serve as an auto suggestion.

WE ARE NOT GOING TO SPARE THIS

A case in which, it is alleged, an old lady has been buncoed out of $1,400 by one of our leading citizens has been brought to our attention. Now, we are satisfied that this gentleman knows what we are talking about, and if he cares to state clear of all this publicity in this matter, he had better straighten out this mark in his social uplift career.

We would not say a word in the premises, if it were not that this poor old lady is a member of the old school who had limited opportunity for education, but unlimited power of endurance that enabled her to accumulate a little nest egg for the period of old age.

THE CITY COUNCIL AND THE REV. LAURETTA S. WALKER

We want our honorable City Council to say something in this case which comes up before that body for the second time Monday.

Rev. Lauretta S. Walker, who is a minister and has presided over a little Mission at 1134 E. 37th St., for the past twenty-one years, has had her property, health, and spiritual rights invaded by a Jew, an ex-world war veteran, one L. Goodman, who moved next door to her some months ago with a boot factory which is disagreeable in aspect and condition of operation causing smoke and dirt and on one occasion, set fire to the mission almost destroying it.

Now, the Mission is in the restricted district and we hold that Mr. Goodwin's factory is out of legal order where it is.

FANS VIEW IDOL WAGE LOSING FIGHT

BODY PUNCHES PROVE UNDOING OF THE "YOUNG MASTER"

With stacks of good bucks bet at 10 to 8 all week then 2 to 1 on Tuesday night last Baby Joe Gans, the idol of the Coast went into the ring at the Jack Doyle Olympic, a heavy favorite with all races and classes. As to what happened is history. As to why

BABY JOE GANS
An Original Drawing by S. M. Linn

it happened is another story. At any rate it is not believed that the "Young Master" had underestimated O'Brien as the following story will reveal.

One day last week the staff of the incorporated K. O. Trust headed by Charley Meyers, after discussing plans at the Entertainers' Cafe for a Prize Fighters ball. Gans objected to the idea of his fighting, the possibility of his being unable to attend, so close to his fight night of one week. His friends scoffed at the notion saying "Oh, you won't get hurt, you'll beat O'Brien easy." Gans shook his head reflectively, and in his usual thoughtful manner answered, "You never can tell what will happen to a ring. I have no clinch on beating anyone and I at least could get a cut eye or split lip."

Anything did happen and that was that O'Brien beginning with a body attack in the first good blow, a right to the heart that would take the steam out of anyone, if you don't believe it, take one. From then on O'Brien's luck was with him and he got in many hard kidney punches which, topped by a low blow in the first minute of the 6th weakened desperately battling Gans so that although he had O'Brien rocking several times and groggy in the 10th he did not have his usual strength with which to drop him and win a decisive victory.

A draw would not have been drawing the decision much too fine, but at that the "Young Master" is entitled to a return match and will probably get it soon.

WHERE ARE THE SWIMMERS

LOS ANGELES, Cal., March 23.—A wide invitation has been extended through the California Eagle to colored swimmers to take part in a 1½ mile swim to take place in the ocean at Santa Cruz, May 28. The start will be made from Casino Beach, around whistling buoy and return, and is to be an annual affair. A number of handsome trophies are lined up for the event, which is for Elizabeth Daly. There was not a single Negro contestant of the 103 in the recent $25,000 Wrigley Ocean Marathon.

IN ALL THE WORLD NO MATCH LIKE THIS! HUSKINS-TENDLER

April 12th

The Olympic Athletic Club management tonight hung out the S. R. O. sign, and by-ward of the world and not have found a better night to give their semi-windup a card to draw crowds than Low Tendler and Ace Hudkins, two of the most colorful and popular fighters in the game today. Both are clean cut boys, and both are willing to mix it with anyone, anywhere, anytime. Both are willing to fight to a finish, and both are willing to fight for a small purse. Both are willing to fight for the love of the game. Both are willing to fight for the glory of victory. Both are willing to fight for the honor of their respective stables. UPTON'S RAILROAD CLATTER

CHICAGO GOES WILD OVER STRAIGHT HAIR CRAZE

On trip recently made East by the writer, one of the things which attracted his attention, was the number of people of our race who have fallen victims to the straight hair epidemic which has taken Chicago by storm. With practically a hundred different straight hair preparations on the market, it is a common sight to see stocking caps, of all colors and hues, protruding from beneath street hats. The stocking caps are used for the express purpose of keeping the hair in a straight and slick condition. After a heavy application of Murray's Hair Tonic, or any one of the hundred already mentioned, the hair is brushed briskly back, and the stocking cap applied tightly. When this is removed, the hair has a gloss, like a pair of patent leather shoes. I am told that beginners in the straight hair craze often forget that they still have the sock on their head when they go in the street, which of course, is rather embarrassing to them when their attention is called to the fact. However if the fad continued to keep up, Chicago will soon have a populace of patent leather headed men and women.

LANDLORDS REAP HAREST IN CHICAGO

The next thing to owning an oil well is to own an apartment house in Chicago. Landlords are gradually becoming wealthy off of the Colored flat renters, charging anywhere from $30.00 per month to $360.00 for five and six room flats with steam heat. The steady influx of colored people from the South, has brought about a congested condition, such as has never been experienced before in the windy city. New Yorkers are now laughing up their sleeves at the windy city neighbor's plight, for it has long been known that New York is about the worst place in the world to get decent accommodations with plenty of room for our race, in many instances accommodations are so scarce, that one will find a family of seven and eight, and sometimes ten, cooped up in a five room apartment. In Chicago, basement quarters are even being rented, and at no low figure at that. Those who can afford it, and a great many who can not afford it, have invaded Michigan Avenue in what used to be the homes and apartments of the wealthy white race, for which privilege they are charged the ridiculous price of $200.00 per month. In the steam heated flats, the control of heat seems to be the last consideration. The flats becoming so hot, that at times they are unbearable. The Brookmont Hotel, an exclusive place on South Michigan Avenue, which caters to the more fortunate members of the race with money, is doing a land office business, with uniformed bell boys, elevator service, telephone service in each room, and on Monday nights they give a dance in the lobby of the hotel with music furnished by one of the leading jazz orchestras in town. On the corner of 35th and State street a Jewish gentleman by the name of Goldberg has a drug store, which is a regular mint. The place is packed with colored people day and night.

The sporting world in Chicago especially among the race are constantly being menaced by Mayor Dever. That esteemed gentleman, since former Mayor William Hale Thompson has entered the race for the next Mayor of Chicago with America First as his platform, has about given up all hope of sitting in the chair for the next term owing to the fact that the colored population are backing Mr. Thompson to a man. Mayor Dever is administering his revenge while he still has the power to do so. Vice squads are working overtime taking the innocent along with the guilty. A hot time is being looked forward to during the coming election, and Chicago during this period will be a good place to stay away from.

JACK JOHNSON OPERATES BOXING ARENA

ARCADE RED CAP IN SHOOTING AFFRAY

Gus Conway former head red cap at the Arcade Depot was arrested in Oakland, Calif., after he had started a wild west scene at the home of his sister-in-laws by shooting up the house. From what could be learned of the case, Conway, who has been estranged from his wife for some time, purchased a Ford coupe, and drove to Oakland in an effort to effect a reconciliation with Mrs. Conway who was visiting relatives there. Upon her refusal to come home, he drew his revolver and shot up the house. He was arrested later, and held on $10,000 bail. Mr. Conway has been in the employee fo the Southern Pacific Company for a number of years and is well known around Los Angeles, and among the railroad men.

CHAIR CAR PORTER ADMITS BUYING POISON IN CALIFORNIA

Tells Deputy of Acquaintance With Alleged Slayer.

Strychnine Furnished Woman Who Wanted It to Kill Rats, He Declares.

Loose ends of the Murray baby poisoning case were tied up late last week when Ben Wyndom, Chair Car Porter between Los Angeles and Salt Lake on the Union Pacific System, admitted bringing to Mrs. Bernhard Peterson the strychnine now believed to have been employed in the poisoning of her son, Kenneth, and her foster daughter, Margaret Bateman. His statement was made before Sheriff Clifford Patten, Chief Deputy L. L. Larsen and others.

Wyndom said he brought the poison from Los Angeles, giving it to Mrsr. Peterson, who is white, with the understanding that she was to use it for poisoning rats. Wyndom, who has a wife and children in Los Angeles, said he first became acquainted with Mrs. Peterson on Jan. 11, while she was en route to San Diego, to visit her father. She invited him to sit and talk with her. He said it was against the rules. He mentioned that he returned to Salt Lake in five days. Mrs. Peterson was on the same train. In the course of the journey, Wyndom declared, Mrs. Peterson gave him her telephone number. Mrsr Peterson represented herself as a rich widow, owning farm property, horses and stock. She said her husband had died two years ago and that she was taking care of her sister's children. Wyndom said, she gave the name of Mrs. Jewel.

Meet at Hotel.

On Wyndom's next trip, January 21, he called up "Mrs. Jewel," according to his statement. She met him at a hotel at 108 So. Temple stret, and remained with him two hours. At that time, he says, she emphasized her position as a rich farmer's widow, and expressed a need for strychnine to be used for poisoning rats. She asked Wyndom to bring her the poison from Los Angeles. At their following meeting, which took place at the home of Mr. and Mrs. Pascil Leonard Jackson, at 252 Center street, Salt Lake, "Mrs. Jewel" again asked for poison, Wyndom declares, and stated that time, that unless he brought the poison, she would refuse to see him again. Mrs. P. remained with Wyndom the greater part of the night on this occasion.

The last meeting took place March 5th at the Jackson home, just three days before the poisoned meal was served to the Peterson family. He claims to have purchased the poison from Dr. E. E. Selby, twenty-fifth and Hooper. Wyndom says he signed the poison register upon paying fifty cents for the strychnine. He declares that he informed a brother in Los Angeles that he considered Strych poison for a woman, and that his brother had advised against it.

Held Without Bail

Wyndom is held on an open charge at the county jail without bail. He will meet Mrs. Peterson, Sheriff Patten and Chief Deputy Larsen declared last week that Wyndom's story dovetails perfectly with Mrs. Peterson's account. Wyndom will be taken before county attorney Woolwine B. Kelly and district attorney H. H. Rodgers, and whatever action is to be taken regarding him will be taken after the session.

First Time in Trouble

"This is the first trouble of any sort I have ever been in in my life," said Wyndom. "My record with the railroad company will uphold this statement." He was arrested in the Union Pacific Depot last week, upon the arrival of The Continental Limited.

CALIFORNIA LIMITED PORTERS CAUGHT IN CHINESE LOTTERY RAID

Trying to get rich in a hurry last week, two Pullman porters operating on The California Limited were arrested as a raid by the Honolulu law. One of them had over $400 in brass checkles on them and the law through the key after which they found them. His car returned to the Windy City without him. PHOTOS OF THE TWO PAIR NEXT TIME HERE.

GAS GOES UP

Gasoline that liquid without which an auto would be as useless as a person without food has gone DOWN IN PRICE. No special reason other than that the companies figure with a low price it will as in the past stimulate travel thereby increasing sales. The public will profit by it and the owners of automobiles are all smiles when they enter the service stations now.

BETTER BRIDGES FOR AUTOS

Modern ideas practicable for modern traffic are going into the building of better bridges on California State Highways, it is indicated in the fifth biennial report of the State Highway Commission.

Three outstanding developments in bridge design have been developed during the past two years, it is observed in a report by the Automobile Club of Southern California. These are wider roadways, better alignment, of bridge and approaches, and more attention to esthetics of design.

The standard width of roadway for State highway bridges previous to 1924 was, with few exceptions, twenty-one feet. Today, on roads where a twenty-four-foot pavement is contemplated or seen as a future possibility, the bridge are made twenty-four feet wide. Where the traffic justifies wider roads, the bridges are made correspondingly wider. A number of thirty-foot bridges and subways have been built in the past two years, and a few forty-foot and forty-six-foot structures. Bottle-neck bridges that retard traffic are being avoided by the State Department.

It was a former custom in highway-bridge construction to build bridges at right angles to the stream wherever possible, and without vertical or horizontal curves on the bridge. Economy and simplicity of design resulted from this rule, but often it also resulted in dangerous sharp turns at bridge approaches and poor alignment generally.

It is now the aim, to make the alignment and riding qualities of bridges and approaches equal to the high standard used in building highways, so that maximum speed limits may be permitted. Studies are made of proposed crossings now, and where necessary the bridge is skewed or curved to get the desired result in the most economical manner.

Well, Rev., it's too bad. We tried our best to entertain the idea that 'twas somebody else's lie but murder will out. Advise your son to look straight ahead instead of elsewhere when driving and such accidents won't occar.

Logtown Grade Will Soon be Eliminated

The Logtown grade, a steep and narrow section of the Mother Lode highway, famous in early days, soon will be no more. The California Highway Commission has authorized an expenditure of $4997 to complete the new roadway over a new right of way which eliminates the grade altogether. Logtown grade is located on the Mother Lode highway south of El Dorado, El Dorado County. Division III. will be in charge of the work.

DIFFERENTIAL ESSENTIAL

When greasing the differential particular caution should be taken to see that the grease plug is clean when put back. Street dirt or a small pebble covered with grease on the plug may pass unnoticed until it forms a fine abrasive to wear out the ring and pinion prematurely.

A stubborn auto stands;
The smith an angry man is he

The cause of all his woe;
He tightens half a dozen bolts,
But still it doesn't go.

He sits beside the road to give
His brain a chance to cool,
And ponders on his training at
The correspondence school.

And then he starts his job once more
And just by chance 'tis seen
The cause of all his trouble is
He's out of gasoline.

Trucks Cause Most Injury to Life, Property

Motor trucks and delivery wagons cause fare more injury to life and property than any other type of motor conveyance, according to statistics gathered by the National Bureau of Casualty and Surety Underwriters for use as a basis for readjustment of rates. New rates are to be put into effect throughout the United States. The increase on trucks and delivery wagons will average 7.6 per cent for personal injury coverage, and 8.4 per cent for property damage coverage. Rates for private passenger automobiles will remain the same. Property damage insurance for motor buses will cost about 20 per cent more.

POWER LOSS

A sudden loss of power is often traced to a slipped ignition breaker cam, or a disconnected spark advance rod.

FUNERAL RITES FOR ATTY. E. B. CERUTI

ATTY. WOODSON, PRESIDENT EMERITUS NATIONAL BAR ASSOCIATION WIRE CONDOLENCE

TO SORROWING FAMILY AND FRIENDS OF E. BURTON CERUTI

Bearing Remains from St. Philip's Episcopal Church At The Conclusion of High Mass

DesMoines, Iowa, Mar. 25.
Hon. J. B. Bass, Editor
The California Eagle,
847 Central Ave.,
Los Angeles, Calif.

" Shocked and surprised at irreparable loss we suffer through lawyer Ceruti's death. Present my sincere condolence to his widow and friends. In the struggle we are waging for manhood rights we shall miss him. Peace to his ashes, rest to his soul.

GEORGE H. WOODSON,
President Emeritus National Bar Assn.

FUNERAL RITES
By Willis O. Tyler

The funeral rites of the late Attorney E. Burton Ceruti began at twelve o'clock, Saturday, March the 26th.

Once the ceremonies were started, they grew until they almost assumed the proportions and details of a state occasion. Never in the West before, has our group paid such signal honor to a fallen leader. The tribute was not confined to our group alone, both white and colored contributed to the testimonial. Several thousand marched before the bier for the last look into the face of him they turned out to honor. They filled churches, door steps and front yards; they lined the streets for blocks to see the funeral.

POLICE ESCORT

During Saturday forenoon, the body of Attorney Ceruti lay in state in the Chapel of Conner-Johnson Company, Morticians, and a continuous stream of persons called to view the remains.

A twelve o'clock the body was taken from the funeral parlors north on Naomi to Sixteenth Street, and thence west to the St. Philips Episcopal Church.

Captain McClary of the Newton St. Division of the Police Department, acting upon the request of Mr. Charles Olivier, detailed officers A. E. Volkman and J. L. Colley of the Motorcycle Division as escorts to facilitate the movement of the funeral procession at congested intersections. This these officers did in a very commendable manner and provided escort to and from the churches as well as to Evergreen.

Captain McClary also detailed a platoon of uniformed police as escort from St. Philips Church to the Hamilton M. E. Church, and from there to Ninth and Central Avenue where those on foot were placed in carriages for the trip to the cemetery.

The officers in this detail were under the command of Detective Lieutenant Jessie Kimbrough, assisted by Detective Lieutenant Conway. The following officers formed the platoon: Ayres; Beuby; Bradford; Bynum; Clark; Cole; Davis; Duna; Kelly; Kelso; Kimble; Price; Reed; Saunders; Smith; Stovall; Walker; Walton; and Washington.

HIGH MASS AT ST. PHILIPS CHURCH

The hour from twelve until one o'clock was given over to High Mass at the St. Philips Episcopal Church, which was said by the rector, Father W. T. Cleghorn. Attorney Ceruti was a member of this church and of the St. Philips Men's Club. Mrs. Minnie Albritton-Jackson sang "Who Knows;" Father Cleghorn pronounced the eulogy in a scholarly and direct manner, and the Hon. Charles E. Haas, Judge of the Municipal Court brought condolences from that court and paid a fine tribute to the integrity, the thoroughness and ability of Attorney Ceruti. The Hon. Charles B. MacCoy, Judge of the Municipal Court attended the Mass as did also members of the Blackstone Club and lawyers and business folk who knew Attorney Ceruti.

The Sigma Pi Phi Fraternity was in attendance: Brothers Somerville, Whittaker, Jones, Tyler, Garrett and Pearl, active pall bearers, and Bros. Johnson, Diggs, Jordan and Ballard, honorary pall bearers.

AT THE HAMILTON M. E. CHURCH

The services once concluded at St. Philips Church, the procession marched under the escort of the platoon of police to the Hamilton M. E. Church. The way between Central Avenue and Naomi Street was lined with the uniformed rank of the Knights of Pythias, together with the members of the various lodges in attendance, and with the uniformed rank of the I. B. P. O. E., Golden West, No. 56, with the members of this lodge, nearly 500 in number, all in waiting to receive their brother and leader. For several years, Attorney Ceruti served as Exalted Ruler of the Elks Lodge and at the time of his death was Grand Chancellor for the State of California of the Knights of Pythias.

When the church was reached, Brothers J. G. Lindsay, D. B. Sheffield and T. B. Norman from the Knights of Pythias, and Brothers J. B. Loving, O. Triplett and J. H. Wade from the I. B. P. O. E. became the active pall bearers, and the members of Sigma Pi Phi, the honorary pall bearers.

In the Hamilton Church, the Rev. S. M. Beane officiating, services were conducted on behalf of the I. B. P. O. E. by Monroe Elgin, Exalted Ruler, who conducted the ritualistic burial services in a very impressive and dignified manner. R. H. Hicks, Past Exalted Ruler pronounced the eulogy on behalf of the lodge. George Jones, Jr., sang, "Heaven is My Home." Prayer was pronounced by the Rev. T. Allen Harvey, Grand Prelate of the Knights of Pythias. The scripture was read by Rev. J. A. Byers, Past Chancellor of the Knights of Pythias, representing the northern lodges and Rev. Dr. E. E. Lightner sang a tenor solo, "Flee as a Bird to the Mountain." Prayer was offered by Bishop J. W. Martin of the Zion A. M. E. Church. Judge Charles E. Haas spoke in the general services, expressing the sympathy of the Municipal Court and his personal high regard for the capabilities and character of Attorney Ceruti. Judge Haas pointed out that the long record was to be considered as evidence that Attorney Ceruti had lived his life well and righteously. The Hamilton M. E. Church Choir sang "Rock in the Arms of Jesus," after which Rev. S. M. Beane preached from the text, "Henry, I say thee stand thou up on thy feet," in a deep theological sermon.

A class of student nurses from the Los Angeles General Hospital was in attendance, as an appreciation for the great fight Attorney Ceruti made for the admission of our group to the General Hospital.

MANY PREACHERS IN ATTENDANCE

Sitting on the rostrum with Rev. Beane were the following Ministers of the gospel: Bishop J. W. Martin, Rev. Carter, Rev. Griffith, Rev. Washington, Rev. Harvey, Rev. Scott, Rev. Lightner, Rev. Cleghorn, Rev. Byers, Rev. Prowd and Rev. Underwood.

FLOWERS IN PROFUSION

The floral pieces were various in design and in beauty defy description. Among those sending floral pieces in addition to the wife of the bereaved, Mrs. Daisy Ceruti, who gave a beautiful casket wreath of white sweet peas

ROLAND HAYES IN SONG

BY: ANDRAE NORDSKOG

"A voice from another world" some say; "A singer so mysterious he is hard to understand" say others; but "a soul so sincere and a life so full of love for his fellow man" is what I say about Roland Hayes, colored tenor, who packed thousands of both races into Philharmonic Auditorium last Monday night.

It was a scene seldom witnessed in this large auditorium, where, when the singer appeared on the stage in his dignified, yet simple manner, a deathlike silence could be seen to creep stealthily over the vast audience beginning at the orchestra pit and crawling rapidly over the balcony to the top-most gallery. In other words you could verily "hear" the silence creep.

The audience caught the spirit of the singer in his second number "Give Me Roses," cold sounds of applause rang through the house when he announced his first encore as Purcell's "Passing By," a beautiful little ballad he sang for us last year. That this colored lad should be equally at home in English, German, Italian and French in what surprises so many of this "dress-timers"; it is believed by many that he sings only the Negro spirituals.

Spirituals Cause Heart-Throb

While he gives his Schubert, Schumann and Beethoven especially it is not until he begins his Negro Spirituals that we feel that tingling at the heart; yes, and it does us a lot of good to many, almost understand why Paderewski says Roland Hayes is the greatest singer living today, and pleads with his audience to hear him. This statement was made many times when Hayes was not present, but let us say for a moment that it just took an hour(?) of his time(?) to see what sentiment is wrapped up in the words of his spiritual, witness the plaint of the oppressed race with heart laid bare in the following verse:

"It's me, me, O Lord,
Standin' in the need ob prayer;
Not my sister nor my brother,
But it's me, O Lord,
Standin' in the need ob prayer.
Not my elder nor my deacon,
But it's me, O Lord,
Standin' in the need ob prayer."

The only real difference I can see between this and the way we Caucasians pray is that we generally pray that God correct our sister or our brother, or our elder or our deacon; and don't you reckon folks that when you heard the sobs from your white sisters and brothers that it no doubt came from the realization that they had not been afrank with their God and tried to conceal the fact somehow that "It's me, it's me, O Lord, that's Standin' in de need ob prayer."

Song With Writer

It was in July 1919 that I appeared in joint concert with Roland Hayes; a memorable event in my mind as well as in the mind of Mr. Hayes. "A white tenor and a black tenor in joint concert, what a funny thing" we heard many say. Anyway it is history now and it was that memorable event that proved the turning point in the career of this great singer; he says, in the story of his life which was published in the American Magazine, that on this occasion he experienced his second re-birth and that his success became spontaneous after that. Glad indeed I am that I should have had the opportunity of sharing a mutual financial loss that we both suffered at the hands of a dishonest manager in order that Roland Hayes might obtain spiritual enfoldment that led him to his great success.

A great message you have brought humanity, Roland, you have made your fellowman more considerate, more kind, and in both races you have made better citizens. Your race should follow you, your example is ideal.

IN THE HAWKS' HANDS

By Sheffield, Randolph and MacQueathan

Beatrice, whose smiles and black bottom pranks captivated two of our men, lured to marry Peter Anderson who found her guilty of Wright Act misdemeanor and gave her ninety days; this was October, 1926. Albert Story and his brother, made a story through their interest in obey this charming young lady at this season, swore that many times Anderson had planned to kill her for revenge. This statement was made many days after the arrest when Hayes' name was spoken of; just let us say for a moment that it just took an hour(?) of his time(?) to see what sentiment is wrapped up in the words of his spiritual, witness the plaint of the oppressed race with heart laid bare in the following verse:

Minnie Albritton-Jackson Thrills 700 Song Lovers at Second Baptist Church

BY: LOUIS MICHEL

Her singing was richly applauded. Her personality is charming and her future bright. Gallant was her struggle and Europe should be her reward. A movement on foot to place her in the Philharmonic Auditorium.

The Minnie Albritton-Jackson Song Recital on Tuesday evening, 8:45, March 22, 1927, lasted one and three-quarter hours and brought to the Second Baptist Church, at Griffith Ave. and 24th street, between 700 and 800 music lovers and strong believers in the lyrical ability and artistic future of this singer. Besided her, she was assisted and had programmed these two ladies, Viola Baucom, pianist; Lavenia Harper Patterson, accompanist and the youthful violinist, Mr. Edward Jones, Jr. The program was in two parts, only partly a test and, most of the time, a spontaneous emergency program, volunteered and substituted conspicuously by the singer, for which 16 songs she attested her splendid versatility and her rich repertoire. A harassing cold forced her to battle down an annoying, always threatening cough and how she managed to sing 16 largely classical songs to the entire joy and most regaled satisfaction of her warmly demonstrative audience, is a marvel, a secret and an exception of performances only known to Mrs. Minnie Albritton-Jackson and the kind, mysterious, lucky spirits that hovered caressingly around her. But she pulled heavily victorious through cold and cough and here are the lyrical gems she offered bravely: "Whats in the Air Today?" "Twilight," "Robin, Robin, Sing Me a Song," "Ouvre Ton Yeux Bleus," in French, "Vei lo Napels," in Italian, "Dana," "Miner and Major," "Chanson Provencale," these Spirituals: "I Stood On the River of Jordan," "Deep River," "Steer Please Don't Let Me Harvest Pass," and the following stirring encore lyrics: "Coming Thro' the Rye," "Cuckoo," "Daddy's sweetheart," concluding with Burleigh's "Deep River."

CONTINUATION OF GEORGE WASHINGTON BRIGHT'S LIFE

AFTER COMING TO CALIFORNIA

Reflecting back over [illegible] fight to get into the Fire Department: "In 1896 [illegible] do for a living; was very hard to get, even my pastor, Rev. Anderson, had to work as janitor at the city jail, for a living, since the members could not get enough work to support him. So I said to him, 'I will have to leave the church and go into politics in order to get something for our people to do. At that time we held the balance of power on either side, to turn the election. So there was formed a City Campaign Club, jointly with the Afro-American League, which we supported the Democrat side, for Mayor Snyder; for Jimmy Irishman for councilman; and Billy Meade for assembly. All of whom were elected. After the election Deputy Lovings was appointed, and B. R. Randolph was appointed policeman; I, Geo. W. Bright put in for the Fire Department, but had to work it through my own merits up until Oct. 2, 1897.

Moore came to me and said to me After several heroic acts, Chief and said to me, "I am going to give you a company, and I want you to select your men. I would prefer them to be married men if you can get them." In 1899, the chief called for bonds to be carried to build fire houses, at which time I asked for time off before the election day, in which to tell my people to vote for the bonds as they were to get a fire company, which time was granted, and the bonds

Tempers Justice With Mercy

JUDGE S. RICHARDSON

While meeting out swift and stern justice to habitual criminals and vicious characters, Municipal Judge Geo. S. Richardson is slow to attach the stigma of conviction to the many unfortunates who come before him charged with momentary digressions which have enmeshed them in the toils of the law. To many of these he gives suspended sentences accompanied by a kindly lecture which has served to straighten out many a man or woman who was right on the verge of taking the downward plunge".

This is what leading welfare workers say of Judge Richardson, who is being widely supported for re-election to the Municipal Bench in Division Five.

Why Judge Joe Marchetti Should be Elected to the Municipal Court Office No. 17

JUDGE JOE MARCHETTI

Aside from his other qualifications, he has lived with his family in Los Angeles for more than 25 years, graduating from the grammar and Manual Arts High Schools. He is also a graduate of the University of Southern California College of Law.

The Hamilton M. E. Church was filled to overflowing and hundreds stood in the streets, unable to gain admittance. The enormous crowd was handled with great tact and ease by Conner-Johnson, morticians, and after the remains were viewed, the funeral procession led by the Elks Band proceeded down Naomi stret to 16th St., and thence on Central Avenue to 9th street. The streets along the way were literally lined with people who stood with bowed heads as the cortege passed. Those marching in the procession were the platoon of police, the Elks Band, the uniformed of the Elks Lodge, Captain J. P. Bratton commanding, the members of Golden West Lodge No. 36, the uniformed rank of the Knight's of Pythias, Captain S. Leo commanding, and the members of the Knights of Pythias lodges.

AT EVERGREEN CEMETERY

About 150 automobiles were in the line of procession which went to the Evergreen Cemetery, where J. Allen Reese, Acting Grand Chancellor, on behalf of the Grand Lodge of the Knights of Pythias, read the burial ritual, and Mrs. Lulu Brown, Grand Worthy Counsellor, conducted the ritual on behalf of the court of Calanthe.

Thus with song, and eulogy, and flowers, with the solemn strains of the band, and the pronouncing of the burial rites by those fraternities he loved and worked so hard in, Attorney Ceruti was laid to rest. The tribute that was paid him was large and deep. It came from people of all ages, of all walks and rank and postion in life. Nothing in the face of the inevitable end which all must meet, was left undone, and everything was done with a careful tenderness that was a fitting tribute to the labors of Attorney Ceruti.

No narrative could be attempted that would at all be complete of the events leading toward the testimonial recently held and that immediately following his death, without particular mention being made of Brother Thomas B. Norman, a member of the Grand Lodge of the Knights of Pythias and also a Brother Elk and a Mason. From the time he heard of the death of Attorney Ceruti on Monday, the 21st of March, until this time, Brother Norman has been more than diligent in his effort to do the things that were most needed to be done, and it was largely due to his great pains and good judgment that details of the funeral arrangements ran with such precision and smoothness.

The Modern Government League was successful in landing every one of their candidates due to their everlastingly at it. With the committee of fifteen they covered all the possible territory with the result that success awaited them. The Independents "also ran" but with returns all in they seemed to have run backwards, but some speculation brings to the fore what might be a forecast because some of the clerks being so anxious to get to their bobs after counting the votes which were about 10,000 short of the registration, took the ballots home and we don't know what else they did with them hence the purported agitation about the recount. For once it seems the Negro vote was out in good shape but they were just outvoted. Judge Overs together with other influential citizens have been heartily congratulated for the way the meetings were conducted leading up to the primaries especially that there was not one bit of discord in any of the meetings. Further meetings will be held that the organization may be kept intact for future developments.

Deacon Payne Passes Away

On last Sunday night at 10:45 Deacon Payne, commonly known as Father Payne passed away at his home, 120 Dayton St., from an attack of double pneumonia that lasted only five days. Deacon Payne was not only a pioneer in Pasadena but was very conspicuous for his strenuous activities in church life, being a staunch supporter and member of the Friendship church since its early days. He was the instructor of the Friendly Bible Class organized some fifteen years ago and was to have celebrated this anniversary on the same evening he died. During the life of the class all phases of class activities have been engaged in and definite results have been accomplished. The personnel of the class is some of the most dependable members of the church and more than once has their work been the outstanding feature of the year's work by the church school. He was greatly honored and revered for his Biblical knowledge and was an unquestionable authority on historical facts. He was greatly loved by all and will be much missed. The funeral will be held Thursday from the Friendship Baptist Church at 2:00 P. M. with Pastor Carter officiating and Conner-Johnson as morticians.

NO MATTER HOW

No matter in what way you do it; be it assured, that so long as you do not infringe upon the rights and privileges of others, you may advertise your business through the biggest and best mediums by which you will secure fullest and surest results.

DO UNTO OTHERS

Do unto others as you would that they do to you, would not be a bad slogan if properly projected in our daily business life.

In the advent of the Negro in business, he seems to have started with the strange philosophy of tearing or attempting to tear down his fellow man in the same line, feeling that this was the only and positive road to success.

But, thank God, this type is fast passing, and there is a new Negro coming on the stage of business activity who realizes that it is not necessary for him to decry the goods of his competitor in order to successfully peddle his.

REAPING TIME

And now the coming city election will be reaping time for not quite a few of our city fathers; if they have sowed properly they will reap their reward by a re-election.

This paper has tried in every way to get various councilmen who are members of the present city council to take cognizance of the Jim Crow Swimming Pool situation, but they have woefully failed, therefore there is but one thing for us to do and least promise to take notice of this abominable situation.
least promise to this abominable situation.

We want men in the council who are high minded and who stand for a square deal; we are living in a high class country and the low-bred cracker and red-neck from behind the sun in Texas or Mississippi is clearly out of his place in Los Angeles, California.

The citizens want no Jim Crow Swimming pools or any other Jim Crow proposition in our city government where all of us share alike in contributing to its upkeep. In fact, high minded and thoroughbred citizens regardless of race, are opposed to the Jim Crow laws.

It is for this and all kindred reasons that we shall endeavor for the remaining days of the campaign, to keep the people posted as to the men and women who stand for real government administered without fear or favor on an equal basis for all the people.

Some of the present city council are lame ducks upon the square deal and will never do, the time has surely arrived when they too will reap as they have sown.

PASSING SHIPS AT NIGHT

We have, from time to time, craved for information as to what becomes of various propositions which are started off like a house afire, get the people enthused, gather up all the shekels possible, and then as suddenly disappear from the scene and are never heard from again, except the lone and dismal cry of possibly someone of the investors which have been stung.

It is a long procession of projects and they have been not unlike the ships that pass in the night. This is therefore the reason which makes the "Soaring Eagle" the People's Forum, for here, there are non who are denied the opportunity to state his or her case. Ordinarily we discourage the newspaper orgies of faction against faction, but in view of the earnestness of those who feel they have a grievance, we permit them to state their case under their own signature.

We have no interest in the premises except that of public weal. Whether it is Sykes vs. Heflin Manufacturing Company or Messrs. Stevens, Littlejohn, et al vs. Lower California Development Company. If there is no wrong done nobody should fear and sometimes the public is benefitted in at least getting the "low down" on the situation.

Among the propositions of the passing of these projects, roll call is on for the Democracy Film Co.; The Peaceful Valley; Eureka Townsite Co.; Arizona Land Co.; Oregon Orchard Co.; Beach Front Santa Monica; Various and Allied Improvement Associatons; Liberian Steamship Co.; Willow Brook Oil Lands Co. and others too numerous to mention.

BE A CHARACTER

It is easy to imitate—monkeys imitate, but men create—new forms of transportation, new sanitary laws, new and more beautiful architectural designs, new race ideals, and even new methods of religious worship.

So long as the Negro is content to play the monkey roll in his religious worship, in his social activities, and in his political proclivities, just so long will he be the target at which race prejudice is hurled.

Don't be a monkey, be a character—you may if you will, be master of your fate and captain of your soul. You can conduct yourself in public places that you will gain the respect and respect of every man with whom you come in touch and the time will come, when ever you will forget that you are [illegible] is called colored and different from the man of white skin.

Don't be a monkey, be a member of a race with ideals like [illegible] which have found and occupy worthy places in the [illegible] of history. Don't be a monkey—imitating the social [illegible] and habits of a race, weary with the achievements of its [illegible] civilization, reeled drunk in the lap of luxury, and [illegible] by the desire of that brand of joy that not only debases, but destroys the nobler ideals of mankind.

—Let's get busy aiming at those things that go to make up real life, and develop a race of men—not monkeys.

SPREAD OF THE GOSPEL OF SOVIET RUSSIA

The present situation in China, says the daily press, is due to the copious spread of the gospel of hate by Soviet Russia.

But we say, it looks like the handwriting on the wall for the dominant white races of the earth. After all these centuries of educational advancement, they have not assimilated the law of retribution, in other or plainer words, they have not learned that hate begets hate; and it seems that they would hope to go on and on persecuting the dark peoples with the feeling that these will always be content at being the objects of hate.

The Negro is losing faith in Democracy, he realizes that the Democracy for which he fought in the World War was a farce, and that for his time and pains as a fighter of courage and valor, he has received in turn prejudice in all lines and walks, the jim crow car, and perscription as to his place in the chain of affairs as an industrial worker.

Editorial Reflections

By:
E. W. KYLE

The greatest pain of hell is the uncertainty of going there.

* * *

People avoid some of us because they are afraid of our tongue.

* * *

Culture, Refinement, Self-Respect, draw no color line.

* * *

The family altar is Heaven's threshold.

* * *

Christ has nowhere to rest on earth save in the Sepulchre—His enemies only cease to persecute Him there.

* * *

Life is a dream and death the awakening.

* * *

The Holy Bible is an inspired record of human life, and the wonders that lie deep within us. It is the story of those tired, lovely, stupid, suffering erring, miserable human beings with a great need. It may suit you to call these records history or you may call them life; they will always be the supreme records of the human soul.

* * *

Can mothers who are not religious inject into their young the principles of Christianity and a love for Sunday School and Church? Will not they too wander out among the primroses and a path to eternal night?

* * *

Indecision often demoralizes a man more surely than does a moral offense. They often work together.

* * *

Whatever America has to show in historic living, I doubt if she can show anything finer than the quality of the resolve, the steadfast efforts of hundreds of Colored folk are making today to live blamelessly, honorably, patiently, getting for themselves what scraps of refinement, learning and beauty they can, by keeping their hold on a civilization they are begrudged and denied. But America is astonished these late days when she awakes to find segregation and civil rights that have been denied the Negro, returned to him. We wonder what other hinderances she will place across his pathway to higher attainments.

* * *

It is not the man who stands on the corner, nor the one who points out the strong man's stumbles, that are moulders of men. The credit belongs to the men who are in the game to win. Whose face is marred by dust and sweat, and blood; who strives valiantly; who errs and comes short again and again, because "there is no effort without error" and short-comings, but who does, actually strive to do the deeds, who knows the great enthusiasm, the great devotions, who spends himself in a worthy cause, who at best knows in the end the triumph of higher achievement, and who at the worse, if he fails, at least fails while daring; So his place will never be with those cold and timid souls who know neither victory nor defeat.

* * *

We hate our enemies with more enthusiasm than we love our friends.

* * *

Four hundred years teaching the Negro that God's color "Black" was to him an inferiority; that Heaven, with all its angels were white, and that the four century lesson beaten into him by his enemies to mistrust each other and be submissive and meek, are some of the handicaps he must overcome.

* * *

Let us hold ourselves in reserve, for reserve is power. "He is wise who lives a greater part of his life in himself." To much speech is weakness. It is better to hold much of ourselves in reserve; to be discerned by degrees, and never to the utmost limit. The reason why we have been so misunderstood, is because we haven't learned to keep the race's business with the race.

* * *

His demands its sacrifices as well as its godliness. What the Christians give up for their religion is small compared with what the sinner gives up for his sins. But, few now-a-day Christians want to give up their sins and they are crowding towards eternity with the sinner loaded with excuses. Too many of us are mistaking the road leading to eternal life, all strewn with thorns and pestilents for the one leading to hell and destruction all dazzling with gayety and brimful of primroses. Is there no standard in which a Christian must reach above those miserable creatures of the world? Must a Christian go back to idolitry to be comforted? Must he dance, gamble, cheat, rob, murder, to be classed upon Mt. Sinai. Surely we have gone back and been subservient and vanity.

NEGROES NEED BANKS

RACE FINANCIAL INSTITUTIONS FURTHER NEGRO'S ECONOMIC PROGRESS, SAYS LOVETT

New York, March 17.—Writing in the April number of the Messenger, a Negro monthly published in this city, Mr. Wilson Lovett, President of the First Standard Bank of Louisville, Ky., dispassionately discusses the difficulties and problems of Negro banking, and also the necessity for more of these financial institutions within the Negro group.

"In many communities," says he, "thousands of colored people, as well as churches, lodges and other organizations have funds on deposit in white banks, colored people, however, find at times considerable difficulty in securing loans, or adequate financial backing for business. These same funds are, however, loaned out to white individuals and business institutions, thus enabling them to increase their own opportunities by thus employing the money deposited by Negroes. Banking establishments, where the Negro population justifies it, under competent management, would gather into a financial resevoir the deposits of colored people so that this money may, in turn, be used to advance their business and personal affairs and encourage their economic development."

Mr. Lovett also feels that such banks promote thrift and inspiration to higher things, exert tremendous power and prevent many a Negro business from failing and keep many a Negro from losing property. Among the problems confronting the Negro bank he lists the securing of the confidence of Negroes and the poor economic conditions existing among Negroes generally. Mr. Lovett concludes that Negro bank[illegible] assist in the development of a merchant and business class of its own in order that the banks' funds as paid out to the individual depositor may again find its way to the bank."

DECISION AIDS TAX PAYERS

A decision of far reaching effect in minimizing the cost of necessary street opening and widening projects, such as included in the Major Traffic Street Plan, has been handed down by Judge Works, of the Second District Court of Appeals. It exempts the city from the payment of expert witness fees and attorney's fees, incurred by property owners, in condemnation suits.

In cases where the condemnation suits are later abandoned, the property owner still may be recompensed for expense of protecting his interests in court, but where the property owner is well paid for property taken, he himself must bear the expense of paying for his attorneys and witnesses.

The test case was carried to the appellate court after Leo Youngworth, the plaintiff, had obtained a decision in the lower court which stated that a defendant in a condemnation suit could add witness and attorney's fees to the amount awarded to him as damages. Don Keith, deputy city attorney, carried the case to the higher court, and there obtained a reversal of the first ruling.

The decision will cut many thousands of dollars from the cost of condemning property, and thus save money for the tax and assessment payers.

SPECIAL TO THE CALIFORNIA EAGLE

Sacramento Lodge G. U. O. O. F. repeats its social success of three decades past. Thirty-six years ago a gala event under the auspices of the Sacramento lodge was given in the Legislative Assembly chamber. It was conceded by both press and public to have been by far the most elaborate affair in the history of the capital city. Beautifully gowned women and well groomed men were the comment of the spectators. The intricacies of the march was led by the debonair Frank Butler, who escorted the socially popular daughter of B. A. Johnson, Miss Louisa Johnson. Youth and beauty vied for honors in the lancers, quadrilles, minuet and the waltz. Tonight 36 years later, the scene changes. True some of the former actors play their parts. The venerable B. A. Johnson, Jake Soarres, F. J. Butler, and a few of the players who enacted the drama three decades ago are in the scene. John C. Rivers is still active and hale, but many who partiepated in festivities then, have made their final exit. Tonight the beautiful new Memorial Auditorium was the scene. Frank Butler, gallant, erect, but with whitened hair, escorted the still comely Mrs. Louisa Johnson-McCard through the intricacies of the march, followed by the women, now matrons, and the gallants to former years, now staid men of affairs. Youth in all of its pulchritude was present, a splendid background for the more sedate. P.D. G. M. John C. Rivers was introduced as Master of Ceremonies. A short program was featured. A solo by Miss Pauline Ray, accompanied by Miss Marjorie Collas at the piano and a violin selection by Miss Evylyn Kennedy were the main musical features. Mrs. Robinson and Mrs. Sebree were also participants. There were about two hundred who came up from the Bay cities. After the ball numerous house parties were planned which occupied the attention of the guests until sunrise of the next day.

Temple Street Widening Advanced

Proceedings for the widening of Temple street, from Broadway to Park View street will be advanced this week when the city council passes the final ordinance, preparatory to the starting of the condemnation suit.

Because of its importance as an arterial street, Temple street has been included in the Major Traffic Street Plan, and as such will receive $100,000 city aid from the six-cent permanent improvement fund.

The estimate cost of the entire project is $1,100,000. The present street will be widened to 80 feet.

Under present conditions, Temple street is so narrow that an automobile cannot pass a street car if another machine is parked at the curb. This fact greatly hampers the movement of traffic, particularly during the morning and evening rush hours. When the street is widened, the volume of traffic will be greatly increased.

Two other proceedings supported by the Traffic Commission have been advanced recently by the City Council. The ordinances of intention for the paving of Soto Street, from Marengo Street to Whittier Boulevard, and for Melrose Avenue, from Larchmont Avenue, to Fairfax Avenue, have been passed, and the protest dates, in each case, have been set for April 14th.

The Soto Street improvement is a link in the plan to open a connection from Huntington Drive to 4th Street in Vernon, bisecting the Hollenbeck Heights section.

The Melrose improvement, calling for the completion of the pavement, will be two miles long, and will greatly facilitate the movement of tract in the West Wilshire and Hollywood districts.

War Declared On Lower Calif. Mexican Land And Development Company

The results obtained from the series of articles written and published under the caption of "War Declared on the Lower California Mexican Land and Development Co., in two of the Los Angeles weekly newspapers for the past few weeks have brought to our minds a full realization of the fact that the average Los Angeles Negro may not be educated up to the point wherein he appreciates and demands great literary expressions or a strict observance to the rules, regulations and ethics as related to the use of words, phrases, and expressions of the English language, but he does appreciate and demand fearlessness of expression backed up by the everlasting truth.

We make no claim to literary attainment and for that reason these articles are quite taxing on both our time and mental capacities, but since we daily receive dozens of calls by the telephone, visitations, communications and personal interviews demanding that we bring these acts and the perpetraitors thereof to the eyes of the public, we herewith promise to continue to give and to give more abundantly.

Just today comes a call from a poor Colored lady who is a widow. She has invested her money in the purchase of land in the company; she wants to know how she can get her money back or a title to the land so that she can sell it. She also wants to know who is Robt. P. Fite, and his relation to the company. Answering about her money and land, we are powerless to tell her anything. In the recent audit of our books, all legal papers and documents relative to the operation of our company were supposed to be turned over to the auditor. If there is any agreement to the effect that the original purchasers have turned over the Santa Clara Ranch to the California Company, the agreement was not in the records sent in for audit, nor did the original purchasers of he Ranch sign such an agreement wit h the company since its organization. Why doesn't H. E. Macbeth, who has been the Company's attorney all these years and who negotiated many of these land contracts, tell her? God grant that he will!

As to Robt. P. Fite, the company dealt with him in the purchase of some tractors almost wholly through Hugh E. Macbeth. This deal has many shady aspects to it which we think it would be inexpedient to unfold just at this time. This was about all the dealing the company or the Board had with him with the exceptions of a little correspondence.

We have in our possession now private correspondence from Mr. Fite to Mr. Macbeth showing the close relationship existing between Mr. Fite and Mr. Macbeth for two or three years. The close relationship is shown in these communications which told of their common interests in their promotion of projects to raise finances, and in some cases they did raise finances of which the land company did not get a penny.

We have a letter in our possession which comes from Mr. Robt. P. Fite to our Board which space will not permit us to quote in full, but we will let it suffice by quoting you a few excerpts and giving a little comment on the same which will give you an idea of their (Mr. Fite's and Mr. Macbeth's) close mutual relationship.

Before we quote please allow us to admonish you that you bear in mind that this is a white man writing a letter to a Negro Corporation. The letter is dated July 5th, 1923.

An excerpt reads: "I had hoped to have August 1st as a closing time but now, I conclude, the fulfillment of my agreement with Mr. Macbeth is sufficent. While I do not propose to go into details, at the same time in fairness to those who have been identified with the work for the Sanitarium I wish to say that my experience in trying to help Los Angeles Colored people has been most disappointing."

In comment on the above, you will have to ask Mr. Macbeth what the agreement between he and Mr. Fite was, as we do not know. The latter part of the statement will only serve to show the Colored people of Los Angeles what a cheap white man thinks of them when they are a little slow in allowing him to exploit them. This man in connection with Hugh E. Macbeth received hundreds of dollars on the automobile raffle and never made an accounting.

Quoting further from the letter from Mr. Fite to the Board: "How is it possible for a company to succeed when members of the Board of Directors accuse others of being theives and selling out the Race? How can you expect other people to have confidence in your project when you yourself tell them that you are associated with a thief. Let me be frank gentlemen, the one that you have chosen to accuse is Hugh E. Macbeth prompts friendship for Mr. Macbeth prompts me to write this letter and I hope that he will demand proof of these accusations."

Fite also admits in the letter that he did not know whether Macbeth is what the accusers say he is or not.

In commention on the above quotations, we feel inadequate. It does not sound like a Los Angeles businessman. It seems far more appropriate to go to visit the Branson Bottoms of Texas or a place where scenes where some white man had furnished a group of Negroes with a good portion of corn meal, a few pounds of hog lard, a mule and a good portion of the year, and that they had double paid him by doing his all they had made. Yet this white man felt that these Negroes should feel so grateful to him and so humble that he should be allowed to dictate the policies, the rules and regulations regarding their personal affairs, their schools, their churches, their homes, and locations, their children and their wives. This is the man that was Hugh E. Macbeth's friend! This is the man that he brought to deal with us! This is the man that conducted the automobile raffle in conjunction with Hugh E. Macbeth!

LOS ANGELES WOMAN SIGNALLY HONORED

Prizes for Membership Drive—Valued Member Passes

Los Angeles has reason to be proud of one of its citizens, Mrs. J. M. Scott, prominent civic and social worker, who has been elected to receive the Walker Award (given each year by the Madam C. J. Walker Co.) for the most distinguished service to the N. A. A. C. P. during 1926. During the baby contest last year, Mrs. Scott raised $4055.55, the largest amount ever raised in a single effort for the N. A. A. C. P. This is an honor to the local branch and the community at large as well as to Mrs. Scott who will attend the National Convention of the N. A. A. C. P. in Indianapolis this summer to receive the medal.

We demonstrated what Los Angeles is capable of doing in the baby contest so let's all rally together and put over the membership drive in a big way. The Angelus Funeral Home and Unity Finance Co. have offered prizes to the persons securing the largest number of members.

The passing of E. Burton Ceruti is a great loss to the N. A. A. C. P. Mr. Ceruti, a veteran in the cause, was for many years defense attorney for the local branch as well as a member of the national board.

"Playin' The Chinaman"

The rent bill, the gas bill, the phone bill is due,
What's making the grocer and barber so blue?
Our merchants are selling no butter, no ice,
'Cause "Your Folks" are buying, just China-man's rice.

China-man, China-man, just smilin' so gay,
'Cause 'Your Folks' are throwin' their money away,
The workers, the shirkers, and church-members nice,
Backslidin' and slippin' and glidin' in rice.

A nine-spot, a ten-spot, just playin' my dream,
If I don't catch a six-spot, I surely will scream,
Oh please let me hurry, don't ask what about,
My ticket's on fire, and the drawings are out.

"What's a molla, my Hockway, no catch 'em today?
Damn fool, keep on play 'em, makee China-boy say;"
So here lies the moral, don't still be a dub,
'Cause Sheffield might catch you, and yet, "Every Tub!"

Ernest Bundy, 17-year old colored school boy, is attracting a great deal of attention at the Main Street Gym, by the way he moves around and hits in his workouts. Bundy weighs 120 pounds at this writing and is still growing. His speed and hitting ability is remarkable and great heights are predicted for him in the boxing game.

Billy Evans, a young colored featherweight from Cincinnati, is being groomed for a shot with any boy on the coast. WATTS MONARCHS TO PLAY WHTE MYSTERIES SUNDAY

The Watts Monarchs, strengthened by White Sox players who have been on tour in the north, will meet Eddie Meyers' White Mysteries, Sunday, April 3rd at the White Sox Orchard at 35th and Compton. The Mysteries of course, if playing to form, will give the Monarchs plenty of action, and the Hunt's Watts men have, no doubt, learned from the last two games that they must keep the lead they always get in the first few innings.

On last Sunday after Frers scored against the 60th Infantry in the last half of the second chapter, they had the soldier's number till Minors of the N. G. tied the score 1-1. The Monarchs still going great to the third when Steven's run tied it 2-2 jumped away in the fifth with Jackson and Wilson's runs, making the tally 5-4. Steadily seeming to get better, the Watts-men pulled away in the eighth and seemed to have the game pinched with a 6-4 lead, when blouie! things began to happen after errors by Hines and Smith and with the brass band playing, th soldiers marched away with the victory at 10-8. Farley pitched a good game all through; only poor support and bad pulling lost the game, but the boys solemnly promise to correct all faults and give the increasing crowds their real money's worth each Sunday. The price is still at 35c for boxes and 25c grandstand. Sunday's lineup was as follows: Jackson, l. f.; Wilson, c. f.; Green, s. s.; Hines, 1.b.; Foote, 3 b.; Frese, r. f.; S. Lewis, 2 b.; Smith, c.; and Farley p.

SAMMY MANDELL
World's Lightweight Champion

"Gettin' Hot" Now for Mandell-Fields Show On April 4th

Wrigley Field has seen several surprises since Dick Donald the California Rickard has been mixing the echoes of fist smacking—it seems a little beautiful for a fighter to tell his friends why a month ahead of time to be all they can beg, borrow, or steal that he will knock out a champion. But this is just what Jackie Fields leading contender for the lightweight crown now resting on the shiny black head of Sammy Mandell, did. And Sammy swears it can't be done.

Jackie Fields will lay off for a day during the week of training. Fields is getting down to weight so fast that his manager Willie Rooney, fears that the boy will become stale and rather than take a chance, he has ordered a rest. In less than four days of training Jackie is down to the required poundage and if he goes under the weight, it may work a hardship on him when he climbs into the ring.

Sammy Mandell, the champion arrived in town looking fit as a fiddle after his terrific battle with Tommy White in Dallas, Texas, last Friday night. The champion is high in his praise of White and predicts that the boy will go a long way in the fistic world. White is a two handed puncher and is coming all of the time. Mandell suffered no injuries and will be fit and ready for the Fields bout.

Donald signed a natural yesterday for his semi-windup. Mighty Bliss, the hardpunching welterweight from San Pedro will engage "Long John" Silver in an eight round bout to precede the main attraction. Bliss has long been a favorite with local fans and Silver by his gameness and ability to stand the gaff under fire has won many friends in the southern part of the state. "Long John" is on his way to a comeback. He has been resting up and putting on weight and is read to go to the post.

Dorris Barron, the hard hitting Mexican boy, meets Al Neff in the six round special event and Sailor Aguilar hooks up with Young Sam Langford in the opener.

As after Hook Tex Rickard entirely changed the plans of Jackie Fields in his training for his coming bout with Sammy Mandell. Rickard had all ready offered Jackie three bouts in Madison Square Garden, New York during May, but his offer yesterday must have been more lucrative than the one sent on before. The wise and other has made Fields all the more confident that he will win over the champion. Jackie realizes that the big money is in New York and he is going to try with everything he has to knock over the Rockford Flash.

COLORED RUNNERS MAKING GOOD

Jefferson High defeated Hollywood Hi 79½ to 30½, Friday, March 25 on the Jefferson oval. The highly touted mile race between Allan Storms and Julius Hirschman was not settled, for when 100 yards from the tape, Hirschman looked back and automatically slowed up his stride. Storms ran into him and both runners tripped. Storms regained his feet and sprinted in to win the race. Hirschman was evidently in a bad way, nevertheless, he limped into third place. The mile was disappointing as far as time goes, it was won in 4 minutes 48½ seconds. Both runners have bettered that mark this season. Cook of Jefferson won the shot put with his best put of the season, 47 ft. 6 in. Creecy showed that he must be considered a contender for the high hurdles in the city meet, when he ran the high sticks in 16.5 seconds. Creecy also won the broad jump with a leap of 20 ft. 6 in. and Vejar, Hollywood's 72 ft. broad jumper tied with West Jor. second place. Ford Munroe of Jefferson won the 100 yd. dash in 10.4 seconds. He also won the low hurdles. Clifton of Jefferson was second. Olstad of Hollywood won the high jump at 5 ft. 10 in. Robertson of Jefferson was second. Jordah of Jefferson won the quarter mile in the fast time of 53.2-5 seconds. West of Jefferson won the 22 yd. dash in 23 seconds. Driver of Jefferson was second. Jefferson won the relay in 3 minutes 7 seconds. Munroe and Creecy of Jefferson tied for high point man with 19 points each.

By Charles Moore

The Black American Motion Picture Actors had their introduction to the public at the Bronx Palm Garden, Wednesday, March 23rd. It was well received by the race people in this section. There are many people in our race that the public see regularly but do not know who they are except the well known ones as Noble Johnson and James B. Lowe. But there are many others among them are: Lloyd Shackelford, Floyd Shackelford, Virgil Owens, Charles Moore, Raymond Turner, Rays Robinson, Jack Williams, Curtis McHarry, Spencer Bell.

Officers of the Club are as follows: Pres.; Floyd Shackelford; Vice Pres., Chas. R. Moore; Sec., Lloyd Shackelford; Treas., Virgil Owens; Bus. Manager, Lawrence Lucas.

MRS. HUDDLESTON FOAMS LONG SWIM

ST. LOUIS.—Mrs. Myrtle Huddleston, first and only woman to swim the Catalina channel, announced the world's attempt to swim from St. Louis to New Orleans, a distance of 800 miles, on the Mississippi. She expects to make the start either in June or July.

She has been offered $25,000 to swim the Mississippi although Wallace, Terre, of California to Chicago. Promoter Jim Mullen says cut the wire. Reason we have it only Gertrude Ederle gave Mrs. Huddleston the opportunity to win her laurels. It is doubtful whether or not Myrtle will accept the offer.

GIRL-ETICS

By: GLADYS MATHONICAN

Well folks, we left our local girls last week to visit with our more distant ones. But this week, we must return to our Sunkist Maids.

* * *

It was reported that the snow on Mt. Baldy was melting rapidly Saturday before last. No one was astonished this was most likely due to the fact that the members of the Athletic Association of the Girl Reserves were hiking the mountain on that day. They were evidently getting in trim for their first Basketball game which is to be between the Twelfth Street Center Girl Reserves and the Pasadena Girl Reserves. This match will be held next Friday evening, April 8th at 8 o'clock. Pasadena High School will be the scene of this game which promises to be a thriller. A large number of spectators are expected.

* * *

The membership of the Athletic Association of the Girl Reserves is composed of all girls who are members of the 12th Street Center Girl Reserves, and who are intrested in participating in some one, if not more, of the different athletic events sponsored by the Association which consists of basketball, indoor tennis, track, and probably swimming.

* * *

Many of the gris are going out for track and some of them are strongly anticipating breaking some world records, which of course bears watching.

This association has really taken definite steps toward developing some renown athletes.

* * *

The Poppy Girls' Girl Reserve Club has also been practicing and now has an indoor team that is hard to beat. This team is ready and eager for competition. The 12th Street Center Girl Reserves will probably challnge them at a later date.

Colored Golfers

BY: NIBLIC HEELS

The mid-winter tournament at the Griffith Park Golf course is nearing to finish and one race golfer is almost certain to be in the finals. Possibly two race golfers will fight it out for first place; Jackson and Clisby.

Jackson breezed through two matchess playing like a champion, being master of the situation at all stages. While on the other hand Clisby has won his first two matches by default. Jackson is a newcomer to our midst coming from Atlanta the home of the one and only Bobby Jones. It may be of interest to know that Jackson learned most of his golf as a caddy for Bobby and Watts Gunn. Jackson shoots consistently in the low 70ties; he will make a strong bid for honors in the City Championship in July.

A few of our race members are: L. H. Grant, Fred Grant, Billie Grant, John D. Miller, Roy McGruder, Hoyt Porter, James Brown, Dr. Ball, Geo. Godfrey, Eddie Smith, Jackson, Clisby and a number of whome the writer is not acquainted.

At least six of these fellows are expected to try out for City Championship in July.

There are any number of public courses in and around Los Angeles that are open to golfers, our own conduct is your passport.

Come on race golfers—let's go! Bring your wives along and have a great time. Chase the little pill and give the pedestrians a rest.

In the semi-finals O. J. Clisby was defeated by Barny Lugah white) 2 up and 1. Clisby can lay his defeat to his inability of keeping his woods on the fair way.

A few hours of practice every day will cut at least a dozen strokes off his score.

Overton Jackson came through in fine style yesterday 3 up on the 18th from G. Harmon (white).

Next Sunday, April 3rd, at 10 o'clock, Jackson and Lucas will spilt it out for championship honors. Come out and pull for Jackson, colored golfer. You are all invited.

PULLMAN PORTERS BENEVOLENT ASSOCIATION DANCE BIG SUCCESS

Mrs. A. C. Bilbrew and Instett Hit of the Evening

Eagle Hall on the evening of March 29th was the scene of hilarious laughter, dancing and punch drinking to the strains of that soothing jazz playing Black and Tan Orchestra. It was in honor of the 10th anniversary of the Pullman Porters Benevolent Association. President C. H. Levy, that polished gentleman of the hour, gave the opening address and turned the balance of the program over to the star of stars, and one of the most clever artists on the Pacific Coast, Mrs. A. C. Bilbrew. Supporting her was a quartette which Alexander Pantages would do well to get in touch with, namely: Beatrice Banton, Aimee Harris and Helena Smith. If anyone should attempt to tell you that those girls cannot sing, just call up Patton for me. Beatrice Banton sprang the surprise of the evening when she extracted harmony from the saxophone in a most intelligent manner. She won the applause of the audience which was greatly pleased with her selection. Helena Smith sang a solo entitled, "Most of All I Want Your Love;" Mr. S. A. Hopgood who was taking tickets at the door stood there with his mouth wide open—he thought the charming Miss was singing to him. Hot dog! Oh, yes! Mr. Hopgood's single. Mrs. A. S. Bilbrew, brought the house down with a song entitled, "I'll say she Knows Her Onions" and from the way she sang, we'll say she knows her onions.

The Women's Liberty Club, auxiliary to the Pullman Porters of Los Angeles served the punch, which up to date had no kick but was refreshing. Mrs. Ed. Garey was mistress of one howl and Mrs. Otto Johnson stood guard over the other. Mrs. E. B. Jasper, president of the Auxiliary supervised the most splendid service rendered by her club and is to be complimented for the smooth way in which it was conducted. H. A. Prescott was chief cook and bottle washer all dolled up in a white apron and white coat giving the impression that turkey was also to be served.

Mr. S. A. Hoopgood was on the door and from last reports he was getting every tub, with the exception of Johnny Moore better known as one-eyed Conely who came up th fire escape. J. T. Ambrose was there and acted as president of the wall flowers club. Mrs. Ambrose was not with him, so we presume that the fleet footed baby had instructions not to dance. H. E. Washington was in charge of the check room. Wm. Asbury claims when he checked his overcoat with Washington, he had 15 cents and a box of Pullman matches in the outside pocket, but when he got his overcoat back, the 15 cents was gone but the matches were there. Maybe Wash thought he was going to Frisco.

The president, C. H. Levy was talking and dancing with so many good looking ladies that as yet we have failed to find out who was who; lucky bird that fellah!

Mrs. W. V. McCall although not informed of it in advance was called upon by Mrs. Bilbrew to render a piano selection, which she did with great credit to the wonderful talent she possesses, a little peever but the music was sweet.

Mr. Shores and Mr. Taylor, Ass't. Supt. Pullman Company were in attendance and expressed their delight in the program.

Mr. L. A. ollis, Pullman Porter Instructor was absent and we wonder why Mr. Percy Buck, big butter and egg man, Geo. S. Grant, Sam Thompson, Atty. L. B. Becks and numerous others were present. Some dance!

RECORD ATTENDANCE AT SAFETY-FIRST MEETINGS

The Safety-First meetings which were held last week by Mr. Gilbert at the S. P. storerooms, were all very well attended by the porters which shows a willingness on their part toward helping to put over the gigantic program of Safety-First which the Pullman Company has undertaken to perfect. One of the most interesting lectures that has ever been given in this district was rendered by Mr. Gilbert who, through his vast experience with the Pullman Porters, has learned the art of holding their attention and keeping them alert to hear the next word.

This in itself is something which other Pullman officials have had a hard time in doing, men becoming restless and nervous long before they were finished in giving their talk. Not so with Mr. Gilbert however. He mixed Negro history with safety first, and it did the work in Billy Sunday fashion. Those who missed the meetings are not above valuable tips which might be of much assistance to them in the future.

BUREAU OF ECONOMY STARTED

A Bureau of Economy for the collection of up-to-date information as to Pullman Co. expenses that might elude supervisory heads because of the magnitude of daily routine business, has been created under the supervision of Vice-Pres. and Comptroller, L. S. Taylor, and is under the immediate supervision of Ass't. Gen. Aud., L. M. Bradish when he was in charge of receipts and G. B. Sailor, Tax Accountant is assistant.

In a circular letter President E. F. Carry sets forth the purposes of the Bureau of Economy in part, as follows: It will be the duty of this bulowed It will be the duty of this buditaree, and to furnish the results of their examinations to officers and heads of departments so that prompt action may be taken to correct conditions involving financial waste. The bureau will not relieve any officer or employe from the duty of checking extravagance or stopping inefficiency that results in increased expense, in fact, the bureau will be an additional assistant charged with the specialized duty of constant examination of expenditures and will be of great assistance to all supervisory officers in their efforts to control expenses.

THE RESULTS OF THE PULLMAN ECONOMY WAVE

Those Economy Experts can make a dime have the value of a dollar.

They removed all the cuspidors out of the body of the car and only left one in the men's smoker.—Economy!

They have taken all the whisk brooms away but one, and that is for the porters own private use. It is thought that this one will get very hard wear.

They probably took C. W. Murdock's tip on the whisk broom cut.

Funny fellah! that man Murdock. Economy Experts took the ice tongs away; Mr. Murdock kicked up, stating that the ice cut his hands. Will some porter please make him a present of a pair of rubber gloves?

A hint to the wise—Get your matches NOW, they will go next.

The hat bags have also gone bye, bye. My! what will the Maids do now?

Who started this Economy wave anyhow? President Coolidge or A. Philip Randolph.

I'm sorry mister! I can only give you two sheets, one pillow and one blanket, these Economy Experts have cut us all down.

They must have been talking to the passengers too according to the way the tips are coming.

The Economy spirit ought to work both ways. Porters should use two in one instead of Whitmoore's——That's Economy!

HAVE YOU BEEN

Have you journeyed to the country of late? 'Tis the time of year to go. Flowers and fruit trees are in blossom and the air is rich with their fragrance. In order that what is here stated might be verified, we would suggest that at your first opportunity you tank up with gas and oil, inflating your tires, put a couple of relatives or friends in the back seat for company and leave town via North Broadway and pursue the following course: Cut into Valley for eight miles to San Gabriel Blvd., turn left to Huntington Drive, turn right to Baldwin Park and then turn left to Azusa. There make another left turn into Foothill Blvd. Follow same through Altadena, cross over devil gates dam into Flintridge, thence into Glendale via Virdugo Road into North Vermont via Los Fleis Drive. After having light refreshments, then start for home. This is a three hours drive and, therefore is not so bad. Next week, we will take another drive.

ACE FOREMAN WINDS HIS WAY

Ace Foreman, Los Angeles' own colored aviator, is slowly but successfully wending his way toward his ultimate goal, New York. It is a great effort and we're pulling for him. There are those among us who still believe he can't fly, but those with optical vision have been satisfied for the press throughout the country verify what Los Angeles folk have seen.

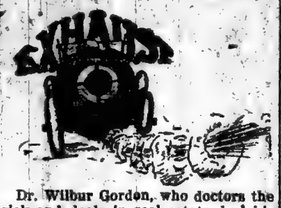
Four Ton Auto Makes Record of 207 Miles Per Hour

Can't be done? Yes, but it can. Just read on. With H. O. Segrave at the wheel of a special built English car, last Tuesday the folks of Dayton Beach, Florida, witnessed something new. An auto weighing better than 4 tons, burnt up all records as to speed when it turned in a record over the 9-mile course of 207 miles per hour. This is 50 miles an hour faster than Tommie Milton travelled in 1920.

This is a great record and is liable to stand for some time.

Yosemite Road Hours Are Changed

Yosemite, March 26.—Amended automobile regulations just received from Washington, open the new all-year road to incoming motorists from 6 A. M. to 10 P. M.



Outgoing motorists may check through the Arch Rock station on the new road between the hours of 6 A. M. and midnight. This order becomes effective April 1.

Superintendent W. B. Lewis, commenting upon the new regulations states this will assure reasonable quietness in the Valley during the season when travel is greatest, thus permitting a restful sleep for resort guests and public campers.

A study of travel during the late hours of the night and early morning, shows less than four per cent of incoming automobiles registered at Arch Rock during such times. This too, was largely local residents.

The Park authorities feel confident the new regulation will greatly add to the convenience of the general public visiting Yosemite at all seasons of the year.

"There will be a hilarious eve at the Bronx, Easter Monday, with the Appomattox Club. Snappy entertainment.

Dr. Wilbur Gordon, who doctors the sick and deals in real estate, had his auto given a spring cleaning the other day. He confidently stated to an intimate friend that his reason for so doing was that he expected to make weekly trips to Elsinore.

PUBLIC HAS INNING AND ENJOYS GAME

The gasoline war which broke out a little over a week ago is still raging unabated. If anything, it has spread until where only one company was involved yesterday, today nearly every concern of any importance is being caught in its net.

The cause is two fold. The main reason is attributed to the fact that of late there has been an inclination to build too many stations when conditions did not warrant it. The second is in keeping with the usual reduction every spring. However, it has been a long time since the tag 14½c has been hung out and it looks as though the war, or at least, the reduced prices, will continue into the late summer.

The Road Hog

The road hog is a rambling beast;
He has no habitat;
You find him south and west and east,
Wherever you are at.
He's dangerous to life and limb;
He's quite devoid of reason,
And game laws should declare for him
An always open season.

He populates the main highway,
This senseless, selfish oaf,
And in the middle, all the day,
He much prefers to loaf.
In vain you loudly sound your horn
And curse him in disgust;
You'll have to trail him all the morn
And swallow pecks of dust.
He overtakes you on a curve,
This brute with rugged neck;
Into the ditch you have to swerve
To save yourself from wreck.
He laughs aloud and dashes past
Rejoicing in his luck.
Let's hope that when it fails at last
He'll hit a ten-ton truck!

TO CO-WORKERS OF THE MISSOURI GROUP OF 38 MINING CLAIMS

Mr. G. W. Miller, of Tucson, Arizona, under the date of March 19th, has the following to say to all Co-Owners, viz.:

Much delay has been caused by the lack of co-operation of the Eastern Trustees, but notwithstanding the delay, we are preparing to begin shipping from our Paymaster mining claim, on or about the first of May. The paymaster carries 5 metals, with zinc and lead dominating in value.

The shipping will make it easier for us to reach pay day. We expect to add our mill as soon as we put from 3 to 4 loads of ore in the smelter. The shipping will allow us to borrow enough money to put the mill on our Free Gold part of the property; and when these two things are accomplished, it will be easy to raise the amount of the Co-Owners' call.

The Dons are hustling and have been adding new units to their works for the past 10 months and will be ready to accept Ore carrying zinc about the time our shipping begins.

Malone Tries Suicide

AARON MALONE ON VERGE OF INSANITY.

A special wire to the California Eagle unfolds the fact that Aaron E. Malone who was the cause of the Receivership for the great Poro College at St. Louis, has about collapsed and is reported on the verge of, if not insane.

St. Louis, Mo.
April 5th—10:20 P. M.

California Eagle,
847 Central Ave.

By (Associated Negro Press.)—Malone, who leaped through the window at 4217 West Cook Ave., Saturday night, became suddenly violent suffering with hallucifnations that somebody was trying to kidnap him. He was taken by the police to a Colored Infirmary. Friends and his lawyers got charge of him and spirited him to East St. Louis, to St. Mary's hospital, a Catholic institution, at six o'clock in the morning he again plunged through the window there. It is reported that he is raging and attendants compelled to strap him to his cot.

Mrs. Malone is out of the city.

Will Present Managing Editor Of This Paper In Lecture

Not introducing, but presenting Los Angeles' very able and talented orator, Mrs. C. A. Bass, who has just returned from an extended visit in the East, during which time she took a post course in journalism and public speaking at Columbia University.

The Womens Progressive Business League of this city has arranged for her first public appearance at the Second Baptist Church on Wednesday evening, April 27th.

Reinforced by her first hand information gained by a personal survey of conditions throughout the country, added to her admitted qualifications there is no question but that Mrs. Bass will give to the people of this section a wonderful message indeed.

The Womens Progressive League propose to make this an epoch making event and will render honor unto one of its own, who has earned her spurs and who is recognized as a thinker and speaker of rare ability.

Citizens of all walks of life have already signified their intention to join hands with the Women's Progressive League to make this occasion as big and grand as it is possible to be.

They have set their goal to pack the great auditorium of the huge Baptist Church on this occasion. The League holds that all Los Angeles can well express its appreciation to this well known and proven advocate for humanity. Every sort of business, religious, industrial, civic and fraternal are cordially invited to participate for the success of this occasion.

"Quo Vadis" At Independent Church Sunday Eve., Apr. 10

A new and gigantic production of "Quo Vadis" has been completed and will be shown at the Independent Church, Sunday evening. For stupendous size, both in cast and scenes: for super-thrills and for rare beauty of photography, this picture has been proclaimed an unequaled masterpiece. The cast included more than 30,000 men, women and children, 200 Arabian horses: 150 wild lions from the African jungles; three untamed bulls and a horde of other animals. You will see the famous Catacombs of Rome: Christian martyrs burned at the stake and hurled to the lions: Christian women dragged behind chariots, in the great chariot races: Nero fiddling while Rome is swept by fire; girls hurled into golden pools to feed the fish for Nero's banquets; gladiatorial contests, and a thousand and one other thrills. Sunday evening, seven-thirty. Remember, we can admit only as many as we can seat.

NATIVES OF CALIFORNIA CLUB

Garland Anderson' Famous Play "Appearances" Opens at Majestic

The play that Californians—black and white—have been watching for opens up at the Majestic Theatre on April 11th. It is "Appearances" by Garland Anderson, the play that New York received with open arms for a long run on Broadway, the first time in history that a play by a Negro ever appeared there.

Mr. Anderson, a poor bellboy, working a San Francisco Hotel, wrote the play, in his off moments. It is a true life story of hotel life, gleaned mainly through Mr. Anderson's experiences in his work. Brown of the New York World, Channing Pollock, the N. Y. Star, N. Y. American and Al Johnson who paid Anderson's expenses to New York when he was trying to get his play noticed, all gave it the highest recommendation and throngs came nightly to see it and learn the great lesson it teaches.

All the actors in the local cast are white, although in the N. Y. production the four Negro parts, Carl, the bell boy; Rufus, the maid; Mr. Williams, a friend of Carl's and Ella hotel maid, were al colored. In Negro parts, it is a foregone conclusion that Negroes cannot only act them best, but look more natural, and it is deplored that these parts are not filled by Negroes. All the white actors are local actors and it has been learned that the directors wished Negroes for the Negro parts. To use them would not only have strengthened the play, but would have given a few members of Mr. Anderson's race one of the opportunities so seldom met, that is to play in high class drama at the best houses.

One complement and one only Negro actors was tried, getting one trial, but considering the recollection, Mr. Anderson has of his struggles, it seems an oversight that he did not place more of his people of whom there are plenty capable ones, in touch with the directors so that suitable ones could be selected. It was learned that the actors presented lacked the training considered necessary for so important parts especially that of "Carl" which calls for a strong, but quiet, manly presence, void of mannerisms or "good-goody" bombast.

The actors making up the cast are: Olaf Hyter, Dares Hudson, who is playing "Carl," Ralph Clomnger, actor-director, Ethel Baker, Carol Wines, Fergus Reddie, Mary Fite, Harry Jordan, Maurice Chack, Al Hallet, Robert Stone, Freddie Cummings, Ira Robertson, John DeWeese and Ross Porter.

Both Mr. and Mrs. Boyd looked the picture of health and [illegible] lighted to be here amid sunshine and flowers.

On Tuesday night Mr. Boyd addressed the citizens of Los Angeles at the big New Hope Baptist Church, 18th and Paloma Streets. His subject the three C's; Consecration, Concentration and Conservation proved pleasing to the utmost and enthused his audience to the highest degree. No address ever heard in this city was more convincing and timely, no one who heard him could help but feel inspired. Dr. Boyd spoke again Wednesday evening and last evening at Rev. F. H. MOUSER ADDRESSES FORUM

Frank H. Mouser, candidate for the City Council at the May 3rd election, delivered the following masterly address before the Forum, last Sunday afternoon. Mr. Mouser is popular with the members of the Forum and his address as well received. It is generally considered that Mr. Mouser will be successful in his efforts to be nominated and elected to the City Council. Mr. Mouser said:

"I know you will pardon my taking a moment of your time in speaking about myself. I have been requested by a citizens' committee and others to become a candidate for Councilman from the Eleventh District. I feel you are entitled to know more about me. I am a property owner in this district and have lived in the district for fifteen years and in Los Angeles and Southern California for forty years. I have served three terms or six years as a member of the legislature at Sacramento and know the needs and problems of our city and state. I hope this information may be of service to you in making up your mind in the election of a City Councilman.

"The paramount issue in this campaign is the tax question. Taxes in our city for the past few years have been mounting higher and higher, and till taxes have become a serious burden to property owners and if permitted to continue will hurt the credit of our city and prevent investors from investing their money in our city.

"There is not a business in our city who cannot know there is a limit to his business profits and that he must keep within that limit, or be unable to meet his business obligations.

"There is not a homeowner in our city who does not know there is a limit to the amount of money he can spend each month, and that he must keep within that amount or be unable to pay his [illegible] dues.

"There is not a property owner in our city who objects to necessary improvements, but every property owner, of [illegible] objects to unnecessary improvements and extravagance in the management of the affairs of our city.

"Every Church [illegible] knows that they can run [illegible] economically than when they operate on [illegible] Even Uncle Sam [illegible] Lionel Hampton and Earl Johnson, colored and Jack Dundee and Mamie Stegers, white. All were there to the Newton prevention hall for the [illegible] meeting.

They were under bond for a narcotics case upon which the try had the appeal. On the investigation of Mr. Harold Davis the above evidence caused them to be re-arrested.

[illegible] property owner wants the [illegible] improvement, the property valuation but any the [illegible] economy.

HAWKS' HANDS

Hold-up men were abroad in the land Tuesday night. As J. V. Gibson, a taxi driver, reached the 1300 block on E. 53rd street, two men whom he described as "about 5 feet, 8 inches tall and very black" pushed a blue steel pistol in his side and told him to "stick 'em up. Quickly obing so, he stood steady while they shook him down for $15.00 and a 15 jewel Waltham watch. They disappeared in the darkness and escaped for the time being. The hawk will have them shortly.

They sat went let bone alone in a dry country, as Mrs. Pauline Martin, Jas. Rodgers, Dennis Haynes, Mrs. Rosalie Foster, were arrested by officer Church and others of Newton for possession of intoxicating liquor. They raided at 1136 E. 18th street.

About the steepest fine for liquor possession ever given was tacked on Mrs. Mafonson by Judge Stafford of Municipal Court. She drew $1000 or 180 days, 110 days on one previous case, and 30 days on another.

Lillian Davis, 28, Ethel Owens, 19, and Samuel Doty, 25, who seem to have forgotten his domestic duty, was arrested by Officers Brandt and Rawley, for vagrancy and held. The officers evidence of the boy with [illegible] of the Newton office.

IN NEW YORK

By C. A. B.

(Continued from Last Issue)

But in such an investigation you will see that the real colored Harlem will you find real Harlem. However, you will find that nine-tenths of the attendance is made colored is white. You will find that the white people come to take the most intimate observation in the wriggilings and dances of a popular black dancer known as Honey Brown.

By this do not understand me to mean that the black folk are not habitues of the cabarets of song and dance, for many of them are and this many does not refer always to what we term the lower strata. Some of Harlem's best Negroes seem to have, in recent years, acquired a liking for this life of pleasure.

However, the bulk of the Colored race today is thoroughly in earnest.

In Harlem as elsewhere, the Negro elevator boy or bootblack in his sometimes ragged or tattered appearance is often, between the raps, found reading Virgil—working out a problem in Calculus or pondering over a volume of Blackstone and these are by far typical of the primest generation of Negroes.

Whites Get Pass

You have heard a great deal about Negroes gambling. They do gamble in Harlem, and everywhere, but white men gamble also and it was the white man who taught the Negro how to gamble; not only taught him how, but inspired him with a love for gambling, causing him to believe that this is the shortest route to the acquisition of wealth.

No Rags in Harlem

There are few rags in Harlem. Some of the best dressed people in the world are to be found in this Negro Metropolis. It has been believed, however, that the Negro would go from one extreme to the other [illegible] most ragged of clothing, to the other extreme in color and cut when he had the money to do it.

But all this thought is passing.

The rest of the world is no longer in doubt. It knows now that the same [illegible] of taste which is permeating the feelings of other people with regards to home culture, dress and action is becoming manifest in Negro life, and habits. In other words, the Negro people are attaching the proper importance to their own self-respect which means that they are beginning to demand from others the respect that is due them.

Home Life in Harlem

Perhaps home life in Harlem could best be described by saying that the Negro is imbued with the spirit of "Keeping up with the Joneses." But this rule works both ways—if a neighborhood was first settled by the better or progressive class who keep their homes clean, eat good food, buy musical instruments for their children, rise in automobiles, those who are perhaps less inclined to live up to this standard coming into the community later will be inspired to keep up, hence there is the beginning of a cultural development in home life.

On the other hand, in this self same Harlem there are settlements too ugly to look upon, peopled by a class who as it were, brought their environment with them. They live in dingy tenements with broken or partly broken window panes, poorly ventilated homes, ragged children, surrounded by morally unhealthy atmosphere.

SUCCUMBS

James C. Slaughter, well known and prominent citizen, residence [illegible] E. 37th street, was stricken with a stroke while at his place of employment at the Dodge Bros. Automobile Company. He was removed to his home where he passed away without regaining consciousness.

Mr. Slaughter had resided here for more than 20 years, was prominent during a major portion of his residence here, in religious, fraternal, and civic organizations. He was a Past Master of the F. P. Tolbert Masonic Lodge.

Mr. Slaughter was one of the living [illegible] of the U. A. Brown and seldom indeed was the business which his part was vacant. He was successful [illegible] of an [illegible] disposition, and just a highest respect by all who knew him. In his passing the community loses a stanch and worth while citizen whose services and advice will be sadly missed.

The funeral [illegible] from the [illegible] Funeral Home, [illegible] Central Ave., Rev. [illegible] officiating. Interment in Evergreen Cemetery.

GEORGE WASHINGTON BRIGHT'S LIFE

were carried. In the same year Jimmy Irishman got it passed through the council that they would give me charge of fire house at Fourth and Towne Streets. Before the houses were completed, Ben Louder, republican, beat Jimmy Irishman at the election; and Louder had me defeated in the council, so they failed to let me have the house.

I was promoted to Driver at Chemical No. 1 in 1900 during the month of March. Some weeks later I was called up by Chief Moore and told to send up those men whom I wanted to come in under me as a company. I called W. M. Glenn, who was working in a barber shop on E. Fifth Street; a man by the name of Webb, who lived on North Central Avenue, near First Street; and Frank Hawkins who had business at Los Angeles and Second Streets; but Hawkins was gone to San Diego and didn't get up to get his equipment; so W. M. Glenn was sent to 24th and Central and Webb was sent to my old place at Aliso Street, Engine No. 5.

This narration will be continued later on.

Why Judge Bullock Should be Re-elected

HER HIGHEST AMBITION IS TO SERVE HER SEX

By her service in both the Police Court and the Municipal Court, Georgia P. Bullock has proved more than that a woman may successfully preside over a court; she has proved that a woman may successfully preside over a court; she has proved that there is real need for a woman judge, that there is a work, especially in the woman's court, which demands the peculiar sympathetic understanding and tastefulness which is the natural gift of a woman, and is beyond the power of most men to acquire. It is gratifying therefore, that Judge Bullock has decided to be a candidate in the spring election, for return to the Municipal Court bench, to which she was appointed by the governor in February of last year. Her service on that bench could not be spared without loss to the community.

GEORGIA P. BULLOCK

Judge Bullock had successfully practiced law eleven years when in 1914 she was appointed to the Police Court bench, and when at the first of last year the Municipal Court was organized she moved to that court, being the only woman in California ever to hold such offices.

But interest in the work of the woman's court was not the result of service on the bench, but the other way about. Her interest in the women who came into court, which began in her law student days, was what brought her to the bench. As a law student and during her years of practice of law, Judge Bullock gave much time to the problems of these women. It is a work she does so well there should be no question about her retention on the bench, so she may continue in the work.

Hunter, successful salesman and business man, has been appointed agent in this district. He promises to uphold the Golden State reputation by giving to the people of Kern County the same high class insurance service that is making this company famous throughout the state.

The new office is conveniently located in the well known Winters Building at 1806 "K" street.

Dr. George A. Handis, popular physician and surgeon of Bakersfield, will attend to the medical work of the company in this district.

The Golden State is the first and only life insurance company in the world to be officered and controlled by Negro people. It is very fortunate to win the valued patronage that this California company is making.

St. Agnes Guild's Tea at Father Cleghorn's residence last Sunday was a splendid success. The wonderful program was arranged by Miss Alice Kennedy. The Misses Sarah and Mattie Nelson gave piano solos which were well received.

Investigate Carver Acres--- A WONDERFUL OPPORTUNITY FOR ECONOMIC INDEPENDENCE

TO THE GENERAL PUBLIC:

In order to offset certain unwholesome rumors, to wit: That T. S. N. Maloof, owner of Carver Acres, is not the actual owner; we wish to make the following observation:

DEV. RICHARD H. WADE
Manager

I solicit a thorough investigation on the part of anybody who doubts the honesty, and integrity on my part in offering these lands to the public. If any statement made to the public can be proven false, or not absolutely as advertised, I agree to frofeit $1,000 gold coin U. S. money to any one proving same.

CARVER ACRES, is the property of T. S. N. Maloof, and I am in position to give title to individual purchaser, on payment for his acre, whether one acre is sold, or the whole of the acreage is sold.

The records of San Bernardino are open to the investigation by any citizen who may desire to do so.

You will find Tract 2177 of the Maloof Highland Avenue Tract 1, recorded in book 31, page 51, San Bernardino County. You will also find Maloof Highland Avenue Tract, 2178, Plot 2, recorded in book 31, page 52.

Search the records, they speak for themselves. My offer stands to any one, and every one. If it is not as we say, you don't have to buy.

Here is a splendid opportunity to make One Thousand Dollars, by anyone who doubts our word. Remember this offer is unconditional, to anybody, anywhere, at any time.

The Rev. R. H. Wade, a man of outstanding character, and 18 years of unquestioned integrity, in California, who has for the first time to deceive the public, is my General Manager. He is known as a man of the highest honor, and invites investigation to the fullest extent. And Mr. E. B. Maxey, building contractor of 20 years' residence in Los Angeles, known everywhere as an honorable man, of strong business qualities, certifies as to truth of the facts above stated.

The land is now going. Get in now. Water rights go with the land. He who hesitates will lose.

T. S. N. MALOOF, Owner.
E. B. MAXEY, Contractor.
RICHARD H. WADE, Manager.

This property, named after the great scientist of Tuskegee Industrial Institute, offers the greatest opportunity to be found anywhere in this wonderful State, for the economical development of the Race.

Located on paved boulevards, about one hour and thirty minutes drive from Los Angeles; within 30 minutes' drive from the following towns: Alto Loma, Etawonda, Cucomonger, Upland, Ontario, Chion, Corona, Arlington, Riverside, Colton and Redlands. Twelve miles from the city hall of San Bernardino. It also joins the finest Olive Grove in California.

Buy one or more acres at once. Prises advancing with improvements. Delay means loss—get in on the ground floor.

This is your one opportunity to own some of the best land in California. Rich, level soil, midst highly improved orchards, vineyards and olive groves. Geological survey shows abundant water supply; water rights with every acre. Buy one or more acres at once—$600 per acre and up.

T. S. N. MALOOF
Owner of Carver Acres

Terms—10% down and balance to suit purchaser. This amount will place you in possession of an acre of the best boulevard lands.

Gain an independence. Buy now before prices advance.

T. S. N. Maloof, is sole owner of Maloof Tract No. 2177, and 2178, Highland avenue, San Bernardino County. We guarantee to every purchaser full protection.

This is the most wonderful opportunity ever offered west of the Rocky Mountains. There will never be another such offer in your lifetime.

If you wish to get in on the ground floor in this proposition, visit our headquarters at 2727 Cenrtal avenue and you will meet our representatives who are thoroughly competent to explain all the details of this proposition.

Located in the midst of health, wealth and prosperity, on a highiv improved highway, from Los Angeles to San Bernardino.

Right in line with highly improved orchards; about 54 miles from Los Angeles' Court House. Also the finest place in the State for poultry, rabbits, in fact everything that you want to raise.

This acreage is surrounded by several large cities. Plenty of water, guaranteed for domestic use by the owner.

T. S. N. Maloof will endeavor to assist you in building your home with all the necessary improvements. I am not a promoter, but owner of this tract. I am in a position to give a grant deed, and a certificate of title to each individual acre bought and paid for.

Do not measure my proposition by others of a like nature. Mine is different from any other yet given to the people of California. In fact there is nothing to compare with this proposition.

I also finance and build homes anywhere in Southern California. Resources unlimited. If you have the purchase price on your acreage we will make every effort to build for you; putting in fences, chicken corral, rabbit hatchery, allowing you to pay out in small monthly instalments.

E. B. MAXEY
Contracting Department

Here is a splendid opportunity to make a substantial beginning toward an independent future. We also carry Fire Insurance, Rentals, Sales,—City, Country and Suburban properties. In fact anything in the Real Estate line. Information cheerfully given.

We ask that you give us an opportunity to prove our ability to you. Give us a call at our headquarters.

The grand finale of the great membership drive of the Euzelian Class of the Friendship Baptist Church resulted in the victory for the henandoah with A. B. Gurton as captain which virtually means that the Los Angeles team will have to kill the fatted calf at a date to be announced later. This drive has covered a space of several weeks with an enrollment of 100 as it goal for the First Sunday in April which was fully realized with a few to spare. This department is superintended by Capt. W. M. Reynolds who has proved himself equal to the task as he has on many occasions. Not only are these men asked to come out on Sunday but a tentative program is being arranged that the organization may be intact. An invitation is extended to all the men of the city to at tend the Bible Class on Sunday mornings at 9:30 where a splendid welcome awaits you.—W. Matt Solomon, teacher.

Mr. N. H. Langston and wife, prominent members of Friendship Baptist Church will leave soon for Parsons, Kansas to make it their future home. They will be seriously missed since they take conspicuous part in the development of the church along all lines. Mr. Langston is one of the most consistent members of the Eurelian Bible class and much liked by his fellows who hope he may return soon.

The Tri-County Convention is scheduled to meet in Monrovia on the 13-14 of this month.

All definite arrangements are being made for the annual Industrial Fair which is to be held a little later this year but is to be just an interesting with more and better exhibits. The affair last year was the talk of the town because of its rare specimens of hand craft but this year no pains will be spared to make it the best ever exhibited any place.

New Ice Company

We are elated to know that one of our popular business men in the personage of Clarence Mills, associated with Walter Tinnon has launched another business enterprise for those of our group to patronize but we regret to learn that while out soliciting the support of our people which they should have without any hesitancy, they have met up with such answers as these: "We can't quit our old ice man (white), he's been so good to me" and "I've had this ice man so long that I just can't change." Can you feature such proposals for not failing to support a race institution legitimately handled, yet we are always crying about wanting something for our young people to do as they never have a chance. Now what about it? Are you perfectly satisfied of all of them doing the most menial of work and never expect one to aspire to things of a higher sphere? It's a certainty that things have virtually changed for those in our group during the last five years and the time that we thought we could count on as ours are fast slipping from our grasp, now or never is the time to wake up. Not long since this column spoke out against a certain ice company but it seems this very company is getting its major support from those of our group. There is no use talking about what we have done in these many years until we support our race institutions we haven't done anything. Preaching and practicing are different. Try and see.

* * *

The primaries are over and the general election is fast creeping upon you and it's time now to stand around and say what we are going to do when half of us have not even registered. The only weapon that we can legally use is the right of franchise and we have very near thrown that away because of our lethargy. When these issues come up, we should study them intelligently and vote likewise but we don't do ither in great many instances. We wonder why the Modern Government League nominated all of their candidates—there's a reason. Go to the polls on the 7th and vote and help change the order of things if you are displeased.

In an effort to clinch championship for Southern California, the Crown City Club has a three game series scheduled with the Los Angels Basketball team. The first game was not played due to the non-appearance of the Los Angeles team, with the remaining games to be played in the two cities. On the evening of the 8th when the third game is to be played the Crown City Girl's Basketball Team will play the Los Angeles Girls. Having won everything else in sight they want to clean up for the whole of Southern California.

Some time ago having successfully passed the Board of examiners qualifying as a mortician James Wood has been granted a permit to build a mortuary on his property site on South Vernon avenue after having his petition signed by the necessary number of property owners. Mr. Wood has not announced when he will begin building but expressed himself as being much elated over the signatures of the property owners as an incentive for his future aspirations.

Pastor Carter of the Friendship Baptist Church who has been indisposed for the past few week is able to be at church but not able yet to officiate in his pulpit which is being efficiently handled by Rev. THE WRECKER

This would be an excellent sign across the backs or shoulders of some persons who join churches and other organizations from time to time.

MOVING PICTURES IN CHURCH

The Independent Church of Christ took an advance step when it introduced moving pictures at its Sunday evening service.

WILL PUBLISH ROLL CALL

In our next issue, we promise to publish the "Roll Call" of the City Council in the recent controversy where the life, property and progress of the Mission which had been conducted by Rev. Lauretta S. Walker for the past 21 years is concerned. We will give the fullest details of the affair with the Mayor's veto. From this, we will allow Eagle readers to judge for themselves as to who was willing to stand for the square deal.

WELCOME WORLD'S GREATEST PUBLISHER

The "Soaring Eagle" extends to Dr. Henry Allen Boyd, a sincere welcome in our midst. We are proud to have him to pay his respects to our group on these Western Shores and appreciate him for his real worth to mankind as an inspiration to our youth and a practical demonstration of ability to all mankind.

A JUST JUDGE

Judge George S. Richardson, true friend to the great common people, who measures out indeed even handed Justice to all, should receive at the hands of the people, a united support for re-election. He may not be acceptable to a coterie of high brows, but he stands fair and square for the people and they should see to it that he is reelected by a big, handsome majority.

"REAPING THE WHIRLWIND"

If the dispatches from St. Louis are true as to the mental condition of Aaron E. Malone, it is indeed a sad climax in which he will gain slight sympathy, because he deliberately brought it upon hmself. Other big little people might well take warning when they attempt to destroy Temples of the people, for the hand of fate, not infrequently gives to all a practical demonstration.

BLACK MEN AND WHITE WOMEN

Last Monday evening while sitting in the center section of Philharmonic Auditorium, our attention was attracted to a trio, in the second balcony, two white women and between them a dark man, of Indian type, in a bright red robe. Apparently the white women were lavsh in their attention upon the dark man to the extent that a spark of jealousy appeared in an eye from time to time. And as we gazed on the picture with its human touches and blemishes, we could but reffect upon the days of Frederick Douglas, America's first bronze knight—how a lady of fair skin and hair was willing to be not only his wife, but alike his faithful slave. **White women Like black men,** says history, for who can forget the days of fistic feats when black Jack Johnson was king of the prize ring, white women, it is alleged, bowed at his shrine daily, and his white wife, Mrs. Jack Johnson, it is said, came originally from one of the best families.

But what we are thinking of is this—Why is it that some of the white secret organizations which have their slogan, "Protection of White Women" do not see to it that these white angels keep away from these black men (brutes)?

Black women, as a rule, are certainly satisfied with what destiny has allotted to them and it is, and has always been an enigma to them why the boaster super race should easily break through the high standards of race superiority set by the white man and darken their stream of Caucasian civilizaton.

BETTER DAYS AHEAD

A lesson is to be gained from the result of last Tuesday's election in the city of Chicago and that lesson is, the fact that the people as a whole have reached the stage when they turn deaf ears to the bugabear of race prejudice. The managers of the Dever campaign sensed the signs of an inglorious defeat for their candidate as the popularity of William Hale Thompson mounted skyward and they went into conference and then and there decided to avoid the pending catastrophe of defeat by a deliberate campagn of prejudice and race hatred for the concluding days of the campaign.

They started out with hand bills which tended to inflame race against race, they even attempted to start a race riot, a few weasly eyed and weak kneed citizens struck with terror by the propaganda sent out by the Dever forces, deserted Thompson, but there were enough redblooded men and women who frowned upon such a dastardly attempt to thwart the will of the people that Thompson rode on to victory in spite of them.

Truly education, intelligence and culture north of the Mason and Dixon ine is too dominant to be carried off its feet by the methods used in the benighted southland to gain a political victory.

Indeed we cry again "Better Days Are Ahead".

GARDEN TIME

Poets and philosophers tell of the satisfaction obtained from cultivation of flowers and vegetable gardens, but the practice is not as general as could be wished. In many places there is much less gardening than there was some years ago. People have too many things they want to do wth their spare time.

In many cities and towns, however, the garden movement has been pushed as a community proposition. People have been urged, in a systematic way, to decorate their grounds with handsome shrubbery and flowers, and some of these communities have developed an amazing amount of this beautification.

Such towns become noted, and every minute of time put in on those flower beds is no doubt paid for in the higher value of real estate that is established in such a town.

Home pride is the motive that can best be relied upon to promote the gardening movement. People will usually do what their neighbors do. If you persuade one or two influential families on a street to spend a little more time and money beautifying their places this season, the majority of their neighbors would, within a year or two, fall into line and do the same thing.

As respects vegetables, the advantage of the back yard garden ought to be obvious in these times of high prices. The children of the modern community do not have enough share in the home tasks, and it would do them good to have some regular labors in a garden and they could well do a good deal of its work. But the old folks cannot expect them thus to labor unless they alse are willing to do some stunts with the spade and hoe.

LIBERTY LOAN ASSOCIATION CELEBRATES THIRD ANNIVERSARY

While for nigh unto 300 years we as a group have sung the sorrow songs and the question has been, "Oh Lord how long'—shall we continue to do so? This was in part answered when on last Thursday evening, the officers, stockholders, and members of the Liberty Building-Loan Association gathered at the Second Baptist Church with songs of rejoicing and triumph for the splendid program and to partake of the unique Buffet Luncheon which was provided by the company.

Rev. T. L. Griffith opened the meeting with prayer and introduced the president of the Association, Mr. L. M. Blodgett who, in a short and spicy address, told of the magnificent accomplishments of the Association. He presented Rev. L. G. Robinson as Master of Ceremonies, who in turn, presented the speakers of the evening.

Dr. Hudson spoke on "Thrift as a Means of Economic Independence," a vocal number was furnished by the Legion Quartette. W. T. Nickerson spoke on "Business Co-operation. W. T. Moore, manager, spoke on the subject, "Building and Loan Associations in the Community."

High Lights

The resume of the evening developed an increase in resources from $16,000.00 to $171,000.00. Over $146,OOO.OO loaned on 100 homes of the group. 7% stock dividends declared and checks mailed to the stockholders. Interest paid to all depositors April 1st and October 1st, each year without fail. Nearly one million dollars was handled through the office in three years.

Officers

L. M. Blodgett, Pres.; Frank Harvey, 1st Vice-Pres.; Albert Baumann, 2nd Vice-Pres.; A. Hartley Jones, Secy. and Manager; W. C. Gordon, M. D.; C. S. Blodgett; J. H. Shackleford; Norman Houston.

MME. JACKSON'S RECITAL

(Continued from last week)

wrought a wonderful transformation in this young singer. She sang with flowing ease despite her unfriendly cold and she proved her proud right to mand and command closest attention. Her friendly, unsophisticated, winning personality together with her sterling and all-carrying singing voice dazzled the audience that was unitedly dominated by her art and responded with rousing applause that rang re-echoing through the sacred portals of this magnificent church. Not yet a divine Florence Cole-Talbert, but she is a brave and splendid song girl coming along serenely and winningly on the steep, climbing road of real artistry and she promises richly and convincingly that she is made of the true lyrical metal to make the high grade to her larger future fame.

Minnie Albritton's sweet voice runs the high C with greatest ease and delves down into powerful depths—depths that prove the round and healthful force of her always pleasing and, at times, in the lower registers, almost trumpet-like semi-heroic voice. It it an astonishing thing to behold that this same Minnie Albritton, who can ascend to the dizzy thrilling "D," can in a twinkle of time sing so low that her soprano lyricism easly contests for power and supremacy with any big contralto voice that may be ranged alongside of her. Her enounciation is good, her tonal purity birdlike and her quick infusing unity and galvanizing combination of soft and loud tones surprisingly dexterous and natural. She is never tiresome, always desirable, permanently lovable and everlastingly popular in her natural simplicity coupled with a partly inbred and partly observed refinement, when she stands there in her neat robings as the plain struggling Ethiopian girl that has wrung from a harsh and, at times, distressing fate, the noble lyrical achievement with which she crowned herself, her friends and the whole audience of last Tuesday through the power, the tweetness, the glory and the victory of her song.

But she is really not only a clever, and, later on, if she goes and stays for several years in Europe, a steadily gaining singer, but anyone can see that Miss Minnie Albritton has great moving and oceanic-deep dramatic power, in fact, she would make a very successful actress, whether she knows it or not. As she sings tragically or merrily, a flood of dramatic action surges through her emotional body, she can act fully as good as she can sing and the more she delves into her studious life work, the greater a singer and the better an actress she will be. When once Europe touches her and she touches Europe, then and not until then, may she come into better fields, into her real own. The future should be bright and kind to her, for she has won the first and hardest stage of her career and rugged, optimistic and poor as she is, her greatest wealth is her faith in herself and the nice survival of her conquering song.

Of Miss Minnie Albritton must be said that she has a lyrical ability of great possibilities if only an European opportunity of study will assist her in her upward struggle. She sings so well that later on she will secure even much quicker listeners to her songs in Eufope than she could find in America.

Reports have come to this writer that a prominent lady and member of the N. A. A. C. P. is organizing a Central Committee to unite all civic and religious bodies in this city to bring this deserving and admired girl to the Philharmonic Auditorium and it is also stated that many factors, both Black and White, are hard at work to enable her soon to journey to Germany and other lands in Europe to complete her education. As one of the features of her hearers was the attendance of 1-10 of white patronage, some of whom were with the Albritton family in friendship for many years; it looks now as if certain white friends are joining in with her hundreds of Black friends to push her deserving recognition as a good singer in more appreciated Zones.

All her three companion artists were good. Mrs. L. Harper-Patterson is a highly cultured woman; Miss Viola Baucom, her pupil, a very winning and soulful pianist, and Edward Jones, Jr., who shuffles around the scenes like Abraham Lincoln used to shuffle in his statesmanlike battles, is, indeed, a very fine vicilinist for so young a boy. The program was altogether very charming and successful, but the audience should have been 1200, instead of barely 300 people.

F. H. MOUSER

(Continued from page 1)

"Furthermore there are property owners in these assessment districts whose property is blocks from where the improvements are being constructed and the assessment against their property amounts to less than fifty dollars. Oftntime these property owners do not know their property is in the assessment district and bond sharks buy the bond against their property. These bond sharks should not be allowed to buy these small bonds. The city should buy these small bonds and give the property owners five years time in which to pay the bond and redeem their property and proper notice should be given the property owner before suit is commenced by the city.

"We are a young and rapidly growing city and no other city in the world has had such phenomenal growth as Los Angeles; therefore the burden of keeping public improvements and public utilities apace with the rapidly increasing population is and has been for a number of years past a very serious and difficult problem.

"These improvements must be made and the public utilities must be kept up to meet the demands of the increasing population, but we must also bear in mind that there is a limit to the property owners ability to pay the regular city taxes in addition to having imposed upon them these tremendous burdensome assessments for public improvements.

"My idea of the fair treatment of this situation is, that those in authority of the city government should see to it that the public improvements assessed upon the property owners should be most carefully selected with the view of not burdening any part or district of the city or any of the taxpayers of the city, but ordering only such improvements as were imperatively needed to meet the present demand and deferring other desirable but not so necessary improvements for later times or other generations to bear.

"We must remember this that, Los Angeles is a young city—that the great cities of this country with which she is competing are comparatively old and have taken years to build up to the condition of improvement and public utility perfection that they enjoy, men and women in useless and unnecessary jobs to pay political debts. While we, unless we curb our ambition to some extent, are likely to embarrass ourselves financially in our endeavor to reach the same degree of perfection in a few years.

"I consider it is the duty of a Councilman to scrutinize with great care all contracts for public improvements within his district to the end that the taxpayer who is obliged to pay for these improvements shall be protected from excessive or exorbitant charges that serve only to enrich the bonding institutions who finance the improvements and to satisfy the cupidity of conscientiousless contractors.

"There is not a property owner in our city who objects to the employment of competent men and women in the various departments of our city government, but every property owner does object to the employment of women in useless and unnecessary jobs to pay political debts.

"The property owners of our city have a right to expect and do expect that the finances of our city shall be placed upon a sane and sound basis and that the administration of the city's business shall be conducted in an efficient and economical manner. The property owners have a right to expect the city to receive one dollar's worth of value for every dollar that the city expends.

There are often many municipal enterprises in which the city could expend money to advantage, but when the city has reached the amount that could be reasonably spent with safety, then the city should select only the most deserving and necessary, and let the other enterprises wait until the city was sufficient funds."

MUSIC AND ART

By: HAROLD BRUCE FORSYTHE

In opening this department, through the kindness of Mr. J. B. Bass, it would seem highly commensurate that I outline briefly the policy we intend to adhere to, and the results that we shall aim at.

Criticism and news will be paramount issues. Any such musical or artistic news of moment as comes to our attention, shall here be given notice, and at the same time shall be subjected to a brief and unprejudiced critique.

Of what does criticism consist? What is the mission of the critic? He is essentially an interpreter, and not the pessimistic egoist that many people believe him to be. The critic in art is analogous with the judicial official in politics. Criticism is the art of appraising others at one's own value and opinion!

The good critic must in a measure, subordinate personalities to products. This is difficult, since a coldly impersonal critic is not a good one, but is more a reporter than a critic. However, he must not allow his vision to be biased by personalities. Mr. E. V. Lucas has confessed that even he is in danger of having his vision influenced by names. Here we shall endeavor to judge AS IS, and not by "who did it."

If we are at times inconsistent, have sympathy. Poe has been belabored for the, inconsistency of his critiques, but now, Nathan declares that the BEST CRITICS ARE THE INCONSISTENT ONES. The intelligent mind, in other words, never allows itself to fall into a rut. It fluctuates with the ever changing standards of artistic ideals, and with the intellectual advance of the critic himself.

Mencken has been charged with destructive criticism because of his iconoclastic ideals—because he has dared to attack the pet theories and dogmas that have been allowed to ferment in this country since its genesis. I shall here not indulge in destructive criticism. Constructive in a measure, but particularly INstructive articles shall be the aim, but at the same time, dogma shall here be an anathema.

The most perfect summary of the subject is G. J. Nathan's clever paragraph: "Art is the reaching out into a world of ugliness for vagrant beauty and imprisoning it in a tangible dream. Criticism is the dream book."

* * *

The first person of musical prominence to come to our attention is Mr. Lawrence Lassiter, the talented young violinist. Mr. Lassiter, a pupil of Mme. Sinclair White Murdock, has already received signal honors and recognition in his field, notably his being selected to play at the Commencement of his class at Polytechnic High School. This is an unusual honor for a race lad.

Although young, and still in the period of artistic growth, Mr. Lassiter's playing is characterized by a marked color and warmth, and a pigsandy that is at times naive. His technique is, for one of his age, strong, and further study and developmant can do nothing but bring it to the Heifetsian perfection he aims at.

His interpretations are of course hampered by his adolescence, but are surprisingly pregnant with sympathy and warmth. He is now engaged in the study of Max Bruch's concerto in G minor, a difficult work that will test his powers to the utmost.

We are willing to predict a great future for this young man, if he has but the courage to bear the trouble, disappointment, prejudice and work that stands in the path of every youngster who strives for artistic recognition.

POLITICAL POT PIE

The voters are now getting their battle axes sharpened up and will be ready for the fray on May 3rd.

Judge Georgia Bullock is a prime favorite to win her election at the primaries.

Frank Mouser as is his custom, is making a thorough campaign throughout, the 11th District and will show his heels to all opposition. So it is said.

Pierson Hall present councilman from the 11th, who is accused of an enlarged cranium will have a deal of explaining to even make the grade at the primary.

A rousing meeting was held at the Lincoln Memorial Church last Monday evening and enthusiasm ran high for Howard Davis for Councilman from the 7th District.

With such old war horses as Chew,

Judge George S. Richardson deserves the support of the people. He is fair, just, and the people's friend.

James Hosick, it apears will not have to sing the swan song after the coming primary.

Vote for men who will assist in forcing a policy which will forbid using Sonora Town and the black belt for a convenience to build up crime statistics. It is a well known fact that when the present regime wishes to make a showing of arrests, they turn loose the cossacks of the police force on these sections and take up such as they desire. We call this not only exploitation, but a slaughter of the innocents.

IN NEW YORK

(Continued from page 1)

Harlem Newspapers

Harlem has six weekly newspapers, the oldest of them, the New York Age edited by Fred R. Moore who has a newspaper establishment outclassed only by the World's Greatest Weekly, "The Chicago Defender," three magazines—the Messenger, Opportunity and Langston Hughes.

Some Outstanding Harlem Institutions

Perhaps there is no bigger and better demonstration of institutional work among Negroes anywhere than in Harlem.

It is believed by the optimistic that the Young Men's Christian Association is making good citizens for New York City, the state and the nation. More than $100,000 a year is spent on this work and similar results as those reaped by the white "Y" are being accomplished by the Harlem division.

The Y. W. C. A.

This branch of the general scheme of Christian work among young women in Harlem is the best equipped in the country. It is supplying a need that no similar organization is called upon to serve. Here at the Harlem "Y" you find girls from all parts of the world—classes in all branches of Y. W. C. A. work that you find at the Central "Y." Adjacent to the Y. W. C. A. is the Emma Ransom Home, an institution destined to answer a unique need in Harlem fostered by some of the noblest women of the race including the woman for whom it is named.

Some other outstanding institutions are the New York Urban League, with its far reaching program of social service among Negroes carrying forward its slogan "Not Alms but Opportunity," located at 202-4 West 136th St. The executive qualified staff of workers are contributing their quota to social uplift. The building which is the home of the League stands for an investment of 60,000.

The Edgecombe Sanitarium, Cor. Edgecombe Ave. and 137th St., occupying one of the most beautiful sites for an institution of its kind in New York City and well maintained by a staff of well prepared physcians and nurses, one from California.

The White Rose, a home for unmarried mothers and fatherless infants.

GIRL-ETICS

By:

GLADYS MATHONICAN

First league basketball game of the 12th Street Center Girl Reserves will be held Friday, April 8th at 3 o'clock in Pasadena. This game promises to be unusually thrilling and will be followed by many others. The second of this series will be held at International Institute, Thursday evening, April 14 and will be a game between the 12th Street Center G. R.'s and the Japanese Girls Reserves.

* * *

The West Side Girls have challenged the 12th Street Center G. R.'s to an indoor game. It is expected that a match between the two teams will be scheduled for a day in the near future.

* * *

It was stated in this paper last week that the editor of this column was captain of the Girl Reserves' Basketball team, but that honorable position is held by none other than the competent Miss Hazel Thomas, who bear watching as a jumping center in the basketball games played by the teams.

* * *

Editor of this column has been questioned on several occasions as to whether there were any girl athletes in the Dodecagenian Art Club, the Ne Plus Ultra and Sweet Sixteen Club. Answers from these club would be fully appreciated.

* * *

Girl Reserves' Basketball Team consists of the following: Hazel Thomas, captain; Catherine Johnson; Alphia Williams; Mildred Anderson; Dorothy Hudwell; Anna Collier; Velma White; Maudine Simmons; Constance Phillips; Iona Phillips; Eugenia Grant; Lorraine Price; Melrose Jones; Mabel Jones; Alice Stevenson; Helen Collier; Frances Lewis and Jessie Rayford.

* * *

The Basketball Game between the Kappa Alpha Psi and the Alpha Phi Alpha fraternities was a wow. Man for man, the Kappas had the better team, but what the Alphas lacked in ability, they more than made up for in determination. Hill and Brown starred for the Kappas, and Porter and Eason did some stellar work for the Alphas. The final score, 26-18 in favor of the Kappa Alpha Psi, shows how hard fought the game was. A good crowd turned out to encourage the boys. Yes, 'Lusty' Luke Rosser and "Speed" Horton were there.

* * *

As was expected, Jefferson overwhelmed Franklin by a huge score. The athletes did not extend themselves and merely took the meet as a workout. Consequently the times were slow and the meet uninteresting. The Jefferson athletes are getting ready to make their last stand against Los Angeles High in the City Meet.

SPEED WEBB

Say! you know how everything gets tlent when a great artist starts to sing or a great violinist begins a classic solo or a renowned statesman raises his hand to speak. Well, thats the way

SPEED WEBB
Great little leader of Webb's Jazz Orchestra a bunch of music-mad "kids all "Buckeyes"

Speed Webb's hearers get when he and his great jazz orchestra start to to play. It is something unusual for an audience to strike silence for a jazz orchestra but it seems that for a while they can't do anything but listen when those "Buckeyes" start to play. Then the spell broke, heads nod, feet pat and shoulders move in tune to the tantalizing tones. Speed Webb and his boys have made a great hit the short time they have been here from Ohio. They are seldom seen now but always welcome as they are at the Pico Amusement Park setting the crowds wild nightly.

COLLEGE BOXERS

After winning his first bout by a technical knockout, Hoit Porter of U. S. C. lost his second bout to Wright, former intercollegiate middleweight champion of Oklahoma. It was the best bout of the day. Porter stepped out of his class to meet Wright, and made a very creditable showing. Many of the spectators thought that Porter deserved a draw on his showing in the second round when he had Wright on the verge of a knockout.

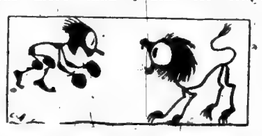
TIGER ROBINSON ASKS RETURN MATCH

To lose to a top-notch boxer and championship contender, a boy who just the week before had given the great Ace Hudkins one of the best battles he has had on the Coast, is no disgrace nor discouragement to a boy like Tiger Bob Robinson. Everyone was surprised at the outcome of Tiger's bout with the great Colima last week at Culver City for all concede him with his game rushing tactics and heavy wallops to have a splendid chance even to beat the clever Mexican.

It happened this way. Colima was out when Robinson with a great rush leaped right into the fight-hand smash that Colima let go. It landed right over the heart and the impact momentarily paralyzed Robinson, which prevented him finishing. He now asks a return match and is determined to persist until he gets it.

Ace Hudkins Will Beat Lew Tendler At Olympic Tuesday Night

Tuesday night, April 12th, Jack Doyle's Olympic Auditorium will be the scene of what may prove to be the greatest battle of the year, not only here on the Coast, but in all the realms of Fisticuffs. It will settle again the age-old question as to whether youth pitted against skill, can



ACE HUDKINS
The Nebraska Wild-Cat

conquer. It may seem overdrawing it to pick the winner now, but summing up the two, the contest proves to be more than one between youth and experience.

Tendler has the experience; long years in the ring, facing many fighters of many calibers gave him that; and a natural cleverness, increased by schooling in expertness, and ring generalship made him the kind of pugilist that tipped Benny Leonard's crown to a dangerous angle on two occasions.

But on the other hand, Hudkins, the "Wild-Cat" in more than name, has more than youth. He leaps,

springs, rushes, in a driving slashing attack, but not without purpose or direction. Ace does not waste a motion. Every move he makes for all its speed, is as carefully planned as a game of checkers. He is always balanced; the fact that he has never been knocked down proves that. Game to the core and though his style seems peculiar to the average fan, he is also clever. All this backed up by a wonderful body and inexhaustable energy, he cannot but overcome the veteran Tendler.

Youth will have its way, all things being equal, so Tendler cannot long withstand the powerful onslaught of a boy who gallops to his stool at the end of each round from pure fire and energy. Heavy betting has been going on all week with odds very close as it seems to be a toss-up in the minds of most fight followers. A sell-out seems to be the prediction from the number of tickets already sold and reserved. The rest of the card will be exceptionally good.

Tony Herrera, Mexican featherweight, whom Ace Hudkins plans on taking to New York, will meet Santiago Zorrinna, in a six round semi.

Young Gonzales, hard hitting Mexican from El Paso, will tackle Mickey Biss in the special.

RED BUTLER—Famous Chicago fight manager will bring his boys to L. A. Bob Davis, 135, Kid Frenchie, 118. Butler says Davis can beat Sammy Mandell. Butler was a good fighter in his day, but wine, women and song put the skids under him so he is watching Davis and Frenchie very carefully.

RED BUTLER—is going to bring Teddy O'Hara to the top again. O'Hara is training every day. Willie Berster had Jack Silver in good shape for his fight with Mickey Biss at Wrigley Field. Berster is taking Silver East next month to box Billy Wallace, then on to get Mandell. Tex Richard sent Berster a wire to get ready for the card.

ATHLETIC Sports occupy the time, minds and bodies of the young people more and more each day. Healthy minds, seek outlets for energy through Sports. Why do the gray-beards keep raving about the immorality of modern youth? Cleared minds freshened brains, clean, sound, bodies tired from athletic prowess do not tend toward sensuality.

NOW MEMBER OF THE K. O. TRUST

Young Sam proved to all the cash investors in Ducats at Wrigley Field Tuesday, that he is just what the "Searing Eagle" has always claimed that he is in one of the best lightweights on the Coast with proper handling and training.

In his bout with Sailor Ashmore on the Mandell-Fields card, he stepped out at the bell, faced his opponent Sailor Ashmore in the center of the ring and began shooting a machine gun tattoo of left and rights. In 40 seconds it was all over and Ashmore was out.

SPEAKING OF SANTIAGO ZORILLA

SANTIAGO ZORILLA

Wirt Ross' Great Little Panama Wonder. Just Returned from Home.

Southside and Eastside fans follow their idols from arena to arena, but there is one boy about whom such little ballyhoo has been made that many of the fans do not realize what a great little battler he is. And—that is Santiago Zorilla, the idol of Panama.

Zorilla has won most of his 41 fights since being in California at the smaller clubs, but next week's battle at the Olympic on the Hudkins-Tendler card will be the starting of a string of fights at the large arenas.

His very able manager, Wirt Ross, has accepted five within the last few days, three for the Olympic, two for Wilmington, and has also matches at San Francisco and Chicago.

One reason the fast hard-hitting feather is so much in demand is that he always gives the fans a run for their money, is a great crowd pleaser and fights every minute he is in the ring. He and his stable-mate, Pedro Amador, have just lately returned from the Isthmus where they are the pets of Panama.

Zorilla bent Benny Kid Carter at the Olympic Tuesday.

Eastside Girls' Base Ball Team to Play Carlo Curtis' Team of White Girls Soon.

EASTSIDE GIRLS BASE BALL TEAM PRACTICING HARD

The Eastside girls Base Ball team, one of the three teams to play in the Girls' Base Ball League this summer, is practicing hard every afternoon and week-end at Snyder Field. Genevieve Hawkins, the peppy little captain is instilling all kinds of vim and speed in her bunch of pill swatters and they are really putting over some snappy work. It was the intention at first to pick a team from the Eastside, Westside, and Girl Reserves to play Carlo Curtis team of white girls, but the Eastside team is anxious to cop all the honors and are trying to develop each member of their team to such perfection that they will be able to meet the strong white team without any outside assistance. They are giving a dance next week to introduce their players and announce the date of the first game. The girls working out regularly are: Geraldine Webster, Albertine Oliver, Emogene Clavis, Lillie Broady, Emma Montgomery, Clarice Williams, Miss Le Ceour, Genevieve Hawkins, Gladys Criner, Webbie Johnson, and Ollie May Collins.

Sammy Mandell Shows Himself Champ at Donald's Big Show

Down at Mandell's training quarters one day as onlooker wisecracked like this: "Aw, de cheese champ! 'at guy can't fight, can't break an egg." It is hoped that same guy was on hand at the Wrigley orchard, Tuesday to see what he could se. Mandell carried the fight to Fields every round from bell to bell. You seldom see a champ fight like that. He out-boxed and out-generaled Fields, who is no easy mark for any one. Fields held his own in the infighting but at the distance boxing, Mandell shot his lightning left to the head time and again.

UPTON'S RAILROAD CLATTER

By Chas. L. Upton

The Railroad Clatter congratulates the following porters upon the anniversary of their birth this month: E. Gary, better known as The Zoolu King, and W. A. Clark.

MR. JOSEPH L. RAY HERE

Everywhere "Loretto" went, "Joe" was sure to go. This old saying is very true in the case of Mr. Joseph L. Ray, conductor on Mr. Chas. M. Schwab's private palace on wheels, car "Loretto. This distinguished gentleman holds a very responsible position with the great steel magnate. Not only is he the main man on Mr. Schwab's car but he is also the manager of the Bethlehem Cafeterias which in itself is some job. At no time does the Loretto leave its private shed with out the knowledge of Mr. Ray, and its routing is entirely left to his orders. Mr. Schwab says he wants to be at such and such a city on a certain date, and it's up to Joe to put him there. He has never failed yet. Yard men, train masters, road masters, train dispatchers, train conductors, switchmen-ice men, car cleaners, and everybody else who has any thing to do with the moving of the Loretto are always taken care of on Xmas by Joe, and putting the whole thing in a nut shell, he is the big butter and egg man, with the great big butter and egg man. A gentleman with a gentleman's position. May he enjoy the sunshine of Southern California, while he is hee.

AIR TRAIN VISIONED BY GERMAN FLYERS

That the time is not too distant in the future when the Air Train will be an accomplished fact was the opinion advanced by German aviation experts.

The locomotive will be a powerful airplane and the Pullmans a row of gliders coupled to the locomotive and to each other, as the care of a train, only with considerable greater spacing between units.

A recent experiment at the Karlsruhe flying harbor was worked successfully, when a glider was hitched to an airplane by a wire cable. It took the air as a tow" of the motored plane and was propelled to considerable height and then cut off, gliding back to the ground. Pullman porters! If you haven't ever left this earth. If you expect to keep abreast with the times, you better learn how to fly, owing to the fact that the biggest majority of you have been listed among the great aviators of the ground with Central Ave. as your flying field. This should not be a hard matter, but sooner or later some one will be called upon to act as porter on these air Pullmans and unless you wish your white friends to get the gravy you better be prepared. What a novelty that will be, a Pullman porter in the air. Half of us are in the air any way when we get a top and bottom load, one thing is certain. When we get a load up there we will not have to be on the alert all the time for fear of some snake getting out the back door. But what a shock it would be if the cable should break.

BEN WYNDOM CASE SET FOR APRIL 7th IN SALT LAKE

Mrs. Wyndom in Salt Lake Will Stand By Husband. Adultery Possible Charge.

The latest reports from Salt Lake City indicate a speedy trial set for the seventh of April in the Murray baby murder case in which chair car porter Ben Wyndom of this city was implicated through his affections with Mrs. Peterson the white mother of the children who administered the poison which was purchased by Wyndom in Los Angeles. A charge of first degree murder was placed against Mrs. Peterson at a preliminary hearing while a charge of adultery was placed against Wyndom. The love nest of Wyndom and Mrs. Peterson which was established at the home of Mrs. Punch" Leonard Jackson at 253 Center Street has shocked society in that city as the Jacksons were great church members and social leaders.

TROOP TRAINS AND TROOP PORTERS

It has been a long while since the Pullman Company has had to use a troop porter. This name originated during the war for the class of porters which were used on troop trains. They were a shiftless lot of human driftwood and would take anything that was not nailed down. They were just hired temperary, and the biggest majority of them took the jobs to hustle, pillage and plunder. They worked by the trip, and would just as soon get off the train away from home and never show up any more as to come back where they started from. They were assigned to troop service only. Now and then one of them through some hook or crook would wiggle in on a regular line car in which civilians travelled. And the regular line porters on that particular train would be more than apt to have several losses before he reached his destination. Last week a heavy movement of U. S. marines were enroute to China by the way of San Diego, several troop trains passed through this city, and on them was the same old war time troop porter, snatching and grabbing for existence, untidy and careless. The writer was walking through the heart of the down town district in San Diego, which is about ten blocks from the Santa Fe depot, and was surprised to see one of the troop porters walking down Broadway with a filthy white jacket and a pullman cap. In the condition he was in it is too bad that he couldn't have kept right on on over to China with the marines. They would have least made him clean himself up. They seem to have the impression that that because they are handling soldiers that the dirtier they are the better they will get along. But a man should at least have enough self respect for himself and personal pride to keep up among clean people.

Gus Conway former head Red Cap at the Arcade Station is now located at Watsonville Jct.

What chance have we got of catching the Chinaman over here if Uncle San, England and Japan keep running him around over there.

Those of you who have been having pipe dreams about what a nice time the marines are going to have in China. Should have been down in San Diego when they were loading coffins on the transport.

Why go to China for adventure, when Chicago is so close by.

We will watch the newspapers with an eagle eye to see when Chicagos defeated Mayor Dever goes back to Alabama.

Colored Californians should learn their lesson in politics by watching the results of the colored vote in Chicago.

It was the colored vote that put Mayr Thompson back in power.

Colored people should take the ballot more seriously, register and vote your vote; it is your only salvation. It is your Right to use it.

GIRLETICS CONTINUED

Mr. Ponder:

Dear Sir: In answer to a letter from you published through railroad Clatter inquiring as to the proper methods for training and diet for the "Skiff Skimmers Derby across Catalina Channel, in which you will take part in June. I would advise that you first, mix your food with plenty of sand so that enough of it will get in your "craw." (Be careful not to use this increased "nerve after reaching shore or you may fall in "Hawks Hands).

Second strength may be acquired for the arm muscles by hanging to Central Avenue "U" car straps or writing imaginery "Chinaman numbers. Third Daily foot baths will accustom you to the splashing of the waves into you boat. Fourth, watching the dizzy white lights at night may accustom you to aiming for the lighthouse at Point Vincente in the harbor. As to your weight Mr. Ponder (ous) if all reports are true you should start strenuous reduction exercise as most of the girls are doing so as to be willing slender and graceful and lessen danger of sinking your own craft. Talk and what further advice you may find in Hostetters Almanac will with our best wishes carry you on to victory.

Yours truly,

—Girletics Editor.
